The date of this Offering Circular is 15 May 2019

This offering circular (the "**Offering Circular**") replaces and supersedes the Offering Circular dated 21 September 2018 describing the Programme (as defined below). Any Notes (as defined below) issued under the Programme on or after the date of this Offering Circular are issued subject to the provisions described herein. This does not affect any Notes already in issue.

This Offering Circular comprises a base prospectus for the purposes of Article 5.4 of the Prospectus Directive. When used in this Offering Circular, "**Prospectus Directive**" means Directive 2003/71/EC (as amended or superseded), and, where the context so requires in this section, shall include any relevant implementing measure in a relevant Member State of the European Economic Area (the "**EEA**").

The Bank (as defined below) accepts responsibility for the information contained in this Offering Circular and the Final Terms for each Tranche (as defined below) of Notes issued under the Programme. To the best of the knowledge of the Bank (having taken all reasonable care to ensure that such is the case) the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Offering Circular is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see "*Documents Incorporated by Reference*" below). This Offering Circular shall be read and construed on the basis that such documents are so incorporated and form part of this Offering Circular.

No Dealer (as defined below) has separately verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility is accepted by any Dealer as to the accuracy or completeness of the information contained or incorporated by reference in this Offering Circular or any other information provided by the Bank in connection with the Programme. No Dealer accepts any liability in relation to the information contained or incorporated by reference in this Offering Circular or any other information provided by the Bank in connection with the Programme.

No person is or has been authorised to give any information or to make any representation not contained in or consistent with this Offering Circular or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Bank or any Dealer.

Neither this Offering Circular nor any other information supplied in connection with the Programme or the Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Bank or any Dealer that any recipient of this Offering Circular or any other information supplied in connection with the Programme should purchase any Notes. Each Investor (as defined below) contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Bank. Neither this Offering Circular nor any other information supplied in connection with the Programme constitutes an offer or invitation by or on behalf of the Bank or any Dealer to any person to subscribe for or to purchase any Notes.

Under the EUR25,000,000,000 Euro Note Programme (the "**Programme**"), Banco Comercial Português, S.A. (the "**Bank**", "**BCP**", "**Banco Comercial Português**", "**Millennium investment banking**", "**Millennium bcp**", "**Millennium**" or "**Issuer**") may from time to time issue notes denominated in any currency (subject to such currency being accepted by Interbolsa (as defined below)) agreed between the Issuer and the relevant Dealer (as defined below) in book entry form ("**Notes**", which expression shall include Senior Notes and Subordinated Notes (each as defined below)) that will be held through Interbolsa - Sociedade Gestora de Sistemas de Liquidação e de Sistemas Centralizados de Valores Mobiliários, S.A. ("**Interbolsa**"), as management entity of the Portuguese Centralised System of Registration of Securities ("**Central de Valores Mobiliários**").

The Final Terms for each Tranche of Notes will state whether the Notes of such Tranche are to be (i) senior Notes ("**Senior Notes**"), (ii) senior non-preferred Notes ("**Senior Non-Preferred Notes**") or (iii) subordinated Notes ("**Subordinated Notes**").

The maximum aggregate nominal amount of all Notes from time to time outstanding will not exceed EUR25,000,000,000 (or its equivalent in other currencies calculated as described herein).

The Notes will be issued on a continuing basis to one or more of the Programme Dealers or Issue Dealers (each as defined herein) appointed under the Programme from time to time. The Programme Dealers and the Issue Dealers are herein together referred to as the "**Dealers**" and references to a "**Dealer**" are to a Programme Dealer or, as the case may be, an Issue Dealer. References to the "**relevant Dealer**" are references to the Dealer or Dealers with whom the Issuer has agreed or proposes to agree the terms of an issue of Notes under the Programme.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "*Risk Factors*" below.

This Offering Circular has been approved by the Central Bank of Ireland (the "**Central Bank**"), as competent authority under the Prospectus Directive. The Central Bank only approves this Offering Circular as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive. Such approval relates only to Notes which are to be admitted to trading on the regulated market of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**"), (the "**Regulated Market**") or other regulated markets for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**") and/or that are to be offered to the public in any member state of the EEA in circumstances that require the publication of a prospectus.

This Offering Circular, as approved and published by the Central Bank, in accordance with the requirements of the Prospectus Directive, comprises a base prospectus in respect of all Notes for the purpose of giving information with regard to Notes issued under the Programme during the period of 12 months after the date hereof. Application has been made to Euronext Dublin for Notes issued under the Programme to be admitted to its Official List (the "**Official List**") and trading on the Regulated Market. The Issuer may also issue unlisted Notes and/or Notes not admitted to trading on any market or admitted to trading on any other market which is not a regulated market for the purposes of MiFID II.

This Offering Circular comprises listing particulars (the "**Listing Particulars**") for the purposes of giving information with regard to the issue of Notes having a maturity of less than 365 days as commercial paper under the Programme during the period of 12 months after the date hereof. References throughout this document to Offering Circular shall be deemed to read Listing Particulars for such purpose. Application will be made to Euronext Dublin for such Notes to be admitted to listing and trading on Euronext Dublin's regulated market as commercial paper. The issue of Notes having a maturity of less than 365 days as commercial paper under the Programme falls outside the scope of the Prospectus Directive and the Listing Particulars and Final Terms prepared for any such issue have not been approved or reviewed by the Central Bank.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche (as defined under "*Terms and Conditions of the Notes*") of Notes will be set out in a final terms document (the "**Final Terms**") which will be delivered to the Central Bank and, if admitted to trading on the Regulated Market, to Euronext Dublin. Copies of Final Terms in relation to Notes to be listed on Euronext Dublin, other than those Notes having a maturity of less than 365 days, will also be published on the website of Euronext Dublin (www.ise.ie).

The Programme has been rated (i) "Ba2/NP" (in respect of Senior Notes with a maturity of more than one year and Senior Notes with a maturity of one year or less, respectively),/ and] "P (B1)" (in respect of Subordinated Notes) and "B1" (in respect of Senior Non-Preferred Notes) by Moody's Investors Service España, S.A. ("**Moody's**"), (ii) "BB/B" (in respect of Senior Notes with a maturity of one year or more

and Senior Notes with a maturity of less than one year, respectively)[./ and] "B" (in respect of Subordinated Notes) and "B+" (in respect of Senior Non-Preferred Notes) by S&P Global Ratings Europe Limited ("**Standard & Poor's**"), (iii) "BB/B" (in respect of Senior Notes with a maturity of more than one year and Senior Notes with a maturity of one year or less, respectively), "BB-" (in respect of Tier 2 Subordinated Notes) and "BB" (in respect of Senior Non-Preferred Notes) by Fitch France – Société par Actions Simplifiée ("**Fitch**") and (iv) "BB (high)/R-3" (in respect of Senior Notes with a maturity of more than one year and Senior Notes with a maturity of one year or less, respectively) "BB (low)" (in respect of Subordinated Notes) and "BB" (in respect of Senior Non-Preferred Notes) by any entity that is part of DBRS Group and any successor to the relevant rating agency ("**DBRS**"). Each of Moody's, Standard & Poor's, Fitch and DBRS is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended, the "**CRA Regulation**"). As such Moody's, Standard & Poor's, Fitch and DBRS are included in the list of credit rating agencies published by the European Securities and Markets Authority ("**ESMA**") on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. Tranches of Notes issued under the Programme may be rated by any one or more of the rating agencies referred to above or unrated. Where a Tranche of Notes is rated, such rating will be disclosed in the Final Terms and will not necessarily be the same as the ratings assigned to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Please also refer to "*Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes*" in the "*Risk Factors*" section of this Offering Circular.

All financial information in this Offering Circular relating to the Bank for the years ended on 31 December 2017 and 31 December 2018 has been extracted without material adjustment from the audited financial statements of the Bank for the financial years then ended and all financial information in this Offering Circular relating to the Bank for the three month period ended 31 March 2019 has been extracted from the unaudited and un-reviewed earnings press release and earnings presentation of BCP and its subsidiaries ("**BCP Group**" or the "**Group**") for the three month period ended 31 March 2019.

The Notes will be registered by Interbolsa. Each person shown in the individual securities accounts held with an authorised financial intermediary institution entitled to hold control accounts with the Central de Valores Mobiliários on behalf of their customers (including any depositary banks appointed by Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking S.A. ("**Clearstream, Luxembourg**") for the purpose of holding accounts on behalf of Euroclear and/or Clearstream, Luxembourg, respectively) (each an "**Affiliated Member**") as having an interest in the Notes shall be considered the holder of the principal amount of Notes recorded. One or more certificates in relation to the Notes (each a "**Certificate**") will be delivered by the relevant Affiliated Member of Interbolsa in respect of its registered holding of Notes upon the request by the relevant holder of Notes and in accordance with that Affiliated Member's procedures and pursuant to Article 78 of the Portuguese Securities Code (*Código dos Valores Mobiliários*). For further details of clearing and settlement of the Notes issued under the Programme see "*Clearing and Settlement*" below.

Neither the delivery of this Offering Circular nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning the Bank is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing such information. The Dealers expressly do not undertake to review the financial condition or affairs of the Bank during the life of the Programme or to advise any Investor in the Notes issued under the Programme of any information coming to their attention. Investors should review, amongst other things, the most recent financial statements, if any, of the Bank when deciding whether or not to purchase any Notes.

**IMPORTANT INFORMATION RELATING TO PUBLIC OFFERS OF NOTES WHERE
THERE IS NO EXEMPTION FROM THE OBLIGATION UNDER THE PROSPECTUS
DIRECTIVE TO PUBLISH A PROSPECTUS**

Restrictions on Public Offers of Notes in relevant Member States where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus

Certain Tranches of Notes with a denomination of less than EUR 100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus. Any such offer is referred to as a "**Public Offer**". This Offering Circular has been prepared on a basis that permits Public Offers of Notes in each Member State in relation to which the Issuer has given its consent, as specified in the applicable Final Terms (each specified Member State a "**Public Offer Jurisdiction**" and together the "**Public Offer Jurisdictions**"). Any person making or intending to make a Public Offer of Notes on the basis of this Offering Circular must do so only with the Issuer's consent to the use of this Offering Circular as provided under "*Consent given in accordance with Article 3.2 of the Prospectus Directive*" below and provided such person complies with the conditions attached to that consent.

Save as provided above, the Issuer and the Dealers have not authorised, nor do they authorise, the making of any Public Offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

Consent given in accordance with Article 3.2 of the Prospectus Directive

In the context of a Public Offer of such Notes, the Issuer accepts responsibility, in each of the Public Offer Jurisdictions, for the content of this Offering Circular in relation to any person (an "**Investor**" or collectively the "**Investors**") who purchases any Notes in a Public Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to that giving of consent for the use of this Offering Circular are complied with. The consent and conditions attached to it are set out under "*Consent*" and "*Common Conditions to Consent*" below.

Neither the Issuer nor any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Public Offer and neither the Issuer nor any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Except in the circumstances set out in the following paragraphs, the Issuer has not authorised the making of any Public Offer by any offeror and the Issuer has not consented to the use of this Offering Circular by any other person in connection with any Public Offer of Notes. Any Public Offer made without the consent of the Issuer is unauthorised and the Issuer and, for the avoidance of doubt, the Dealers do not accept any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Public Offer, an Investor is offered Notes by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Offering Circular for the purposes of the Public Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Offering Circular and/or who is responsible for its contents it should take legal advice.

Consent

In connection with each Tranche of Notes and subject to the conditions set out below under "*Common Conditions to Consent*":

Specific Consent

- (a) the Issuer consents to the use of this Offering Circular (as supplemented as at the relevant time, if applicable) in connection with a Public Offer of such Notes in any Public Offer Jurisdiction during the relevant Offer Period stated in the applicable Final Terms by:
- (i) the relevant Dealer(s) or Manager(s) specified in the applicable Final Terms;
 - (ii) any financial intermediaries specified in the applicable Final Terms; and
 - (iii) any other financial intermediary appointed after the date of the applicable Final Terms and whose name is published on the Bank's website (www.millenniumbcp.pt) and identified as an Authorised Offeror in respect of the relevant Public Offer; and

General Consent

- (b) if (and only if) Part B of the applicable Final Terms specifies "General Consent" as "Applicable", the Issuer hereby offers to grant its consent to the use of this Offering Circular (as supplemented as at the relevant time, if applicable) in connection with a Public Offer of Notes in any Public Offer Jurisdiction during the relevant Offer Period stated in the applicable Final Terms by any financial intermediary which satisfies the following conditions:

- (i) it is authorised to make such offers under applicable legislation implementing MiFID II; and
- (ii) **it accepts the Issuer's offer to grant consent to the use of this Offering Circular by publishing on its website the following statement (with the information in square brackets completed with the relevant information) (the "Acceptance Statement"):**

"We, [insert legal name of financial intermediary], refer to the offer of [insert title of relevant Notes] (the "Notes") described in the Final Terms dated [insert date] (the "Final Terms") published by Banco Comercial Português, S.A. (the "Issuer"). In consideration of the Issuer offering to grant its consent to our use of the Offering Circular (as defined in the Final Terms) in connection with the offer of the Notes in [specify Member State(s)] during the Offer Period and subject to the other conditions to such consent, each as specified in the Offering Circular, we hereby accept the offer by the Issuer in accordance with the Authorised Offeror Terms (as specified in the Offering Circular) and confirm that we are using the Offering Circular accordingly."

The **"Authorised Offeror Terms"**, being the terms to which the relevant financial intermediary agrees in connection with using this Offering Circular, are that the relevant financial intermediary:

- (A) will, and it agrees, represents, warrants and undertakes for the benefit of the Issuer, and the relevant Dealer that it will, at all times in connection with the relevant Public Offer:
 - (I) act in accordance with, and be solely responsible for complying with, all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the **"Rules"**), from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the Notes by any person and disclosure to any potential Investor;

- (II) comply with the restrictions set out under "*Subscription and Sale and Transfer Restrictions*" in this Offering Circular which would apply as if it were a Dealer and consider the relevant manufacturer's target market assessment and distribution channels identified under the "MiFID II product governance" legend set out in the applicable Final Terms;
- (III) ensure that any fee (and any other commissions or benefits of any kind) or rebate received or paid by that financial intermediary in relation to the offer or sale of the Notes does not violate the Rules and, to the extent required by the Rules, is fully and clearly disclosed to Investors or potential Investors;
- (IV) hold all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Notes under the Rules;
- (V) comply with applicable anti-money laundering, anti-bribery, anti-corruption and *know your client* Rules (including, without limitation, taking appropriate steps, in compliance with such Rules, to establish and document the identity of each potential Investor prior to initial investment in any Notes by the Investor), and will not permit any application for Notes in circumstances where the financial intermediary has any suspicions as to the source of the application monies;
- (VI) retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested and to the extent permitted by the Rules, make such records available to the relevant Dealer, the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or the relevant Dealer in order to enable the Issuer and/or the relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and *know your client* Rules applying to the Issuer and/or the relevant Dealer, as the case may be;
- (VII) ensure that it does not, directly or indirectly, cause the Issuer or the relevant Dealer to breach any Rule or subject the Issuer or the relevant Dealer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
- (VIII) immediately inform the Issuer and the relevant Dealer if at any time it becomes aware or suspects that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;
- (IX) comply with the conditions to the consent referred to under "*Common Conditions to Consent*" below and any further requirements or other Authorised Offeror Terms relevant to the Public Offer as specified in the applicable Final Terms;
- (X) make available to each potential Investor in the Notes this Offering Circular (as supplemented as at the relevant time, if applicable), the applicable Final Terms and any applicable information booklet provided by the Issuer for such purpose, and not convey or publish any information that is not contained in or entirely consistent with this Offering Circular and the applicable Final Terms;
- (XI) if it conveys or publishes any communication (other than this Offering Circular or any other materials provided to such financial intermediary by or on behalf of the Issuer for the purposes of the relevant Public Offer) in connection with the relevant Public Offer, it will ensure that such communication (A) is fair, clear and not misleading and complies with the Rules, (B) states that such financial intermediary has provided such communication independently of the

Issuer, that such financial intermediary is solely responsible for such communication and that the Issuer and the relevant Dealer do not accept any responsibility for such communication and (C) does not, without the prior written consent of the Issuer or the relevant Dealer (as applicable), use the legal or publicity names of the Issuer or the relevant Dealer or any other name, brand or logo registered by an entity within its respective groups or any material over which any such entity retains a proprietary interest, except to describe the Issuer as issuer of the relevant Notes on the basis set out in this Offering Circular;

(XII) ensure that no holder of Notes or potential Investor in Notes shall become an indirect or direct client of the Issuer or the relevant Dealer for the purposes of any applicable Rules from time to time, and to the extent that any client obligations are created by the relevant financial intermediary under any applicable Rules, then such financial intermediary shall perform any such obligations so arising;

(XIII) co-operate with the Issuer and the relevant Dealer in providing such information (including, without limitation, documents and records maintained pursuant to paragraph (VI) above) and such further assistance as is reasonably requested upon written request from the Issuer or the relevant Dealer. For this purpose, relevant information is information that is available to or can be acquired by the relevant financial intermediary:

(i) in connection with any request or investigation by the Central Bank or any other regulator in relation to the Notes, the Issuer or the relevant Dealer; and/or

(ii) in connection with any complaints received by the Issuer and/or the relevant Dealer relating to the Issuer and/or the relevant Dealer or another Authorised Offeror including, without limitation, complaints as defined in rules published by the Central Bank and/or any other regulator of competent jurisdiction from time to time; and/or

(iii) which the Issuer or the relevant Dealer may reasonably require from time to time in relation to the Notes and/or so as to allow the Issuer or the relevant Dealer fully to comply with its own legal, tax and regulatory requirements,

in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any such regulator or regulatory process;

(XIV) during the period of the initial offering of the Notes: (i) only sell the Notes at the Issue Price specified in the applicable Final Terms (unless otherwise agreed with the relevant Dealer); (ii) only sell the Notes for settlement on the Issue Date specified in the applicable Final Terms; (iii) not appoint any sub-distributors (unless otherwise agreed with the relevant Dealer); (iv) not pay any fee or remuneration or commissions or benefits to any third parties in relation to the offering or sale of the Notes (unless otherwise agreed with the relevant Dealer); and (v) comply with such other rules of conduct as may be reasonably required and specified by the relevant Dealer; and

(XV) either (i) obtain from each potential Investor an executed application for the Notes, or (ii) keep a record of all requests the relevant financial intermediary (x) makes for its discretionary management clients, (y) receives from its advisory clients and (z) receives from its execution-only clients, in each case

prior to making any order for the Notes on their behalf, and in each case maintain the same on its files for so long as is required by any applicable Rules;

- (B) agrees and undertakes to indemnify the Issuer and the relevant Dealer (in each case on behalf of such entity and its respective directors, officers, employees, agents, affiliates and controlling persons (each a "**Relevant Party**")) against any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) which any of them may incur or which may be made against any of them arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by such financial intermediary, including (without limitation) any unauthorised action by such financial intermediary or failure by such financial intermediary to observe any of the above restrictions or requirements or the making by such financial intermediary of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by the Issuer or the relevant Dealer. Neither the Issuer nor any Dealer shall have any duty or obligation, whether as fiduciary or trustee for any Relevant Party or otherwise, to recover any such payment or to account to any other person for any amounts paid to it under this provision; and
- (C) agrees and accepts that:
- (I) the contract between the Issuer and the relevant financial intermediary formed upon acceptance by the relevant financial intermediary of the Issuer's offer to use the Offering Circular with its consent in connection with the relevant Public Offer (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, English law;
 - (II) subject to paragraph (IV) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Authorised Offeror Contract (including any dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) (a "**Dispute**") and the Issuer and the relevant financial intermediary submit to the exclusive jurisdiction of the English courts;
 - (III) for the purposes of paragraphs (II) and (IV) herein, the Issuer and the relevant financial intermediary waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any dispute;
 - (IV) to the extent allowed by law, the Issuer and each relevant Dealer may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions; and
 - (V) each relevant Dealer will, pursuant to the Contracts (Rights of Third Parties) Act 1999, be entitled to enforce those provisions of the Authorised Offeror Contract which are, or are expressed to be, for their benefit, including the agreements, representations, warranties, undertakings and indemnity given by the financial intermediary pursuant to the Authorised Offeror Terms.

The financial intermediaries referred to in paragraphs (a)(II), (a)(III) and (b) above are together the "**Authorised Offerors**" and each an "**Authorised Offeror**".

Any Authorised Offeror falling within paragraph (b) above who meets the conditions set out in paragraph (b) and the other conditions stated in "*Common Conditions to Consent*" below and who wishes to use this Offering Circular in connection with a Public Offer is required, for the duration of the relevant Offer Period, to publish on its website the Acceptance Statement.

Common Conditions to Consent

The conditions to the Issuer's consent to the use of this Offering Circular in the context of the relevant Public Offer are (in addition to the conditions described in paragraph (a) above if Part B of the applicable Final Terms specifies "General Consent" as "Applicable") that such consent:

- (a) is only valid during the Offer Period specified in the applicable Final Terms; and
- (b) only extends to the use of this Offering Circular to make Public Offers of the relevant Tranche of Notes in Ireland, Portugal and the United Kingdom under the Programme, as specified in the applicable Final Terms.

The consent referred to above relates to Offer Periods (if any) occurring within 12 months from the date of this Offering Circular.

The only relevant Member States which may, in respect of any Tranche of Notes, be specified in the applicable Final Terms (if any relevant Member States are so specified) as indicated in paragraph (b) above, will be Ireland, Portugal and the United Kingdom under the Programme, and accordingly each Tranche of Notes may only be offered to Investors as part of a Public Offer in Ireland, Portugal and the United Kingdom under the Programme, as specified in the applicable Final Terms, or otherwise in circumstances in which no obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

BENCHMARKS REGULATION - Amounts payable on Floating Rate Notes and Reset Rate Notes (as described under "*Terms and Conditions of the Notes*") will be calculated by reference to the London Interbank Offered Rate ("**LIBOR**") or the Euro Interbank Offered Rate ("**EURIBOR**"), as specified in the applicable Final Terms. As of the date of this Offering Circular, only the administrator of LIBOR (ICE Benchmark Administration Limited) is included in ESMA's register of administrators under Article 36 of the Regulation (EU) No. 2016/1011 (the "**Benchmarks Regulation**"). As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that the European Money Markets Institute (as administrator of EURIBOR) is not currently required to obtain authorisation or registration.

IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Notes include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently, no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET - The Final Terms in respect of any Notes will include a legend entitled "MiFID II product governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for

undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither UBS Europe SE as arranger (the "**Arranger**") nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO PURCHASE OR PURCHASING ANY NOTES IN A PUBLIC OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THE OFFER IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING ARRANGEMENTS IN RELATION TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT. THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE PUBLIC OFFER OR SALE OF THE NOTES CONCERNED AND, ACCORDINGLY, THIS OFFERING CIRCULAR AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE RELEVANT INFORMATION WILL BE PROVIDED BY THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER. THE ISSUER AND, FOR THE AVOIDANCE OF DOUBT, THE DEALERS (EXCEPT WHERE A DEALER IS THE RELEVANT AUTHORISED OFFEROR) HAVE NO RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF THE INFORMATION DESCRIBED ABOVE.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS OFFERING CIRCULAR AND OFFERS OF NOTES GENERALLY

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. Neither the Issuer nor the Dealers represent that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in the applicable Final Terms, no action has been taken by the Issuer or the Dealers which is intended to permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Each Dealer has represented or, as the case may be, will be required to represent that all offers and sales by it will be made on the terms indicated above. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the EEA (including the United Kingdom, Portugal, the Republic of Italy and France) and Japan, see "*Subscription and Sale and Transfer Restrictions*" below.

The Notes may not be a suitable investment for all prospective Investors. Each potential Investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential Investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (a) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (b) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential Investor's currency;
- (d) understands thoroughly the terms of the Notes and is familiar with the behaviour of financial markets; and
- (e) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain Investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential Investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

The Notes have not and will not be registered under the United States Securities Act of 1933 (as amended, the "**Securities Act**") and are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons, as defined in Regulation S under the Securities Act, unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities law of any state of the United States and any other jurisdiction (see "*Subscription and Sale and Transfer Restrictions*" below).

All references in this Offering Circular to (A) "**U.S. dollars**", "**USD**", "**U.S.\$**", "**\$**" and "**U.S. cent**" refer to the currency of the United States of America, (B) "**Sterling**", "**GBP**" and "**£**" refer to the currency of the United Kingdom, and (C) "**Euro**", "**EUR**" and "**€**" refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union amended from time to time.

This Offering Circular is drawn up in the English language. In case there is any discrepancy between the English text and the Portuguese text, the English text stands approved for the purposes of approval under the Prospectus (Directive 2003/71/EC) Regulations 2005.

In connection with the issue of any Tranche of Notes, one or more relevant Dealers (the "**Stabilisation Manager(s)**") (or persons acting on behalf of any Stabilisation Manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, will be in compliance with all relevant laws and regulations and may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment shall be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS

Some statements in this Offering Circular and certain documents incorporated by reference herein may be deemed to be forward looking statements. Forward looking statements include statements concerning the Issuer's plans, objectives, goals, strategies, future operations and performance and the assumptions underlying these forward looking statements. When used in this Offering Circular, the words "anticipates", "estimates", "expects", "believes", "intends", "plans", "aims", "seeks", "may", "will", "should" and any similar expressions generally identify forward looking statements. These forward looking statements are contained in the sections entitled "Risk Factors" and "Description of the Business of the Group" and other sections of this Offering Circular. By their nature, forward looking statements involve risk and uncertainty because they relate to future events and circumstances. The Issuer has based these forward looking statements on the current view of its management with respect to future events and financial performance. Although the Issuer believes that the expectations, estimates and projections reflected in its forward looking statements are reasonable as of the date of this Offering Circular, if one or more of the risks or uncertainties materialise, including those identified below or which the Issuer has otherwise identified in this Offering Circular, or if any of the Issuer's underlying assumptions prove to be incomplete or inaccurate, the Issuer's actual results of operation may vary from those expected, estimated or predicted.

The risks and uncertainties referred to above include:

- the Issuer's ability to achieve and manage the growth of its business;
- the performance of the markets in Portugal and the wider region in which the Issuer operates;
- the Issuer's ability to realise the benefits it expects from existing and future projects and investments it is undertaking or plans to or may undertake;

- the Issuer's ability to obtain external financing or maintain sufficient capital to fund its existing and future investments and projects;
- changes in political, social, legal or economic conditions in the markets in which the Issuer and its customers operate; and
- actions taken by the Issuer's joint venture partners that may not be in accordance with its policies and objectives.

Any forward looking statements contained in this Offering Circular speak only as at the date of this Offering Circular. Without prejudice to the Issuer's obligations under applicable laws and regulations in relation to disclosure and ongoing information, the Issuer expressly disclaims any obligation or undertaking to disseminate after the date of this Offering Circular any updates or revisions to any forward looking statements contained in it to reflect any change in expectations or any change in events, conditions or circumstances on which any such forward looking statement is based.

SUMMARY OF THE PROGRAMME

Summaries are made up of disclosure requirements known as "**Elements**". These Elements are numbered in Sections A - E (A.1 - E.7). This Summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the Summary explaining why it is not applicable.

Section A – Introduction and Warnings

Element	
A.1	<p>Warning that:</p> <ul style="list-style-type: none"> • This summary should be read as an introduction to the prospectus and the applicable Final Terms; • Any decision to invest in the securities should be based on consideration of the prospectus as a whole by the investor, including any documents incorporated by reference and the applicable Final Terms; • Where a claim relating to information contained in the prospectus and the applicable Final Terms is brought before a court, the plaintiff might, under the national legislation of the Member States, have to bear the costs of translating the prospectus and the applicable Final Terms before the legal proceedings are initiated; and • Civil liability attaches only to those persons who have tabled the summary including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the prospectus or it does not provide, when read together with the other parts of the prospectus, key information in order to aid investors when considering whether to invest in such securities.
A.2	<p>Certain Tranches of Notes with a denomination of less than EUR 100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under Directive 2003/71/EC (as amended or superseded, the "Prospectus Directive") to publish a prospectus. Any such offer is referred to as a "Public Offer".</p> <p><i>Issue-specific summary:</i></p> <p>[Not Applicable; the Notes are issued in denominations of at least EUR 100,000 (or its equivalent in any other currency).]</p> <p>[<i>Consent:</i> Subject to the conditions set out below, the Issuer consents to the use of the Offering Circular in connection with a Public Offer of Notes by the Dealers], [<i>names of specific financial intermediaries listed in final terms,</i>] [and] [each financial intermediary whose name is published on the website of Banco Comercial Português, S.A. (www.millenniumbcp.pt) and identified as an Authorised Offeror in respect of the relevant Public Offer] [and any financial intermediary which is authorised to make such offers under [applicable legislation implementing Directive 2014/65/EU (as amended) and publishes on its website the following statement (with the information in square brackets being completed with the relevant information):</p> <p><i>"We, [insert legal name of financial intermediary], refer to the [insert title of relevant Notes] (the "Notes")"</i></p>

Element	
	<p><i>described in the Final Terms dated [insert date] (the "Final Terms") published by [] (the "Issuer"). We hereby accept the offer by the Issuer of its consent to our use of the Offering Circular (as defined in the Final Terms) in connection with the offer of the Notes in accordance with the Authorised Offeror Terms and subject to the conditions to such consent, each as specified in the Offering Circular, and we are using the Offering Circular accordingly.</i>"],</p> <p>(each an "Authorised Offeror").</p> <p><i>Offer period:</i> The Issuer's consent referred to above is given for Public Offers of Notes during [offer period for the issue to be specified here] (the "Offer Period").</p> <p><i>Conditions to consent:</i> The conditions to the Issuer's consent [(in addition to the conditions referred to above)] are that such consent (a) is only valid during the Offer Period; (b) only extends to the use of this Offering Circular to make Public Offers of the relevant Tranche of Notes in [specify each Relevant Member State in which the particular Tranche of Notes can be offered] and (c) [specify any other conditions applicable to the Public Offer of the particular Tranche, as set out in the Final Terms].</p> <p>AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NOTES IN A PUBLIC OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATIONS AND SETTLEMENT ARRANGEMENTS. THE INVESTOR MUST LOOK TO THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER FOR THE PROVISION OF SUCH INFORMATION AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION.]</p>

Section B – Issuer

Element	Title	
B.1	Legal and commercial name of the Issuer	Banco Comercial Português, S.A. ("BCP", the "Bank" or the "Issuer")
B.2	Domicile/ legal form/ legislation/ country of incorporation	BCP is a limited liability company incorporated and domiciled in Portugal under the Portuguese Companies Code and Decree-Law No. 298/92 of 31 December (<i>Regime Geral das Instituições de Crédito e Sociedades Financeiras</i>) (as amended from time to time, the "Banking Law").
B.4b	Trend information	Despite the acceleration of the economic recovery in Portugal, the stabilisation of the banking industry and the decrease in public and private indebtedness, Portuguese banks continued to operate in a challenging environment in 2018. Banks are operating within a context of very low interest rates, exercising pressure on the net interest income. Moreover, Portuguese Banks still have a significant number of non-interest bearing assets in their balance sheets. In addition, the context is marked by fast technological evolution and, pursuant to the Payment Services Directive 2 ("PSD2"), by the competition from

Element	Title	
		<p>new players in the market (Fintechs). There are also new regulatory requirements, namely, as a result of the adoption of IFRS16¹ as of January 2019.</p> <p>Banco de Portugal's forecasts for the Portuguese economy, from 2018 to 2021, point towards the slowdown of the recovery of economic activity, converging to the expected growth domestic product (“GDP”) growth for the Euro Area. GDP is expected to have grown, on average, 2.1% in 2018, 1.8% in 2019, 1.7% in 2020 and 1.6% in 2021, after having grown 2.8% in 2017. It is expected that the contribution provided by net exports will gradually decrease its importance in GDP's growth between 2018 and 2021. According to the projections by the Ministry of Finance, the public deficit should decrease to 0.5% of the GDP in 2018, the lowest ever since Portugal joined the Euro Area. A surplus is expected as soon as 2020.</p> <p>The four rating agencies that rate the Portuguese Republic upgraded their ratings (two in 2017 and two in 2018). At the end of October 2018, four rating agencies assigned an investment grade rating to the Portuguese Republic, which translated, together with the improvement of the market's perception of the Portuguese Republic, into a sharp decrease in sovereign risk premiums and bank premiums.</p> <p>In accordance with Banco de Portugal, Portuguese banks resort to the European Central Bank (“ECB”) in the amount of EUR 18.9 billion at the end of December 2018. These figures are consistent with the downwards trend in place since the second half of 2013. These figures show an improvement in the liquidity position of the domestic banks which has benefited from the resilient performance of deposits, namely from individuals (+3.8% year-on-year at December 2018, with demand deposits up 15.9% and term deposits up 3.8%, also year-on-year).</p> <p>Moreover, the deleveraging of the Portuguese financial sector continues and the total loans to individuals increased 0.1% and loans to companies decreased 0.3%, year-on-year, respectively, in December 2018. The loans-to-deposits ratio of the banking sector in Portugal stood at 87% at the end of December 2018 versus 128% at the end of 2012 and 158% at the end of 2010.</p> <p>The loans granted by BCP continued to decrease but reflects two different dynamics: the non-performing exposures (“NPE”) portfolio decreased by EUR 2.1 billion in December 2018, year-on-year, and the</p>

¹ IFRS: International Financial Reporting Standards as adopted by the European Union.

