

Portuguese team wins the European competition of the JA - YE Europe Enterprise Challenge 2011

The FLICKS, a students team from Porto University was the first national team to win the European Junior Achievement competition, an initiative attended by 14 teams from 10 countries.

This team presented an innovative concept aimed at increasing the effectiveness of forest fires detection, using cutting edge technology at a competitive price.

In recognition of their talent and entrepreneur spirit, the team members were received by the President of the Portuguese Republic and by the Euronext Lisbon President.