Element	Title	
		<p>performing portfolio increased by EUR 2.2 billion (in Portugal: NPE portfolio decreased by EUR 2.0 billion and performing portfolio increased by EUR 1.1 billion). At the same time, deposits also continued to grow: +4.6% year-on-year, in Portugal, in December 2018. As BCP has excess liquidity (loans-to-deposits ratio stood at 87% in December 2018), it decided to reduce its use of funding from the ECB to EUR 2.7 billion in December 2018. In the first quarters of 2019, these trends will remain in place with the Bank now focused on growing volumes but with the performing portfolio growth being compensated by the NPE reduction. As a result loans-to-deposits ratio will remain below 100% and ECB funding will remain below EUR 4 billion.</p> <p>At the end of December 2018, BCP was the largest Portuguese private sector bank, with a robust asset structure, a fully implemented CET1 ratio of 12.0%, above regulatory requirements (SREP) and a loans-to-deposits ratio of 87%.</p> <p>The low level of interest rates is contributing to decrease the spread on term deposits of the Portuguese banks, a trend which continued, albeit at a slower pace, in 2018, more than offsetting the lower spreads in credit. The rates of the term deposits reached, by the end of December 2018, values around 15 basis points, and the portfolio's average rate should converge to these levels over the course of 2019.</p> <p>The price effect on the net interest income should continue to be globally positive, translating the improvement of the net interest income on operations with customers (differential between the loans average rate and the average rate at which the banks remunerate the deposits). The profitability of the Portuguese banks is expected to continue to be constrained by the prospects of continuation of a low short term interest rates environment.</p> <p>Several institutions should continue to apply restructuring plans, to increase operating efficiency and the adjustment of business models, which translates into the decrease in the number of branches and employees and in the release of capital allocated to non-core activities. Profitability in the banking industry is still affected by a high NPE stock.</p> <p>BCP Group has a relevant exposure to Poland where there are risks due to legislative amendments with impact on the Polish financial system, including the ones related to the issue of the conversion of the credits into Swiss francs in Poland. It is worth mentioning that Bank Millennium has been reducing its foreign currency</p>

Element	Title	
		<p>mortgage loans portfolio on average circa of 8% per year and that currently it represents only 27% of the total loans portfolio in Poland.</p> <p>There are still some risks related to the economic environment experienced by some African countries, with potential impact on the Group, namely Angola and Mozambique, whose economic activity is decelerating, with high inflation and faced a significant depreciation of their currencies in 2017. In Mozambique the situation should improve once an agreement with the International Monetary Fund is reached.</p> <p>There is great focus on the management of the stock of problematic assets and respective coverage levels by loan loss reserves. BCP has presented a new Strategic Plan (Mobilizing Millennium: 2021 Ambitions and Strategic Plan) which includes a new target of NPEs reduction: 45% reduction of NPE stock from 2018, reaching approximately EUR 3 billion by 2021.</p> <p>It is not yet possible to determine what will be the final impact of the resolution of Banco Espírito Santo, S.A. on BCP as an institution participating in the resolution fund created by Decree-Law no. 31-A/2012, of 10 February (the “Resolution Fund”). On 28 March 2018, following the disclosure of the 2017 annual results by Novo Banco, S.A. (“Novo Banco”), the Resolution Fund made a communication on the activation of the contingent capitalisation mechanism established in the agreements entered into in connection with the sale of Novo Banco totalling EUR 792 million.</p> <p>On 24 May 2018, the Resolution Fund communicated having disbursed to Novo Banco the abovementioned funds, of which EUR 430 million were from a loan from the Portuguese State and the remaining amount were from the Resolution Fund’s own resources.</p> <p>In its 2018 annual results press release, Novo Banco states that in connection with the impact of losses related to the sale and write-downs of legacy assets, Novo Banco will request a compensation of EUR 1,149 million under the existing CCA. 69% of this amount results from the losses incurred on the assets included in the CCA and 31% due to regulatory requirements for capital increase in the adjustment of the transitional period of capital ratios and to the impact of IFRS 9. For 2017 and 2018, Novo Banco will have received a total of Euros 1.9 billion out of the maximum of Euros 3.89 billion defined under the CCA.</p> <p>On 1 March 2019, the Resolution Fund stated that the amount to be paid by the Resolution Fund in 2019 to Novo Banco under the CCA will be carried out after the</p>

Element	Title										
		<p>legal certification of Novo Banco's accounts and following a verification procedure by an independent entity, to ascertain that the amount to be paid by the Fund has been correctly accounted for.</p> <p>The Bank has been notified by the Banco de Portugal on the Single Resolution Board's decision regarding the minimum requirement for own funds and eligible instruments ("MREL") for the resolution group headed by the Bank, at a sub-consolidated level, which includes the operations based in Portugal, Switzerland and Cayman, and excludes the operations based in Mozambique and Poland (the "Resolution Group").</p> <p>The MREL requirement has been set at 26.61% of its risk-weighted assets for the Resolution Group based on the data of 30 June 2017. Moreover, the Bank has been informed that the MREL requirement needs to be met by 1 July 2022.</p> <p>This is fully aligned with the Bank's expectations and generally consistent with the funding projections already included in the Bank's strategic Plan for the period 2018-2021, which underpins the medium term performance targets disclosed to the market with the results announcement for 2018. Nevertheless, it must be noted that the MREL requirement may be adjusted in the future by the competent authorities, to reflect their assessment of the underlying risks, business evolution or changes in the profile of the Bank's assets and liabilities.</p>									
B.5	Description of the Group	BCP is the ultimate parent company of the group (BCP and its subsidiaries together constitute the " Group ").									
B.9	Profit forecast or estimate	Not Applicable - No profit forecasts or estimates have been made in the Offering Circular.									
B.10	Audit report qualifications	Not Applicable - No qualifications are contained in any audit report included in the Offering Circular.									
B.12	Selected historical key financial information:	<p>The table below sets out summary information extracted from BCP's audited consolidated financial statements for each of the two years ended 31 December 2017 and 31 December 2018² and from BCP's unaudited consolidated financial statements for the three months ended 31 March 2019 (including comparative data), respectively:</p> <p style="text-align: center;">Consolidated Income Statements for the years ended at 31 December 2017³ and 2018</p> <table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 70%;"></th> <th style="width: 15%; text-align: right; border-bottom: 1px solid black;">2018</th> <th style="width: 15%; text-align: right; border-bottom: 1px solid black;">2017</th> </tr> </thead> <tbody> <tr> <td></td> <td colspan="2" style="text-align: center;">(Thousands of Euros)</td> </tr> <tr> <td>Net interest income</td> <td style="text-align: right;">1,423,631</td> <td style="text-align: right;">1,391,275</td> </tr> </tbody> </table>		2018	2017		(Thousands of Euros)		Net interest income	1,423,631	1,391,275

	<p>Statements of no significant or material adverse change</p> <p>There has been no significant change in the financial or trading position of the Group since 31 March 2019. There has been no material adverse change in the prospects of BCP or the Group since the date of the last audited annual accounts, 31 December 2018⁵.</p>		
B.13	Events impacting the Issuer's solvency	There are no recent events particular to BCP which are to a material extent relevant to the evaluation of its solvency.	
B.14	Dependence upon other group entities	<p>BCP is, directly or indirectly, the ultimate holding company of all the companies in the Group and is not dependent upon other entities within the Group. However, being the ultimate holding company of the Group the activities developed by the other members of the Group have an impact on BCP.</p> <p>Please also refer to Element B.5.</p>	
B.15	Principal activities	<p>The Group is engaged in a wide variety of banking and related financial services activities, including investment banking, asset management and insurance, in Portugal and internationally.</p> <p>BCP's operations are primarily in retail banking, but it also offers a complete range of additional financial services.</p>	
B.16	Controlling shareholders	BCP is not aware of any shareholder or group of connected shareholders who directly or indirectly control the BCP.	
B.17	Credit ratings	<p>The Programme has been rated (i) "Ba2/NP" (in respect of Notes issued on a senior basis ("Senior Notes") with a maturity of more than one year and Senior Notes with a maturity of one year or less, respectively), "P (B1)" (in respect of Notes issued on a subordinated basis ("Subordinated Notes") and "B1" (in respect of Notes</p>	

⁵ The audited financial statements for the financial year ended 31 December 2018 will be subject to the approval of the general meeting of shareholders to be held on the 22 May 2019.

Element	Title	
		<p>issued on a senior non-preferred basis ("Senior Non-Preferred Notes") by Moody's Investors Service España, S.A., (ii) "BB/B" (in respect of Senior Notes with a maturity of one year or more and Senior Notes with a maturity of less than one year, respectively), "B" (in respect of Subordinated Notes) and "B+" (in respect of Senior Non-Preferred Notes) by S&P Global Ratings Europe Limited, (iii) "BB/B" (in respect of Senior Notes with a maturity of more than one year and Senior Notes with a maturity of one year or less, respectively), "BB-" (in respect of Tier 2 Subordinated Notes) and "BB" (in respect of Senior Non-Preferred Notes) by Fitch France - Société par Actions Simplifiée and (iv) "BB (high)/R-3" (in respect of Senior Notes with a maturity of more than one year and Senior Notes with a maturity of one year or less, respectively), "BB (low)" (in respect of Subordinated Notes) and "BB" (in respect of Senior Non-Preferred Notes) by any entity that is part of DBRS Group and any successor to the relevant rating agency.</p> <p>Notes issued under the Programme may be rated or unrated by either of the rating agencies referred to above. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency.</p> <p>Issue-specific summary:</p> <p>[The Notes [have been/are expected to be] rated [<i>specify rating(s) of Tranche being issued</i>] by [<i>specify rating agent(s)</i>].</p> <p>A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.]</p> <p>[Not Applicable - No specific ratings have been assigned to the debt securities at the request of or with the co-operation of the Issuer in the rating process.]</p>

Section C – Securities

Element	Title	
C.1	Description of Notes/ISIN	<p>The Notes to be issued under the Programme will be in book entry form.</p> <p>The Notes to be issued under the Programme may be Fixed Rate Notes, Floating Rate Notes, Reset Rate Notes, Zero Coupon Notes or a combination of the foregoing.</p> <p>Issue-specific summary:</p>

Element	Title	
		<p>The Notes are [£/€/U.S.\$/other] [] [[]% Fixed Rate/Floating Rate/Reset Rate/Zero Coupon] Notes due [].</p> <p>International Securities Identification Number (ISIN): []</p>
C.2	Currency	<p>Subject to compliance with all applicable laws, regulations and directives, Notes may be issued in any currency agreed between the Issuer and the relevant Dealer at the time of issue.</p> <p>Issue-specific summary:</p> <p>The currency of this Series of Notes is [Sterling/Euro/U.S. dollars/Japanese yen/Swiss francs/Australian dollars/Canadian dollars/other].</p>
C.5	Restrictions on transferability	Not Applicable - There are no restrictions on the free transferability of the Notes.
C.8	Rights attached to the Notes, including ranking and limitations on those rights	<p>Notes issued under the Programme will have terms and conditions relating to, among other matters:</p> <p>Status and Subordination</p> <p>Notes may be issued on either a senior, a senior non-preferred or a subordinated basis, the Senior Notes, the Senior Non-Preferred Notes and the Subordinated Notes, respectively.</p> <p>Senior Notes constitute direct, unconditional, unsubordinated and (subject to the provisions of negative pledge below, to the extent specified as applicable to such Senior Notes in the applicable Final Terms) unsecured obligations of the Issuer and will rank <i>pari passu</i> among themselves and (save for certain obligations required to be preferred by law) equally with all other unsecured and unsubordinated obligations of the Issuer which do not qualify as Statutory Senior Non-Preferred Obligations, from time to time outstanding.</p> <p>Senior Non-Preferred Notes constitute direct, unsubordinated and unsecured obligations of the Issuer and (save for certain obligations required to be preferred by law) will rank (i) <i>pari passu</i> among themselves and with all other obligations of the Issuer qualifying as Statutory Senior Non-Preferred Obligations, (ii) in the event of the bankruptcy of the Issuer, junior to any unsubordinated and unsecured obligations of the Issuer which do not qualify as Statutory Senior Non-Preferred Obligations, and (iii) senior to any Junior Obligations.</p> <p>Payments in respect of any Subordinated Notes constitute direct, unconditional and unsecured obligations of the Issuer, save that the claims of the</p>

Element	Title	
		<p>holders of the Notes in respect of payments pursuant thereto will, in the event of the winding-up of the Issuer (to the extent permitted by Portuguese Law), be wholly subordinated to the claims of all Senior Creditors of the Issuer.</p> <p>“Senior Creditors of the Issuer” means (a) creditors of the Issuer whose claims are admitted to proof in the winding-up of the Issuer and who are unsubordinated creditors of the Issuer (including Senior Notes and Statutory Senior Non-Preferred Obligations), and (b) creditors of the Issuer whose claims are or are expressed to be subordinated to the claims of other creditors of the Issuer (other than those whose claims relate to obligations which constitute, or would, but for any applicable limitation on the amount of such capital, constitute Tier 1 instruments or Tier 2 instruments of the Issuer, or whose claims otherwise rank or are expressed to rank <i>pari passu</i> with, or junior to, the claims of holders of the Subordinated Notes); “Tier 1 instruments” has the meaning given to it by the Applicable Banking Regulations from time to time; and “Tier 2 instruments” has the meaning given to it by the Applicable Banking Regulations from time to time.</p> <p>"Applicable Banking Regulations" means at any time the laws, regulations, requirements, guidelines and policies relating to capital adequacy then in effect in Portugal and applicable to the Issuer, including, without limitation to the generality of the foregoing, those regulations, requirements, guidelines and policies relating to capital adequacy then in effect of the Relevant Authority and/or any regulation, directive or other binding rules, standards or decisions adopted by the institutions of the European Union.</p> <p>"Relevant Authority" means (in the case of Subordinated Notes) Banco de Portugal, the European Central Bank or such other authority (whether in Portugal or elsewhere) having primary responsibility for prudential supervision of the Issuer and (in the case of Senior Non-Preferred Notes and Restricted Senior Notes) any authority lawfully entitled to exercise or participate in the exercise of any bail-in power from time to time.</p> <p>"Junior Obligations" means any present and future claims in respect of obligations of the Issuer which rank or are expressed to rank, subordinated to claims in respect of unsubordinated and unsecured obligations of the Issuer (including Statutory Senior Non-Preferred Obligations).</p>

Element	Title	
		<p>"Statutory Senior Non-Preferred Obligations" means any present and future claims in respect of unsubordinated and unsecured obligations of the Issuer which have a lower ranking within the meaning of article 8-A of Decree-Law no 199/2006 of 25 October (as amended) (or any other provision implementing article 108 of Directive 2014/59/EU, as amended by Directive (EU) 2017/2399, in Portugal) than the claims in respect of all other unsubordinated and unsecured obligations of the Issuer.</p> <p><i>Issue-specific summary:</i></p> <p>This Series of Notes is issued on a [senior/senior non-preferred/subordinated] basis.</p> <p><i>Taxation</i></p> <p>All payments in respect of the Notes will be made without deduction for or on account of any withholding taxes imposed by Portugal unless such deduction or withholding is required by law. In the event that any such deduction is made, the Issuer will, save in certain limited circumstances, be required to pay additional amounts to cover the amounts so deducted. In the case of Subordinated Notes and, where Condition 7(b) ("<i>Taxation</i>") is specified as "Applicable" in the applicable Final Terms, Senior Notes and Senior Non-Preferred Notes, the requirement of the Issuer to pay additional amounts will be limited to payments of interest.</p> <p>Currently, payments of interest and other revenues to be made by BCP directly to non-residents in Portuguese territory is subject to Portuguese withholding tax at 25% (collective entities), 28% (individuals) or 35% if the payment is made to an account held on behalf of undisclosed beneficial owners, unless they are disclosed for these purposes or, when applicable, to reduced withholding tax rates under the tax treaties entered into by Portugal. The 35% rate also applies to payments of interest and other investment income to entities that are domiciled in a country included in the Portuguese "tax havens" list. Payments of interest or other revenues to be made by BCP thereunder will be subject to Portuguese taxation rules.</p> <p>All payments in respect of the Notes will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "Code") or otherwise imposed pursuant to Sections 1471 through</p>

Element	Title	
		<p>1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto.</p> <p>Negative pledge</p> <p>In the case of Senior Notes where the applicable Final Terms specify that Condition 3 ("<i>Negative Pledge</i>") is "Applicable", the terms of such Senior Notes will contain a negative pledge provision to the effect that, so long as any of such Senior Notes remains outstanding, the Issuer shall not create or permit to be outstanding any mortgage, charge, lien, pledge or other similar encumbrance or security interest (subject to certain exceptions with respect to assets that belonged to a third company and were acquired pursuant to an amalgamation or merger, securitisations, asset-backed financing or like arrangements, and mortgage-backed bonds or covered bonds) upon the whole or any part of its undertaking or assets, present or future, to secure any Indebtedness or to secure any guarantee or indemnity given in respect of any Indebtedness, without, at the same time or prior thereto, securing the relevant Senior Notes equally and rateably therewith or providing other security for the relevant Senior Notes.</p> <p>"Indebtedness" means any borrowings having an original maturity of more than one year in the form of or represented by bonds, notes, debentures or other securities which with the consent of the Issuer are, or are intended to be, listed or traded on any stock exchange or other organised market for securities other than a borrowing which is entirely or substantially placed in Portugal.</p> <p>The terms of the Subordinated Notes, the Senior Non-Preferred Notes and, where the applicable Final Terms specify that Condition 3 ("<i>Negative Pledge</i>") is "Not Applicable", the Senior Notes will not contain a negative pledge provision.</p> <p>Events of default</p> <p><i>Senior Notes</i></p> <p>If the Notes are specified as Senior Notes in the applicable Final Terms and Condition 9(a) ("<i>Events of Default relating to certain Senior Notes</i>") is specified as being "Applicable", the terms of such Senior Notes will contain, amongst others, the following events of default:</p> <p>(a) default in payment of any principal or interest due in respect of the Notes, continuing for a specified</p>

Element	Title	
		<p>period of time;</p> <p>(b) non-performance or non-observance by the Issuer of any of its other obligations (i.e. under the conditions of the Notes), in certain cases continuing for a specified period of time;</p> <p>(c) acceleration by reason of default of the repayment of any indebtedness or default in any payment of any indebtedness or in the honouring of any guarantee or indemnity in respect of any indebtedness by the Issuer, in any case so long as any such indebtedness exceeds the specified threshold; and</p> <p>(d) events relating to the winding-up or dissolution of the Issuer.</p> <p><i>Subordinated Notes, Senior Non-Preferred Notes and certain Senior Notes</i></p> <p>The terms of the Subordinated Notes, the Senior Non-Preferred Notes and (where the Notes are specified as Senior Notes in the applicable Final Terms and Condition 9(b) ("<i>Events of Default and Enforcement relating to Subordinated Notes, Senior Non-Preferred Notes and certain Senior Notes</i>") is specified as being "Applicable") certain of the Senior Notes will contain the following events of default:</p> <p>(a) failure by the Issuer to make payments in respect of the Notes, continuing for a specified period of time, giving rise to the right of Noteholders to institute proceedings for the winding-up of the Issuer; and</p> <p>(b) events relating to the winding-up or dissolution of the Issuer.</p> <p>No acceleration may occur until a winding-up or dissolution of the Issuer.</p> <p>Meetings</p> <p>The terms of the Notes will contain provisions for calling meetings of holders of such Notes to consider matters affecting their interests generally. These provisions</p>

Element	Title	
		<p>permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.</p> <p>Governing law</p> <p>English law, except that in relation to the status of Subordinated Notes and Senior Non-Preferred Notes and the form and transfer of Notes, the creation of security over Notes and the Interbolsa procedures for the exercise of rights under Notes will be governed by Portuguese law.</p>
C.9	Interest/ Redemption/ Representative of holders	<p>Interest</p> <p>Notes may or may not bear interest. Interest-bearing Notes will either bear interest payable at a fixed rate or a floating rate.</p> <p>Issue-specific summary:</p> <p>[The Notes bear interest [from their date of issue/from []] at the fixed rate of []% per annum. Interest will be paid [annually/semi-annually/quarterly/monthly] in arrear on [] [and []] in [each [year/month]/other]. The first interest payment will be made on [].]</p> <p>[The yield on the Notes is []% per annum. The yield is calculated at the issue date of the Notes on the basis of the issue price of the Notes of []%. It is not an indication of future yield.]</p> <p>[The Notes bear interest [from their date of issue/from []] at floating rates calculated by reference to []-month [<i>specify currency</i>] [LIBOR/EURIBOR] [plus/minus] a margin of []%. C.10	Derivative component in the interest payments	Not applicable – There is no derivative component in the interest payments.
C.11	Listing and Admission to trading in respect of Notes with a denomination of less than EUR100,000 (or its equivalent in other currencies)	<p>Notes issued under the Programme may be listed and admitted to trading on the Irish Stock Exchange plc, trading as Euronext Dublin ("Euronext Dublin"), or on any other stock exchange or market which is not a regulated market for the purposes of Directive 2014/65/EU (as amended, "MiFID II").</p> <p>Issue-specific summary:</p> <p>[Application [has been/will be] made by the Issuer (or on its behalf) for the Notes to be admitted to the Official List of the Irish Stock Exchange plc, trading as Euronext Dublin, and trading on its regulated market.] [Application [has been/will be] made by the Issuer (or on its behalf) for the Notes to be admitted to trading on the regulated market of the [Euronext Lisbon/London Stock Exchange and listing on the Official List of the UK Listing Authority].] [The Notes are not intended to be admitted to trading on any market.]</p>
C.21	Admission to trading in respect of Notes with a denomination of at least EUR100,000 (or its equivalent in other currencies)	<p>Notes issued under the Programme may be listed and admitted to trading on Euronext Dublin or any other market which is not a regulated market for the purposes of MiFID II.</p> <p>Issue-specific summary:</p> <p>[Application [has been/will be] made by the Issuer (or on its behalf) for the Notes to be admitted to the Official List of the Irish Stock Exchange plc, trading as Euronext Dublin, and trading on its regulated market.] [Application [has been/will be] made by the Issuer (or on its behalf) for the Notes to be admitted to trading on the regulated market of the [Euronext Lisbon/London Stock Exchange and listing on the Official List of the UK Listing Authority].] [The Notes are not intended to be admitted to trading on any market.]</p>

Section D – Risks

Element	Title	
D.2	Key risks regarding the Issuer	<p>In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified a number of factors which could materially adversely affect their businesses and ability to make payments due under the Notes. The paragraphs below include a list of some of such identified risks. The order according to which the risks are presented herein is not an indication of their relevance or occurrence probability. Investors must carefully read the information contained in the Offering Circular or included therein by reference and reach their own conclusions before taking any investment decision.</p> <p><i>Risks relating to BCP:</i></p> <p><i>Risks Relating to the Portuguese Economy</i>, which include, <i>inter alia</i>, i) The Bank is highly sensitive to the evolution of the Portuguese economy, whose growth performance is uncertain ii) The Portuguese economy is impacted by the performance and potential deterioration of foreign economies; iii) The Bank relies to some extent on funding from the ECB; iv) The Bank is exposed to risks associated with the implementation of the ECB's Quantitative Easing; v) The Budgetary Treaty may permanently confine economic policymaking, with potential adverse effects on the Bank's operational activity; vi) The Portuguese Republic is regularly subject to rating reviews by the rating agencies, which could affect the funding of the economy and the Bank's activity; vii) A relapse of the sovereign debt crisis of the Eurozone and the uncertainty regarding the integrity of the European Union constitute potential sources of turbulence for the markets that may impact the Bank's activity; viii) The United Kingdom's impending departure from the European Union could adversely affect the Bank's activity; ix) A material decline in global capital markets and volatility in other markets could adversely affect the activity, results and value of strategic investments of the Bank; and x) Acts of terrorism, natural disasters, pandemics and global conflicts may have a negative impact on the Bank's business and operations.</p> <p><i>Legal and Regulatory Risks</i>, which include, <i>inter alia</i>, i) The Bank is subject to complex regulation that could increase regulatory and capital requirements; ii) The Banking Union may impose additional regulatory requirements that may impact the Bank's results; iii) The Bank may be unable to issue certain own funds and eligible liability instruments and therefore be either unable to meet its capital requirements/MREL or is required to meet its capital requirements/MREL through more costly instruments; iv) The resolutions adopted by the EC regarding financial</p>

Element	Title	
		<p>services and products in the context of disclosure compliance and investor protection and changes in consumer protection laws may limit the business approach and fees that the Bank can charge in certain banking transactions; v) The Bank is subject to obligations and costs resulting from the legal and regulatory framework related to the prevention, mitigation and monitoring of asset quality; vi) Changes to tax legislation, regulations, higher taxes or lower tax benefits could have an adverse effect on the Bank's activity. Implementation of legislation relating to taxation of the financial sector could have a material adverse effect on the Bank's results of operations; vii) The new regulatory framework for insurance companies may negatively impact the Bank's operations; viii) The Bank is subject to changes in financial reporting standards, such as IFRS 9 and IFRS 16, or policies, including as a result of choices made by the Bank, which could materially and adversely affect the Bank's reported results of operations and financial condition and may have a corresponding material adverse impact on capital ratios; ix) The Bank's financial statements in conformity with EU IFRS require the exercise of judgements and use of assumptions and estimates which, if incorrect, could have a material impact on the Bank's business, results of operations, financial condition, prospects and capital ratios; and x) The use of standardised contracts and forms carries certain risks.</p> <p><i>Risks Relating to Acquisitions</i>, which include, <i>inter alia</i>, i) The Bank may be the object of an unsolicited acquisition bid; and ii) The Bank or its subsidiaries may engage in mergers and/or acquisitions.</p> <p><i>Risks Relating to the Bank's Business</i>, which include, <i>inter alia</i>, i) The Bank is exposed to the credit risk of its customers; ii) The Bank is exposed to concentration risk, including concentration risk in its credit exposure; iii) The Bank is exposed to counterparty risk, including credit risk of its counterparties; iv) The Bank sells capitalisation insurance products with guaranteed principal and unit linked products, exposing the Bank to reputational risk in its role as seller, and financial risk indirectly arising from the Group's shareholding in Millenniumbcp Ageas; v) The Bank is exposed to a contraction of the real estate market; vi) The Bank is exposed to the risk of interest rate repricing of credit granted to customers; vii) The Bank holds units in specialised credit recovery closed-end funds that are subject to potential depreciation, for which reimbursement may not be requested and for which there is no secondary market; viii) Financial problems faced by the Bank's customers could adversely affect the Bank; ix) The Bank's portfolio may continue to contract; x) The Bank is exposed to further deterioration of asset quality; xi) The Bank faces strong competition in its main areas of activity, notably in the retail business; xii) The Bank may generate lower revenues from commissions and fee-based businesses, xiii) Downgrades in the Bank's credit rating could increase the cost of borrowing funds and make the Bank's ability to raise new funds or renew maturing debt more difficult; xiv) The Bank faces exposure to risks in its businesses in Europe (Poland) and Africa (Angola and Mozambique); xv) The Bank's highly liquid assets may not cover liabilities to its customer base; xvi) The results of additional stress tests could result in a need to increase capital or a loss of public confidence in the Group; xvii) The Bank's ability to</p>

Element	Title	
		<p>achieve certain targets is dependent upon certain assumptions involving factors that are significantly or entirely beyond the Bank's control and are subject to known and unknown risks, uncertainties and other factors; xviii) The Bank is vulnerable to fluctuations in interest rates, which may negatively affect net interest income and lead to net loss and other adverse consequences; xix) The Bank is exposed to reputational risks, including those arising from rumours that affect its image and customer relations; xx) The Bank may have difficulty in hiring and retaining board members and qualified personnel; xxi) The coverage of pension fund liabilities could be insufficient, which would require an increase in contributions, and the computation of additional actuarial losses could be influenced by changes to assumptions; xxii) Labour disputes or other industrial actions could disrupt Bank operations or make them more costly to run; xxiii) The Bank is exposed to market risk, which could result in the devaluation of investment holdings or affect its trading results; xxiv) The Bank is subject to compliance risk, which may lead to claims of non-compliance with regulations and lawsuits by public agencies, regulatory agencies and other parties; xxv) The Bank is subject to certain operational risks, which may include interruptions in the services provided, errors, fraud attributable to third parties, omissions and delays in the provision of services and implementation of requirements for risk management; xxvi) The Bank faces technological risks, and a failure in the Bank's information technology systems could result in, among other things, trading losses, losses in customer deposits and investments, accounting and financial reporting errors and breaches in data security; xxvii) The Bank is subject to the risk of changes in the relationship with its partners; xxviii) Transactions in the Bank's own portfolio involve risks; xxix) Hedging operations carried out by the Bank may not be adequate to prevent losses, xxx) The Bank faces exchange rate risk related to its international operations; xxxi) The Bank might be exposed to non-identified risks or to an unexpected level of risks, notwithstanding the risk management policy pursued by the Bank; xxxii) The Bank may not be able to generate income to recover deferred taxes. Potential dilution of the shareholders' position may result from the conversion into capital of a potential special reserve that may have to be established according to the applicable legal framework, in particular in the case of negative net individual results. Changes in the law or a different interpretation of the relevant provisions of law may have an adverse impact on the capital ratio; and xxxiii) The Bank is subject to the risk of internal and external fraud, crime, cybercrime, or other types of misconduct by employees or third parties which could have a material adverse effect on the Bank.</p>
D.3	Key risks regarding the Notes	<p>There are also risks associated with the Notes. These include risks related to the structure of particular issues of Notes, a range of market risks (including that the value of the investment may be adversely affected by exchange rate movements where the Notes are not denominated in the investor's own currency, that any credit rating assigned to the Notes may not adequately reflect all the risks associated with an investment in the Notes, that changes in market interest rates will affect the value of Notes which bear interest at a fixed rate, that changes to benchmarks may affect the value of Notes which bear interest at a floating or reset rate</p>

Element	Title	
		and that there may be no or only a limited secondary market in the Notes), the fact that the conditions of the Notes may be modified without the consent of the holder in certain circumstances, that the holder may not receive payment of the full amounts due in respect of the Notes as a result of amounts being withheld by the Issuer in order to comply with applicable law, that investors are exposed to the risk of changes in law or regulation (including in respect of taxation) affecting the value of Notes held by them and that the Notes are unsecured and therefore subject to the resolution regime.

Section E – Offer

Element	Title	
E.2b	Use of proceeds	<p>The net proceeds from each issue of Notes will be applied by the Issuer for the general corporate purposes of the Group, which include making a profit.</p> <p><i>[Issue-specific summary:</i></p> <p>The net proceeds from the issue of Notes will be [applied by the Issuer for its general corporate purposes, which include making a profit [and []]/[applied by the Issuer for []].</p>
E.3	Terms and conditions of the offer	<p>Under the Programme, the Notes may be offered to the public in a Public Offer in Ireland, Portugal and the United Kingdom.</p> <p>The terms and conditions of each offer of Notes will be determined by agreement between the Issuer and the relevant Dealers at the time of issue and specified in the applicable Final Terms. An investor intending to acquire or acquiring any Notes in a Public Offer from an Authorised Offeror will do so, and offers and sales of such Notes to an investor by such Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such investor including as to price, allocations and settlement arrangements.</p> <p><i>Issue-specific summary:</i></p> <p>[Not Applicable - the Notes are issued in denominations of at least EUR 100,000 (or its equivalent in any other currency.)]</p> <p>[This issue of Notes is being addressed solely to qualified investors (as defined under the Prospectus Directive).]</p> <p>[This issue of Notes is being offered in a Public Offer in [Portugal/Ireland/the United Kingdom] during the Offer Period.]</p> <p>The issue price of the Notes is []% of their nominal amount.</p>
		<p>[Offer Price: [Issue Price/Not Applicable/[]]</p> <p>Conditions to which the offer is subject: [Not</p>

Element	Title	
		<p style="text-align: right;">Applicable/[]</p> <p>Description of the application process: [Not Applicable/[]</p> <p>Details of the minimum and/or maximum amount of application: [Not Applicable/[]</p> <p>Description of possibility to reduce subscriptions and manner for refunding excess amount paid by applicants: [Not Applicable/[]</p> <p>Details of the method and time limits for paying up and delivering the Notes: [Not Applicable/[]</p> <p>Manner and date on which results of the offer are to be made to public: [Not Applicable/[]</p>

E.4	Interest of natural and legal persons involved in the issue/offer	<p>The relevant Dealers may be paid fees in relation to any issue of Notes under the Programme. Any such Dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for BCP and its affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of BCP or its affiliates. Certain of the Dealers or their affiliates that have a lending relationship with BCP routinely hedge their credit exposure to BCP in a way consistent with their customary risk management</p>

Element	Title	
		<p>policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.</p> <p><i>Issue-specific summary</i></p> <p>[Other than as mentioned above,[and save for []], so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests.]</p>
E.7	Expenses charged to the investor by the Issuer	Not Applicable – No expenses will be charged to investors by the Issuer.

RISK FACTORS

Investing in financial instruments, including securities, involves risk. Before making any investment decision, one must take into consideration all the information described in this Offering Circular and, in particular, the risks mentioned herein.

The following text describes the material risks which the Issuer believes may affect its capacity to comply with its duties concerning the Notes issued under the Programme. All these factors may adversely affect the business, income, results, assets and liquidity of the Group. Moreover, there may also be some unknown risks and other risks that, despite deemed as non-relevant, may become relevant in the future. The Bank is unable to ensure that, in view of exceptionally adverse scenarios, the policies and procedures used by it to identify, monitor and manage the risks are fully efficient.

The order according to which the risks are presented herein is not an indication of their relevance or occurrence probability. Investors must carefully read the information contained in this Offering Circular or included herein by reference and reach their own conclusions before taking any investment decision.

RISKS RELATING TO THE ISSUER

RISKS RELATING TO THE PORTUGUESE ECONOMY

The Bank is highly sensitive to the evolution of the Portuguese economy, whose growth performance is uncertain.

The evolution of the Portuguese economy has a considerable impact on the Bank's business, its financial situation and net income. A substantial portion of the Bank's assets and operating profit is derived from Portugal, which accounted for 60% of the Bank's net operating revenue and 73% of total gross loans to customers in the end of 2018, compared to 61% and 75%, respectively, as at 31 December 2017. In addition, as at 31 December 2018, the Bank's holdings of EUR 6.6 billion (EUR 4 billion recorded in "Financial assets at fair value through profit or loss – Held for trading"; EUR 33 million recorded in "Financial assets at fair value through profit or loss – Designated at fair value through profit or loss"; EUR 6,525 million recorded in "Financial assets at fair value through other comprehensive income" and EUR 47 million recorded in "Financial assets at amortised cost – Debt securities") (EUR 3.6 billion as at 31 December 2017, of which EUR 10 million recorded in "Financial assets held for trading", EUR 142 million recorded in "Others financial assets at fair value through profit or loss" and EUR 3,483 million recorded in "Financial assets available for sale") in Portuguese government bonds represented 8.7% (4.8% as at 31 December 2018) of its total assets. As such, developments in the Portuguese economy have had and will continue to have a material impact on the quality of the Bank's assets, its business, financial condition, results of operations and prospects.

The evolution of the Portuguese economy since the creation of the single currency in 1999 was characterised by weak growth levels in an environment of strong debt accumulation, public and private, internal and external, and of loss of competitiveness. Consequently, the Portuguese economy was placed in a vulnerable position upon the occurrence of the international financial crisis in 2007-2008 and the sovereign debt crisis in the Eurozone periphery in 2010. Faced with an unsustainable economic model that had been followed in the previous decade, the Portuguese economy was forced to adjust in a profound and structural manner. The cumulative impact of the international financial crisis of 2007-2008 and of the European sovereign debt crisis of 2010-2011 forced the Portuguese authorities to negotiate a financial assistance programme of EUR 78 billion (the "PAEF"), with the International Monetary Fund ("IMF"), the European Commission ("EC") and the European Central Bank ("ECB"), which was formally approved on 17 May 2011, in a bid to stabilise its public finances, initiate a set of structural reforms that would promote competitiveness and stabilise the banking system.

In the short term, the structural reforms and the changes to the productive structure had a negative impact on Portuguese economic activity, which contracted by 7%, in cumulative terms, between 2011 and 2013 (source: Portugal's National Statistics Institute, September 2017).

However, as a result of the structural reforms and the fiscal consolidation, the economic situation eventually improved. Since the last quarter of 2013, the year-on-year gross domestic product ("GDP") growth rates have turned positive, beginning a period of sustained recovery of economic activity, which has been supported by growth of exports, alongside an improving trend in domestic demand. Recently, the recovery gained further breadth, with GDP recording annual growth rates above 2.0% in 2017 and 2018 (source: Portugal's National Statistics Institute, March 2019). In line with the economy's recovery, the unemployment rate declined to 7.0% in 2018 after reaching a peak of 17.5% in the first quarter of 2013 (source: Portugal's National Statistics Institute, November 2018). The consolidated value of the gross debt of the public administration declined from 130.6% of GDP in 2014 to 121.5% of GDP in 2018 (source: Bank of Portugal March 2019) and the public deficit, which was 11.2% of GDP in 2010, decreased to 3.0% in 2017 and to 0.5% in 2018 (source: Portugal's National Statistics Institute, March 2019). The restructuring of balance sheets in both the public and private sectors, and growth in exports helped to reduce the external imbalance, leading to significant improvements in current and capital account balances, which have been recording consecutive surpluses since 2012 (source: Banco de Portugal, July 2018).

In spite of recent improvements, the economic context in Portugal still presents risks and there are no guarantees that the structural changes already implemented will be sufficient to provide the Portuguese economy with the competitive levers that will enable it to produce strong enough growth to absorb the high levels of public and private indebtedness and there are also no guarantees that its implementation will continue consistently. A potential materialisation of these risks constitutes an important threat to the profitability of the Bank, due to the restriction it poses to the growth of business volumes, the maintenance of loan impairment at penalising levels or lower than expected tax revenues and the weak performance of the financial assets comprising the Bank's portfolio – in particular, the Portuguese public debt securities. Any of the aforementioned could result in a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

These aspects, combined with internal risks related to the process of reducing private and public sector debt and the potential need to implement further structural reforms in the labour and products and services markets, the pressure of a still high tax burden on the real disposable income of families and companies, the possibility of political turbulence following the Fall of 2019 parliamentary elections in Portugal, which may not give a parliamentary absolute majority to any of the parties, and the need to reduce the stock of non-performing loans in order to improve stability in the financial sector, represent a challenging economic and political environment. If these risks to economic and political stability were to materialise, demand for credit would predictably fall, the cost of funding could rise and the credit quality of the loans portfolio and other segments of the asset side of the Bank's balance sheet would deteriorate. The still uncertain macroeconomic conditions in Portugal are affecting, and will continue to affect, the behaviour and financial position of the Bank's customers and, therefore, the supply and demand of the products and services offered by the Bank. In particular, it is expected that the growth of loans will remain sluggish for the forthcoming years, hindering the creation of revenue supporting net interest income. Still elevated private debt, persistent low levels of business profitability and high rates of insolvency of companies and/or households had and may continue to negatively influence customers' capacity to repay loans. Consequently, non-performing loans ("NPLs") may remain at high levels, which would continue to negatively impact the quality of the Bank's assets. This scenario could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Portuguese Economy is impacted by the performance and potential deterioration of foreign economies.

Since exports have been the main engine of the Portuguese economic recovery, the economic activity in the main countries receiving Portuguese exports is extremely important to the Portuguese economy. Therefore, any deterioration of economic activity in the main trading partners of Portugal (as at December 2018 and according to Portugal's National Statistics Institute, in decreasing order: Spain, France, Germany, United Kingdom, United States, Italy, Netherlands, Angola, Belgium and Brazil) could impact negatively on the recovery of Portuguese economy and lead to economic and financial difficulties and affect the

achievement of budgetary and structural targets required by the European authorities under the reinforced rules on macroeconomic stability, including the Fiscal Compact or Fiscal Stability Treaty and legislative measures implemented under the Stability and Growth Pact. Such deterioration may be derived from, among other factors, excessive levels of European debt, lower effectiveness of the transmission of monetary policy in a context of interest rates close to zero and the persistence of a climate of uncertainty and speculation inhibiting the creation of value that would have otherwise resulted from a full exercise of economic integration. There has been a resurgence in the risks regarding the integrity of the EU, given the increasing lack of visibility regarding the final outcome of the negotiations for the United Kingdom's exit from the EU, the lingering political crisis in Catalonia, and also the uncertainty stemming from the confrontational stance of the new Italian government concerning the compliance of its fiscal policies to the European rules.

Regarding markets outside the European Union the risks may be derived, among other adverse factors, the escalation of protectionism among the major world economic blocs, a correction in international financial markets, a sudden rise in the level of global interest rates and the intensification of the appreciating trend of the U.S. dollar against, in particular, the currencies of the emerging markets economies.

Any other significant deterioration of global economic conditions, which may be caused by, among other factors, the intensification of geopolitical tensions worldwide, including the deterioration of credit profile of other countries of the EU, the solvency of Portuguese or international banks or relevant political, economic, or regulatory changes in the Eurozone, may lead to concerns relating to the capacity of the Portuguese Republic to meet its funding needs. Any deterioration could have a direct impact on the value of the Bank's portfolio of public debt bonds, which are primarily Portuguese and Polish. Any permanent reduction of the value of public debt bonds would be reflected in the Bank's equity position.

Moreover, any such deterioration of economic conditions could strongly affect the Bank's capacity to increase and/or generate capital and observe the regulatory minimum capital requirements and could limit the Bank's capacity to obtain financing. Any of the foregoing could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank relies to some extent on funding from the ECB.

The ECB was a major funding source used by the majority of Portuguese banks, including the Bank, during the financial crisis and the European sovereign debt crisis. As at 31 December 2018, the Bank had EUR 2.7 billion net of borrowings with the ECB (EUR 3.0 billion as at 31 December 2017), EUR 4 billion of which related to the last series of targeted longer-term refinancing operations ("**TLTRO II**"), corresponding to 3.9% of the Bank's liabilities (4.6% as at 31 December 2017) and 14.5% of the total usage of the Portuguese banking system as at 31 December 2018 (13.6% as at 31 December 2017), a level that stands clearly below the maximum value of EUR 17.4 billion recorded in April 2011 and that emphasises the gradual reduction of the Bank's dependency on the liquidity provided by the ECB. The objective of the Bank is to reduce further the use of funding from the ECB through the continuous implementation of various measures to diversify its funding sources, including the issuance of debt instruments in the international wholesale funding markets and the increase in customers funds, which could present a risk of increasing cost of deposits (as at 31 December 2018, customer deposits accounted for 88% of the funding structure).

The pool of eligible assets could be eroded as a result of price devaluations, increase in haircuts following credit and sovereign downgrades or even the loss of eligibility of certain assets, such as those that benefit from temporary measures implemented by the ECB to support liquidity, including the acceptance of additional credits. The reduction of the pool of eligible assets and the increased difficulty in generating or acquiring other eligible assets to compensate for such loss of eligibility would have a negative impact in terms of the potential for raising liquidity with the ECB, may result in the Bank having to find alternative funding sources, which may have a negative impact on the Bank's business, financial condition or results of operations and prospects and may require the Bank to sell some of its assets.

The uncertainty surrounding access to capital markets as a source of funding for the Bank may also harm the ongoing diversification process of its funding sources, leading the Bank to excessive use of funding from the ECB. Increased market risk perception associated with accessing the markets and/or the persistency of the uncertainty surrounding access to the capital markets would exert pressure on the Bank to seek alternative funding sources, to accelerate its capital and liquidity plan and to increase its pool of collateral eligible for funding by the ECB, although there can be no assurances that it would be successful in its efforts to do so. If regulators require a quicker reduction of exposure to the ECB or if there are restrictions to access ECB funding, the Bank may be forced to anticipate the compliance time frame of its capital and liquidity plan, which would likely reduce profitability and hinder the deleveraging process. In addition, in the current economic climate, a review of liquidity conditions by the ECB could force the Bank to dispose of assets at a potentially significant discount in relation to their respective book values, with a corresponding negative impact on capital position and results of operations. Any of the aforementioned could result in a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is exposed to risks associated with the implementation of the ECB's Quantitative Easing.

In order to restore financial stability and fulfil its inflation mandate, in January 2015 the ECB decided to implement a programme of quantitative easing. Under this programme, the ECB purchases debt securities issued by both private and public entities. This measure, which has never been adopted before in the Economic and Monetary Union (the "EMU"), has been crucial to maintaining the yields of Portuguese government bonds at low levels (the average yields of 10-year Portuguese sovereign debt were 1.74% for the first half of 2018, which compares to 3.75% for the year ended 31 December 2014 (source: Thomson Reuters Datastream)).

Therefore, the ECB's Governing Council ("GC") confirmation on 12 December 2018 meeting that its debt purchase programme will be discontinued in January 2019 could have a substantial downward impact on the valuation of the Portuguese government's debt directly, or indirectly via contagion through the loss in value of the public debt securities of other EMU countries, which would in turn hurt banks directly through the investment book and indirectly by affecting the price and availability of the banks' funding in the market and also by potentially lowering the demand for loans from households and corporations.

The discontinuation of the ECB public debt purchase programme may have a material adverse effect on the Bank's business, results of operations, financial condition and prospects.

The Budgetary Treaty may permanently confine economic policymaking, with potential adverse effects on the Bank's operational activity.

On 14 June 2013, the Budgetary Treaty of the EMU was adopted into national legislation (by means of Law No. 37/2013, of 14 June) in order to strengthen fiscal discipline through the introduction of a "balanced budget rule" and an automatic mechanism for corrective action. In particular, the Treaty states that the structural budget deficit in each country must not exceed 0.5% of GDP at market prices. Additionally, fiscal balances of the Member States must comply with specific medium-term objectives, as defined under the Stability and Growth Pact, and must be monitored annually in the context of the EU's annual cycle of economic policy guidance and surveillance. If a Member State deviates from the defined goal, an automatic corrective mechanism would be activated. Member States whose debt exceeds 60% of GDP will be required to adopt measures aimed at reducing their debt to a pre-set rate, taking as a reference standard reduction at an average rate of one twentieth per year (even if their deficits are below 3% of GDP, which constitutes the reference value for the EU).

Given the current magnitude of Portuguese government debt (121.5% of GDP in 2018, according to Bank of Portugal March 2019), these measures will likely impose a long-term limit on the ability of the Portuguese government to stimulate economic growth through increased expenditure or a reduction of the tax burden.

Any limitation on the growth of the Portuguese economy or to the ability of the Portuguese government to stimulate growth, especially during downturns, could have a material adverse effect on the Bank's business, financial condition, results of operations or its prospects. All these factors could contribute to a deterioration of the financial and economic condition of the Bank.

The Portuguese Republic is regularly subject to rating reviews by the rating agencies, which could affect the funding of the economy and the Bank's activity.

Rating agencies Standard & Poor's, Moody's, Fitch Ratings and DBRS have downgraded the long and short-term ratings of the Portuguese Republic on several occasions since the beginning of the financial crisis due to the uncertainties and risks of a prolonged recession, the outlook for modest GDP growth, high levels of unemployment, limited fiscal flexibility, the high leverage of the private sector and the level of sustainability of Portuguese public debt. The long term ratings of the Portuguese Republic as at the date of this Offering Circular were as follows: Moody's (Baa3/Stable), Standard & Poor's (BBB/stable), Fitch Ratings (BBB/Stable) and DBRS (BBB/Positive).

Portuguese Republic credit ratings represent an important component condition to the Bank's own credit ratings given the connection between the rating of the sovereign and the rating of banking institutions in the Rating Agencies methodologies.

Any downgrade in the Portuguese Republic's ratings may contribute to the erosion of the collateral eligible for funding by the ECB, as well as more restrictive access to funding and increased funding costs, would worsen the economy's funding conditions and would have a negative effect on the Bank's credit risk and consequently on its business, financial condition, results of operations and prospects.

A relapse of the sovereign debt crisis of the Eurozone and the uncertainty regarding the integrity of the European Union constitute potential sources of turbulence for the markets that may impact the Bank's activity.

The possibility of another sovereign default, the continuing high levels of public and private debt in several Member States and the uncertainty regarding the robustness of the European financial sector could lead to market turbulence and instability, which could negatively impact the Bank's activity. Additional risks to the stability of the European Union could arise from the negotiations in connection with the United Kingdom's exit from the European Union following the 23 June 2016 referendum (see "*The United Kingdom's impending departure from the European Union could adversely affect the Bank's activity.*"), and from the growing electoral weight of anti-European and Eurosceptic political parties in several Member States, including Italy, where the general elections of early 2018 led to the formation of a government supported by two anti-establishment political parties that may challenge the European fiscal rules or put in jeopardy European-wide policies in the areas of immigration or foreign affairs, from which might stem risks to the stability and even the integrity of the European Union. If any or all these risks were to materialise, it could result in severe pressure on the conditions and financing costs of Portuguese banks (particularly regarding deposits) and asset depreciation, with a significant impact on the net interest margin and results of the Bank, credit impairments and mark-to-market valuation of financial assets.

Moreover, the mere existence of a risk to the integrity of the European Union or the EMU might lead the Bank's customers to reallocate their savings towards other countries that are perceived to be fundamentally more stable than Portugal, thereby posing additional pressure on the financing costs of Portuguese banks and thus adversely affecting the net interest margin and the results of the Bank. Any of the foregoing could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The United Kingdom's impending departure from the European Union could adversely affect the Bank's activity.

On 23 June 2016, the United Kingdom held a referendum on the country's membership of the European Union, according to which the United Kingdom voters elected to leave the European Union ("**Brexit**").

The negotiation process for the exit is ongoing but there is a great amount of uncertainty on the specific terms to be agreed between the negotiating parties. Moreover there is an increasing risk that the United Kingdom and the European Union part ways without any agreement regarding such crucial matters as trade in goods and services, security and immigration cooperation, in which case Brexit could become very problematic for both the United Kingdom and the European Union member-states. If the so-called 'Hard-Brexit' scenario materialises, the implications to the European financial sector could be acute, especially in what concerns access to financial market infrastructures, the ability to perform contractual obligations under the existing contracts, access to funding markets, and the use of UK law in issuances of minimum requirement for own funds and eligible liabilities ("MREL") eligible instruments.

The consequences of Brexit are uncertain with respect to the European Union integration process, the relationship between the United Kingdom and the EU, and the impact on economies and European businesses. Should international trade between the United Kingdom and the Member States become significantly restricted in the future, the Portuguese economy could be adversely affected, given the importance of the United Kingdom as a market for the export of goods, with a 6.3% average share in 2018 (source: Portugal's National Statistics Institute, March 2019) and as a source of tourism, with 19.6% of tourists arriving in Portugal from the United Kingdom in January – December 2018 (source: Portugal's National Statistics Institute, March 2019).

Accordingly, there can be no assurance that the Bank's business, results of operations, financial condition and prospects will not be affected by market developments, notably the depreciation of the exchange rate of GBP against the euro and higher financial market volatility in general due to increased uncertainty of the aforementioned factors.

A material decline in global capital markets and volatility in other markets could adversely affect the activity, results and value of strategic investments of the Bank.

Investment returns are an important part of the Bank's overall profitability, particularly in relation to the life insurance business carried out by the Millenniumbcp Ageas Grupo Segurador, S.G.P.S., S.A. ("Millennium bcp Ageas") joint venture and the Bank's investment banking business.

Uncertainty in global financial markets stemming from the price volatility of capital market instruments may materially and adversely affect the Bank's life insurance business and investment banking operations, impacting its financial operations and other income and the value of its financial holdings and securities portfolios.

In particular, a decline in the global capital markets could have an adverse effect on the sales of many of the Group's products and services, such as unit-linked products, capitalisation insurance, real estate investment funds, asset management services, brokerage, primary market issuances and investment banking operations, and significantly reduce the fees related to them, as well as adversely affect the Bank's business, financial condition, results of operations and prospects. As a minority shareholder of Millennium bcp Ageas, the Bank is at risk of being required to inject capital into the company if its solvency ratio falls below a certain predefined level, which could occur if certain products of Millennium bcp Ageas do not meet a minimum level of return. Furthermore, the prolonged fluctuation of stock and bond market prices or extended volatility or turbulence of markets could lead to the withdrawal of funds from markets by investors, which would result in lower investment rates or in the early redemption of life policies. Any such decrease could negatively influence the placement of the Bank's investment products. Therefore, a decline in the capital markets in general could adversely affect the Bank's business, financial condition, results of operations and prospects.

The Bank also maintains trading and investment positions in debt securities, foreign exchange, equity and other markets. These positions could be adversely affected by volatility in financial and other markets and in Portuguese sovereign debt (EUR 6.6 billion as at 31 December 2018, of which EUR 4 million recorded in "Financial assets at fair value through profit or loss – Held for trading"; EUR 33 million recorded in "Financial assets at fair value through profit or loss – Designated at fair value through profit or loss"; EUR

6,525 million recorded in "Financial assets at fair value through other comprehensive income" and EUR 47 million recorded in "Financial assets at amortised cost – Debt securities"), creating a risk of substantial losses. Potential losses in the Portuguese public debt in December 2018 stand at around EUR 40.6 million. Volatility can also lead to losses relating to a broad range of the other trading and hedging products that the Bank uses, including swaps, futures, options and structured products. Significant reductions in estimated or actual values of the Bank's assets have occurred from previous events in the market. Continued volatility and further fragmentation of certain financial markets may affect the Bank's business, financial condition, operating results and prospects. In the future, these factors may have an influence on day-to-day valuations of the Bank's financial assets and liabilities, recorded at fair value.

Acts of terrorism, natural disasters, pandemics and global conflicts may have a negative impact on the Bank's business and operations.

Acts of terrorism, natural disasters, pandemics, global conflicts or other similar catastrophic events could have a negative impact on the Bank's business, financial condition, results of operations and prospects. Such events could damage the Bank's facilities, disrupt or delay the normal operations of its business (including communications and technology), result in harm or cause travel limitations on the Bank's employees, and have a similar impact on its clients and counterparties. These events could also negatively impact the purchase of the Bank's products and services to the extent that those acts or conflicts result in reduced capital markets activity, lower asset price levels, or disruptions in general economic activity, or in financial market settlement functions. In addition, war, terror attacks, political unrest, global conflicts, the national and global efforts to combat terrorism and other potential military activities and outbreaks of hostilities may negatively impact economic growth, which could have an adverse effect on the Bank's business, results of operations, financial condition and prospects, besides other adverse effects on the Bank in ways that it is unable to predict.

LEGAL AND REGULATORY RISKS

The Bank is subject to complex regulation that could increase regulatory and capital requirements.

The Bank conducts its business in accordance with applicable regulations and is subject to related regulatory risks, including the effects of amendments to laws, regulations and policies applicable in Portugal and in other countries where the Bank operates. As a result of the economic and financial crisis which began in 2007, Portuguese and international regulatory entities, including the ECB, Banco de Portugal and the European Banking Authority (the "EBA"), have implemented significant changes to the Bank's regulatory framework, particularly in relation to capital adequacy and the scope of the Bank's operations. These changes are continuously being updated and revised, adjusting to past experience or to new business trends and other changes may be implemented in the future. Consequently, the Bank could face more intense regulation that could adversely and significantly impact the results of its operations.

The implementation of new regulations may increase capital requirements and could result in additional preparatory work, disclosure needs, restrictions on certain types of transactions, limitations to the Bank's strategy, the need to take strategic actions, which may include raising additional capital, and/or limitations to, or modification of, the Bank's earnings derived from margin, fees, capital gains or other sources of income. Any of the above may reduce the business volume and the yield of the Bank's investments, assets or holdings, which could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The internal risk models that the Bank has implemented are supervised and monitored continuously by the supervisory authorities, with whom the Bank maintains a regular dialogue on the matter. Adjustments to those models, with a view to their better calibration in light of possible context changes, requested by the supervisory authorities or as a result of the Bank's initiative, or related to new regulation implementation may have an impact on the amount of risk weighted assets ("RWA"), and, consequently, affect the capital ratios of the Bank.

For further details regarding the rules related to the implementation of Basel III and Directive 2013/36/EU of the European Parliament and of the Council, of 26 June 2013, as amended ("**CRD IV**") and Regulation (EU) No. 575/2013 of the European Parliament and of the Council, of 26 June 2013, as amended ("**CRR**" and together with CRD IV, "**CRD IV/CRR**"), please see "*Description of the Business of the Group – Recent developments on the banking regulation*".

If the Bank's capital ratios fall below the thresholds specified or guided by the relevant regulatory entities (including pursuant to the Supervisory Review and Evaluation Process ("**SREP**"), the Bank may need to adopt additional measures to strengthen its capital ratios (including at unfavourable terms), such as an acceleration of deleveraging, the reduction of RWA, divestments and other measures that may include rights issues. Furthermore, any additional capital adequacy requirements imposed on the Bank may result in the need to increase its capital buffers in order to fulfil more demanding capital ratio requirements, thereby increasing the costs to the Bank and reducing the return on equity. Any of the aforementioned situations could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

During the SREP, the supervisor not only defines banks' capital requirements (e.g. Pillar 2 capital requirements ("**P2R**") and Pillar 2 capital guidance ("**P2G**")), but may also decide to impose additional measures on banks, including liquidity and qualitative measures. See further "*Description of the Business of the Group – Recent developments on the banking regulation*".

If a bank does not meet P2G, this may not result in an automatic action by the supervisor and will not be used to determine the Maximum Distributable Amount ("**MDA**") trigger, but it may be subject to additional measures adjusted to the individual situation of the bank.

The final measures to be adopted will be assessed, on a case-by-case basis, by the Supervisory Board of the ECB.

Regarding regulatory liquidity requirements, changes to liquidity ratios or their composition could require the Bank to obtain additional liquidity in the future that may adversely affect the Bank's financial condition. See further "*Description of the Business of the Group – Recent developments on the banking regulation*".

Basel III recommendations provide for the setting of short and long term liquidity ratios and funding, namely the "Liquidity Coverage Ratio" ("**LCR**") and the "Net Stable Funding Ratio" ("**NSFR**") (see further "*Description of the Business of the Group – Recent Developments on the banking regulation*"). As the remuneration of financial assets is generally inversely correlated with their liquidity and risk assessment, the compliance with these ratios by the Bank may lead to the need to strengthen or create a portfolio of highly liquid but low-yielding assets and/or to increased funding costs, since the method for calculating these ratios favours long-term over short-term funding (which usually imply higher yields) which may therefore adversely impact the Bank's business, financial condition, results of operations and prospects.

A binding minimum standard LCR was introduced into European Union legislation through CRR and delegated regulations and has been applicable since October 2015. In November 2016, the European Commission published a legislative proposal, which contained key elements amending CRD IV/CRR and aimed to implement important Basel standards, namely to introduce a harmonised binding NSFR. On 14 February 2019, the European Union ambassadors endorsed the full package of risk reduction measures. On 16 April 2019, the European Parliament endorsed the provisional agreement reached, at the beginning of December 2018, during the political trilogues, between the European Union Member States. The legislative texts still need to be formally adopted by the Council of the European Union.

The leverage ratio has been introduced under Basel III and the CRD IV/CRR as a complementary tool to the existing risk-based capital adequacy requirements. In November 2016, the European Commission published a legislative proposal endorsing a minimum 3% Tier 1 Leverage Ratio for all European Union entities within the scope of the CRR. On 14 February 2019, the European Union ambassadors endorsed the full package of risk reduction measures. On 16 April 2019, the European Parliament endorsed the provisional agreement reached, at the beginning of December 2018, during the political trilogues, between

the European Union Member States. The legislative texts still need to be formally adopted by the Council of the European Union. See further "*Description of the Business of the Group – Recent developments on the banking regulation*".

In December 2017, the Basel Committee published the revisions to the Basel III framework. Please see "*Description of the Business of the Group – Recent developments on the banking regulation*" for further details on this framework.

Although the process is close to being concluded, there are still some uncertainties regarding the banking reform package proposed by the European Commission in November 2016 and the implementation of Basel III and its transposition into European Union law and regulations, given the process of revision of some of the measures and procedures, including the development process of redefinition of materiality of sovereign risk. The revision of the regulatory framework and its adoption at European Union level, comprising any adjustments thereof, could imply equity changes and the need to reconfigure the Bank's asset and liability structure, which may in turn adversely impact the Bank's business, financial condition, results of operations and prospects.

A global systemically important institution ("**G-SII**") could face additional requirements. Although it is currently not anticipated that Portuguese banks may be classified as G-SIIs, there is no assurance that this will not change in the future. The Bank is currently classified as an "other systemically important institution" ("**O-SII**"), and as such it is subject to concurrent additional capital requirements, which could increase and lead to lower returns on equity.

The Banking Union may impose additional regulatory requirements that may impact the Bank's results.

In an effort to harmonise the regulation and supervision of banking activities across the European Union and especially in the Eurozone, the European Commission established a new common regulation (Single Rule Book) and supervisory architecture. The Banking Union comprises the Single Supervisory Mechanism ("**SSM**"), the Single Resolution Mechanism ("**SRM**") and the European Deposits Insurance Scheme ("**EDIS**"). See further "*Description of the Business of the Group – Recent developments on the banking regulation*".

The regulatory framework under the Banking Union and future modifications to it may result in or require changes to the strategic positioning of financial institutions, including their business model and risk exposure, and could result in additional costs in order to ensure compliance with the new requirements. Therefore, the new regulatory regime, even if gradually implemented until the beginning of the next decade may potentially restrict the Bank's ability to comply with its financial undertakings regarding debt and equity instruments.

Single Supervisory Mechanism

The Banking Union assigned the role of direct banking supervisor to the ECB to ensure that the largest banks in Europe, including the Bank, are independently supervised under common rules (see "*Description of the Business of the Group – Recent developments on the banking regulation*"). The Bank is currently in compliance with SREP requirements (see "*Description of the Business of the Group – Recent developments on the banking regulation*"). Even though the Bank considers that its current and expected levels of capital and liquidity are adequate, these requirements may change in the future which could have an impact on the Bank's capital and liquidity needs and adversely affect the Bank's business, financial condition, results of operations and prospects.

A change in the prudential supervision framework may:

- (a) impose additional capitalisation demands on the Bank, in particular if the ECB requires the reclassification of assets and/or a revision of coverage levels for impairment, which could result in the Bank being subject to additional capital requirements, or to any future stress tests; and

- (b) given the classification of the Bank as an O-SII, lead to higher combined capital buffer requirements.

If, following a capital requirement exercise, such as a stress test, capital quality or risk management assurance exercise or equivalent exercise, a capital deficit is identified, it could adversely affect the cost of funding for the Bank and have a materially adverse impact on its business, financial condition, results of operations and prospects. See further "*The results of additional stress tests could result in a need to increase capital or a loss of public confidence in the Group*".

Any of the situations described above could adversely impact the Bank's business, financial condition, results of operations and prospects.

Single Resolution Mechanism, the Resolution Fund and the sale of Novo Banco

Directive 2014/59/EU of the European Parliament and of the Council, of 15 May 2014, as amended ("**BRRD**") establishes a framework for the recovery and resolution of credit institutions and investment companies. Implementation of the BRRD into Portuguese law was completed by Law No. 23-A/2015, of 26 March, encompassing several changes to Decree-Law no. 298/92, of 31 December (*Regime Geral das Instituições de Crédito e Sociedades Financeiras*) (as amended from time to time, the "**Banking Law**") (see "*Description of the Business of the Group – Recent developments on the banking regulation*").

The Banking Union's framework is also designed to minimise the impact of any particular bank's financial difficulties on the financial system and on taxpayers. Under the envisaged SRM, shareholders of the institution would be the first to bear losses, followed by lenders (including the holders of the Notes).

Guaranteed deposits are expected to be safeguarded and creditors should not bear losses greater than those that they would have suffered had the institution been liquidated under ordinary insolvency proceedings. The BRRD contemplates that capital instruments (such as the Notes) may be subject to non-viability loss absorption, in addition to the application of the general bail-in tool. As such, the use of resolution tools and powers provided for by the Banking Union may disrupt the rights of shareholders and creditors. In particular, the power of the authorities to transfer the shares or all or part of the assets of an institution to a private purchaser without the consent of shareholders affects the property rights of shareholders. In addition, the power to decide which liabilities to transfer out of a failing institution based upon the objectives of ensuring the continuity of services and avoiding adverse effects on financial stability may affect the equal treatment of creditors.

To avoid having institutions structuring their liabilities in a way that impedes the effectiveness of the bail-in or other resolution tools and to avoid the risk of contagion or a bank run, the BRRD requires that institutions meet a robust MREL at all times. See "*Description of the Business of the Group – Recent developments on the banking regulation*".

For each of the components of the MREL, the resolution authority may consider upward or downward adjustments, on the basis of a thorough case-by-case analysis of financial information, supervisory data and resolution strategies. In order to meet MREL requirements, the Bank may need to issue MREL-eligible instruments, impacting its funding structure and financing costs. See "*Description of the Business of the Group – Trends Information*" for more information on MREL requirements applicable to the Issuer. Such mechanisms and procedures, besides having the capacity to restrain the Bank's strategy, could increase the average cost of the Bank's liabilities, in particular, without limitation, the cost of Additional Tier 1, Tier 2 instruments and other MREL eligible instruments thus negatively affect the Bank's earnings. These instruments may also result in a potential dilution of the percentage of ownership of existing shareholders, given their potential convertibility features under application of a resolution or other measure or in accordance with their terms.

The SRM and the Single Resolution Fund (the "**SRF**") are regulated by Regulation (EU) No. 806/2014 of the European Parliament and of the Council, of 15 July 2014 ("**SRM Regulation**"), which also established the framework for recovery and resolution of credit institutions and the calculation method of the annual

contributions for the funding of the resolution mechanism (see "*Description of the Business of the Group – Recent developments on the banking regulation*"). The SRF provides for the financial support to the application of resolution measures.

The Portuguese resolution fund (*Fundo de Resolução*) (the "**Resolution Fund**") (see "*Description of the Business of the Group – Recent developments on the banking regulation*") provides for the financial support for the application of resolution measures taken by Banco de Portugal prior to the end of 2015. The financial resources of the Resolution Fund result essentially from the initial and periodical contributions paid by member institutions, the proceeds from the bank levy, created by Law no. 55-A/2010, of 31 December, and the returns on the investment of the financial means. According to a clarification by Banco de Portugal, potential contributions from the banks participating in the Resolution Fund will only be recorded when they are due and paid and the contribution to the Resolution Fund should only be recognised as a cost in the year in which it is due and the payment occurs. In addition, public announcements, both by the Resolution Fund and by the Portuguese government, indicate that no special contribution is foreseen and that it will not be necessary to recognise a liability in advance.

Pursuant to the decision by Banco de Portugal on 3 August 2014 to apply to Banco Espírito Santo, S.A ("**BES**") a resolution measure consisting in the transfer of most of its business to a bridge bank - Novo Banco, S.A ("**Novo Banco**") - the Resolution Fund participated in the recapitalisation of Novo Banco in the amount of EUR 4.9 billion. The Resolution Fund owned in full all of Novo Banco's initial equity, valued at EUR 4.9 billion as at 31 December 2015 (of which EUR 3.9 billion from a loan granted by the Portuguese State, EUR 700 million from a loan granted by a group of credit institutions that are members of the Resolution Fund (including the Bank), and the remaining amount from the mobilisation of resources available to the Resolution Fund).

On 1 September 2017, after having conveyed reservations regarding the contingent capitalisation obligation by the Resolution Fund to be included in a sale agreement of Novo Banco, within the relevant legal deadline and as a precaution, BCP announced its decision to start administrative legal proceedings with a view that it was subject to judicial review.

This process, which was centred exclusively on the capitalisation obligation referred to above, did not result in the suspension of the sale of Novo Banco, which was completed on 18 October 2017.

On 18 October 2017, according to a press release of Banco de Portugal, and following the resolution of the Council of Ministers No. 151-A/2017, of 2 October, Banco de Portugal and the Resolution Fund concluded the sale of Novo Banco to Lone Star, with an injection by the new shareholder of EUR 750 million, followed by a further injection of EUR 250 million by the end of 2017.

As of this date, Novo Banco is held by Lone Star and the Resolution Fund, holding respectively 75% and 25% of its share capital.

On 26 February 2018, the European Commission published the non-confidential version of its decision regarding the approval of the state aid underlying Novo Banco's sale process. This statement identifies the three support measures by the Resolution Fund and the Portuguese State that are part of the sale agreement associated with a total gross book value of around EUR 10-20 billion⁶, which revealed significant uncertainties as regards adequacy in provisioning^{7 8}, namely:

- (a) A Contingent Capital Agreement ("**CCA**") which allows Lone Star to reclaim, from the Resolution Fund, funding costs, realised losses and provisions related to an ex-ante agreed portfolio of existing loan stock subject to a capital ratio trigger and some additional conditions.

⁶ Exact value not disclosed by the EC for confidentiality reasons.

⁷ As referred to in the relevant EC's decision.

⁸ According to 2018 Novo Banco's earnings institutional presentation, the minimum capital contribution is (i) CET1 or Tier 1 < CET1 or Tier 1 SREP requirement plus a buffer for the first years (2017-2019), (ii) CET1 <12%.

The amount that can be reclaimed under the CCA is subject to the CCA cap of EUR 3.89 billion.⁹

- (b) Underwriting by the Resolution Fund of a Tier 2 instrument to be issued by Novo Banco up to the amount necessary (but no more than EUR 400 million). This underwriting did not take place as the instruments were placed with third party investors as disclosed by Novo Banco on 29 July 2018.
- (c) In case the SREP total capital ratio of Novo Banco falls below the SREP total capital requirement, the Portuguese State will provide additional capital in certain conditions and through different instruments.

The European Commission considers that the above measures are structured in such a way that any money reclaimed, i.e. not used under the underwriting guarantee can be reused as capital guarantee under the CCA. In total, the amount of aid contained in the 2017 measures is up to EUR 4.29 billion of capital support plus the amount necessary to ensure solvency in the EC's adverse scenario.

On 28 March 2018, following the disclosure of the 2017 annual results by Novo Banco, the Resolution Fund made a communication on the activation of the CCA totalling EUR 792 million.

On 24 May 2018, the Resolution Fund communicated having disbursed to Novo Banco the abovementioned funds, of which EUR 430 million were from a loan from the Portuguese State and the remaining amount were from the Resolution Fund's own resources.

In its 2018 annual results press release, Novo Banco states that in connection with the impact of losses related to the sale and write-downs of legacy assets, Novo Banco will request a compensation of EUR 1,149 million under the existing CCA. 69% of this amount results from the losses incurred on the assets included in the CCA and 31% due to regulatory requirements for capital increase in the adjustment of the transitional period of capital ratios and to the impact of IFRS 9. For 2017 and 2018, Novo Banco will have received a total of EUR 1.9 billion out of the maximum of EUR 3.89 billion defined under the CCA.

On 1 March 2019, the Resolution Fund stated that the amount to be paid by the Resolution Fund in 2019 to Novo Banco under the CCA will be carried out after the legal certification of Novo Banco's accounts and following a verification procedure by an independent entity, to ascertain that the amount to be paid by the Fund has been correctly accounted for.

According to publicly available information, the volume of litigation associated with the BES resolution process is high. The losses that the Resolution Fund may incur as a result of any such uncertainties (including, inter alia, litigation associated with the sale of Novo Banco and, in particular, the above-mentioned contingent capitalisation mechanism) have not been clearly quantified and, therefore, it is not possible as at this date to quantify the impact that the resolution of BES may have on the Bank.

In the event of a shortage of funds, a negative financial impact, of an uncertain nature, on the Resolution Fund and, indirectly, on the Portuguese banking sector, could occur. The definition of the financing structure of a possible shortage (in terms of type of contribution, its distribution in time and any recourse to temporary loans) will depend on the amount of such hypothetical shortage.

According to Article 5(e) of the Regulation of the Resolution Fund, approved by the Ministerial Order (*Portaria*) No. 420/2012, of 21 December, the Resolution Fund may submit to the Government a proposal for the implementation of special contributions to rebalance the financial condition of the Resolution Fund. According to public communications from both the Resolution Fund and from the Government, there is no indication that any such special contributions are foreseen.

⁹ Exact value not disclosed by the EC for confidentiality reasons. As referred to in the relevant EC's decision.

According to Article 153-I (4) of the Banking Law, if the payment of those special contributions compromises the Bank's liquidity or its solvency, Banco de Portugal can suspend them for a period of up to 180 days, extendable at the request of the Bank. The Resolution Fund also publicly indicated that the financing will be structured in such a manner as to not only avoid jeopardising the solvency of any bank but also to preserve financial stability. Furthermore, the Commission Delegated Regulation (EU) 2016/778 of 2 February 2016, supplementing the BRRD, stipulates the circumstances and conditions under which the payment of extraordinary ex-post contributions may be partially or entirely deferred.

The impact of the above is uncertain and the Bank can give no assurance that the current understanding/framework and related contributions will not be changed in the future (i.e. that recourse to special contributions may occur) thus negatively impacting BCP's financial condition, including a negative impact on net income, capital ratios, earnings and long-term targets.

Under Article 153-O of the Banking Law, the Resolution Fund may be required to finance the implementation of the resolution measures applied by Banco de Portugal and the resulting general and administrative expenses. At the present date, there is no reliable estimate of the potential losses to be incurred by the Resolution Fund, notably those that have been publicly mentioned as potentially applicable arising from (i) the sale of Novo Banco (including, without limitation, the contingent capitalisation mechanism), (ii) the litigation relating to the BES resolution process including in respect of the so-called "*lesados do BES*" proceedings and the attempts to find a solution for such proceedings, (iii) the resolution process of BANIF and related expenses, and (iv) the amount and timing of the Bank's contributions to the Resolution Fund and the reimbursement of the loans granted by the Bank to the Resolution Fund. Thus, the impact of the BES and BANIF resolution processes on the Bank, which participates in the Resolution Fund, could depend on external factors not controlled by the Bank, including the proceeds from the Resolution Fund assets, the future funding needs and contingent liabilities of the Resolution Fund including, without limitation, those related to the sale of Novo Banco to Lone Star.

The Ministry of Finance has stated that there will be no need to levy extraordinary contributions to finance the Resolution Fund as it will continue to be financed over the coming years by the periodical contributions and the proceeds from the levy on the banking sector. However, there can be no assurance that in the future Banco de Portugal will maintain the current base rate used for calculating the periodical contribution. Increases in the base rate in future years may reduce the Bank's profitability. See "*Description of the Business of the Group – Recent developments on the banking regulation*".

This situation has been disclosed in the financial statements of the Bank as a contingent liability, with no impacts recorded on the financials or capital ratios of the Bank. There can be no assurance that such accounting treatment will be maintained in the future, and as such there is no guarantee that the Bank's business, financial condition, results of operations, prospects and capital ratios will not be affected by the factors described above.

Decree-Law No. 31-A/2012, of 10 February, which amended the Banking Law, also introduced, on terms subsequently amended by Law No. 23-A/2015, of 26 March (as further amended by Law No. 66/2015, of 6 July), the creation of the privileges accorded to claims associated with loans backed-up by deposits under the Deposit Guarantee Fund ("**DGF**"), as well as credit secured by the DGF, the Integrated Mutual Agricultural Scheme (which, in Portugal, is formed by the Central Mutual Agricultural Bank (*Caixa Central de Crédito Agrícola Mútua*) and its associated banks) ("**SICAM**") or the Resolution Fund, arising from the potential financial support that these institutions might give in the context of the implementation of resolution measures, in each case within the limits of the applicable laws.

Although these measures contribute to the flexibility of regulators to intervene and help reduce systemic risk in the restructuring and resolution process, subject to legal and adequacy criteria, the effective implementation of the regulations may result in an increase in costs and/or in losses that could adversely impact the Bank's business, financial condition, results of operations and prospects.

In 2017, the periodical contributions paid by the Bank to the Resolution Fund (regular contribution and bank's levy) corresponded to approximately 18% of the total periodical contributions paid by the Portuguese banking sector. The amount of the periodical contribution is calculated every year pursuant to Notice 1/2013 of Banco de Portugal, as amended by Notices 8/2014 and 14/2014, using a base rate which is published by Banco de Portugal after consulting with the Resolution Fund and the Portuguese Banking Association (**Associação Portuguesa de Bancos**). There can be no assurance that in the future Banco de Portugal will maintain the current base rate (which is 0.057% for the periodical contribution of 2019). Increases in the base rate in future years may reduce the Bank's profitability. See "*Description of the Business of the Group - Recent developments on the banking regulation*".

In 2015, following the establishment of the SRF, the Group had to make an initial contribution in the amount of EUR 31,364 thousand. In accordance with the Intergovernmental Agreement, on the transfer and mutualisation of contributions to the SRF, this amount was not transferred to the SRF but was used instead to partially cover for the disbursements made by the Resolution Fund in respect of the resolution measures prior to the date of application of such Agreement. This amount will have to be reinstated over a period of 8 years (starting in 2016) through the periodic contributions to the SRF. The total amount of the contribution in 2018 attributable to the Group was EUR 24,922 thousand, of which the Group delivered EUR 21,185 thousand and the remaining was constituted as irrevocable payment commitment. The SRF does not cover undergoing situations with the Resolution Fund as at 31 December 2015.

European Deposit Insurance Scheme ("EDIS")

The establishment of EDIS is contingent on certain political decisions, in particular as to whether it should be a system based on the reinsurance between the several national deposit guarantee funds or a mutualisation mechanism at the European level. The decision and implementation processes of the guarantee scheme may have material adverse effects on the Bank's business activity, liquidity, financial condition, results of operations and prospects.

The harmonisation of the deposit guarantee system, through Directive 2014/49/EU of the European Parliament and of the Council, of 16 April 2014, concerning the deposit guarantee systems, resulted in some significant changes to the systems currently in force in each of the Member States, including Portugal. The changes contemplate the introduction of size and risk based contributions by entity and harmonisation of products and depositors covered, maintaining, however, the principle of a harmonised limit per depositor and not per deposit.

According to the BRRD, and consequently the Banking Law, with the amendments of Law No.23-A/2015, of 26 March, banks must ensure that by 3 July 2024, the financial resources available to a deposit guarantee scheme ("**DGS**") amount to a target-level of 0.8% of the amount of DGF-covered deposits.

If, after this target level is reached for the first time, the available financial resources come to be less than two thirds of the target level, Banco de Portugal will set the periodic contributions at a level that allows the target level to be reached within six years. If the available financial resources are not sufficient to reimburse the depositors, in the event of unavailability of deposits, DGS members must pay ex-post contributions not exceeding 0.5% of the DGF-covered deposits for the exercise period of the DGF. In exceptional circumstances, the DGS can request a higher amount of contribution with the approval of Banco de Portugal.

The exemption from the immediate payment of ex-ante contributions shall not exceed 30% of the total amount of contributions raised. This possibility depends on the credit institutions undertaking irrevocable payment commitments, to pay part of or the whole amount of the contribution which has not been paid in cash to the DGF, that are fully backed by collateral composed of low-risk assets unencumbered by any third-party rights and partly or wholly pledged in favour of the DGF at the DGF's request.

The additional indirect costs of the deposit guarantee systems may be significant and can consist of costs associated with the provision of detailed information to clients about products, costs of compliance with specific regulations on advertising for deposits or other products similar to deposits. They can therefore

affect the activity of the relevant banks and consequently their business activities, financial condition, results of operations and prospects.

As a result of these developments, the Bank may incur additional costs and liabilities which may adversely affect the Bank's business, operating results, financial condition and prospects.

The Bank may be unable to issue certain own funds and eligible liability instruments and therefore be either unable to meet its capital requirements/MREL or is required to meet its capital requirements/MREL through more costly instruments.

The Bank can issue Additional Tier 1 or Tier 2 instruments to meet its minimum total capital ratio requirement or other regulatory eligible instruments to meet the minimum requirement for MREL. However, the aforementioned instruments might be viewed by investors as riskier than other debt instruments, primarily due to the risk of capital losses, missed coupon payments, insufficient maximum distributable amount buffer, conversion into capital instruments and lack of available distributable items. As a result, investor appetite for these instruments may decline in the future, which could render the Bank unable to place them in the market. In this case, the Bank would have to issue CET 1 capital to meet the mentioned regulatory requirements or issue Additional Tier 1, Tier 2 or other regulatory eligible instruments that would entail an associated coupon expense which may have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

Directive (EU) 2017/2399 of the European Parliament and of the Council of 12 December 2017 amending directive 2014/59/EU regarding the ranking of unsecured debt instruments in insolvency hierarchy was transposed into the Portuguese legal framework by Law No. 23/2019 of 13 March that, in addition to the governing of the position of the unsecured debt instruments in the insolvency hierarchy, providing greater legal certainty to the issuance of non-preferred debt, also confers a preferential claim to all deposits *vis-a-vis* senior debt.

The resolutions adopted by the EC regarding financial services and products in the context of disclosure compliance and investor protection and changes in consumer protection laws may limit the business approach and fees that the Bank can charge in certain banking transactions.

Several European Commission initiatives regarding financial services and products have recently been transposed/implemented, including:

- (a) Directive 2014/65/EU of the European Parliament and of the Council, of 15 May 2014, as amended, and Regulation (EU) No. 600/2014 of the European Parliament and of the Council, of 15 May 2014, relating to markets in financial instruments, known as the Markets in Financial Instruments Directive II (“**MiFID II**”)/Markets in Financial Instruments Regulation (“**MiFIR**”) (together, “**MiFID II/MiFIR**”), have been transposed into the national legal framework by Law 35/2018, of 20 July 2018, and is already in force with some additional related regulations pending;
- (b) Regulation (EU) No. 1286/2014 of the European Parliament and of the Council, of 26 November 2014, relating to packaged retail and insurance-based investment products, complemented by Delegated Regulation (EU) No. 653/2017 of the Commission, of 8 March 2017 (“**PRIIPs**”), which applies from 1 January 2018. On 4 January 2018, the CMVM issued a "Circular" regarding PRIIPs subject to the CMVM's supervision, outlining further applicable requirements and Law 35/2018, of 20 July 2018 introduced the legal framework for PRIIPs in Portugal, and
- (c) The European Market Infrastructure Regulation, Regulation (EU) No. 648/2012 of the European Parliament and of the Council, of 4 July 2012 (“**EMIR**”), as amended, that sets out procedures regarding OTC markets and derivatives, namely on clearing.

The European Union General Data Protection Regulation, approved by the Regulation (EU) 2016/679 of the European Parliament and of the Council, of 27 April of 2016 (“**GDPR**”), replaces the Data Protection

Directive 95/46/EC and was designed to harmonise data privacy laws across Europe, to protect and empower all European Union citizens' data privacy and to reshape the way organisations across the region approach data privacy.

These diplomas aim to create more efficient, transparent and safe markets, improving investors' protection and data privacy and intend to effect changes on transparency requirements for a broad category of assets, derivative contracts and requirements relating to high frequency trading and algorithmic trading and other regulatory tools associated with commodity derivatives. They also seek to limit the use of commissions, the rules for independent investment advice, the requirements for the production and distribution of new products and the intervention skills associated with the level of products and disclosure of burden and costs. Compliance with these obligations entails increased operational and financial costs for the Bank and may also affect the provision of financial services to customers, and therefore impact on the Bank's overall results.

Changes in consumer protection laws in Portugal and other jurisdictions where the Bank has operations could limit the fees that banks may charge for certain products and services, such as mortgages, unsecured loans, credit cards and fund transfers and remittances.

Further to regulations mentioned above, some legislative initiatives in Portugal are currently being examined and in the process of being implemented, including the creation of free of charge "basic bank accounts".

The implementation of these legal initiatives could affect the regular functioning of the market and significantly impact the Bank's business, financial condition, net income and prospects.

The Bank is subject to obligations and costs resulting from the legal and regulatory framework related to the prevention, mitigation and monitoring of asset quality.

Several regulatory and legislative initiatives have been and continue to be put in place to address asset quality issues, with particular focus on the non-performing exposures ("NPEs") and/or non-performing loans ("NPLs") as authorities highlight credit risk and heightened levels of NPLs as key risks facing euro area banks.

In 2013, the EBA issued a recommendation to Competent Authorities ("CAs") to perform asset quality reviews for banks, based on newly harmonised definitions of NPLs (complemented by EBA Report on the dynamics and drivers of non-performing exposures in the European Union banking sector dated 22 July 2016). In 2014, CAs carried out comprehensive assessment and a stress test. EBA's Implementing Technical Standards ("ITS") on forbearance and NPEs, issued under Commission Implementing Regulation (EU) 2015/227, of 9 January 2015, aim at implementing uniform definitions and reporting requirements for forbearance and NPEs. The ECB has issued in March 2017 Guidance on SSM bank's on NPLs supplemented a year later by an addendum specifying ECB's expectations for prudent levels of provisions for new NPLs.

In July 2017, the European Council concluded an Action Plan¹⁰ to achieve a sustainable reduction of NPEs in credit institutions' balance sheets, comprising: (i) supervisory actions to work with banks to improve strategies to reduce NPEs; (ii) measures to improve the functioning of the secondary market; (iii) structural measures to improve the environment for reducing NPEs; and (iv) fostering restructuring of the banking system. Within this Action Plan, the European Commission was mandated to consider, within the framework of the ongoing review of the CRD IV/CRR, prudential backstops addressing potential under-provisioning which would apply to newly originated loans, that could take the shape of compulsory prudential deductions from own funds of the non-covered part of the NPL, and EBA to issue general guidelines on NPL management, on banks' loan origination, monitoring and internal governance. Macro-prudential approaches to prevent the emergence of system-wide NPL problems are also envisaged in the

¹⁰ Council conclusions on Action Plan to tackle non-performing loans in Europe, Council of the European Union, 11 July 2017.

Plan, alongside enhanced reporting procedures/disclosure to markets as well as structural reforms of Member States' insolvency and debt recovery frameworks. On 31 October 2018, the EBA published the final guidance on management of non-performing and forborne exposures. These guidelines specify sound risk management practices for credit institutions in their management of NPEs and forborne exposures, including requirements on NPE reduction strategies, governance and operations of NPE workout framework, internal control framework and monitoring.

The regulation amending the CRR to introduce common minimum coverage levels for potential losses stemming from newly originated loans that become nonperforming has been published in Official Journal on 17 April 2019 (Regulation (EU) 2019/630 of the European Parliament and of the Council of 17 April 2019 amending Regulation (EU) no 575/2013). This regulation establishes a requirement for credit institutions to build their loan loss reserve up to common minimum levels to cover the incurred and expected losses on newly originated loans that become non-performing. Where the minimum coverage requirement is not met, the difference between the actual coverage level and the requirement should be deducted from a bank's own funds (CET1). The new rules should not be applied in relation to exposures originated prior to 26 April 2019. A proposal for a directive on credit servicers, credit purchasers and recovery of collateral was also included in the comprehensive package of measures to be tackled by the Commission. The proposal strengthens the ability of secured creditors to recover value from secured loans to corporates and entrepreneurs. The review by the Parliament and Council's Working Party is ongoing.

As macroprudential authority for Portugal, Banco de Portugal has approved a recommendation introducing limits to some of the criteria used in the assessment of customers' creditworthiness, covering the granting of new credit relating to residential immovable property, credit secured by a mortgage or equivalent guarantee, and consumer credit agreements, to be applied to agreements concluded as of 1 July 2018. Measures of similar nature are also in place in Poland. In September 2017, Banco de Portugal Notice No. 4/2017 that entered into force on 1 January 2018, established procedures and criteria for banks for assessing customer's financial capacity before granting mortgage loans.

This legal and regulatory framework creates an assortment of obligations for credit institutions and sets forth protection measures for bank customers, including, procedures for gathering information, contacting customers, monitoring the execution of loan agreements and managing default risk situations; the duty to assess the financial capacity of bank customers and present default correction proposals adapted to the debtor's situation; and drawing up a plan for restructuring debts emerging from home loans or replacing mortgage foreclosures that in some cases of extra-judicial procedures may restrict the Bank's options to (i) terminate the relevant agreements; (ii) initiate judicial proceedings against the debtor; (iii) assign its credits over the client; or (iv) transfer its contractual position to a third party.

The implementation of these legislative measures, as well as any potential additional regulatory or self-regulation measures, could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

In the past few years, the Bank's approach to deal with its high NPL ratio has included:

- the strengthening of the monitoring of credit quality;
- the implementation and development of new assessment models;
- new internal regulations and recovery models; and
- improvement of the risk management governance model.

In addition, and in compliance with the ECB's banking supervision, the Bank has been implementing a NPE reduction plan. The Bank's 2021 strategic plan envisages a reduction of approximately 45% from 2018 of the NPE stock to near EUR 3,000 million by 2021. The NPE strategy and reduction plan are globally aligned with the ECB's draft guidance to banks on NPLs, which addresses the main aspects of the

strategy, governance and operations relating to an efficient disposal of NPLs, but adjustments and recommendations can follow from the regular monitoring performed by the supervisor.

The Bank's NPE reduction plan builds on the following main lines of action:

- NPE sale strategy, with a low expected impact on own funds (EL./Impairment GAP) and capital;
- reduction strategy for the top 200 exposures and regular monitoring of the implemented strategy;
- review the *deed in lieu* policy, focus on out-of-court solutions to accelerate the resolution of mortgage loans; and
- approaches for preventing loans evolving into NPE and consistency of application of criteria.

BCP's NPE reduction plan is closely monitored by the ECB. Further requirements imposed by the ECB may arise from the follow-up discussions and new regulations on the matter. This could adversely and significantly impact the Bank's business, results of operations, financial condition, including capital position, and prospects.

Changes to tax legislation, regulations, higher taxes or lower tax benefits could have an adverse effect on the Bank's activity. Implementation of legislation relating to taxation of the financial sector could have a material adverse effect on the Bank's results of operations.

The Bank might be adversely affected by changes in the tax legislation and other regulations applicable in Portugal, the European Union and other countries in which it operates, as well as by changes in the interpretation of legislation and regulation by the competent Tax Authorities. In addition, the Bank might be adversely affected by difficulties in the interpretation of or compliance with new tax laws and regulations. The materialisation of these risks may have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The various measures approved by the Portuguese Republic to ensure budgetary consolidation, stimulate the economy and support the banking system have led to a considerable increase of public debt levels. In the context of low growth, the need to restore the balance of public finances in the medium term led to increased tax costs through the expansion of the tax base, the increase in tax rates and/or reduction of tax benefits, as well as the increase in restrictions on tax planning practices, which may directly affect the Bank's net income. Moreover, changes in legislation may require the Bank to bear additional costs associated with participation in financial stabilisation mechanisms and resolution funds at a national and European level.

For example, under Law No. 55-A/2010, of 31 December, and Ministerial Order (*Portaria*) No. 121/2011, of 30 March, as amended, a bank levy is applicable to the Bank (EUR 28 million in 2017 and EUR 30.4 million in 2018) and will be applied over (a) the Bank's liabilities at a tax rate of 0.11% and (b) the notional amount of off-balance sheet financial derivatives, excluding hedging derivatives and back-to-back derivatives, at a tax rate of 0.0003%. The taxable base is calculated by reference to an annual average of the monthly balances of the qualifying items, as reflected in the relevant year's approved accounts.

Additionally, on 14 February 2013 the European Commission published its proposal for a Council Directive for enhanced co-operation in the form of a financial transaction tax ("**FTT**"), of which Portugal would be a member.

There can be no assurance that an FTT or similar additional bank taxes and national financial transaction taxes will not be adopted, at any moment, by the authorities of the jurisdictions where the Bank operates.

Any such additional levies and taxes could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank also has ongoing ordinary course disputes with the Tax Authorities and, although it considers the provisions it has made regarding these disputes to be adequate to cover the risk of judgements against the Bank it is unable to ensure their sufficiency or the outcome of such disputes.

The new regulatory framework for insurance companies may negatively impact the Bank's operations.

The Bank has a partnership agreement with an insurance company for the placement of insurance products through the commercial distribution networks of the Bank, being remunerated for insurance intermediation services ("**bank assurance activity**"), and the Bank holds a 49% stake in Millennium bcp Ageas. Measures, regulations and laws affecting the insurance business may impact on the Bank's business, financial condition, net income and prospects, directly, through commission's income, or indirectly, through the change of valuation of the equity stake.

Directive (EU) 2016/97, as amended (the "**Insurance Distribution Directive**") regulates the way insurance products are designed and sold both by insurance intermediaries and directly by insurance undertakings, namely in the cases of insurance products that have an investment element such as unit-linked life insurance contracts. The Insurance Distribution Directive was transposed into national law by Law No. 7/2019, of 16 January, and has entered into force in October 2018. Similar in nature provisions are also embedded in the PRIIPs Regulation (Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014) and implementing national provisions which entered into force in 2018. At a different level, the Solvency II in force (as amended) and IFRS 17 to be applied from 2020 onwards, introduce additional requirements for insurance companies in terms of minimum capital requirements, supervisory review of firms' assessment of risk and enhanced disclosure requirements. All these may affect the insurance business and associated earnings. Further regulatory developments are expected in the forthcoming years, such as the review of capital requirements, long term guarantees and macroprudential tools.

Any such developments could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is subject to changes in financial reporting standards, such as IFRS 9 and IFRS 16, or policies, including as a result of choices made by the Bank, which could materially and adversely affect the Bank's reported results of operations and financial condition and may have a corresponding material adverse impact on capital ratios.

The Bank's financial statements are prepared in accordance with European Union IFRS, which is periodically revised or expanded. Accordingly, from time to time the Bank is required to adopt new or revised accounting standards issued by recognised bodies, mainly the International Accounting Standards Board. It is possible that future accounting standards which the Bank is required to adopt, could change the current accounting treatment that applies to its financial statements and that such changes could have a material adverse effect on the Bank's results of operations and financial condition.

IFRS 9 on Financial Instruments was endorsed by the European Union in November 2016 and entered into force on 1 January 2018. IFRS 9 replaced IAS¹¹ 39 - Financial Instruments: Recognition and Measurement and provides new requirements in accounting for financial instruments with significant changes specifically regarding impairment requirements. For this reason, it is a standard that has been subject to a detailed and complex implementation process that has involved all the key stakeholders in order to understand the impacts but also the changes in processes, governance and business strategy that may be required. The requirements of IFRS 9 are applied retrospectively by adjusting the opening balance at the date of initial application.

The main changes resulting from IFRS 9 are related to impairment requirements. IFRS 9 introduces a new model for impairment estimates based on expected losses while the model under IAS 39 was based on

¹¹ IAS: International Accounting Standards as adopted by the EU.

incurred losses. The IFRS 9 impairment model is applicable to financial assets valued at amortised cost, to debt instruments valued at fair value through other comprehensive income, and to contingent risks and commitments not valued at fair value. It should be underlined that the implementation of the new standard requires the application of more complex credit risk models of greater predictive power which require a significantly broader set of source data than the previously applied models.

Financial instruments subject to impairment are classified into three stages based on the level of credit risk:

- (a) Stage 1: there has been no significant increase in risk since its initial recognition. In this case, the value correction will reflect expected credit losses arising from defaults over the 12 months from the reporting date.
- (b) Stage 2: financial instruments that are considered to have experienced a significant increase in credit risk since initial recognition but for which the impairment has not materialised. In this case, the value correction for losses will reflect the expected losses from defaults over the residual life of the financial instrument. For determining the existence of a significant increase in credit risk not only will quantitative indicators, namely indicators related to credit risk management, be taken into account but also qualitative variables.
- (c) Stage 3: financial instruments for which there is objective evidence of impairment pursuant to events that result in a loss. In this case, the amount of the value correction will reflect the expected losses for credit risk over the expected residual life of the financial instrument.

As a result of IFRS 9, the Bank recognised credit losses on loans and other financial instruments based on expected losses rather than incurred losses. Considering allowance for credit losses will be based on forward-looking information IFRS 9 has led to an increase in subjectivity. The forward-looking information mentioned takes into account the evaluation of future macro-economic conditions which are monitored on a continuous basis and that are also used for management and internal planning. Credit losses are defined as the expected contractual cash-flows not received over the estimated life of the financial instrument, discounted at the original interest rate. Following this definition, expected credit losses correspond to credit losses determined by considering future economic conditions.

As credit losses are recognised at an earlier stage this will lead to a higher loan loss allowance, and corresponding lower capital on implementation of IFRS 9. In addition, IFRS 9 is expected to lead to more profit and loss volatility, because changes in counterparty credit quality could lead to shifts from a 12-month expected loss to a life time expected loss and vice versa. In addition, more financial instruments may be classified at fair value through profit or loss. An increase in credit loss could have an impact on lending activities and the potential for greater pro-cyclicality on lending and impairment exists owing to implementation of IFRS 9. Further changes in financial reporting standards or policies, including as a result of choices made by the Group, could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects and may have a corresponding material adverse effect on capital ratios.

IFRS 16 was approved by EU in October 2017 and enters into force in the periods starting on or after 1 January 2019. Its early application is permitted through the fulfilment of certain requirements. This standard replaces IAS 17 – Leases and establishes the new requirements regarding the scope, classification/recognition and measurement of leases. The Group will apply the principles set out in IFRS 16 at the beginning of 2019 and, after a preliminary assessment, the following impacts are expected:

- from the lessor's perspective, leases will continue to be classified as finance leases or operating leases, not being expected substantial changes for the Group compared to which was already defined in IAS 17;
- from the lessee's perspective, the standard defines a single model of accounting for lease contracts, which results in the recognition of a right-of-use asset and a lease liability for all leases, except for those which the lease term ends within 12 months or for those which the underlying asset is of low value and, in these

cases, the lessee may opt for the exemption from recognition under IFRS 16, and shall recognise the lease payments associated with those leases as an expense.

The Group will choose not to apply this standard to short-term lease contracts, i.e. contracts with a term shorter than or equal to one year, and to lease contracts in which the underlying asset's value is below EUR 5,000. Additionally, this standard won't be applied to leases of intangible assets.

Lease definition

The new lease definition focusses on the control of the identified asset, establishing that a contract constitutes or contains a lease if it carries the right to control the use of an identified asset, i.e. the right to obtain substantially all of the economic benefits of using it, and the right to choose how to use the identified asset over a period in exchange of a payment.

Impacts from the lessee's perspective

The Group will recognise for all leases, except for those with a term under 12 months or for low value underlying asset leases:

- a right-of-use asset initially measured at cost must consider the Net Present Value (NPV) of the lease liability plus the value of payments made (fixed and/or variable), deducted from any lease incentives received, penalties for terminating the lease (if reasonably certain), as well as any cost estimates to be supported by the lessee with the dismantling and removal of the underlying asset and/or with the recovery of its location. Subsequently, it will be measured according to the cost model (subject to depreciations/amortisations and impairment tests);
- a lease liability initially recorded at the present value of the remaining lease payments (NPV), which includes:
 - fixed payments deducted from any lease incentives receivable;
 - variable lease payments that depend on a rate or an index, initially measured considering the rate or index as at the commencement date;
 - amounts expected to be paid by the lessee under residual values guarantees;
 - the exercise price of a purchase option, if the lessee is reasonably certain to exercise that option;
 - payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to end the lease.

Lease payments shall be discounted at the interest rate implicit in the lease, if that rate is easily determinable. If not, the lessee's incremental borrowing rate shall be used. Subsequently, lease payments will be measured as follows:

- by increasing their carrying amount to reflect interest;
- by reducing their carrying amount to reflect lease payments;
- carrying amount shall be remeasured to reflect any leases' revaluations or changes, as well as to reflect the review of in-substance fixed payments.

Impact from the lessor's perspective

In accordance with IFRS 16, lessors will continue to classify leases as finance or operational leases, which does not imply significant changes to what is defined in IAS 17. Thus, it is not expected that the lessor will make transition adjustments resulting from the adoption of IFRS 16. The Group does not anticipate any impact on the application of this change in its financial statements.

Transition

On 1 January 2019, the Group carried out a review of the existing contracts at this date and applied the practical expedient provided in IFRS 16, i.e., the standard was only applied to contracts previously identified as leases in accordance with IAS 17 – Leases and IFRIC 4.

As proposed in IFRS 16, the Group will apply this standard retrospectively, with its transition impacts being recognised on 1 January 2019. This way, comparative information will not be restated.

By applying the practical expedient provided on the transition to IFRS 16, the Group will recognise a lease liability at the present value of the remaining lease payments, discounted at an incremental interest rate at the date of initial application and the underlying assets' right-to-use by the lease liability amount.

The following assumptions considered in the implementation of this standard were:

- lease term: this component was evaluated by categories of contracts, being each contract enforceable;
- discount rate: it was used the lessee 's incremental rate, which incorporates the risk-free yield curve (swap curve), plus Group's risk spread, applied over the weighted average term of each lease contract;
- non-application of the standard to lease contracts with a term under 12 months, neither to leases of low value assets (up to EUR 5,000).

Given the conditions mentioned above, the Group identified that the main lease contracts that will be covered by this standard are contracts on real estate (branches and central buildings) and on a residual number of vehicles. According to the preliminary analysis made, the Group estimates that, by applying this new standard in January 2019, its total assets and liabilities will have an increased amount of EUR 245 million, approximately. The adoption of IFRS 16 will result in changes in the Amortisations and depreciations, Other administrative costs and Interest expense, but, on a net basis, these changes will not result in material impacts in the Income statements.

If the Bank's regulators adopt or interpret more stringent standards or views on the applicable standards than the Bank anticipates, the Bank could experience unanticipated changes in its reported financial statements, including but not limited to restatements or the inclusion of reserves in review or audit reports, which could adversely affect the Bank's business due to litigation and loss of investor confidence in its financial statements.

The Bank's financial statements in conformity with EU IFRS require the exercise of judgements and use of assumptions and estimates which, if incorrect, could have a material impact on the Bank's business, results of operations, financial condition, prospects and capital ratios.

The preparation of financial statements in conformity with European Union IFRS requires management to exercise judgement and use estimates and assumptions that affect the reported amounts of assets, liabilities, equity, income and expenses. Due primarily to the inherent uncertainty in making estimates, actual results reported in future periods may be based upon amounts which differ from those estimates. For example, due primarily to the inherently uncertain outcome of settlements of claims and litigation, it is difficult to provide for sufficient legal and regulatory provisions, and if the provisions made turn out not to be sufficient, the Bank will have to report additional losses.

Judgements, estimates, and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances and known at the date of preparation and issuance of the respective financial statements. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The accounting policies deemed critical to the Bank's results and financial condition, based upon materiality and significant judgements and estimates, include the following areas: impairment of the financial assets available for sale, losses due to impairments in credit to clients, fair value of derivative financial instruments, investments held to maturity, entities included in the consolidation

perimeter, taxes on profit, pensions and other benefits to employees, goodwill impairments and impairments in non-current assets held for sale (properties). If the exercise of judgement and the use of estimates and assumptions by the Group in preparing its consolidated financial statements in conformity with European Union IFRS are subsequently found to be incorrect, this could have a material impact on the Bank's business, results of operations and financial condition, including capital ratios.

The use of standardised contracts and forms carries certain risks.

The Bank maintains contractual relationships with a large number of clients. The management of such a large number of legal relationships involves the use of general terms and conditions and standard templates for contracts and forms. This could pose a significant risk to the large number of contracts containing subjects that need clarification and drafting errors or requiring individual terms and conditions. In light of recent amendments to the applicable legal frameworks as a result of new laws or judicial decisions, it is possible that not all standard contracts and forms used by the Bank comply with every applicable legal requirement at all times.

If there are drafting errors or interpretive issues, or if the individual contractual terms or the contracts are invalid in their entirety or in part, many client relationships may be negatively affected. Any resulting claims for compensation or other legal consequences may have an adverse effect on the Bank's business, financial condition, results of operations and prospects.

RISKS RELATING TO ACQUISITIONS

The Bank may be the object of an unsolicited acquisition bid.

In light of the ongoing trend in Europe towards consolidation in the banking sector, and like any listed company, the Bank could be the target of an unsolicited acquisition bid. If such an acquisition were to occur, there could be changes in its corporate strategy, the main focus of its business, or its operations and resources, which could have a material adverse effect on the Bank's business, financial condition or results.

The Bank or its subsidiaries may engage in mergers and/or acquisitions.

Although the Bank's strategic plan is focused on organic growth and while it has reinforced its commitment to its strategic goals, there is no guarantee that it will not participate in mergers and/or acquisitions in Portugal or elsewhere should such opportunities arise. In the event the Bank or any of its subsidiaries participates in mergers and/or acquisitions, there could be changes in its corporate strategy, in its organisation and structure, its main business focus, its resources, and in its financial condition and results of operations. Additionally, if the Bank or its subsidiaries were to engage in such an operation, it is possible that the Bank may not be able to extract all the cost and/or revenue synergies, totally or partially, associated with such mergers and/or acquisitions. The Bank may also have to bear additional personnel costs resulting from any restructurings needed to integrate acquired operations or businesses successfully. Moreover, future mergers or acquisitions could result in unexpected losses due to unforeseen liabilities, which could have a material adverse effect on the Bank's business, financial condition or results of operations.

On 17 October 2018 Bank Millennium S.A. ("**Bank Millennium**") took over management of the assets of Spółdzielcza Kasa Oszczędnościowo-Kredytowa Piast ("**SKOK Piast**") (Cooperative Credit Union SKOK Piast), based on a decision of the Polish Financial Supervision Authority, and on 1 November 2018 Bank Millennium acquired SKOK Piast. Bank Millennium joined other banks involved in the SKOK turnaround process supported by the Polish Financial Supervision Authority and the Bank Guarantee Fund. The acquisition of SKOK Piast corresponded with efforts to ensure stability of the national financial system and to ensure safety for all clients of financial institutions in Poland.

Bank Millennium reached an agreement for the acquisition of a 99.79% stake in Eurobank, S.A. ("**eurobank**") from Société Générale Financial Services Holding, a subsidiary of Société Générale S.A. The acquisition of eurobank allows Bank Millennium to strengthen its position in the Polish banking sector and

represents a profitable deployment of Bank Millennium's excess capital and liquidity. Bank Millennium's CET1 ratio stood at 19.77% as at 31 December 2018, comfortably above regulatory requirements. Taking into consideration the planned acquisition of eurobank, the Management Board of Bank Millennium submitted to the Annual General Meeting a proposal of full retention of 2018 net profit in Bank's own funds.

RISKS RELATING TO THE BANK'S BUSINESS

The Bank is exposed to the credit risk of its customers.

The Bank is exposed to its customers' credit risk. Gross exposure to risk of credit (position in original risk) on 31 December 2018 was EUR 89.8 billion (EUR 87.1 billion on 31 December 2017).

As at 31 December 2018, the breakdown of this exposure was the following: EUR 15.2 billion for central governments or central banks, EUR 0.8 billion for regional administrations or local authorities, EUR 0.1 billion for administrative entities and non-profit organisations, EUR 0.02 billion for multilateral development banks, EUR 2.7 billion for other credit institutions, EUR 60.7 billion for retail and companies customers and EUR 10.1 billion for other elements.

As at 31 December 2017, the breakdown of this exposure was the following: EUR 11.4 billion for central governments or central banks, EUR 0.8 billion for regional administrations or local authorities, EUR 0.3 billion for administrative entities and non-profit organisations, EUR 0.02 billion for multilateral development banks, EUR 2.9 billion for other credit institutions, EUR 60.2 billion for retail and companies customers and EUR 11.4 billion for other elements.

According to Banco de Portugal latest available data, Portugal's NPE coverage by loan loss reserves ("**LLR**") was 53.2% in the first nine months of 2018 and the NPE ratio stood at 11.3%. The Bank NPEs as at 31 December 2018 were EUR 5.5 billion (10.9%) with a coverage by impairments of 52% and a coverage by impairments, collaterals and Expected Loss Gap of 109%.

A general deterioration of the Portuguese economy (and of the global economy) and the systemic risk of financial systems due to structural imbalances could affect the recovery and value of the Bank's assets and require increased credit impairments, which would adversely affect the Bank's financial condition and results of operations. This could further increase the Bank's NPL and NPE ratios and impair the Bank's loan portfolio and other financial assets.

The Bank is exposed to concentration risk, including concentration risk in its credit exposure.

The Bank is exposed to the credit risk of its customers, including risks arising from the high concentration of individual or economic group exposures in its loan portfolio. The 20 largest loan exposures of the Bank as at 31 December 2018 represented 9.3% of the total loan portfolio (gross) (10.2% as at 31 December 2017 and 10.9% as at 31 December 2016). The qualified shareholders' loan exposures as at 31 December 2018 represented 0.49% of the total loan portfolio (gross) (0.42% as at 31 December 2017 and 0.46% as at 31 December 2016).

The Bank also has high sectoral concentration in its loan book. As at 31 December 2018, the Bank's credit exposure to the real estate and civil construction sectors was 7% (real estate activities) and 4.0% (construction companies) of the total loan portfolio (gross). On that date, 46.7% of the loan portfolio consisted of mortgage loans, the exposure to retail and commerce was 6.9% and the exposure to service sector companies was 17.3%.

As at 31 December 2017 the Bank's credit exposure to the real estate and civil construction sectors was 3.3% (real estate activities) and 4.7% (construction companies) of the total loan portfolio (gross), respectively. On that date, 45.9% of the loan portfolio consisted of mortgage loans, the exposure to retail and wholesale commerce was 6.8% and the exposure to service sector companies was 18.1%.

This concentration is common for most of the main Portuguese banks given the small size of the Portuguese market, and has been noted by the rating agencies as a fundamental challenge facing the Portuguese banking system. Rating agencies have been particularly critical of the Bank's exposure to larger customers and, especially, exposure to its shareholders. Although the Bank carries out its business based on strict risk control policies, in particular with respect to credit risk, and seeks to increase the diversification of its loan portfolio, it is not possible to guarantee that the exposure to these groups will not be increased or that exposure will fall in the future. If exposure increases in the future, it could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is exposed to counterparty risk, including credit risk of its counterparties.

The Bank routinely transacts with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual and hedge funds and other institutional clients.

Sovereign credit pressures may weigh on Portuguese financial institutions, limiting their funding options and weakening their capital adequacy by reducing the market value of their sovereign and other fixed income holdings. These liquidity concerns have adversely impacted, and may continue to adversely impact, interim institutional financial transactions in general. Concerns about, or a default by, one financial institution could lead to significant liquidity problems and losses or defaults by other financial institutions, as the commercial and financial soundness of many financial institutions may be closely related as a result of credit, trading, clearing and other relationships. Many of the routine transactions the Bank enters into expose it to significant credit risk in the event of default by one of its significant counterparties. Even the perceived lack of creditworthiness of, or questions about, a counterparty may lead to market-side liquidity pressures or losses or ultimately to an inability of the Bank to repay its debt. In addition, the Bank's credit risk may be exacerbated when the collateral it holds cannot be enforced upon or is liquidated at prices not sufficient to recover the full amount of the loan or derivative exposure. A default by a significant financial and credit counterparty, or liquidity problems in the financial services industry in general, could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

Exposure to credit risk may also derive from the collaterals of loans, interbank operations, clearing and settlement and trading activities as well as other activities and relationships. These relationships include those with retail customers, brokers and dealers, other commercial banks, investment banks and corporate borrowers. Most of these relationships expose the Bank to credit risk in the event of default by the counterparty or customer.

Adverse changes in the credit quality of customers and counterparties of the Bank, a generalised deterioration of the Portuguese or global economies or the systemic risk of financial systems due primarily to structural imbalance could affect the recovery and value of the Bank's assets and require increased impairments, which would adversely affect the Bank's business, financial condition, results of operations and prospects.

As the Bank expands its business activities, penetrates new market segments and adopts or acquires, directly or through subsidiaries, new business models, such as consumer lending to new-to-bank customers, or franchisee-owned branch networks, it may acquire customers with lower credit quality, which, if such new pursuits were to grow and acquire a significant weight in the business portfolio, could adversely affect the Bank's business, financial condition, results of operations and prospects.

The Bank sells capitalisation insurance products with guaranteed principal and unit linked products, exposing the Bank to reputational risk in its role as seller, and financial risk indirectly arising from the Group's shareholding in Millenniumbcp Ageas.

Off-balance sheet customer funds, as at 31 December 2018 totalled EUR 17.4 billion, consisting of assets under management (EUR 5.0 billion), assets placed with customers (EUR 3.8 billion) and insurance products (EUR 8.6 billion), including unit linked products (EUR 3.1 billion) and capitalisation insurance (EUR 5.3 billion), with only the latter being able to ensure capital or a minimum income.

All financial insurances are predominantly placed with retail investors, those being in their majority issued and accounted by Millenniumbcp Ageas (in which the Bank has a 49% shareholding) and registered by the equity method. Therefore, adverse changes in the underlying assets, a general deterioration of the global economy, or the systemic risk of financial systems due to structural imbalances may affect the recovery and value of such assets, entailing reputational risks for the Bank as a seller of these products as well as financial risks indirectly arising out of the shareholding held by the Group in Millenniumbcp Ageas. Any of the foregoing could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is exposed to a contraction of the real estate market.

The Bank is highly exposed to the Portuguese real estate market by means of the credit granted to construction companies, real estate activities, and mortgage loans, which represented 4.0%, 3.0% and 46.7% of the consolidated loan portfolio, respectively, as at 31 December 2018 in assets related to its operations or obtained in lieu of payment, and indirectly through properties securing loans or through funding of real estate development projects (assets received in lieu of payment in Portugal represented 1.9% of total assets of the Bank as at 31 December 2018), and through the exposure to closed-ended real estate funds and to the pension fund and real estate properties in the Bank's balance sheet.

Assets held on the Bank's balance sheet received in lieu of payment (real estate assets only) decreased from EUR 1,782 million as at 31 December 2016 to EUR 1,778 million as at 31 December 2017 and to EUR 1,474 million as at 31 December 2018 (impairments of EUR 201 million as at 31 December 2016 and EUR 232 million as at 31 December 2017 and EUR 205 million as at 31 December 2018). The coverage of assets received in lieu of payment stood at 11.3% as at 31 December 2016 to 13.0% as at 31 December 2017 and 13.9% as at 31 December 2018. In 31 December 2018, the Bank sold 4,758 properties, from its stock of properties, for EUR 669 million, above its book value of EUR 583 million.

The exposure to closed-end investment funds, whose units were received following operations where properties were recovered in lieu of payment and that, in accordance with IAS/IFRS, were subject to consolidation, represented EUR 431,6 million as at 31 December 2018 (EUR 536.9 million as at 31 December 2017 and EUR 529.3 million as at 31 December 2016). The item Investment Properties includes the amount EUR 11.1 million as at 31 December 2018 and EUR 12.4 million as at 31 December 2017, concerning properties held by Fundo de Investimento Imobiliário Imosotto Acumulação, by Fundo de Investimento Imobiliário Gestão Imobiliário, by Fundo de Investimento Imobiliário Imorenda, by Fundo de Investimento Imobiliário Fechado Gestimo and by Imoport – Fundo de Investimento Imobiliário Fechado.

The Bank also performed a set of transactions involving the sale of financial assets for funds specialising in the recovery of loans, including Fundo Recuperação Turismo FCR, Fundo Reestruturação Empresarial FCR, FLIT, Vallis Construction Sector Fund, Fundo Recuperação FCR, Fundo Aquarius FCR, Discovery Real Estate Fund and Fundo Vega FCR.

The item Properties, which includes the real estate booked in the pension fund's financial statements and used by Group companies, in the pension fund amounted to EUR 245,3 million recorded as at 31 December 2018, EUR 253.9 million recorded as at 31 December 2017 and EUR 282.0 million as at 31 December 2016.

Accordingly, the Bank is vulnerable to a contraction in the real estate market. A significant devaluation of prices in the Portuguese real estate market would lead to impairment losses in the assets directly held and to an increased exposure to counterparty risk for loans guaranteed by real estate collateral and in pension fund assets retained by the Bank, adversely affecting the Bank's business, financial condition and results of operations. Mortgage loans represented 46.7% of the total loan portfolio as at 31 December 2018 (45.9% as at 31 December 2017), with a low delinquency level and an average loan-to-value ratio of 66%. Although Portugal did not face a housing bubble during the recent financial crisis as did other European countries, such as Ireland and Spain, and real estate prices in Portugal have been fairly stable over the last

years, the economic and financial crisis still had an impact on the real estate market. Portuguese banks are granting a low amount of new mortgage loans with very low spreads, and real estate developers have encountered a difficult market for sales. Moreover, there was a reduction in public works activity that severely affected construction companies, which had to redirect their activities to foreign markets. Furthermore, difficult credit conditions associated with the contraction of tourism have affected certain real estate developers that had been involved with tourism related projects, in particular in the southern part of Portugal. All of the aforementioned effects have increased delinquency among construction companies and real estate developers, impacting the Bank's NPLs and contributing to the increase in impairment charges.

A significant devaluation of prices in the Portuguese real estate market may lead to an increase in impairment losses in the assets held directly and in the participating units of the restructuring funds, and increased exposure in counterparty risk for loans guaranteed by real estate collateral and in pension fund assets retained by the Bank. Any of the foregoing could have a materially adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is exposed to the risk of interest rate repricing of credit granted to customers.

Mortgage loans represented 46.7% of BCP's total loan portfolio (consolidated) as at 31 December 2018. The average spread of the mortgage loans portfolio in Portugal stood at 1.30%; 46% of the contracts and 49% of the balance of mortgage loans had spreads under 1%. As at 31 December 2018, 73% of the contracts and 63% of the balance of the mortgage loans portfolio in Portugal were indexed to Euribor 3 months and 11% of the contracts and 11% of the balance of the portfolio were indexed to Euribor 6 months. In 2017, the average spread of the mortgage loans portfolio in Portugal stood at 1.27%; 37% of the contracts and 41% of the balance of mortgage loans had spreads under 1%. As at 31 December 2017, 73% of the Bank's contracts and 67% of the balance of the mortgage loans portfolio in Portugal were indexed to Euribor 3 months and 12% of the contracts and 13% of the balance of the portfolio were indexed to Euribor 6 months.

In response, the Bank, along with other banks in Portugal, limited the granting of new mortgage loans. In 2018, 18,016 new mortgage credit operations were contracted with an average spread of 1.41%, compared to 9,390 new mortgage credit operations contracted with an average spread of 1.63% in 2017. The Bank cannot unilaterally change the contractual terms of the loans that make up its portfolio of mortgage loans and it has proven extremely difficult to negotiate the extension of the maturity of these contracts. The resulting limitation of this contractual rigidity has a significant impact on net interest income. In addition, given the current low demand for credit by companies, the Bank may also experience difficulties in changing the mix of its loan portfolio which would make it difficult to offset the impact of reduced spreads on mortgages in the average spread of the loan portfolio.

After a period in which banks implemented policies of interest rate repricing on loans, mainly directed at loans to companies, a reduction of corporate and consumer loans spreads may be observed in the future, given the weak credit dynamics in the Portuguese corporate sector. This could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects. Furthermore, a continuation of the historically low interest rate environment may adversely affect the Bank's net interest income, which in turn would likely have an adverse effect on the Bank's profitability.

The Bank holds units issued by specialised credit recovery closed-end funds that are subject to potential depreciation, for which reimbursement may not be requested and for which there is no secondary market.

The Bank performed a set of transactions comprising the sale of financial assets (namely loans to customers) to funds specialising in loan recovery. These funds manage the companies or the assets received as collateral with the objective of achieving a pro-active management through the implementation of operation/valuation plans of such companies. The financial assets sold through these transactions were

removed from the Bank's balance sheet, as the transactions result in the transfer of a substantial portion of the risks and benefits associated with the assets to the funds, in addition to any control exercised thereof.

The funds specialised in credit recovery that purchased the financial assets from the Group are closed-end funds, wherein the participants have no ability to request the reimbursement of their investment throughout the useful life of the fund. Furthermore, given their intrinsic characteristics and those of the underlying assets, there is no secondary market operating for the participation units, which makes their sale to third parties very unlikely.

These participation units are held by several banks, which are the sellers of the loans, in proportions that vary through the useful life of the funds, guaranteeing however that no bank may hold more than 50% of each fund's capital.

The funds have a specific management structure (led by a general partner), which is independent from the credit assignor banks and selected on the fund's incorporation date.

The funds' management structure is mainly responsible for:

- defining the fund's purpose; and
- managing the fund on an exclusive basis, determining its investment goals and policy, in addition to management conduct and fund business.

The management structure is remunerated through commissions charged to the funds.

The majority of funds in which the Bank holds a minority position were incorporated for the purpose of investing in own capital instruments and third parties' share capital which, in accordance with their investment policies, is their goal. The participating banking institutions subscribe to senior instruments (usually participation units issued by the funds themselves) and junior instruments (for example, subordinated financings or supplementary contributions granted directly to the special purpose vehicles held by the funds).

The value of senior instruments is set as the negotiated fair value based on valuations made by the involved parties and the instruments are paid at an interest rate that reflects the risk of the assets and of the relevant companies.

The value of the junior instruments equals the difference between the fair value based on the valuation of the senior instruments and the value of the assigned credits by the banks.

Junior instruments entitle the holder to a contingent positive value in the event that the value generated by the assigned assets surpasses the amounts to be paid through the senior instruments.

The Bank's total exposure to funds specialised in the recovery of loans was EUR 1,007 million as at 31 December 2018. For further details on this topic, please also see "*The Bank is exposed to market risk, which could result in the devaluation of investment holdings or affect its trading results.*"

A possible deterioration in the prospects for recovery of the loans transferred to specialised closed-end funds may result in the devaluation of the NAV of the held participation units that cannot be sold, leading to additional impairments. This could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

Financial problems faced by the Bank's customers could adversely affect the Bank.

Continued market turmoil and poor economic growth, particularly in Portugal and in other European countries, could have a material adverse effect on the liquidity, the activity and/or the financial conditions of the Bank's customers, which could in turn further impair the Bank's loan portfolio.

The Bank's customers' levels of savings and credit demand are dependent on consumer confidence, employment trends, the state of the economies in countries where the Bank operates, and the availability and cost of funding. In addition, customers may further significantly decrease their risk tolerance to non-deposit based investments such as stocks, bonds and mutual funds. This would adversely affect the Bank's fee and commission income. Any of the conditions described above could have a material adverse effect on the Bank's business, financial condition, results of operations or prospects.

The Bank's portfolio may continue to contract.

Bank loans to customers (gross) at a consolidated level decreased from EUR 51.8 billion as at 31 December 2016 to EUR 51.0 billion as at 31 December 2017 (of which EUR 48.9 billion were recorded in the caption "Financial assets at amortised cost – Loans to customers" and EUR 2.1 billion were recorded in the caption "Debt securities held associated with credit operations") and EUR 51.0 billion as at 31 December 2018 (of which EUR 48.4 billion were recorded in the caption "Financial assets at amortised cost – Loans to customers", EUR 2.3 billion were recorded in the caption "Debt securities held associated with credit operations" and EUR 0.3 billion were recorded in the caption "Financial assets not held for trading mandatorily at fair value through profit or loss - Loans and advances to customers at fair value"). In the current economic environment, the Bank's loan portfolio in Portugal may continue to shrink and its loan portfolio abroad may not continue to grow at historic rates, or may even decrease. Furthermore, in some of the Bank's target markets there is a limited number of customers of high creditworthiness. The Bank has also undertaken commitments in respect of operational efficiency, including the sale of the loan portfolio operations in Switzerland and the Cayman Islands. As the demand for credit in the economy is reduced and the good quality credit loans are repaid, the Bank may face difficulties in exchanging loans that are being reimbursed for good credit quality loans. Developments in the Bank's loan portfolio will be affected by, among other factors, the condition of the Portuguese economy. The continued decline in the value or quality of the Bank's loan portfolio could limit its ability to generate net interest income, which in turn could have a material adverse effect on the Bank's business, financial position, results of operations and prospects.

The Bank is exposed to further deterioration of asset quality.

The value of assets collateralising the Bank's secured loans could decline significantly as a result of a general decline in market prices or a decline in the value of the asset class underlying the collateral, which could result in an increase of the impairment recognised for the collateralised loans granted by the Group. Loan volume to both businesses and individuals is expected to remain depressed in Portugal due primarily to downward pressure of austerity measures on household disposable income and the firms' profitability, as well as the resulting deterioration in the business environment, more restrictive credit conditions and stressed liquidity. A decline in equity and debt market prices could also have an impact on the quality of the Bank's collateral linked to financial assets leading to a reduction in coverage ratios.

In light of the Portuguese macroeconomic situation and the Bank's older loan exposures to some of the more vulnerable sectors in the economy, in 2018, the Bank continued to increase the level of coverage through impairments and collateral.

In relation to the new NPLs, following the European Commission and ECB proposals in March 2018, stricter provisioning rules are expected; and in relation to the NPLs stock, there is now a 5% ratio benchmark (2.5% for NPLs net of provisions) although without an implementation date.

The economic and financial crisis, combined with the implementation of budgetary consolidation measures established under the PAEF, have resulted in a further deterioration of the quality of the Bank's assets, including its loan portfolio.

The Bank's consolidated gross loan portfolio, as at 31 December 2018, was EUR 51.0 billion (of which EUR 48.4 billion were recorded in the caption "Financial assets at amortised cost – Loans to customers", EUR 2.3 billion were recorded in the caption "Debt securities held associated with credit operations" and EUR 0.3 billion were recorded in the caption "Financial assets not held for trading mandatorily at fair value

through profit or loss - Loans and advances to customers at fair value"). As at 31 December 2017, the Bank's consolidated loan portfolio was EUR 51.0 billion (of which EUR 48.9 billion were recorded in the caption "Financial assets at amortised cost – Loans to customers" and EUR 2.1 billion were recorded in the caption "Debt securities held associated with credit operations"). The ratio of NPEs stood at 10.9% as at 31 December 2018, compared to 15.0% as at 31 December 2017. As at 31 December 2018, the loan portfolio in Portugal amounted to EUR 37.2 billion. In Portugal, the ratio of NPEs stood at 12.9% as at 31 December 2018, compared to 15.8% as at 31 December 2017, compared to 17.8% as at 31 December 2016.

NPEs in Portugal amounted to EUR 4.8 billion as at 31 December 2018, with 2% of NPEs relating to individuals and 75% to companies. 55% of NPEs are NPLs more than 90 days. NPE coverage as at 31 December 2018 was 112% for Companies (58% by LLRs, 35% by real estate collateral and 20% by other collateral and EL gap) and 100% for Individuals (26% by LLRs, 71% by real estate collateral and 3% by other collateral and EL gap). NPLs more than 90 days' coverage as at 31 December 2018 was 116% for Companies (67% by LLRs, 26% by real estate collateral and 23% by other collateral and EL gap) and 100% for Individuals (32% by LLRs, 66% by real estate collateral and 2% by other collateral and EL gap). Other NPE coverage as at December 2018 was 108% for Companies (48% by LLRs, 44% by real estate collateral and 16% by other collateral and EL gap) and 100% for Individuals (17% by LLRs, 80% by real estate collateral and 3% by other collateral and EL gap).

The persistence of volatility and adverse economic and financial circumstances at worldwide, European and national levels increase the risk of deterioration of the quality of the consolidated loan portfolio and may also lead to increased impairment losses and deterioration of the regulatory capital ratios. Loan impairment (net of recoveries) amounted to EUR 470.8 million as at 31 December 2018, recorded in the caption "Impairment for financial assets at amortised cost – Loans and advances to customers, EUR 623.7 million as at 31 December 2017, recorded in the caption "Loans impairment", and EUR 1,116.9 million as at 31 December 2016, recorded in the caption "Loans impairment". From 2011 to 31 December 2017, the Bank made impairment provisions amounting to EUR 6,987.4 million. A significant portion of the foregoing related to inspections to the Bank's loan portfolio, namely Special Inspections Programme Work Stream 1 (EUR 381 million), On-site Inspections Programme (EUR 290 million), Exercício Transversal de Revisão das Imparidades das Carteiras de Crédito-ETRICC (Transversal Exercise of Impairments Revision on the Loan Portfolio) (EUR 306 million) and Asset Quality Review (EUR 313.5 million). Cost of risk¹², measured by the proportion of loan impairment annualised charges (net of recoveries) compared to loans to customers (gross), stood at 92 basis points as at 31 December 2018, compared to 122 basis points as at 31 December 2017 and 216 basis points as at 31 December 2016. The persistence, or deepening, of the crisis, general market volatility, sluggish economic growth and increased unemployment, coupled with either decreased consumer spending or a sharp increase in risk premiums required would lead to increased loan impairment costs and, consequently, to the reduction of the Bank's net income. In addition, the level of impairment and other reserves may not be sufficient to cover possible future impairment losses, and it may be necessary to create additional provisions of significant amounts. Any failure in risk management or control policies relating to credit risk could adversely affect the Bank's business, financial condition, results of operations and prospects.

In Poland, the NPL ratio as at 31 December 2018 was 2.5%, compared to 2.8% as at 31 December 2017 and 2.6% as 31 December 2016.

In Mozambique, the NPL ratio as at 31 December 2018 was 16.4%, compared to 14.3% as at 31 December 2017 and 6.0% as at 31 December 2016.

Credit risk and deterioration of asset quality are mutually reinforcing. If there is any reduction in the value of assets securing loans that have been granted or if the value of assets is not sufficient to cover the exposure to derivative instruments, the Bank would be exposed to an even higher credit risk of non-

¹² As used in this Offering Circular, "**Cost of risk**" means the ratio of impairment charges (net of recoveries) accounted to customer loans (gross).

collection in the case of non-performance, which, in turn, may affect the Bank's ability to comply with its payment obligations. The Bank cannot guarantee that it would be able to realise adequate proceeds from disposals of collateral to cover loan losses, or that in the fiscal year 2018 and/or in future reporting periods, it will not raise impairment charges from recent levels. Deterioration in the credit risk exposure of the Bank may have a material and adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank faces strong competition in its main areas of activity, notably in the retail business.

The Portuguese banking market is well developed, containing major national and foreign competitors which follow multi-product, multi-channel and multi-segment approaches and are, in general, highly sophisticated. Over recent years, there have been significant developments of banking operations through the internet and the use of new technology that have enabled banks to assess the needs of their customers with greater accuracy and efficiency. These factors have contributed to an increase in competition in the Portuguese banking sector, with new entrants such as Bankinter and Banco CTT who may adopt aggressive commercial practices in order to gain market share. The sale process of Novo Banco could add to increased competition as the bank was acquired by an institution with no prior presence in the Portuguese banking system. Furthermore, many Portuguese banks are dedicated to increasing their market shares by launching new products, implementing cross-selling strategies and engaging in more aggressive commercial strategies. Additional integration of European financial markets may contribute to increased competition, particularly in the areas of asset management, investment banking, and online banking and brokerage services.

In 2018, the Bank had 2.3 million active customers in Portugal and, the market share in Portugal (estimates based on figures disclosed by Banco de Portugal and other banking industry associations for aggregates of the financial system and with adjustments for statistical standardisation) was the following: 17.4% in loans to customers, 17.7% in loans to companies, 16.0% in loans to individuals, 17.0% in mortgage loans, 9.8% in consumer credit, 19.1% in customer funds, 18.0% in on-balance sheet customer funds, 17.5% in deposits and 22.1% in off-balance sheet customer funds.

The Bank's financial success depends on its capacity to maintain high levels of loyalty among its customer base and to offer a wide range of competitive and high quality products and services to its customers. In order to pursue these objectives, the Bank has adopted a strategy of segmentation of its customer base, aimed at serving the various needs of each segment in the most suitable manner, in addition to cross-selling its products and services through its distribution network in Portugal, under the brand "Millennium bcp". However, high levels of competition in Portugal, as well as in other countries where the Bank operates and an increased emphasis on cost reduction may result in the Bank's inability to maintain these objectives. In addition, on 31 December 2018 the Bank operated 546 branches, having achieved the goal of reducing the number of branches to less than 570 by the end of 2018, working towards its goal of becoming a more digital bank. This resulted in the downsizing of the Bank's branch network and consequently in BCP's branches' market share in Portugal. This may result in a weaker competitive position in the Portuguese retail market. As a consequence, this could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

Moreover, as at 31 December 2018, around 5.2% of the Bank's total domestic customers also held ordinary shares of the Bank (around 5.8% as at 31 December 2017 and approximately 5.7% as at 31 December 2016). If the price of the Bank's ordinary shares continues to decline, this could lead to shareholder dissatisfaction and, to the extent that such shareholders are also customers of the Bank, this could result in broader customer dissatisfaction, any of which could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

There is no assurance that the Bank will be able to compete effectively, or that it will be able to maintain or improve its operational results. Such inability to compete or maintain results could also lead to a reduction in net interest income, fees and other income of the Bank, any of which could have a further significant material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank may generate lower revenues from commissions and fee-based businesses.

In 2018, more than 83% of the fees and commissions related to banking (24% to cards and transfers, 24% to loans and guarantees, 15% to bancassurance, 15% to customer account related fees and 3% to other fees and commissions), with market related fees and commissions accounting for the remaining 17%. A decrease in the volume of lending transactions that the Bank executes with its customers could result in lower commissions derived from banking operations and guarantees. Moreover, changes to market sentiment could lead to market downturns that are likely to impact transactional volume, therefore leading to declines in the Bank's fees. In addition, as the fees that the Bank charges for managing its' clients' portfolios are, in many cases, based on the value or performance of those portfolios, a market downturn that reduces the value of the Bank's clients' portfolios or increases the amount of withdrawals would reduce the revenue the Bank receives from its asset management, private banking and custody services. Revenue derived from the Bank's asset management business could also be impacted by below market performance by the Bank's securities investment funds, which could lead to increased withdrawals and reduced inflows. An increase in withdrawals and a reduction in inflows could have a significant material adverse effect on the Bank's business, financial condition, results of operations and prospects.

Downgrades in the Bank's credit rating could increase the cost of borrowing funds and make the Bank's ability to raise new funds or renew maturing debt more difficult.

The Bank's ratings are assigned by Moody's Investors Service España, S.A., S&P Global Ratings Europe Limited, Fitch France – Société par Actions Simplifiée and any entity that is part of DBRS group and any successor to the relevant rating agency. The ratings as of the date of this Offering Circular are the following: (a) Moody's: "Ba2/NP" (re-presented as at 1 April 2019), (b) S&P Global Ratings Europe Limited: "BB/B" (re-presented as at 9 October 2018), (c) Fitch France – Société par Actions Simplifiée: "BB/B" (re-presented as at 6 December 2018) and (d) the relevant DBRS entity: "BB (high)/R-3" (re-presented as at 28 March 2019).

Credit ratings represent an important component of the Bank's liquidity profile and affect the cost and other terms upon which the Bank is able to obtain funding. Changes to the Bank's credit ratings reflect, apart from changes to the rating of the Portuguese Republic, a series of factors intrinsic to the Bank. Currently, the ratings assigned to the Bank, with the exception of the Critical Obligations Ratings (COR) assigned by the relevant DBRS entity, are non-investment grade. In terms of capital, and despite the fact that the rating agencies recognise that the solvency levels of the Bank are better primarily due to the recapitalisation by the Portuguese State and by shareholders in June and September 2012, respectively, and more recently in July 2014, June 2015, November 2016 and the start of 2017, and the repayment of the GSIs, it remains uncertain whether adverse conditions of the Portuguese economy could impact the Bank's profitability and ability to generate income, jeopardising the Bank's ability to preserve capital. The rating agencies also consider the following additional risk factors: (i) the declining quality of the loan portfolio and any exposure to small and medium enterprises in Portugal; (ii) the Bank's exposure to public debt; (iii) the Bank's exposure to its main clients, particularly shareholders (5.2% of BCP's shareholders were also clients of BCP as at 31 December 2018); and (iv) continued dependency on funding from the ECB.

Any downgrade in the Bank's ratings may contribute to the erosion of the collateral eligible for funding by the ECB, as well as more restrictive access to funding and increased funding costs. Under such circumstances, the Bank may need to reinitiate its deleveraging process and reduce its activities, which could have a negative impact on the Bank's ratings. Any of the foregoing could have a material adverse effect on its business, financial condition, results of operations and prospects.

The Bank faces exposure to risks in its businesses in Europe (Poland) and Africa (Angola and Mozambique).

The Bank faces exposure to risks in its operations in Poland and Mozambique, as well as a result of its participation in Angola via Banco Millennium Angola, SA ("BMA"), whose materialisation in the future

may have an adverse impact on the business, financial condition, results of operations and prospects of the Bank.

In 2018, the Bank's net profit (after income taxes and non-controlling interests) attributable to international operations was EUR 186.9 million, compared to net profits (after income taxes and non-controlling interests) of a total EUR 301.1 million for the Bank as a whole. For the same period, net income in Poland was EUR 178.4 million, (EUR 89.4 million of which was attributable to the Bank), net contribution in Angola was EUR 21.4 million and net income in Mozambique was EUR 94.1 million (of which EUR 62.8 million was attributable to the Bank).

In 2017, the Bank's net profit (after income taxes and non-controlling interests) attributable to international operations was EUR 254.5 million, compared to net profits (after income taxes and non-controlling interests) of EUR 186.4 million for the Bank as a whole. For the same period, net income in Poland was EUR 160.2 million (of which EUR 80.3 million was attributable to the Bank) net contribution in Angola was EUR 0.1 million and net income in Mozambique was EUR 85.1 million (of which EUR 56.7 million was attributable to the Bank).

Poland

Poland's economy has been growing robustly. After a marked slowdown in 2012 and 2013, economic activity in Poland rebounded and has been recording GDP growth rates above 3.0% since then (Source: Eurostat, July 2018), supported by firmer exports and strong domestic demand due to improvement in the labour market and the European Union structural funds. The expansionary trend is expected to continue in the medium-term, according to most recent European Commission forecasts (November 2018).

Against this positive background, a potential slowdown of the global economy, due to intensification of trade wars and geopolitical tensions, may lead to a downward revision of external demand and renewed instability in financial markets which may constrain economic activity, and cause greater volatility of the Polish zloty ("**PLN**") exchange rate and, consequently, affect the Bank's results directly through financial operations and indirectly through repercussions on the clients' financial situation.

In addition political tensions with the European Union, on the back of intensifying pressures to introduce new policies to ensure the viability of the European Union, and particularly, the political tensions that have arisen between the Polish government and the European authorities, as the European Commission concluded on 20 December 2017 that there is a clear risk of a serious breach of the rule of law in Poland and proposed to the Council to adopt a decision under the Article 7(1) of the Treaty on EU, could adversely affect the economic and financial stability in Poland and consequently Bank's activity and results.

Moreover, there is the risk that the implementation of more economic policy decisions, namely on the tax front, targeting the banking system by Polish authorities could negatively affect investors' confidence and the economic activity and, consequently, negatively impact the profitability of the Polish banking sector.

The removal of the peg of the EUR/CHF parity led to a significant appreciation of the Swiss franc ("**CHF**") against the euro and the zloty. The granting of loans in Swiss francs was a common practice of most Polish banks (and in other economies of Central and Eastern Europe) in the past. Bank Millennium granted mortgage loans in Swiss Francs until December 2008 and its Swiss francs mortgage loans portfolio on 31 December 2018 stood at approximately EUR 3.4 billion (approximately 26.5% of the total loan portfolio). The mortgage loans impaired ratio (stage 3) stood at 4.4% in 2018 which compares to 4.9% in 2017.

Bank Millennium stopped granting mortgage loans in foreign currencies in 2009. Consequently the Polish foreign exchange mortgage loans are a mature portfolio, constantly decreasing according to the repayment rate and with a low impairment ratio and high coverage by provisions. As at 31 December 2018, Bank Millennium's foreign exchange mortgages amount to 26.5% of the Polish bank's loan book (EUR 3.4 billion), which represents 6.7% of the Group's total loans.

A proposal has been presented to solve the issue of the conversion of the credits into Swiss francs in Poland, and it received the support from the central bank and the supervisor. This plan implies a quarterly contribution of up to 0.5% (up to 2% annually) on the mortgage loans in a foreign currency into a new restructuring fund for a long period of time. The objective is to promote the conversion of the loans into zloty. The maximum costs for all the polish banking sector estimated by the Polish Financial Supervision Authority amount to PLN 3.2 billion (approx. EUR 738 million) in the first year of the term of office of the restructuring fund. According to the latest news, it is not expected the adoption of proposals with a higher impact on the banks' costs, such as a mandatory conversion or the return of the foreign exchange spreads charged to customers. It is important to underline that Bank Millennium continues to decrease its portfolio of mortgage loans in a foreign currency (10% a year on average), which presently represents only 51% of the total mortgage loans portfolio and 26.5% of the total portfolio.

At the end of 2017, the Polish supervisor defined additional requirements for banks with mortgage loans portfolio in foreign currencies (based on the weight of the total foreign currency mortgage loans portfolio and based on the weight of 2007-2008 vintages in the total foreign currency mortgage loans portfolio). It is worth mentioning that Bank Millennium is reducing its foreign currency mortgage loans portfolio on average 10% per year and that on 31 December 2018 it represented only 51% of the total mortgage loans portfolio and 26.5% of the total loans portfolio.

The contributions for 2019 set by the polish legislator regarding the resolution fund have doubled versus the contributions set for 2018.

In the described circumstances it is not possible to estimate the impact of potential regulations on the banking sector. However, these legislative and regulatory intentions regarding FX mortgage loans, if implemented and made mandatory for banks, could significantly deteriorate the Bank Millennium's profitability and capital position.

To be able to minimise this potential negative effect and in line with supervisory recommendations, Bank Millennium has been strengthening its capital ratios, building relevant capital buffers that may cushion potential negative impacts from a legislative action.

On 17 October 2018 Bank Millennium took over management of the assets of SKOK Piast, based on a decision of the Polish Financial Supervision Authority, and on 1 November 2018 the Bank Millennium acquired SKOK Piast. Bank Millennium joined other banks involved in the SKOK turnaround process supported by the Polish Financial Supervision Authority and the Bank Guarantee Fund. The acquisition of SKOK Piast corresponded with efforts to ensure stability of the national financial system and to ensure safety for all clients of financial institutions in Poland.

Bank Millennium reached an agreement for the acquisition of a 99.79% stake in eurobank from Société Générale Financial Services Holding, a subsidiary of Société Générale S.A. The acquisition of eurobank allows Bank Millennium to strengthen its position in the Polish banking sector and represents a profitable deployment of Bank Millennium's excess capital and liquidity. Bank Millennium's CET1 ratio stood at 19.77% as at 31 December 2018, comfortably above regulatory requirements. Taking into consideration the planned acquisition of eurobank, the Management Board of Bank Millennium submitted to the Annual General Meeting a proposal of full retention of 2018 net profit in Bank's own funds.

Emerging Markets

There are still some risks related to the economic environment experienced by some African countries, with potential impact on the Group namely Angola and Mozambique, whose economic activity is decelerating, with high inflation and faced a significant depreciation of their currencies in 2017.

Angola and Mozambique present specific political, economic, fiscal, legal, regulatory and social risks that differ from those encountered in countries with European economic and political systems, including, but not limited to, those related to political and social environments, different business practices, logistical

challenges, shortages of skilled labour, trade restrictions, macroeconomic imbalances and security challenges.

The Group's operations are currently exposed in particular to the political and economic conditions of Angola and Mozambique. These conditions also relate to the fact that structural improvements are still needed in many sectors in these markets, including transportation, energy, agriculture and mineral sectors, as well as land, social and fiscal reforms. Some of these markets may also suffer from geopolitical conflict, while a number of African states have unresolved political differences internally, regionally and/or internationally.

Additionally, the Bank's operations in those markets may involve protracted negotiations with host governments, companies or other local entities and may be subject to instability arising from political, economic, military or legal disturbances. Both Mozambique and Angola impose certain restrictions due primarily to exchange policy controls and capital flows to and from other jurisdictions are likewise subject to such controls and restrictions. Therefore, the ability to transfer U.S. dollars and Euros directly from local banks, including the repatriation of profits, is subject to official vetting. Transfers above a threshold amount may require government approval, which may not be obtained or may be subject to delays.

Regarding Millennium bim, in Mozambique, the amount of dividends paid out to the Group in 2017 totalled EUR 13.2 million, while in Angolan the amount of dividends paid out to the Group in 2017 totalled EUR 21.5 million.

Any reduction in profits or increase in the responsibilities associated with the Bank's international operations may have a material adverse effect on the business, financial condition, results of operations and prospects of the Bank.

Mozambique

Mozambique faces important economic and financial challenges. After being one of the fastest growing economies in Sub-Saharan Africa, with six consecutive years of GDP growth rates above 6.5%, the Mozambican economy decelerated in to 3.8% both in 2016 and 2017 and slowed further in 2018 to 3.3% (source: Mozambique National Institute of Statistics, March 2019). The deceleration resulted from the fall in commodity prices, in particular gas, coal and aluminium, which caused a fall in export revenues and a slower pace of foreign direct investment. This led to the deterioration of public finances and to the depreciation of the Metical ("MZN"). According to the IMF (October 2018), the general gross government debt as a percentage of GDP rose from 62.4% in 2014 to 121.6% in 2016 and was 102.1% in 2017.

Following a period of deceleration in economic activity and increase of inflation, downgrading of the Republic of Mozambique rating, depreciation of metical and decrease in foreign direct investment, the Bank of Mozambique adopted a restrictive policy, with increases in the reference rate of interest and the minimum reserve requirements between October 2015 and October 2016. This set of factors constrained the economy, and reduced available liquidity, requiring strict liquidity management by banks, and an emphasis on raising funds, despite contributing to the improvement of net interest income. Interest rate levels have since reversed, with opposite effects on liquidity but also on interest income.

According to an International Monetary Fund statement dated 23 April 2016, existing debt guaranteed by the State of Mozambique in an amount over USD 1 billion had not been previously disclosed to the International Monetary Fund. Following this disclosure, the economic program supported by the International Monetary Fund was suspended. According to an International Monetary Fund statement dated 13 December 2016, discussions were initiated on a possible new agreement with the government of Mozambique, and the terms of reference for an external audit were agreed.

In the statements dated 16 January 2017 and 17 July 2017, the Ministry of Economy and Finance of Mozambique informed holders of bonds issued by the Republic of Mozambique, specifically "US 726,524 million, 10.5%, repayable securities in 2023" that interest due on 18 January 2017 and 18 July 2017, would

not be paid. On 6 November 2018, the Ministry of Economy and Finance of the Republic of Mozambique announced that it had reached an agreement in principle on the key commercial terms of a proposed restructuring transaction relating to "Mozambique's USD 726,524,000 10.5 per cent. Notes due 2023" with four members of the Global Group of Mozambique Bondholders, being funds managed or advised by Farallon Capital Europe LLP, Greylock Capital Management, LLC, Mangart Capital Advisors SA and Pharo Management LLC. The mentioned bondholders currently own or control approximately 60% of the outstanding bonds. The agreement in principle reached by the parties, and the support of the mentioned bondholders for the proposed restructuring, is conditional on the parties reaching agreement on mutually satisfactory documentation setting out the detailed terms of the restructuring including implementation, and the mentioned Ministry obtaining all necessary approvals, including Parliamentary and government approvals in Mozambique.

In June 2017, the Attorney General's Office of the Republic of Mozambique published an Executive Summary regarding the above-mentioned external audit. On 24 June 2017, the International Monetary Fund released in a statement that due to the existence of information gaps in this audit, an International Monetary Fund mission would visit the country to discuss audit results and possible follow-up measures. Following this visit, the International Monetary Fund requested the government of Mozambique to obtain additional information on the use of the funds.

On 14 December 2017, in a statement from the International Monetary Fund staff, after the end of the mission held between 30 November and 13 December 2017, it was reiterated the need for the State of Mozambique to provide missing information.

In the statement of the Mozambican Attorney General's Office dated 29 January 2018, it is mentioned, among other things, that the Public Prosecutor submitted to the Administrative Court, on 26 January 2018, a complaint regarding the financial responsibility of public managers and companies participated by the state, participants in the execution and management of contracts for financing, supplying and providing services related to debts not disclosed to the International Monetary Fund.

The deterioration of its fiscal position in the following months led the Mozambican authorities to miss interest payments on dollar bonds due on 18 January 2017 and on 18 July 2017.

Against this background, the Mozambican authorities were urged to implement quick and decisive measures to avoid further deterioration of the country's economic and financial condition and to strengthen transparency and governance and resumed negotiations with the IMF conducive to financial and technical support. The policies implemented since then by the government seem to have precluded a worsening of the economic and financial situation and contributed to the stabilisation of the exchange and to an improvement in some activity sectors. However, the economic and financial situation remains challenging and further delays in the negotiations with the IMF and the implementation of structural reforms and the prescribed policies could worsen the country's economic and financial conditions and lead to a further loss of confidence of foreign investors and donors. Furthermore, any downward movements in the prices of commodities, namely aluminium and coal, could negatively impact the reform effort. Finally, a deterioration of the economic and financial situation may contribute to the rise of political tensions amid 2019 presidential elections (Frelimo and Renamo, the two main political parties in Mozambique, have been holding start-stop talks aimed at ending a military conflict that was resumed in 2013). Any of these may negatively affect the business environment.

Any of the foregoing may negatively affect the Bank's business, financial condition, results of operations and prospects.

As at 31 December 2018, Millennium bim's ("**BIM**") exposure to the State of Mozambique classified as Financial assets measured at amortised cost – Debt Instruments amount to EUR 656.3 million. These public debt securities mostly have a maturity of less than one year. As at 31 December 2018, the Group also has a direct exposure to the State of Mozambique in the amount of EUR 375.9 million (of which EUR 356.5 million is denominated in MZN, EUR 3.9 million is denominated in USD and EUR 15.6 million

denominated in Rands) and an indirect exposure resulting from sovereign guarantees received in the amount of EUR 51.2 million is denominated in USD. The amount of guarantees and irrevocable commitments granted was EUR 42.9 million (of which EUR 2.4 million is denominated in MZN, EUR 40.5 million is denominated in USD and EUR 89,000 is denominated in Rands).

As at 31 December 2018, considering the 66.7% indirect investment in BIM, the Group's interest in BIM's equity amounted to EUR 315 million, with the exchange translation reserve associated with this participation, accounted in Group's consolidated equity, a negative amount of EUR 112 million. BIM's contribution to consolidated net income for 2018, attributable to the shareholders of the Bank, amounts to EUR 62.8 million.

Angola

The Angolan economy is expected to experience a gradual recovery in the coming years, supported by a broad economic reform program. The real GDP growth rate, which dropped to -2.6% in 2016 (source: IMF, WEO October 2018) and -0.2% in 2017, is projected to return to positive levels in 2019 (source: IMF, December 2018). The steep fall of oil prices recorded from the second half of 2014 to early 2016 significantly reduced fiscal revenues and foreign exchange earnings from energy sector exports, a development that has especially hampered private consumption and public investment, leading to a reduction of the Angolan GDP growth rate. The developments in international oil markets also led to a scarcity of U.S. dollars in the Angolan economy, which in turn pressured the value of the Angolan Kwanza against the American currency downwards, leading to a rise in inflation and imposing the need for a more restrictive monetary policy and for a significant fiscal effort to ensure public debt sustainability. Angola was considered a hyperinflationary economy in 2017.

Against this background, Angola's new government, which was elected in August 2017, has been taking important policy actions aimed at mitigating the impact of the oil price shock, restore macroeconomic stability and pave the way for sustainable growth, namely by enacting strategies conducive to a more diversified economic structure, to the safety of the banking system and to a more flexible exchange rate regime. On request of Angolan government, on 7 December 2018, the IMF approved a three-year program to support Angola's economic reform program (IMF, Press Release No. 18/463), which amounts to USD 3.7 billion.

Any material relapse in the price of this crucial commodity and/or any slippages in the implementation of the structural reforms and measures agreed with the IMF under the economic reform programme could lead to a worsening of its economic and financial conditions and derail the gradual recovery projections. Any of the foregoing may negatively affect the Bank's business, financial condition, results of operations and prospects.

The Bank's highly liquid assets may not cover liabilities to its customer base.

The Bank's main source of funding is its customer deposits (88% of the Bank's funding as at 31 December 2018). However, the persistence of interest rates at historically low levels (that are negative in some cases) over the past few years has resulted in the Bank investing deposits into instruments with higher potential yield. The Bank's other possible funding sources include money market instruments, medium and long term bonds, covered bonds, commercial paper, medium term structured products and the securitisation of its loan portfolio. The Bank has increasingly strengthened its own funds through capital increases (the most recent ones, amounting to EUR 1.33 billion and EUR 174.6 million through the Rights Offering and the private placement of 157,437,395 new shares, subscribed by Chiado, an affiliate of Fosun, completed in February 2017 and November 2016 respectively, following the capital increase amounting to EUR 481.2 million as a result of the public offer of securities, completed in June 2015, the share capital increases in cash of EUR 2.25 billion completed in July 2014 and the share capital increase of EUR 500 million completed in October 2012) and the June 2012 GSIs of EUR 3 billion (which GSIs have, as of 9 February 2017, been repaid in full).

The Bank's liquidity coverage ratio ("**LCR**") and the net stable funding ratio ("**NSFR**") recorded as at 31 December 2018 were 218% and 133%, respectively, compared to a regulatory requirement of 100% (fully implemented) for both ratios. The leverage ratio stood at 6.2% (fully implemented) as at 31 December 2018, compared to a reference value of 3% (fully implemented).

In case the Bank is unable to maintain its buffer of liquid assets, its ability to repay its liabilities will be limited, which may represent a substantial adverse effect in its business, financial condition, results of operations and prospects.

The results of additional stress tests could result in a need to increase capital or a loss of public confidence in the Group.

National and international regulators, including the IMF, the ECB and the EBA, have been conducting stress tests on the banking sector. In an EU-wide stress test conducted by the EBA in 2018, the Bank's capital depletion under the hypothetical adverse scenario used was below the average suffered by the 48 major European banks that were tested directly by the EBA (-300 basis points of CET1 capital, versus an average depletion of -395 basis points for the EBA banks).

The disclosure of the results of these stress tests may also result in a reduction in confidence in a particular bank or the banking system as a whole. The Bank cannot exclude the need for additional provisions for impairments. Consequently, new stress tests could adversely affect the cost of funding for the Bank and have a materially adverse impact on its business, financial condition, results of operations and prospects.

As a consequence of SREP, excluding P2G, the minimum Group CET 1 phased-in ratio required is 9.6250% (4.5% Pillar 1, 2.25% Pillar 2 requirements, 2.5% CBR and 0.375% O-SIFI), the Group Tier 1 ratio is 11.125% and the Group total capital ratio is 13.125% from 31 December 2018. The Group's CET1 ratio as at 31 December 2018 was 12.0% (fully implemented).

SREP may increase and an additional cushion may be requested. In addition, Polish SREP requirements for 2019 are as follows: CET 1 phased-in ratio required is 13.51%, the Tier 1 is 16.20% and the total capital ratio is 19.77% from 1 January 2019. Bank Millennium's CET1, Tier 1 and total capital ratios as at 31 December 2018 were 19.77%, 19.77% and 21.68%, respectively.

The Bank's ability to achieve certain targets is dependent upon certain assumptions involving factors that are significantly or entirely beyond the Bank's control and are subject to known and unknown risks, uncertainties and other factors.

The achievement of the Bank's internal targets will depend on the verification of assumptions involving factors that are significantly or entirely beyond the Bank's control and subject to known and unknown risks, uncertainties and other factors that may result in management failing to achieve these targets. These factors include those described elsewhere in this section and, in particular:

- the Bank's ability to successfully implement its strategy;
- the Bank's ability to successfully implement its funding and capital plans;
- the successful implementation of economic reforms in Portugal;
- the Bank's ability to access funding in the capital markets;
- the level of the Bank's LLRs against NPEs;
- the Bank's ability to reduce NPEs;
- the quality of the Bank's assets;
- the Bank's ability to reduce costs;

- the financial condition of the Bank's customers;
- reductions to the Bank's ratings;
- growth of the financial markets in the countries in which the Bank operates;
- the Bank's ability to grow internationally;
- future market conditions;
- currency fluctuations;
- the actions of regulators;
- changes to the political, social and regulatory framework in which the Bank operates;
- macroeconomic or technological trends or conditions, including inflation and consumer confidence,

and other risk factors identified in this Offering Circular. If one or more of these assumptions is inaccurate, the Bank may be unable to achieve one or more of its targets, which may have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank regularly uses financial models in the course of its operations. These financial models help inform the Bank of the value of certain of its assets (such as certain loans, financial instruments, including illiquid financial instruments where market prices are not readily available, goodwill or other intangible assets) and liabilities (such as the Bank's defined benefit obligations and provisioning) as well as the Bank's risk exposure. These financial models also generally require the Bank to make assumptions, judgements and estimates which, in many cases, are inherently uncertain, including expected cash flows, the ability of borrowers to service debt, residential and commercial property price appreciation and depreciation, and relative levels of defaults. Such assumptions, judgements and estimates may need to be updated to reflect changing facts, trends and market conditions and may result in a decrease in the value of, and consequently an impairment of, the Bank's assets, an increase in the Bank's liabilities or an increase in the Bank's risk exposure, any of which may have a material adverse effect on the Bank's business, financial condition, results of operations and prospects. Property prices in Portugal have remained largely flat since 2000, particularly in comparison to property prices in Spain.

In particular, recent historic market volatility and illiquidity has challenged the factual bases of certain underlying assumptions and made it difficult to value some of the Bank's financial instruments. Decreased valuations reflecting prevailing market conditions, faulty assumptions or illiquidity, may result in changes in the fair values of these instruments, which may have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is vulnerable to fluctuations in interest rates, which may negatively affect net interest income and lead to net loss and other adverse consequences.

At the end of December 2018, the interest applied by the ECB to the main refinancing operations is 0%, while the one that applies to permanent deposit facilities is -0.4%. These two interest rates, which serve as determinant references for the level at which market interest rates are established (in particular, Euribor), were consecutively reduced in the past 5 years.

The Bank's profitability depends largely on its ability to generate a net interest income (the difference between the interest rates received in credit operations and the interest rates paid to deposits).

A significant part of the Bank's funding comes from retail deposits. In a negative interest rate environment, the Bank may not be able to reduce the remuneration rate of such deposits consistently with the reduction of the interest rate applicable to credit operations. On the other hand, very low interest rates may result in a reduction of deposits stock and force the Bank to resort to more expensive financing instruments.

The majority of the Bank's credit portfolio is comprised of variable interest rate loans, linked to Euribor. A continuous decline in or maintenance of market interest rates at the current low levels could lead to the erosion of the Bank's net interest income, which the Bank (given the current environment in which it operates), may not be able to mitigate through the increase of its loan portfolio. This could result in material adverse effects on the Bank's business, financial condition, results of operations and prospects.

Interest rates are highly sensitive to many factors beyond the Bank's control, including policy changes of the monetary authorities and other national and international political constraints. Changes in market interest rates could affect the interest rates the Bank charges on interest-earning assets differently from those it pays on interest-bearing liabilities. These differences could reduce the Bank's net interest income.

Although the data released for the Eurozone related to GDP and inflation confirm a scenario of weak economic dynamics and absence of inflationary risks, an increase of interest rates in the Eurozone could increase the costs associated with debt repayment in Portugal and aggravate the financial conditions of the country in general, namely if the interest rate increase is not adequate for the particular macroeconomic conditions of the Portuguese economy. An increase in interest rates could reduce demand for loans and the Bank's capacity to grant loans to customers, contribute to increased loan default and/or increased interest expense with deposits. This could result in material adverse effects on the Bank's business, financial condition, results of operations and prospects.

Interest rate changes or volatility may materially and adversely affect the Bank's net income, business, financial condition, results of operations and prospects.

Law No. 32/2018, of 18 July, amending Decree-Law No. 74-A/2017, of 23 June, on credit agreements for consumers relating to residential real estate property, entered into force on 19 July 2018 and, in the context of residential loan agreements, imposes on banking institutions the obligation to reflect the existence of negative rates in the calculation of interest rates applicable to the loans.

According to this new law, when the sum of the relevant index rate (such as EURIBOR) and the relevant margin is negative, this negative interest rate amount will have to either (i) be discounted from the principal amounts outstanding of the relevant loans or (ii) be converted into a credit which may in the future set off against positive interest rates (and ultimately be paid to the borrowers if it has not fully been set off at maturity). This could result in material adverse effects on the Bank's business, financial condition, results of operations and prospects.

The Bank is exposed to reputational risks, including those arising from rumours that affect its image and customer relations.

Reputational risk is inherent to the Bank's business activity. Negative public opinion towards the Bank or the financial services sector as a whole could result from real or perceived practices in the banking sector, such as money laundering, terrorism financing, the fraudulent sale of financial products or breach of competition rules, or a departure from the way that the Group conducts, or is perceived to conduct, its business. Negative publicity and negative public opinion, particularly in relation to pending litigation or enquiries by regulators that could be resolved against the Bank's favour, could adversely affect the Bank's ability to maintain and attract customers and counterparties, the loss of which could adversely affect the Bank's business, financial condition and future prospects, due, for instance, to a run on deposits and subsequent lack of funding sources.

The Bank may be unable to detect money laundering, terrorism financing, tax evasion or tax avoidance behaviour by clients, which could be attributed to the Bank. Failure to manage such risk could lead to reputational damage and to financial penalties for failure to comply with required legal procedures or other aspects of applicable laws and regulations, which could materially adversely affect the Bank's business, results of operations, financial condition and prospects.

The Bank has a limited number of customers who are classified as politically exposed persons pursuant to the applicable legislation, including Law No. 83/2017, of 18 August and Notice No. 5/2013 or No.

2/2018, of Banco de Portugal (as applicable), as amended. Although the Bank exercises increasingly stricter scrutiny of transactions with politically exposed persons in order to ensure compliance with applicable laws, the services provided to these individuals may expose the Bank to reputational risks, notwithstanding the Bank's compliance with applicable laws.

The Bank may have difficulty in hiring and retaining board members and qualified personnel.

The Bank's ability to successfully implement its strategy depends on its ability to recruit and maintain the most qualified and competent members for its governing bodies and for employment positions in Portugal and other countries. The composition of the Board of Directors of the Bank and/or its Executive Committee might change due primarily to decisions made by the shareholders or by the Board of Directors or due to other circumstances.

Regarding the international operations, there has been a high staff turnover in the Bank's operations in Poland and Mozambique. In Poland, 1,356 employees left the Bank and 1,687 employees were hired in 2018, with the total number of employees by the end of 2018 being 6,132. In Mozambique, the bank maintained its trend of growth in the number of employees with the recruitment of 151 employees. 167 employees left the Bank, thus, the Bank had 2,461 employees by the end of 2018.

The inability to attract and retain qualified and competent members for its governing bodies and/or other employee positions could limit or delay the implementation of the Bank's strategy, which could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The coverage of pension fund liabilities could be insufficient, which would require an increase in contributions, and the computation of additional actuarial losses could be influenced by changes to assumptions.

The Bank has undertaken the obligation to pay pensions to its employees upon retirement or due to disability and other obligations, in accordance with the terms established in the Collective Labour Agreement of the Banking Sector. The Bank's liabilities are primarily covered by the pension fund, which is managed by Ocidental-Sociedade Gestora de Fundos de Pensões, S.A. The total number of the pension fund participants was 27,381 as at 31 December 2018 and 27,454 as at 31 December 2017.

The liabilities related to retirement pensions and other employee benefits were wholly funded at levels above the minimum limits defined by Banco de Portugal, presenting a coverage level of 100% at the end of 2018 (104% as at 31 December 2017). As at 31 December 2018, the liabilities related to the pension fund and other employee benefits reached EUR 3,066 million, compared with EUR 3,050 million recorded as at 31 December 2017. In 2018, the pension fund recorded a positive 0.2% rate of return, whereas in 2017 it stood at positive 4.2%.

Regulation (EU) No. 475/2012, of 5 June, which amended IAS 19, eliminated the option to defer the recognition of gains and losses, which is known as the corridor method.

The level of coverage of pension fund liabilities could turn out to be insufficient. If the deterioration of global financial markets leads to lower investment income and, consequently, a lower value of the fund, this would result in actuarial losses for the year, which would be recognised against reserves in the financial year in which they were recorded. As at 31 December 2018, the Bank used a discount rate of 2.1% to measure its liability for the defined benefit pension plans of its employees and managers, equivalent to the rate used in its accounts as at 31 December 2017. In the financial statements with reference to 31 December 2018, the discount rate was at 2.1% and the pension growth rate 0% until 2019 and 0.5% after 2019. The Bank shall re-evaluate the adequacy of its actuarial assumptions for the calculation of its liabilities with pensions on a semi-annual basis. A decrease in level of the interest rates for the liabilities liquidation deadline or an increase in the pensions growth rate would imply a decrease in the Bank's own capital. A decrease of 25 bps in the discount rate results in a decrease of around EUR 128 million in the Bank's own capital, excluding the tax effect. An increase of 25 bps in the pensions' growth rate results implies a reduction of around EUR 120 million in the Bank's own capital, excluding the tax effect.

Actuarial gains and losses resulting from the differences between the assumptions used and actual values (experience gains and losses) and the changes in the actuarial assumptions are recognised against shareholder equity. In 2018, actuarial differences were recorded representing negative EUR 98 million (positive EUR 29 million as at 31 December 2017). If there are shortfalls in the pension fund's rate of return, the Bank may have to increase its contributions, which would have an impact on the Bank's regulatory capital ratios. The Bank cannot guarantee that changes will not take place in the actuarial assumptions relating to the pension obligations and other employee benefits. Any changes in the assumptions could lead to additional actuarial losses which could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

Finally, the value of assets that are part of the pension fund depends on the future evolution of capital markets and of the real estate market. A decline in the capital markets and of the real estate market could cause the value of the portfolio's assets to become insufficient to cover the liabilities assumed by the pension fund, adversely affecting capital ratios and the Bank's business, financial condition, own capital and prospects.

Labour disputes or other industrial actions could disrupt Bank operations or make them more costly to run.

The Bank is exposed to the risk of labour disputes and other industrial actions. 83.6% of the Bank's employees in Portugal and 78.6% of all its employees were members of labour unions at the end of 2017 and the Bank may experience strikes, work stoppages or other industrial actions in the future. Any of these actions could, possibly for a significant period of time, result in disruption to the Bank's activity and increased salaries and benefits granted to employees or otherwise have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is exposed to market risk, which could result in the devaluation of investment holdings or affect its trading results.

The performance of the financial markets could cause changes in the value of the Bank's investment and trading portfolios. Changes in the interest rate level, yield curve and spreads could reduce the Bank's net interest margin. Changes in foreign exchange rates could affect the value of its assets and liabilities denominated in foreign currencies and could affect the results of trading. The main measure used by the Bank in evaluating general market risks (including interest rate risk, foreign exchange rate risk and equity price risk) is Value at Risk ("VaR"). VaR is calculated based on analytical approximation defined in the methodology adopted by Risk Metrics (1996). It is calculated using a 10 business day time horizon and a unilateral statistical confidence interval of 99%. At 31 December 2017, the average VaR for the global trading portfolio (according to prudential allocation) was below EUR 3.5 million and as at 31 December 2018 was EUR 2.8 million. The interest rate risk derived from the operations of the banking book is assessed through a risk sensitivity analysis, undertaken every month, covering all the operations included in the Group's consolidated balance sheet. The sensitivity is determined by the difference between the present value of the interest rate mismatch (discounted at market interest rates) and the value of the same mismatch discounted at rates with +100 basis points, worth positive EUR 138 million, as at 31 December 2018 and the value of the same mismatch discounted at rates with -100 basis points, worth negative EUR 29 million, for the currency in which the Bank has the most significant position, the Euro.

The portfolio of shares, accounted either in trading or at the fair value captions totalled EUR 76.7 million as at 31 December 2018 (EUR 4.9 million in the caption "Financial assets at Fair value through profit or loss – Held for trading", EUR 24.1 million in the caption "Financial assets at Fair value through profit or loss – not held for trading mandatorily at fair value through profit or loss" and EUR 47.7 million in the caption "Financial assets at Fair value through other comprehensive income"), compared to EUR 49.0 million as at 31 December 2017 (EUR 2.1 million in the caption "Financial assets at Fair value through profit or loss – Held for trading", EUR 46.9 million in the caption "Financial assets available for sale") and EUR 55.7 million as at 31 December 2016 (EUR 2.1 million in the caption "Financial assets at Fair value through profit or loss – Held for trading", EUR 53.6 million in the caption "Financial assets available for

sale"). Any depreciation in the value of the Bank's share portfolio, could have a material adverse effect on its financial condition and results of operations.

The Bank has significant exposure to participation units in closed-end funds, which are companies with annual audited accounts, resulting from the transfer of restructured loans. The securities classified as level 3 include units in restructuring funds in the amount of EUR 1,007.0 million (EUR 1,022.1 million as at 31 December 2017) as at 31 December 2018 which value resulted from the 'Net assets attributable to unit holders' ("**NAV**") quote determined by the management company and after considering the effects of the last audited accounts for the respective funds. As from 1 January 2018, following the implementation of the IFRS 9, the participation units started to be recorded at fair value through profit and loss.

The Bank has implemented risk management methods to mitigate and control these and other market risks to which it is exposed, including the use of derivatives to hedge certain products offered to its customers, and the Bank's risk exposure is continuously monitored. However, it is difficult to accurately predict changes in market conditions and to foresee the effects that these changes might have on the Bank's financial condition and results of operations. Any failure in risk management or control policies targeting market risk could have a negative impact on the Bank's business, financial condition, results of operations and prospects.

The Bank is subject to compliance risk, which may lead to claims of non-compliance with regulations and lawsuits by public agencies, regulatory agencies and other parties.

The Bank operates in a highly regulated industry. Therefore, it is subject to claims of non-compliance with regulations and lawsuits by public agencies, regulatory agencies and other parties.

The Bank's regulators frequently conduct inspections and request information in respect of the Bank's or its clients' activities and transactions. Any inspections or other proceedings that are unfavourable to the Bank may result in sanctions, limitations on its business opportunities, or a reduction of its growth potential, and may have an adverse effect on the Bank's ability to comply with certain contractual obligations or retain certain commercial relationships.

The Bank is subject to provisioning requirements, minimum cash level, credit qualification, record-keeping, privacy, liquidity, permitted investments, contingency, and other prudential and behavioural requirements which have associated costs; any increase or change in the criteria of these requirements could have an impact on the Bank's operations and results.

The Bank is also subject to rules and regulations related to the prevention of money laundering, bribery and terrorism financing. Compliance with anti-money laundering, anti-bribery and counter-terrorist financing rules entails significant cost and effort. Non-compliance with these rules may have serious consequences, including adverse legal and reputational consequences and consequences in the Bank's relationship with its clients, partners, service providers and other third parties. Although the Bank believes that its current anti-money laundering, anti-bribery and counter-terrorist financing policies and procedures are adequate to ensure compliance with applicable legislation, the Bank cannot guarantee that it has in the past or will comply, at all times, with all applicable rules or that its regulations for fighting money laundering, bribery and terrorism financing as extended to the whole Group are applied by its employees under all circumstances.

The Bank is subject to competition regulations. In particular, the Bank is subject to laws prohibiting the abuse of a dominant market position and prohibiting agreements and/or concerted practices between business entities that aim to prevent, restrict or distort competition, or have the effect of preventing, restricting or distorting competition. In cases where the Bank is found to have infringed the relevant rules of Portuguese and/or European Union competition law, the Bank is subject to the risk of fines of up to 10% of its consolidated annual turnover in addition to a public announcement of any sanctions issued. In addition to penalties imposed by the European Commission and/or the Portuguese Competition Authority, the Bank may be ordered by these entities or by national courts, as applicable, to discontinue certain practices, comply with behavioural or structural remedies, or pay damages to third parties that

demonstrate that they have been harmed by the Bank's infringement of the competition rules, whether based on an earlier infringement decision by the relevant authority or independent of any such decision. The Bank may also be subject to similar consequences in other jurisdictions where it is active, as imposed by competition authorities or national courts of such jurisdictions. This can lead to material adverse effects on the Bank's business, financial condition, results of operations and prospects.

The Bank is subject to certain operational risks, which may include interruptions in the services provided, errors, fraud attributable to third parties, omissions and delays in the provision of services and implementation of requirements for risk management.

In its normal activity and as a result of its organisational structure, the Bank is subject to certain operational risks, including interruptions in the services provided, errors, fraud attributable to third parties, and omissions and delays in the provision of services and implementation of requirements for risk management. A majority of the Bank's operational losses in 2016 and the six months ended 30 June 2017 were caused by frauds and execution failures and a large portion of the operational losses had low material significance, under EUR 100,000 (95% of all operational losses Group wide). In fact about 74% of the cases recorded in the six months ended 30 June 2017 had a financial impact of less than EUR 5,000 each. The Bank continually monitors operational risks by means of, among other actions, advanced administrative and information systems and insurance coverage with respect to certain operational risks. However, it is not possible to guarantee that the monitoring and prevention of these risks will be fully effective. Any lack of success in the implementation of the Bank's risk management and control policies could have a material adverse effect on its business, financial condition, results of operations and prospects.

The Bank faces technological risks, and a failure in the Bank's information technology systems could result in, among other things, trading losses, losses in customer deposits and investments, accounting and financial reporting errors and breaches in data security.

The operations developed by the Group, in Portugal and internationally, have an infrastructure of information systems that is externalised, but also common and integrated, promoting higher overall efficiency. The Bank's operations depend heavily on their respective computer processing capabilities, especially following the centralisation of the information systems. Computer processing capabilities include record-keeping, financial reporting and other systems, including systems for monitoring points of sale and internal accounting systems. In March 2013, the Bank renewed the outsourcing agreement with IBM, which includes the management of computer infrastructures—central system, department systems and server farm for systems—some specific areas of application development and IT support services to the Bank's organic units.

The strategy for outsourcing the Group's IT services includes the outsourcing of non-differentiating functions and without impact on the definition of commercial and business strategies. The agreement with IBM was signed for the first time in 2003. In 2013, after a new direct negotiation with IBM, some application development services were outsourced, grouping various contracts with smaller companies and enabling global management of these services. The agreements have been signed for a 10 year period, being renegotiated every two years, taking into consideration the impacts of technological evolution (consolidation, virtualisation and cloud computing) and of changes in demand and market prices.

Regarding the security of the information systems, the Bank has continued to pursue a strategy aligned with good international practices. However, it is not possible to guarantee to potential investors complete identification and timely correction of all problems related to the informational technology systems, or systematic success in the implementation of technological improvements. A failure in the Bank's information technology systems could result in, among other things, trading losses, losses in customer deposits and investments, accounting and financial reporting errors and breaches in data security. The occurrence of any of the aforementioned events could have a significant and negative effect on the Bank's business, financial condition, results of operations and prospects.

The Bank is subject to the risk of changes in the relationship with its partners.

Some of the Bank's activities are carried out in partnership with other entities that are not under the control of the Bank, including Millenniumbcp Ageas. Therefore, the Bank does not have the ability to control the decisions of these entities or ensure full compliance with the agreements that established such partnerships. Any decision or action by these entities and/or their breach of such agreements may have a material adverse effect on the Bank's reputation, business, financial condition, results of operations and prospects.

As part of a process aiming to refocus on core activities, defined as a priority in the Strategic Plan, the Bank agreed with the international insurance group Ageas to a partial recast of the strategic partnership agreements entered into in 2004, which included the sale of its 49% interest in the insurance companies that operate exclusively in the non-life insurance business, i.e. Ocidental-Companhia Portuguesa de Seguros, S.A. and in Médis – Companhia Portuguesa de Seguros de Saúde, S.A., subject to the required regulatory authorisation from the relevant authorities, for a base price of EUR 122.5 million, subject to a medium-term performance adjustment. The net contribution of Millennium bcp Ageas was EUR 35.4 million in 2018. Ageas and the Bank also agreed that the joint venture would upstream excess capital totalling EUR 290 million to its shareholders, which was carried out in 2014 in accordance with the proportion of the stakes held by BCP and Ageas.

Following the sale, Millennium bcp continues, now in tandem with other banking and non-banking distribution channels, to distribute non -life insurance products from Ocidental-Companhia Portuguesa de Seguros, S.A. and Médis-Companhia Portuguesa de Seguros de Saúde, S.A.

In February 2009, the Bank carried out financial transactions relating to the strategic partnership agreements established with Sonangol (a company that held, as at 30 June 2017, 15.24% of the Bank's share capital and voting rights) and Banco Privado Atlântico, S.A. (“**BPA**”) (in which BMA held a shareholding of 6.66%), as a result of which the Bank reduced its stake in BMA to 52.7% through BMA's share capital increase of USD 105,752,496.80. In April 2012, the Bank reduced its stake in BMA to 50.1%, following BMA's share capital increase, which was fully subscribed to by Global Pactum—Gestão de Activos (main shareholder of BPA), in line with the partnership agreement entered into with Sonangol and BPA. Within the scope of this partnership, the Bank, Sonangol and BPA entered in May 2008 into a shareholders' agreement regarding BMA, which included, among others, clauses on corporate bodies and preferential rights in case of transfer of BMA's shares. On 8 October 2015, BMA and BPA announced their merger to create one of the largest privately-owned banks in the country. This merger was completed on 22 April 2016, resulting in the creation of a significant institution in Angola (Banco Millennium Atlântico) with a market share of 11% in terms of credit and of 9% in deposits (source: Banco Nacional de Angola). This operation generated a positive impact on the phased-in capital ratio of around 40 basis points. It is not possible to predict in advance the success of the merged bank, nor whether the current partnership will remain the same.

Transactions in the Bank's own portfolio involve risks.

The Bank carries out various proprietary treasury activities, including the placement of deposits denominated in Euro and other currencies in the interbank market, as well as trading in primary and secondary markets for government securities. The management of the Bank's own portfolio includes taking positions in fixed income and equity markets, both via spot market and through derivative products and other financial instruments. In spite of the Bank's limited level of involvement in these activities, trading on account of its own portfolio carries risks, since its results depend partly on market conditions. A reduction in the value of financial assets held due primarily to market conditions, or any other such conditions outside the control of the Bank, could require a corresponding loss recognition that may impact the Bank's balance sheet. Moreover, the Bank relies on a vast range of risk reporting and internal management tools in order to be able to report its exposure to such transactions correctly and in due time. Future results arising from trading on account of its own portfolio will depend partly on market conditions, and the Bank may

incur significant losses resulting from adverse changes in the fair value of financial assets, which could have a material adverse effect on its business, financial condition, results of operations and prospects.

Hedging operations carried out by the Bank may not be adequate to prevent losses.

The Bank carries out hedging transactions to reduce its exposure to different types of risks associated with its business. Many of its hedging strategies are based on historical patterns of transactions and correlations. Consequently, unexpected market developments might negatively affect the Bank's hedging strategies.

Furthermore, the Bank does not hedge all of its risk exposure in all market environments or against all types of risks and in some cases a hedge may not be available to the Bank. Moreover, the way that gains or losses arising from certain ineffective hedges are recognised may result in additional volatility in its reported earnings. The Group employs derivatives and other financial instruments to hedge its exposure to interest rate and foreign exchange risk resulting from financing and investment activities. Hedging derivatives are recognised at their fair value and the profits and losses resulting from their valuation are recognised against the results. The Bank may still incur losses from changes in the fair value of derivatives and other financial instruments that qualify as fair value hedges. If any of its hedging instruments or strategies are inefficient, the Bank could incur losses which could have a material adverse effect on its business, financial condition, results of operations and prospects.

The Bank faces exchange rate risk related to its international operations.

All of the Bank's international operations are directly or indirectly exposed to exchange rate risk, which could adversely affect the Bank's results. Any devaluation of these currencies relative to the Euro could have a negative impact on the Bank's business, financial condition, results of operations and prospects.

As at 31 December 2018, the loans-to-deposits ratio in Poland and Mozambique was 80% and 45%, respectively. The Bank's loan portfolio also includes loans in foreign currency, where the losses are assumed by customers and recorded in the profit and loss account under impairment. The use of funding in foreign currency in some countries of Eastern Europe exposes some of the Bank's customers to exchange rate risk, affecting the financial condition of these entities and, consequently, the net income of the Bank. Although Bank Millennium stopped granting new foreign currency loans in Poland by the end of 2008, it still holds a considerable loan portfolio in foreign currency, mainly in Swiss francs (as at 31 December 2018, 26.5% of the total loan portfolio and 51% of the total mortgage loan book), and therefore the Bank's net income could be significantly affected by the need to undertake additional payments for impairment in the loan portfolio and by the high cost of zloty swaps. On 15 January 2015, the Swiss National Bank discontinued its minimum exchange rate which had been set at EUR/CHF 1.20 in September 2011. Simultaneously, the Swiss National Bank lowered the interest rate on sight deposit account balances that exceed a given exemption threshold by 0.5% to -0.75%. As a consequence, on the next day the Swiss franc appreciated 15% to around EUR/CHF 1.04 and the main index on the Swiss stock exchange went down around 8.7%. The EUR/CHF exchange rate is now free float. Net income may also be adversely affected if Poland does not join the Eurozone in the medium term as is currently expected. Similarly, net income may be affected if institutional investors pool their assets in established, rather than emerging, markets. This risk is exacerbated in the context of greater political instability related to reform of the European institutional framework, which has already had repercussions on the Swiss franc exchange rate.

The Polish President announced a proposal of a plan for CHF-denominated mortgage loans in August 2016, according to which banks must return the cost of excessive foreign exchange spreads they charged their clients, potentially equalling several billion zloty. If this proposal enters into force, it could have a material adverse effect on the Bank's, business, financial condition, results of operations and prospects. See "*The Bank faces exposure to risks in its businesses in Europe (Poland) and Africa (Angola and Mozambique)*".

The Bank might be exposed to non-identified risks or to an unexpected level of risks, notwithstanding the risk management policy pursued by the Bank.

The Bank is exposed to a series of risks, including, among others, credit risk, market risk, operational risk and liquidity risk. Although careful methodologies have been implemented for the management of each type of risk to which the Bank is exposed, when faced with exceptionally adverse scenarios, the policies and procedures used by the Bank in the identification, monitoring and management of these risks might not prove to be totally effective. The Bank's risk management methods are based on a combination of human and technical controls and supervision, which are subject to errors and defects. Some of the Bank's methods of managing risks are based on internally developed controls and on historic data on market behaviour, also supported by common market practices. These methods might not adequately predict future losses, in particular when related to relevant market fluctuations, which could be considerably higher than those observed in other periods. These methods might also be ineffective in protecting against losses caused by technical errors, if the implemented testing and control systems are not effective in the prevention of software and hardware technical defects. Any errors or failures in the implementation of such risk management systems, as well as their possible inability to identify all the risks or risk levels to which the Bank is exposed, could have a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank may not be able to generate income to recover deferred taxes. Potential dilution of the shareholders' position may result from the conversion into capital of a potential special reserve that may have to be established according to the applicable legal framework, in particular in the case of negative net individual results. Changes in the law or a different interpretation of the relevant provisions of law may have an adverse impact on the capital ratio.

The Bank's deferred tax assets ("DTAs") (on a consolidated basis) as at 31 December 2018 corresponded to EUR 2,917 million, compared to EUR 3,138 million as at 31 December 2017, and were generated by tax losses and temporary differences. The most notable sources of the Bank's DTAs non-dependent on future profitability (on an individual basis) are impairment losses amounting to EUR 973 million and related employee benefits amounting to EUR 837 million.

Deferred taxes are calculated on the basis of the tax rates which are expected to be applicable at the time of the reversal of the temporary differences, which correspond to the approved or substantially approved rates at the time of the balance sheet. Assets and liabilities for deferred taxes are presented for their net value when, pursuant to the applicable laws, current tax assets may be compensated with current tax liabilities and when the deferred taxes relate to the same tax.

If the Bank is not able to generate enough taxable income to enable the absorption of the temporary differences deductible for tax purposes, the deferred taxes may not be recovered. Additionally, the Bank may be forced to alter its evaluation as a result of corrections to the taxable income or to tax losses that it may be subject to or as a result of reductions of the tax rates.

The recoverability of DTAs depends on the implementation of the strategy of the Bank's Board of Directors, namely the generation of estimated taxable income and its interpretation of tax legislation. Any changes in the assumptions used in estimating future profits or tax legislation may have material impacts on deferred tax assets.

The assessment of the recoverability of DTAs was carried based on the respective financial statements prepared under the budget process for 2019 and adjusted according to the strategic plan approved by the elected governing bodies, which support future taxable income, considering the macroeconomic and competitive environment.

To estimate taxable profits for the periods 2019 and following, the following main assumptions were considered:

- In the absence of specific rules regarding the tax regime for credit impairment and guarantees for taxation periods beginning on or after 1 January 2019, the tax rules considered, that were in force in 2018, similar to the one's in force in 2015, 2016 and 2017, and through Decree-Laws published at the end of each of the referred years established that the Notice of Bank of Portugal No. 3/95 should be considered for the purposes of calculating the maximum limits of impairment losses accepted for tax purposes. In applying these rules, the following assumptions were considered in general terms:

a) non-deductible expenses related to charge in credit impairments were estimated based on the average percentage of amounts not deducted for tax purposes in the last years, compared to the amounts of impairment charges recorded in those years;

b) impairment reversals not accepted for tax purposes were estimated based on the Reduction Plan of Non-Performing Assets 2019-2021 and also based on the average reversal percentage observed in the last years;

c) the average percentages concerned were segregated, depending on the existence or absence of a mortgage guarantee, the eligibility for the special regime applicable to deferred tax assets and according to the classification of clients as Non Performing Exposures;

- In the absence of a transitional regime that establishes the tax treatment to be given to the transition adjustments resulting from the adoption of IFRS 9, the general rules of the IRC Code have been applied;

- The deductions related to impairment of financial assets were projected based on the destination (sale or settlement) and the estimated date of the respective operations;

- The deductions related to employee benefits were projected based on their estimated payments or deduction plans, in accordance with information provided by the actuary of the pension fund.

The projections made take into consideration the Group's strategic priorities, essentially reflecting the projection of the Bank's medium-term business in Portugal in terms of results generation, and are globally consistent with the Reduction Plan of Non-Performing Assets 2019-2021, underlining:

- Improvement of the net interest income, considering interest rate curves used under the scope of the projections of net interest income in line with the market forecasts;

- Evolution of the ratio loans and advances over the balance sheet resources from customer by approximately 100% in Portugal;

- Decrease in the cost of risk, supported by the expectation of a gradual recovery of economic activity, consubstantiating a stabilization of the business risk, as well as the reduction of the non-core portfolio. In this way, the gradual convergence of the cost of credit risk (up to 2023) is estimated to be close to those currently observed in other European countries, including in the Iberian Peninsula.

- Control of the operating expenses, notwithstanding the investments planned by the Bank in the context of the expected deepening of the digitization and expansion of its commercial activities;

- Positive net income, projecting the favourable evolution of the ROE and maintaining of the CET1 ratio fully implemented at levels appropriate to the requirements and benchmarks. From 2024 onwards, it is estimated an annual growth of the Net income before income taxes, which reflects a partial convergence to the expected level of ROE stabilized term.

The analyses made allow the conclusion of the recoverability of the total DTAs recognised as at 31 December 2018.

Law 61/2014, of 26 August 2014, approved an optional framework, with the possibility of subsequent waiver, according to which, upon certain events (including a) annual net losses on the separate financial statements, as well as b) liquidation as a result of voluntary dissolution, insolvency decided by the court or

withdrawal of the respective authorization), the DTAs that have resulted from the non-deduction of expenses and of negative asset variations resulting from impairment losses in credits and from post-employment benefits or long-term employments, will be converted into tax credits. In the case of a), a special reserve must be created in the amount of the tax credit resulting from the terms of such Law, enhanced with an increase of 10%, which is intended exclusively to be incorporated into the share capital. The creation of such special reserve implies a creation, simultaneously, of conversion rights and of a right to demand the issue of shares by the Bank in an amount equivalent to such special reserve granted to the Portuguese Republic ("**State Rights**"), such rights being acquirable by the shareholders through payment to the Portuguese State of the same amount. The tax credits can be offset against tax debts of the beneficiaries (or of any entity with head office in Portugal within the same group to which the special regime foreseen in the Corporate Tax Code is applicable or within the same prudential consolidation perimeter for the purpose of Regulation (EU) no. 575/2013, of the European Parliament and of the Council) or reimbursed by the Portuguese Republic. Due to this framework, the recovery of the DTAs covered by Law 61/2014's optional framework is not dependent on future profitability.

Law 23/2016, of 19 August, limited the scope of the regime, determining that tax assets originated in expenses or negative asset variations accounted for after 1 January 2016 are not eligible for the optional framework. The framework set out in Law 61/2014, as amended by Law 23/2016, was further developed by (a) Ministerial Order ("*Portaria*") 259/2016, of 4 October 2016, on the control and use of the tax credit and (b) Ministerial Order ("*Portaria*") 293-A/2016, of 18 November 2016 (as amended by Ministerial Order ("*Portaria*") 272/2017, of 13 September 2017), concerning the conditions and proceedings for the acquisition by shareholders of the referred State Rights. Pursuant to this legislation, among other aspects, such rights are subject to an acquisition right by the shareholders on the date of creation of the State Rights exercisable on periods to be established by the Board of Directors up to 10 years from the date of their creation, and the issuing bank has to deposit in the name of the Portuguese State the amount of the price corresponding to the exercise of the acquisition right of all the conversion rights, within three months from the date of the confirmation of the tax credit (resulting from the conversion of DTAs) by the Portuguese Tax Authorities, ahead and independently of their acquisition. Such deposit is redeemed when and to the extent that the State Rights are acquired by shareholders or are exercised by the State.

As disclosed in due course, pursuant to the General Meeting held on 15 October 2014, the Bank adopted the optional framework approved by Law 61/2014 of 26 August 2014, described above. The Group's CET 1 ratio, fully implemented as at 31 December 2018, corresponds to 12.1% and already incorporates the effects of the application of the new framework which became effective on 1 January 2015.

The Bank's net result (on an individual basis) as at 31 December 2018 was EUR 59 million; there is no guarantee that the net result in the following years will be positive.

If the Bank registers a net loss as at the end of a financial year, on an individual basis, then, under the provisions of Law 61/2014, of 26 August 2014, as amended, the Portuguese Republic will be granted State Rights, exercisable after the period of up to 10 years, during which shareholders will have the opportunity to acquire such conversion rights from the State. If shares are finally issued pursuant to the exercise of such conversion rights, this would dilute the remaining shareholders of the Bank. Among other factors that may affect the recoverability of the deferred tax assets and their composition regarding the deferred tax assets that fall within the scope of Law no. 61/2014, of 26 August 2014, the interpretation of the tax law is relevant, as well as the performance of several operations in 2016, 2017 and 2018. In this context, the Bank considered that the thresholds provided for in Banco de Portugal Notice 3/95 for the purposes of tax deductibility of credit impairments occurred in 2016, 2017 and 2018, including the effects of the transition in the individual accounts of the Bank from the adjusted accounting rules to the international accounting rules, as adopted by the EU, will be maintained. Regulatory Decree no. 5/2016, of 28 November, which came into force the following day, and Regulatory Decree no. 11/2017, of 28 December, which came into force the following day, and Regulatory Decree no. 13/2018, of 28 December, which came into force the following day, confirmed that assumption. In the absence of specific rules regarding the tax regime for credit impairment and guarantees for the taxation periods beginning on or after 1 January 2019, the

maintenance of the tax rules in force in 2017 and 2018 was considered in the estimate of taxable profit for the period, which tax rules stipulate that Banco de Portugal Notice No. 3/95 should be considered for calculating the maximum limits of impairment losses accepted for tax purposes.

In the 2015 and 2016 financial years, the Bank registered deferred tax assets regarding expenses and negative asset variations with post-employment or long term employment benefits and credit impairment losses accounted for up to 31 December 2014, which assets the Bank deems eligible for the purposes of the framework approved by Law 61/2014, of 26 August. A change in law or a different interpretation of the law, or the non-performance of the abovementioned operations could have an adverse impact on the Bank's capital ratio.

On 18 November 2016, the Regulatory Decree no. 5/2016, concerning the maximum amounts of impairment losses and other value corrections for a specific credit risk deductible for purposes of assessment of taxable income in corporate income tax, was published. Among other aspects, the regulatory decree provided that, regarding the provisions for impairments registered under Banco de Portugal Notice 3/95 and subject to annulment or reduction under Banco de Portugal Notice 5/2015, when calculating their taxable income regarding tax year 2016, taxpayers might choose to consider the positive difference (assessed as at 1 January 2016) between the amount of provisions for losses for credit impairments (constituted under Banco de Portugal Notice 3/95) and the impairments constituted as of 1 January 2016 relating to the same credits in accordance with the applicable accounting provisions, only for the part that remains unused and exceeds the tax losses computed in tax periods initiated on or after 1 January 2012 still available for deduction. The amount which is not considered for the calculation of taxable income under this framework should be deducted from the balance of the tax losses mentioned above. The Bank opted to apply this transitional regime provided for in the regulatory decree in 2016.

Any of the aforementioned could result in a material adverse effect on the Bank's business, financial condition, results of operations and prospects.

The Bank applied IFRS 9 in the period beginning on 1 January 2018. Since no specific tax treatment was established regarding the transition adjustment to IFRS 9, the Bank considered the application of the Corporate Income Tax general rules. Any new transitional regime established for those purposes or different interpretation on the tax treatment of the adoption of IFRS 9 could result in a material adverse effect on the recovery of deferred taxes.

The Bank is subject to the risk of internal and external fraud, crime, cybercrime, or other types of misconduct by employees or third parties which could have a material adverse effect on the Bank.

The Bank is subject to the risk of fraud, crime, money laundering, cybercrime and other types of misconduct by employees and third parties, as well as to unauthorised transactions by employees, third party service providers and external staff, including "rogue trading". This type of risk could result in breaches of law, rules, regulations and internal policies, losses, claims, fines, regulatory action, legal proceedings or reputational damage.

In the area of payments, over the past years the Bank and especially the Bank's clients have been subject to cybercrime and fraud in the form of phishing and malware. European law tends to hold the Bank liable unless it provides proof of intentional misconduct or gross negligence by the client. Other forms of theft include violent robberies of ATMs, in which criminals use combustible gas, explosives or vehicles and heavy equipment to gain access to cash stored in ATMs.

The Bank may be subject to disruptions of its operating or information systems, arising from criminal acts by individuals and groups via cyberspace, which may interrupt the service to clients.

The Bank remains potentially exposed to the risk that the procedures implemented and the measures adopted with respect to the storage and processing of personal data relating to its customers may prove to be inadequate and/or not in compliance with the laws and regulations in force from time to time and/or may not be promptly or properly implemented by employees and associates, especially considering the

imminent entry into force of the "General Data Protection Regulation" (Regulation (EU) 2016/679 of the European Parliament and of the council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC). Thus, the data could be subject to damage, loss, theft, disclosure or processing for purposes other than those authorised by the customers, or even use by unauthorised parties (whether third parties or employees of companies of the Bank). If any of these circumstances occur there could be a material adverse effect on the Bank's business, including its reputation, financial condition, results of operation or prospects.

Failure of the Bank's information technology systems could lead to a breach of regulations and (contractual) obligations and have a material adverse effect on the Bank's reputation, results of operations, financial condition and prospects. The continuous efforts of individuals and groups, including organised crime, via cyberspace to commit fraud through electronic channels or to gain access to information technology systems used by the Bank (including with respect to clients' and Bank information held on those systems and transactions processed through these systems) are a growing threat to the Bank. The manifestations of risks to technology—including cyber security—change rapidly and require continued focus and investment. Given the increasing sophistication and scope of potential attacks via cyberspace, it is possible that future attacks may lead to significant breaches of security and loss of (personal) data. In addition, the Group may as a result not be able to access data or operate its systems, it may not be able to recover data, or establishing that data is not compromised may be very time consuming and costly.

There is a risk that cyber-security risk is not adequately managed or, even if adequately managed, a cyber-attack can take place and be successful, which could lead to breach of regulations, investigations and administrative enforcement by supervisory authorities and claims that may materially and adversely affect the Bank's business, reputation, results of operations, financial condition, prospects and its position in legal proceedings.

RISKS ASSOCIATED WITH NOTES ISSUED UNDER THE PROGRAMME

1. Risks related to the structure of a particular issue of Notes.

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.

The Issuer has the right to redeem Notes (i) upon certain taxation events, (ii) in the case of Subordinated Notes, Senior Non-Preferred Notes and certain Senior Notes upon a change in regulatory classification of the Notes and (iii) if so specified in the applicable Final Terms, at its option. An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect or is perceived to be able to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

If the Issuer elects to redeem any Notes, there is a risk that the relevant Notes may be redeemed at times when the redemption proceeds are less than the current market value of the Notes or when prevailing interest rates may be relatively low, in which case Noteholders may only be able to reinvest the redemption proceeds in securities with a lower yield. Potential investors should consider reinvestment risk in light of other investments available at that time.

Notes may be subject to Substitution and Variation provisions

If, in the case of any Series of Subordinated Notes, Condition 6(m) (*Substitution and Variation of Subordinated Notes*) is specified as being "Applicable" in the relevant Final Terms and a Capital Event has occurred and is continuing or if, in the case of Senior Notes and Senior Non-Preferred Notes, Condition 6(n) (*Substitution and Variation of Senior Non-Preferred Notes and certain Senior Notes*) is specified as being "Applicable" in the relevant Final Terms and an MREL Disqualification Event has occurred and is continuing or if any of the tax events described in Condition 6(b) has occurred and is continuing, or in order to ensure the effectiveness and enforceability of Condition 16(d), then the Issuer may, subject as provided in Condition 6(l) (in respect of Subordinated Notes) and Condition 6(n) (in respect of Senior Notes and Senior Non-Preferred Notes) of the Notes and without the need for any consent of the Noteholders, substitute all (but not some only) of such Series of Notes for, or vary the terms of such Series of Notes (including changing the governing law of Condition 16(d) from English law to Portuguese law or any other European law that, after consultation with the Relevant Authority, the Issuer considers allows the Subordinated Notes to be Tier 2 Compliant Notes or the Senior Non-Preferred Notes or relevant Senior Notes to be MREL Compliant Notes, as the case may be) so that the Notes remain or become Tier 2 Compliant Notes or MREL Compliant Notes, as applicable.

While Tier 2 Compliant Notes and MREL Compliant Notes must otherwise contain terms that are not materially less favourable to Noteholders than the original terms of the relevant Notes, the governing law of Condition 16(d) may be changed from English law to Portuguese law or any other European law in order to ensure the effectiveness and enforceability of Condition 16(d).

No assurance can be given as to whether any of these changes will negatively affect any particular Noteholder. In addition, the tax and stamp duty consequences of holding such substituted or varied Notes could be different for some categories of Noteholders from the tax and stamp duty consequences for them of holding such Notes prior to such substitution or variation. There can also be no assurance that the terms of any Tier 2 Compliant Notes or MREL Compliant Notes will be viewed by the market as equally favourable to Noteholders, or that such Notes will trade at prices that are equal to the prices at which the Notes would have traded on the basis of their original terms.

If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate or vice versa, this may affect the secondary market and the market value of the Notes concerned.

Fixed/Floating Rate Notes are Notes which bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market in, and the market value of, such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on those Notes and could affect the market value of an investment in the relevant Notes.

The interest rate on Reset Rate Notes will reset on each Reset Date, which can be expected to affect the interest payments on an investment in Reset Rate Notes and could affect the market value of Reset Rate Notes.

Reset Rate Notes will initially bear interest at the Initial Rate of Interest until (but excluding) the First Reset Date. On the First Reset Date, the Second Reset Date (if applicable) and each Subsequent Reset Date (if any) thereafter, the interest rate will be reset to the sum of the applicable Mid-Swap Rate and the Reset Margin as determined by the Calculation Agent on the relevant Reset Determination Date (each such interest rate, a "**Subsequent Reset Rate**"), all as further described in Condition 4(b). The Subsequent Reset Rate for any Reset Period could be less than the Initial Rate of Interest or the Subsequent Reset Rate for prior Reset Periods and could affect the market for and the market value of an investment in the Reset Rate Notes.

Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates.

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

An investor in Subordinated Notes or Senior Non-Preferred Notes assumes an enhanced risk of loss in the event of the Issuer's insolvency.

The Issuer's obligations under Subordinated Notes will be unsecured and wholly subordinated to the claims of (a) creditors of the Issuer whose claims are admitted to proof in the winding-up of the Issuer and who are unsubordinated creditors of the Issuer, and (b) creditors of the Issuer whose claims are or are expressed to be subordinated to the claims of other creditors of the Issuer (other than those whose claims relate to obligations which constitute, or would, but for any applicable limitation on the amount of such capital, constitute Tier 1 instruments or Tier 2 instruments of the Issuer, or whose claims otherwise rank or are expressed to rank *pari passu* with, or junior to, the claims of holders of the Subordinated Notes); "**Tier 1 instruments**" has the meaning given to it by the Applicable Banking Regulations from time to time; "**Tier 2 instruments**" has the meaning given to it by the Applicable Banking Regulations from time to time; "**Applicable Banking Regulations**" means at any time the laws, regulations, requirements, guidelines and policies relating to capital adequacy then in effect in Portugal and applicable to the Issuer, including, without limitation to the generality of the foregoing, those regulations, requirements, guidelines and policies relating to capital adequacy then in effect of the Relevant Authority and/or any regulation, directive or other binding rules, standards or decisions adopted by the institutions of the European Union; and "**Relevant Authority**" means Banco de Portugal, the European Central Bank or such other authority (whether in Portugal or elsewhere) having primary responsibility for prudential supervision of the Issuer. Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not

subordinated, there is a real risk that an investor in Subordinated Notes will lose all or some of his investment should the Issuer become insolvent or the Notes subject to loss absorption.

The Senior Non-Preferred Notes will constitute direct, unsubordinated and unsecured obligations of the Issuer and the rights of the holders of any Senior Non-Preferred Notes will rank junior in priority of payment to the claims of all unsubordinated creditors of the Issuer that are not creditors in respect of Statutory Senior Non-Preferred Obligations. Accordingly, no payments of amounts due under the Senior Non-Preferred Notes will be made to the Noteholders in the event of insolvency or winding up of such Issuer (to the extent permitted by Portuguese law) except where all sums due from such Issuer in respect of the claims of all unsubordinated creditors of the relevant Issuer that are not creditors in respect of Statutory Senior Non-Preferred Obligations are paid in full, as more fully described in Condition 2(c). "**Statutory Senior Non-Preferred Obligations**" means any present and future claims in respect of unsubordinated and unsecured obligations of the Issuer which have a lower ranking within the meaning of article 8-A of Decree-Law no 199/2006 of 25 October (as amended) (or any other provision implementing article 108 of Directive 2014/59/EU, as amended by Directive (EU) 2017/2399, in Portugal) than the claims in respect of all other unsubordinated and unsecured obligations of the Issuer.

Although Senior Non-Preferred Notes may pay a higher rate of interest than comparable Notes which benefit from a preferential ranking, there is a significant risk that an investor in Senior Non-Preferred Notes will lose all or some of its investment should the Issuer become insolvent or the Notes subject to loss absorption.

Notes may be subject to loss absorption on any application of the general bail-in tool or be subject to other resolution tools and (in the case of Subordinated Notes) may be subject to loss absorption at the point of non-viability of the Issuer.

The BRRD contemplates that Subordinated Notes may be subject to non-viability loss absorption, in addition to the application of the general bail-in tool which may apply to all Notes.

The powers provided to resolution authorities in the BRRD include write down/conversion powers to ensure that capital instruments (including Additional Tier 1 and Tier 2 instruments) absorb losses at the point of non-viability of the issuing institution or its group. Accordingly, the BRRD contemplates that resolution authorities may require the write down of such capital instruments in full or on a permanent basis, or their conversion in full into shares or other instruments of ownership, to the extent required and up to their capacity, at the point of non-viability immediately before the application of any other resolution action, if any. See further the risk factor entitled "*The Banking Union may impose additional regulatory requirements that may impact the Bank's results.*"

The BRRD provides, inter alia, that resolution authorities shall exercise the write down power of reducing or converting, according to an order of priority of credits in normal insolvency procedures, in a way that results in:

- (i) CET 1 instruments being written down or converted in proportion to the relevant losses; and then
- (ii) the principal amount of other capital instruments being written down and/or converted into CET 1 (Tier 1 and Tier 2 instruments) in accordance with their relative ranking.

On 23 November 2016, the European Commission presented a comprehensive package of reforms to further strengthen the resilience of EU banks ("**EU Banking Reforms**") which proposals amend many of the existing provisions set forth in, among others, the BRRD, including a proposal extending the application of the power to write down or convert capital instruments at the point of non-viability to include eligible liabilities. On 16 April 2019 the European Parliament approved the proposals.

The taking of any such actions or the use of any other resolution tool could adversely affect the rights of Noteholders, including the write-down or conversion (in whole or in part) of their Notes. Any such

actions or the perceived likelihood of any such actions being taken may adversely impact the price or value of their investment in the Notes.

See the risk factor entitled "*The Banking Union may impose additional regulatory requirements that may condition the Bank's results, and relevant uncertainties remain regarding the definition and implementation of the European Deposit Insurance Scheme*" above and "*Description of the Business of the Group – Recent developments on the banking regulation*" below.

Limitation on gross-up obligation under the Subordinated Notes, the Senior Non-Preferred Notes and certain Senior Notes.

The obligation under Condition 7 to pay additional amounts in the event of any withholding or deduction in respect of taxes on any payments under the terms of the Subordinated Notes or (where Condition 7(b) is specified as "Applicable" in the relevant Final Terms) the Senior Non-Preferred Notes and the Senior Notes applies only to payments of interest and not to payments of principal or premium (as applicable). As such, the Issuer would not be required to pay any additional amounts under the terms of such Notes to the extent any withholding or deduction applied to payments of principal or premium (as applicable). Accordingly, if any such withholding or deduction were to apply to any payments of principal or premium (as applicable) under any such Notes, Noteholders may receive less than the full amount of principal or premium (as applicable) due under such Notes upon redemption, and the market value of such Notes may be adversely affected.

Subordinated Notes, Senior Non-Preferred Notes and certain Senior Notes: Remedies for Non-Payment.

The sole remedy against the Issuer available to any Noteholder for recovery of amounts owing in respect of any payment of principal or interest in respect of any Subordinated Notes, Senior Non-Preferred Notes or certain Senior Notes in respect of which Condition 9(b) is specified as "Applicable" in the applicable Final Terms will be the institution of proceedings for the winding-up of the Issuer and/or proving in any winding-up of the Issuer. As such, the remedies available to holders of any such Subordinated Notes, Senior Non-Preferred Notes or relevant Senior Notes are more limited than those typically available to holders of other senior ranking securities, which may make enforcement more difficult.

Reform and Regulation of "benchmarks".

Interest rates and indices which are deemed to be "benchmarks" (such as LIBOR, EURIBOR or ISDAFIX (now restructured and renamed the ICE Swap Rate) referenced swap rates) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such "benchmarks" to perform differently than in the past, to disappear entirely or to have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark". The Benchmarks Regulation was published in the Official Journal of the European Union on 29 June 2016 and has applied, subject to certain transitional provisions, since 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the European Union. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-European Union based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by European Union supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-European Union based, not deemed equivalent or recognised or endorsed).

The Benchmarks Regulation could have a material impact on any Notes linked to or referencing a "benchmark", in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant "benchmark".

More broadly, any of the national or international reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

Specifically, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. On 27 July 2017, and in a subsequent speech by its Chief Executive on 12 July 2018, the UK Financial Conduct Authority ("**FCA**") confirmed that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the "**FCA Announcements**"). The FCA Announcements indicated that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.

In addition, on 29 November 2017, the Bank of England and the FCA announced that, from January 2018, its Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average ("**SONIA**") over the next four years across sterling bond, loan and derivative markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

Separate workstreams are also underway in Europe to reform EURIBOR using a hybrid methodology and to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on euro risk-free rates recommended Euro Short-term Rate ("**ESTER**") as the new risk free rate. ESTER is expected to be published by the ECB by October 2019. In addition, on 21 January 2019, the euro risk free-rate working group published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds/notes). The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts may increase the risk to the euro area financial system.

It is not possible to predict with certainty whether, and to what extent, LIBOR and EURIBOR will continue to be supported going forwards. This may cause LIBOR and EURIBOR to perform differently than they have done in the past, and may have other consequences which cannot be predicted. Such factors may have (without limitation) the following effects on certain "benchmarks" (including LIBOR and EURIBOR): (i) discouraging market participants from continuing to administer or contribute to a "benchmark"; (ii) triggering changes in the rules or methodologies used in the "benchmark" or (iii) lead to the disappearance of the "benchmark". Any of the above changes or any other consequential changes as a result of national or international reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing or otherwise dependent (in whole or in part) upon a "benchmark".

The Terms and Conditions of Notes provide for certain fallback arrangements in the event that a Benchmark Event occurs that are not subject to the consent of the Noteholders, including if an Original Reference Rate and/or any page on which an Original Reference Rate may be published, becomes unavailable, or if the Issuer, the Calculation Agent, any Paying Agent or any other party responsible for the calculation of the Rate of Interest (as specified in the applicable Final Terms) are no longer permitted lawfully to calculate interest on any Notes by reference to such an Original Reference Rate under the Benchmarks Regulation or otherwise. Either (i) the Issuer will appoint an Independent Adviser to determine a Successor Rate or, failing which, an Alternative Reference Rate to be used in place of the Original Reference Rate or (ii) if the Issuer is unable to appoint an Independent Adviser or the Independent Adviser appointed is unable to determine the relevant rates, the Issuer may (after consulting with the Independent Adviser (if any)) determine a Successor Rate or, failing which an Alternative

Reference Rate to be used in place of the Original Reference Rate. The use of any such Successor Rate or Alternative Reference Rate to determine the Rate of Interest may result in the Notes performing differently (including paying a lower Rate of Interest for any Interest Period) than they would do if the Original Reference Rate were to continue to apply.

Furthermore, if a Successor Rate or Alternative Reference Rate is determined by an Independent Adviser or the Issuer, as the case may be, the Conditions provide that the Issuer may vary the Conditions and the Agency Terms as necessary, to ensure the proper operation of such Successor Rate or Alternative Reference Rate, without any requirement for consent or approval of the Noteholders.

If a Successor Rate or Alternative Reference Rate is determined by an Independent Adviser or, as the case may be, the Issuer, the Conditions also provide that an Adjustment Spread may be determined by the Independent Adviser or, as the case may be, the Issuer to be applied to such Successor Rate or Alternative Reference Rate. The aim of the Adjustment Spread is to reduce or eliminate, so far as is reasonably practicable in the relevant circumstances, any economic prejudice or benefit (as the case may be) to the Noteholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Reference Rate. However, there is no guarantee that such an Adjustment Spread will be determined or applied, or that the application of an Adjustment Spread will either reduce or eliminate economic prejudice to the Noteholders. If no Adjustment Spread is determined, a Successor Rate or Alternative Reference Rate may nonetheless be used to determine the Rate of Interest. Furthermore, there is no guarantee that a Successor Rate or an Alternative Reference Rate will be determined or applied.

If, following the occurrence of a Benchmark Event, no Successor Rate or Alternative Rate is determined or, in relation to Floating Rate Notes or Reset Notes in respect of which the above fallback arrangements do not apply, the ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page or, in the case of Reset Notes, the application of the previous reset Rate of Interest for a preceding Reset Period, or for the First Reset Rate of Interest, the application of the Initial Rate of Interest applicable to such Notes on the Interest Commencement Date. Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser, the potential for further regulatory developments and the fact that the provisions of Condition 4(e) ("*Benchmark Replacement*") will not be applied if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the relevant Series of Notes as regulatory capital or eligible liabilities, where applicable, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on the Notes.

Any of the above matters, which are not subject to the approval of Noteholders, or any other significant change to the setting or existence of the Original Reference Rate could adversely affect the ability of the Issuer to meet its obligations under the Notes and could have a material adverse effect on the value or liquidity of, and the amount payable under, the Notes.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Notes linked to or referencing a "benchmark".

2. Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

The conditions of the Notes contain provisions which may permit their modification without the consent of all investors.

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The conditions of the Notes also provide that the Agent and the Issuer may, without the consent of the Noteholders, make modifications to the Notes or the Instrument in the circumstances further described in Condition 13.

Administrative co-operation in the field of taxation.

Council Directive 2011/16/EU, as amended by Council Directive 2014/107/EU, of 9 December 2014, introduced the automatic exchange of information in the field of taxation concerning bank accounts and is in accordance with the Global Standard released by the Organisation for Economic Co-operation and Development in July 2014.

Under Council Directive 2014/107/EU, financial institutions are required to report to the tax authorities of their respective Member State (for the exchange of information with the state of residence) information regarding bank accounts, including depository and custodial accounts, held by individual persons residing in a different Member State or entities which are controlled by one or more individual persons residing in a different Member State, after having applied the due diligence rules foreseen in the Council Directive. The information refers not only to personal information such as name, address, state of residence, tax identification number and date and place of birth, but also to the account balance at the end of the calendar year, and (a) in case of depository accounts, the total gross amount of interest paid or credited to the account during the calendar year; or, (b) in the case of custodial accounts, the total gross amount of interest, dividends and any other income generated, as well as the proceeds from the sale or redemption of the financial assets paid or credited in the account during the calendar year to which the financial institution acted as custodian, broker, nominee, or otherwise as an agent for the account holder, among others.

Portugal has implemented Directive 2011/16/EU through Decree-Law No. 61/2013, of 10 May 2013. Also, Council Directive 2014/107/EU was implemented through Decree-Law No. 64/2016 of 11 October 2016. Recently, Law No. 17/2019 of 14 February 2019, introduced by the regime for the automatic exchange of financial information to be carried out by financial institutions to the Portuguese Tax Authority with respect to accounts held by holders or beneficiaries resident in the Portuguese territory with a balance or value that exceeds EUR 50,000. This regime covers information related to years 2018 and following.

The value of the Notes could be adversely affected by a change in law or administrative practice.

The Agency Terms and the Notes (except Conditions 2(b) and 2(c)) are governed by, and shall be construed in accordance with, English law. Conditions 2(b) and 2(c) and the form (*representação formal*) and transfer of the Notes, the creation of security over the Notes and the Interbolsa procedures for the exercise of rights under the Notes are governed by, and shall be construed in accordance with, Portuguese law.

The conditions of the Notes are based on relevant law in effect as at the date of this Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to relevant law or administrative practice after the date of this Offering Circular.

Risks related to withholding tax on Notes.

Under Portuguese law, income derived from the Notes integrated in and held through a centralised system managed by Portuguese resident entities (such as the Central de Valores Mobiliários, managed by Interbolsa), by other European Union or EEA entities that manage international clearing systems (in the latter case if there is administrative co-operation for tax purposes with the relevant country which is equivalent to that in place within the European Union), or, when authorised by the member of the government in charge of finance (currently the Finance Minister), in other centralised systems held by non-resident investors (both individual and corporate) eligible for the debt securities special tax exemption regime which was approved by Decree-Law No. 193/2005, of 7 November 2005, as amended, ("**the special regime approved by Decree-Law No. 193/2005**") may benefit from withholding tax exemption, provided that certain procedures and certification requirements are complied with.

Failure to comply with procedures, declarations, certifications or others will result in the application of the relevant Portuguese domestic withholding tax to the payments without giving rise to an obligation to gross up by the Bank.

It should also be noted that, if interest and other income derived from the Notes is paid or made available ("*colocado à disposição*") to accounts in the name of one or more accountholders acting on behalf of undisclosed entities (e.g. typically "jumbo" accounts) such income will be subject to withholding tax in Portugal at a rate of 35% unless the beneficial owner of the income is disclosed. Failure by the investors to comply with this disclosure obligation will result in the application of the said Portuguese withholding tax at a rate of 35% and the Bank will not be required to gross up payments in respect of any withheld accounts in accordance with Condition 7(a)(viii).

Further, interest and other types of investment income obtained by non-resident holders (individuals or legal persons) without a Portuguese permanent establishment to which the income is attributable that are domiciled in a country, territory or region included in the "tax havens" list approved by Ministerial Order No. 150/2004 of 13 February 2004, as amended from time to time (hereafter "**Ministerial Order No. 150/2004**"), is subject to withholding tax at 35%, which is the final tax on that income, unless the special regime approved by Decree-Law No. 193/2005 applies and the beneficial owners are central banks and government agencies, international organisations recognised by the Portuguese state, residents in a country or jurisdiction with which Portugal has entered into a double tax treaty or a tax information exchange agreement in force.

The Bank will not be required to gross up payments in respect of any of such non-resident holders, in accordance with paragraph (v) of Condition 7 (see also "*Limitation on gross-up obligation under the Subordinated Notes*").

See details of the Portuguese taxation regime in "*Taxation – Portuguese Taxation*".

The Notes are unsecured and therefore subject to the resolution regime.

The Notes are unsecured and therefore subject to the resolution regime, including the bail-in tool (see further "*Risk Factors – The Banking Union may impose additional regulatory requirements that may condition the Bank's results*" above and "*Description of the Business of the Group –Recent developments on the banking regulation*" below). The impact on investors, in a resolution scenario, depends crucially on the rank of the liability in the resolution creditor hierarchy. In the event of resolution, inter alia: (i) the outstanding amount of the Notes may be reduced to zero or the Notes may be converted into ordinary shares of BCP or other instruments of ownership; (ii) a transfer of assets (e.g. to a bridge bank) or in a sale of business may limit the capacity of the Bank to meet its repayment obligations; and (iii) the maturity of any Notes or the interest rate under such Notes can be altered and the payments may be suspended for a certain period. When a resolution measure is applied no shareholder or creditor of the institution (including the Noteholders) subject to resolution may have losses greater than it would have if the institution had entered into liquidation ("no creditor worse off"). Noteholders may have a right to compensation if the treatment they receive in resolution is less favourable than the treatment they would have received under normal liquidation

proceedings. This assessment must be based on an independent valuation of the firm. Completion of this assessment, as well as payment of any potential consideration, may occur considerably later than contractual payment dates.

3. Risks related to the market generally

Set out below is a brief description of the main market risks, including exchange rate risk, interest rate risk, credit risk and liquidity risk:

If an investor holds Notes which are not denominated in the investor's home currency, he will be exposed to movements in exchange rates adversely affecting the value of his holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes.

Principal and interest on the Notes will be paid in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The value of Fixed Rate Notes may be adversely affected by movements in market interest rates.

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes.

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In addition, rating agencies may assign unsolicited ratings to the Notes. In such circumstances there can be no assurance that the unsolicited rating(s) will not be lower than the comparable solicited ratings assigned to the Notes, which could adversely affect the market value and liquidity of the Notes.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the European Union and registered under the CRA Regulation (and such registration has not been withdrawn or suspended). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and

the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Offering Circular.

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Notes.

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid and such liquidity may be sensitive to changes in financial markets. If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer and existing liquidity arrangements (if any) might not protect Noteholders from having to sell the Notes at substantial discount to their principal amount in case of financial distress of the Issuer. Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. Illiquidity may have a severely adverse effect on the market value of Notes.

GENERAL DESCRIPTION OF THE PROGRAMME

Under the Programme, the Issuer may from time to time issue Notes denominated in any currency subject as set out herein. A summary of the terms and conditions of the Programme and the Notes appears below. The applicable terms of any Notes will be agreed between the Issuer and the relevant Dealer prior to the issue of the Notes and will be set out in the Terms and Conditions of the Notes incorporated in, or incorporated by reference into, the Notes, and in the Final Terms applicable to such Notes, which complete information regarding the Terms and Conditions, is more fully described under "*Form of the Notes*" below.

This Offering Circular and any supplement will only be valid for listing Notes during the period of 12 months after the date of approval of this Offering Circular in an aggregate nominal amount which, when added to the aggregate nominal amount of all Notes then outstanding or simultaneously issued under the Programme, does not exceed EUR 25,000,000,000 or its equivalent in other currencies. For the purpose of calculating the Euro equivalent of the aggregate nominal amount of Notes issued under the Programme from time to time after the date of this Offering Circular:

- (a) the Euro equivalent of Notes denominated in another Specified Currency (as specified in the applicable Final Terms in relation to the relevant Notes, as described under "*Form of the Notes*") shall be determined, at the discretion of the Issuer, as of the date of agreement to issue such Notes or on the preceding day on which commercial banks and foreign exchange markets are open for business in London, in each case on the basis of the spot rate for the sale of the Euro against the purchase of the relevant Specified Currency in the London foreign exchange market quoted by any leading bank selected by the Issuer on the relevant date of calculation; and
- (b) the Euro equivalent of Zero Coupon Notes (as specified in the applicable Final Terms in relation to the relevant Notes, as described under "*Form of the Notes*") and other Notes issued at a discount or premium shall be calculated in the manner specified above by reference to the net proceeds received by the Issuer for the relevant issue.

DOCUMENTS INCORPORATED BY REFERENCE

The following information, which is contained in the documents referred to below that have previously been published and have been filed with the Central Bank, shall be deemed to be incorporated in, and to form part of, this Offering Circular:

- (a) the 2017 Annual Report of the BCP Group, including, without limitation, the following audited consolidated financial statements, notes and audit report set out at the following pages:

Balance Sheet	Page 164
Income Statement	Page 162
Cash Flows Statement	Page 165
Statement of Changes in Equity	Page 166
Statement of Comprehensive Income	Page 163
Notes to the Consolidated Financial Statements	Pages 167 to 352
Audit Report	Pages 538 to 547

- (b) the 2018 Annual Report of the BCP Group, including, without limitation, the following audited consolidated financial statements, notes and audit report set out at the following pages¹³:

Balance Sheet	Page 161 of the pdf document
Income Statement	Page 158 of the pdf document
Cash Flows Statement	Page 162 of the pdf document
Statement of Changes in Equity	Page 163 of the pdf document
Statement of Comprehensive Income	Pages 159 to 160 of the pdf document
Notes to the Consolidated Financial Statements	Pages 164 to 379 of the pdf document
Audit Report	Pages 592 to 602 of the pdf document

- (c) the unaudited and un-reviewed earnings press release and earnings presentation of the BCP Group, in each case as at, and for the three month period ended 31 March 2019, including, without limitation, the following unaudited and un-reviewed consolidated balance sheet and consolidated income statement set out at the following pages of the earnings press release:

Balance Sheet	Page 16
Income Statement	Page 15

¹³ The audited financial statements for the financial year ended 31 December 2018 will be subject to the approval of the general meeting of shareholders to be held on the 22 May 2019.

- (d) the Terms and Conditions of the Notes contained in the previous Offering Circulars dated 21 November 2003, pages 26-50 (inclusive), 22 November 2004, pages 25-49 (inclusive), 13 December 2005, pages 37-61 (inclusive), 21 September 2006, pages 38-62 (inclusive), 18 April 2007, pages 43-71 (inclusive), 30 April 2008, pages 64-93 (inclusive), 28 April 2009, pages 68-97 (inclusive), 23 April 2010, pages 72-101 (inclusive), 15 June 2011, pages 78-107 (inclusive), 28 June 2012, pages 91-120 (inclusive), 17 July 2013, pages 97-123 (inclusive), 14 August 2014, pages 114-143 (inclusive), 23 October 2015, pages 113-142 (inclusive), 16 February 2017, pages 124-153 (inclusive), 17 November 2017, pages 117-141 (inclusive), and 21 September 2018, pages 111 – 138 (inclusive) prepared in connection with the Programme.

Any other information incorporated by reference that is not included in the cross-reference lists in (a), (b) and (c) above is considered to be additional information to be disclosed to investors rather than information required by the relevant Annexes of Commission Regulation (EC) No. 809/2004 implementing the Prospectus Directive.

All financial information in this Offering Circular relating to the Bank for the years ended on 31 December 2017 and 31 December 2018 has been extracted without material adjustment from the audited financial statements of the Bank for the financial years then ended.

The documents incorporated by reference in (a), (b) and (c) above are a direct and accurate translation from their original Portuguese form. In the event of a discrepancy the original Portuguese version will prevail.

Copies of documents containing the information incorporated by reference in this Offering Circular can be obtained from the registered office of the Bank and from the specified offices of the Agent. Documents referred to in (a) and (b) above can be viewed electronically and free of charge at the Bank's website (<https://ind.millenniumbcp.pt/relcontas/2017/files/RCBCP2017.en.pdf> and https://ind.millenniumbcp.pt/en/Institucional/investidores/Documents/Apresentacao_de_Resultados/2018/RABCP2018.pdf, respectively). Documents referred to in (c) above can be viewed electronically and free of charge at the Bank's website (https://ind.millenniumbcp.pt/en/Institucional/investidores/Documents/Apresentacao_de_Resultados/2019/Earnings_Millenniumbcp_1Q19_09052019.pdf and https://ind.millenniumbcp.pt/en/Institucional/investidores/Documents/Apresentacao_de_Resultados/2019/EarningsPres_1Q19_09052019.pdf, respectively). Following the publication of this Offering Circular, a supplement may be prepared by the Issuer and approved by the Central Bank in accordance with Article 16 of the Prospectus Directive. Statements contained in any such supplement (or contained in any document incorporated by reference therein) shall to the extent applicable (whether expressly, by implication or otherwise) modify or supersede statements contained in this Offering Circular or in a document which is incorporated by reference in this Offering Circular. Any statement so modified or superseded shall not, except as so modified or superseded, constitute a part of this Offering Circular.

The Bank will, in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Offering Circular which is capable of affecting the assessment of any Notes, prepare a supplement to this Offering Circular or publish a new Offering Circular for use in connection with any subsequent issue of Notes.

Any documents themselves incorporated by reference in the documents incorporated by reference herein shall not form part of this Offering Circular.

The Issuer confirms that any non-incorporated parts of a document referred to herein are either not relevant for an investor or are otherwise covered elsewhere in this Offering Circular.

FORM OF THE NOTES

The Notes are issued in dematerialised book entry form ("*forma escritural*") and are "*nominativas*" (i.e., Interbolsa, at the Issuer's request, can ask the Affiliated Members information regarding the identity of the Noteholders and transmit such information to the Issuer). The Notes are issued in any specified denomination provided that in the case of any Notes which are to be admitted to trading on a regulated market within the European Economic Union or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Directive, the minimum Specified Denomination shall be as indicated in the applicable Final Terms.

The Notes will be registered by Interbolsa as management entity of Central de Valores Mobiliários.

The Notes may be held in a manner which would allow Eurosystem eligibility. Any indication that the Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

Notes will only be tradable in one Specified Denomination.

As of the date of this Offering Circular, the Notes may only be issued in Euro, U.S. dollars, Sterling, Japanese yen, Swiss francs, Australian dollars and Canadian dollars.

Each person shown in the individual securities accounts held with an Affiliated Member of Interbolsa as having an interest in the Notes shall be considered the holder of the principal amount of Notes recorded. One or more certificates in relation to the Notes (each a "**Certificate**") will be delivered by the relevant Affiliated Member of Interbolsa in respect of its registered holding of Notes upon the request by the relevant holder of Notes and in accordance with that Affiliated Member's procedures and pursuant to Article 78 of the Portuguese Securities Code (*Código dos Valores Mobiliários*).

Any holder of Notes will (except as otherwise required by law) be treated as its absolute owner for all purposes regardless of the theft or loss of the Certificate issued in respect of it and no person will be liable for so treating any holder of Notes.

If the relevant Final Terms specify TEFRA C as being applicable, the Notes will be issued in compliance with U.S. Treasury Regulations Section 1.163-5(c)(2)(i)(C) (or any successor United States Treasury regulation section, including without limitation, successor regulations issued in accordance with Internal Revenue Service Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act of 2010) (TEFRA C).

The Issuer may agree with any Dealer and the Agent that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes, in which event a new Offering Circular or a Supplement to the Offering Circular, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

FORM OF FINAL TERMS

Set out below is the form of Final Terms, which will be completed for each Tranche of Notes issued under the Programme with a denomination of less than EUR 100,000 (or its equivalent in another currency).

FINAL TERMS

[Date]

Banco Comercial Português, S.A. (the "Issuer")

Issue of [] []

under the EUR25,000,000,000

Euro Note Programme

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive (as defined below). Consequently, no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

[MIFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET - Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, "**MiFID II**")][MiFID II]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

[MIFID II PRODUCT GOVERNANCE / RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES TARGET MARKET - Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in [Directive 2014/65/EU (as amended, "**MiFID II**")][MiFID II]; **EITHER** [and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services] **OR** [(ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice[,/ and] portfolio management[,/ and] non-advised sales][and pure execution services], subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should

take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable].]

[Any person making or intending to make an offer of the Notes may only do so]:

- (a) in those Public Offer Jurisdictions mentioned in Paragraph 8 of Part B below, provided such person is of a kind specified in that paragraph, a Dealer, Manager or an Authorised Offeror (as such term is defined in the Offering Circular (as defined below)) and that the offer is made during the Offer Period specified in that paragraph and that any conditions relevant to the use of the Offering Circular are complied with; or
- (b) otherwise] in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or to supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer.

Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.]¹⁴

¹⁴ To be deleted in respect of the issue of Notes having a maturity of less than 365 days as a commercial paper under the Programme.

PART A – CONTRACTUAL TERMS

[Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Offering Circular dated 15 May 2019 [and the supplement[s] to it dated [] [and []] which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive (the "**Offering Circular**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Offering Circular. A summary of the Notes (which comprises the summary in the Offering Circular as completed to reflect the provisions of these Final Terms) is annexed to these Final Terms. The Offering Circular has been published on the Issuer's website (www.millenniumbcp.pt), on the website of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**"), (<http://www.ise.ie>) and on the website of the Central Bank of Ireland (www.centralbank.ie).]¹⁵

[Terms used herein shall be deemed to be defined as such for the purposes of the conditions (the "**Conditions**") set forth in the Offering Circular dated [] which are incorporated by reference in the Offering Circular dated 15 May 2019 This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Offering Circular dated 15 May 2019 [and the supplement[s] to it dated [] [and []] which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive (the "**Offering Circular**"), including the Conditions incorporated by reference in the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Offering Circular. A summary of the Notes (which comprises the summary in the Offering Circular as completed to reflect the provisions of these Final Terms) is annexed to these Final Terms. The Offering Circular has been published on the Issuer's website (www.millenniumbcp.pt), on the website of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**"), (<http://www.ise.ie>) and on the website of the Central Bank of Ireland (www.centralbank.ie).]²

[This document constitutes the Final Terms for the Notes described herein for the purposes of the listing and admission to trading rules of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**") (the "**Listing Rules**"). This document must be read in conjunction with the Listing Particulars dated 15 May 2019 [as supplemented by the supplement[s] to the Listing Particulars dated []] (the "**Listing Particulars**") which [together] constitute[s] the listing particulars for the purposes of the Listing Rules. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of this Final Terms and the Listing Particulars. The Listing Particulars have been published on the Issuer's website (www.millenniumbcp.pt), on the website of Euronext Dublin (<http://www.ise.ie>) and on the website of the Central Bank of Ireland (www.centralbank.ie).]

When used in these Final Terms, "**Prospectus Directive**" means Directive 2003/71/EC (as amended or superseded), and, where the context so requires in these Final Terms, shall include any relevant implementing measure in a relevant Member State of the [EEA][European Economic Area].

ANNEX
SUMMARY OF THE NOTES
[]

FORM OF FINAL TERMS

Set out below is the form of Final Terms, which will be completed for each Tranche of Notes issued under the Programme with a denomination of at least EUR 100,000 (or its equivalent in another currency).

FINAL TERMS

[Date]

Banco Comercial Português, S.A. (the "Issuer")

Legal Entity Identifier (LEI): JU1U6S0DG9YLT7N8ZV32

Issue of [] []

under the EUR25,000,000,000

Euro Note Programme

PART A – CONTRACTUAL TERMS

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive (as defined below). Consequently no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

[MIFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET - Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, "**MiFID II**")][MiFID II]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [Consider any negative target market]. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]

[MIFID II PRODUCT GOVERNANCE / RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES TARGET MARKET – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in [Directive 2014/65/EU (as amended, "**MiFID II**")][MiFID II]; **EITHER** [and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services] **OR** [(ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice[,/ and] portfolio management[,/ and][non-advised sales][and pure execution services]], subject to the distributor's

suitability and appropriateness obligations under MiFID II, as applicable]]. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer[s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[s/s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable].]

[Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Offering Circular dated 15 May 2019 [and the supplement[s] to it dated [] [and []] which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive (the "**Offering Circular**"). This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Offering Circular. The Offering Circular has been published on the Issuer's website (www.millenniumbcp.pt), on the website of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**"), (<http://www.ise.ie>) and on the website of the Central Bank of Ireland (www.centralbank.ie).]¹

[Terms used herein shall be deemed to be defined as such for the purposes of the conditions (the "**Conditions**") set forth in the Offering Circular dated [] which are incorporated by reference in the Offering Circular dated 15 May 2019. This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the Offering Circular dated 15 May 2019 [and the supplement[s] to it dated [] [and []] which [together] constitute[s] a base prospectus for the purposes of the Prospectus Directive (the "**Offering Circular**"), including the Conditions incorporated by reference in the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Offering Circular. The Offering Circular has been published on the Issuer's website (www.millenniumbcp.pt), on the website of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**"), (<http://www.ise.ie>) and on the website of the Central Bank of Ireland (www.centralbank.ie).]¹

[This document constitutes the Final Terms for the Notes described herein for the purposes of the listing and admission to trading rules of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**") (the "**Listing Rules**"). This document must be read in conjunction with the Listing Particulars dated 15 May 2019 [as supplemented by the supplement[s] to the Listing Particulars dated []] (the "**Listing Particulars**") which [together] constitute[s] the listing particulars for the purposes of the Listing Rules. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of this Final Terms and the Listing Particulars. The Listing Particulars have been published on the Issuer's website (www.millenniumbcp.pt), on the website of Euronext Dublin (<http://www.ise.ie>) and on the website of the Central Bank of Ireland (www.centralbank.ie).]

When used in these Final Terms, "**Prospectus Directive**" means Directive 2003/71/EC (as amended or superseded), and, where the context so requires in these Final Terms, shall include any relevant implementing measure in a relevant Member State of the [EEA][European Economic Area].

⁴ The actual code should only be included where the issuer is comfortable that it is correct.

[TEFRA rules not applicable]

(f) Prohibition of Sales to EEA
Retail Investors:

[Not Applicable][Applicable]

(If the Notes clearly do not constitute "packaged products" or the Notes do constitute a "packaged" products and a key information document will be prepared, "Not Applicable" should be specified. If the Notes may constitute "packaged products" and no key information document will be prepared, "Applicable" should be specified.)

8. **Third Party Information**

[[] has been extracted from []. The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware and is able to ascertain from information published by [], no facts have been omitted which would render the reproduced information inaccurate or misleading.]

TERMS AND CONDITIONS OF THE NOTES

The following, save for the text in the footnotes, are the Terms and Conditions of Notes which will be incorporated by reference into each Note. The applicable Final Terms in relation to any Notes completes the information regarding the following Terms and Conditions and will be incorporated into each Note. Reference should be made to "Form of Final Terms" above for the form of Final Terms which will specify which of these Terms and Conditions are to apply in relation to the relevant Notes.

This Note is one of a Series (as defined below) of Notes issued as specified in the Final Terms relating to this Note (the "**applicable Final Terms**") by Banco Comercial Português, S.A. (the "**Issuer**"). Notes are integrated in the Interbolsa book entry system and governed by these conditions and a deed poll given by the Issuer in favour of the holders of Notes dated 15 May 2019 (the "**Instrument**"). References herein to the "**Notes**" shall be references to the Notes of this Series. The Notes also have the benefit of Agency Terms dated 21 September 2018 (such Agency Terms as amended and/or restated and/or supplemented from time to time, the "**Agency Terms**") and made by Banco Comercial Português, S.A. as Issuer and as agent (the "**Agent**" which expression shall include any successor agent).

The applicable Final Terms for this Note is attached hereto or (to the extent relevant) incorporated herein and completes these Terms and Conditions (the "**Conditions**").

The applicable Final Terms will state in particular whether this Note is (i) a senior Note (a "**Senior Note**" and, together with all the Notes of this Series, "**Senior Notes**"); (ii) a senior non-preferred note (a "**Senior Non-Preferred Note**" and, together with all the Notes of this Series, "**Senior Non-Preferred Notes**"); or a subordinated Note (a "**Subordinated Note**" and together with all the Notes of this Series, "**Subordinated Notes**").

In the case of Senior Notes, the applicable Final Terms will state whether or not Condition 6(l) applies. Senior Notes where Condition 6(l) is specified as being "Applicable" in the applicable Final Terms shall be referred to as "**Restricted Senior Notes**".

As used herein, "**Tranche**" means Notes which are identical in all respects (including as to the Issue Date, listing and admission to trading) and subject to the same Final Terms and "**Series**" means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (A) expressed to be consolidated and form a single series and (B) have the same terms and conditions or terms and conditions which are the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue.

Copies of the Agency Terms and the applicable Final Terms are available for inspection at the registered office of the Agent, being at Praça Dom João I, 4000-295 Oporto, Portugal. If the Notes are to be admitted to trading on the regulated market of the Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**"), the applicable Final Terms will be published on the website of Euronext Dublin through a regulatory information service. The holders of the relevant Notes ("**Noteholders**") are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Instrument, the Agency Terms and the applicable Final Terms which are binding on them.

Words and expressions defined in the Instrument or the Agency Terms or used in the applicable Final Terms shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Terms and the Instrument, the Instrument will prevail and that, in the event of inconsistency between the Agency Terms or the Instrument and the applicable Final Terms, the applicable Final Terms will prevail.

In these Conditions, "**Euro**" means the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended.

1. Form, Denomination and Title

The Notes will be in book entry form ("*forma escritural*"), being "*nominativas*" (i.e. Interbolsa, at the Issuer's request, can ask the Affiliated Members for information regarding the identity of the Noteholders and transmit such information to the Issuer) and, subject to applicable legal or regulatory restrictions, in any currency as agreed

between the Issuer and the relevant Dealer(s) at the time of the issue (the "**Specified Currency**") and the denominations (the "**Specified Denomination(s)**") specified in the applicable Final Terms.

This Note is a Senior Note, a Subordinated Note, or a Senior Non-Preferred Note, as indicated in the applicable Final Terms.

This Note is a Fixed Rate Note, a Reset Rate Note, a Floating Rate Note or a Zero Coupon Note, or any appropriate combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

Title to the Notes passes upon registration in the relevant individual securities accounts held with an Affiliated Member of Interbolsa.

Subject as set out below, the Issuer and the Agent will (except as otherwise required by law) deem and treat any person in whose name a Note is registered as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes.

2. Status of the Notes

The applicable Final Terms will indicate whether the Notes are Senior Notes, Subordinated Notes or Senior Non-Preferred Notes.

(a) In the case of Senior Notes

If the Notes are specified as Senior Notes in the applicable Final Terms, the Notes are direct, unconditional, unsecured (subject (where applicable) to the provisions of Condition 3) and unsubordinated obligations of the Issuer and rank and will rank *pari passu* among themselves and with all present and future unsecured (subject as aforesaid) and unsubordinated obligations of the Issuer which do not qualify as Statutory Senior Non-Preferred Obligations, save for those that have been accorded by law preferential rights.

If the applicable Final Terms specifies the "Senior Notes Waiver of Set-Off" is "Applicable", no Noteholder of Senior Notes may exercise or claim any right of set-off or netting in respect of any amount owed by it to the Issuer arising out of or in connection with the Senior Notes and each such Noteholder shall, by virtue of its subscription, purchase or holding of any Senior Note, be deemed to have waived all such rights of set-off or netting.

If the applicable Final Terms specifies the "Senior Notes Waiver of Set-Off" is "Applicable", to the extent that any set-off takes place, whether by operation of law or otherwise, between: (y) any amount owed by the Issuer to a Noteholder arising under or in connection with the Senior Notes; and (z) any amount owed to the Issuer by such Noteholder, such Noteholder will immediately transfer such amount which is set-off to the Issuer or, in the event of its winding up or dissolution, the liquidation or insolvency estate, to be held on trust for the Senior Creditors of the Issuer.

(b) In the case of Subordinated Notes

If the Notes are specified as Subordinated Notes in the applicable Final Terms, the Notes are direct, unconditional and unsecured obligations of the Issuer, save that the claims of the holders of the Notes in respect of payments pursuant thereto will, in the event of the winding-up of the Issuer (to the extent permitted by Portuguese law), be wholly subordinated to the claims of all Senior Creditors of the Issuer and shall rank:

- (i) at least *pari passu* with the claims of holders of all obligations of the Issuer which constitute, or would but for any applicable limitation on the amount of such capital constitute, Tier 2 instruments of the Issuer; and

- (ii) in priority to (1) the claims of holders of all obligations of the Issuer which constitute, or would but for any applicable limitation on the amount of such capital constitute, Tier 1 instruments of the Issuer, (2) the claims of holders of all undated or perpetual subordinated obligations of the Issuer (other than any such obligations which rank, or are expressed to rank, *pari passu* with, or in priority to, the Subordinated Notes), (3) the claims of holders of all classes of share capital of the Issuer and (4) the claims of holders of all other obligations of the Issuer which rank, or are expressed to rank, junior to the Subordinated Notes.

The subordination of the Notes is for the benefit of the Issuer and all Senior Creditors of the Issuer. "Senior Creditors of the Issuer" means (a) creditors of the Issuer whose claims are admitted to proof in the winding-up of the Issuer and who are unsubordinated creditors of the Issuer (including Senior Notes and Statutory Senior Non-Preferred Obligations), and (b) creditors of the Issuer whose claims are or are expressed to be subordinated to the claims of other creditors of the Issuer (other than those whose claims relate to obligations which constitute, or would, but for any applicable limitation on the amount of such capital, constitute Tier 1 instruments or Tier 2 instruments of the Issuer, or whose claims otherwise rank or are expressed to rank *pari passu* with, or junior to, the claims of holders of the Subordinated Notes); "Tier 1 instruments" has the meaning given to it by the Applicable Banking Regulations from time to time; and "Tier 2 instruments" has the meaning given to it by the Applicable Banking Regulations from time to time.

No Noteholder of Subordinated Notes may exercise or claim any right of set-off or netting in respect of any amount owed by it to the Issuer arising out of or in connection with the Subordinated Notes and each such Noteholder shall, by virtue of its subscription, purchase or holding of any Subordinated Note, be deemed to have waived all such rights of set-off or netting.

To the extent that any set-off takes place, whether by operation of law or otherwise, between: (y) any amount owed by the Issuer to a Noteholder arising under or in connection with the Subordinated Notes; and (z) any amount owed to the Issuer by such Noteholder, such Noteholder will immediately transfer such amount which is set-off to the Issuer or, in the event of its winding up or dissolution, the liquidation or insolvency estate, to be held on trust for the Senior Creditors of the Issuer.

(c) *In the case of Senior Non-Preferred Notes*

If the Notes are specified as Senior Non-Preferred Notes in the applicable Final Terms, the Notes qualify as, and comprise part of the class of, Statutory Senior Non-Preferred Obligations and are direct, unsubordinated and unsecured obligations of the Issuer and, save for those preferred by mandatory and/or overriding provisions of law, rank and will rank:

- (i) *pari passu* and without any preference among themselves and with all other present and future obligations of the Issuer qualifying as Statutory Senior Non-Preferred Obligations;
- (ii) in the event of the bankruptcy (*insolvència*) of the Issuer only, junior to any present and future unsubordinated and unsecured obligations of the Issuer which do not qualify as Statutory Senior Non-Preferred Obligations; and
- (iii) senior to any Junior Obligations.

By virtue of such ranking, payments to Noteholders of Senior Non-Preferred Notes will, in the event of the bankruptcy (*insolvència*) of the Issuer, only be made after all claims in respect of unsubordinated and unsecured obligations of the Issuer which do not qualify as Statutory Senior Non-Preferred Notes have been satisfied.

No Noteholder of Senior Non-Preferred Notes may exercise or claim any right of set-off or netting in respect of any amount owed by it to the Issuer arising out of or in connection with the Senior Non-Preferred Notes and each such Noteholder shall, by virtue of its subscription, purchase or holding of any Senior Non-Preferred Note, be deemed to have waived all such rights of set-off or netting.

To the extent that any set-off takes place, whether by operation of law or otherwise, between: (y) any amount owed by the Issuer to a Noteholder arising under or in connection with the Senior Non-Preferred Notes; and (z) any amount owed to the Issuer by such Noteholder, such Noteholder will immediately transfer such amount which is set-off to the Issuer or, in the event of its winding up or dissolution, the liquidation or insolvency estate, to be held on trust for the creditors of any present and future unsubordinated obligations of the Issuer which do not qualify as Statutory Senior Non-Preferred Obligations.

As used in this Condition 2(c):

"Junior Obligations" means any present and future claims in respect of obligations of the Issuer which rank or are expressed to rank, subordinated to claims in respect of unsubordinated and unsecured obligations of the Issuer (including Statutory Senior Non-Preferred Obligations); and

"Statutory Senior Non-Preferred Obligations" means any present and future claims in respect of unsubordinated and unsecured obligations of the Issuer which have a lower ranking within the meaning of article 8-A of Decree-Law no 199/2006 of 25 October (as amended) (or any other provision implementing article 108 of Directive 2014/59/EU, as amended by Directive (EU) 2017/2399, in Portugal) than the claims in respect of all other unsubordinated and unsecured obligations of the Issuer.

3. Negative Pledge

This Condition 3 shall apply only to Senior Notes in respect of which the applicable Final Terms specify that this Condition 3 is "Applicable" and references to **"Notes"** and **"Noteholders"** shall be construed accordingly.

So long as any of the Notes remains outstanding (as defined in the Instrument), the Issuer shall not create or permit to be outstanding any mortgage, charge, lien, pledge or other similar encumbrance or security interest (each a **"security interest"**) upon the whole or any part of its undertaking or assets, present or future (including any uncalled capital if applicable), to secure any Indebtedness (as defined below) or to secure any guarantee or indemnity given in respect of any Indebtedness, without, in the case of the creation of a security interest, at the same time and, in any other case, promptly according to the Noteholders an equal and rateable interest in the same or, at the option of the Issuer, providing to the Noteholders such other security as shall be approved by an Extraordinary Resolution (as defined in the Instrument) of the Noteholders save that the Issuer may create or permit to subsist a security interest to secure Indebtedness and/or any guarantee or indemnity given in respect of Indebtedness of any person, in each case as aforesaid, (but without the obligation to accord or provide to the Noteholders either, an equal and rateable interest in the same or such other security as aforesaid) where such security interest:

- (a) is only over such part of the undertaking or assets, present or future, of the Issuer that belonged to a company whose assets or undertaking have become part of the assets or undertaking of the Issuer pursuant to an amalgamation or merger of such company with the Issuer, which security interest exists at the time of such amalgamation or merger and was not created in contemplation thereof or in connection therewith and the principal, nominal or capital amount secured at the time of such amalgamation or merger is not thereafter increased; or
- (b) is created pursuant to any securitisation, asset-backed financing or like arrangement in accordance with normal market practice and whereby the amount of Indebtedness secured by such security interest or in respect of which any guarantee or indemnity is secured by such security interest is limited to the value of the assets secured; or
- (c) is granted in relation to mortgage-backed bonds (*obrigações hipotecárias*) issued by the Issuer under Portuguese law and "covered bonds".

"Indebtedness" means any borrowings having an original maturity of more than one year in the form of or represented by bonds, notes, debentures or other securities (not comprising, for the avoidance of doubt, preference shares or other equity securities) which with the consent of the Issuer are, or are intended to be, listed or traded on

any stock exchange or other organised market for securities (whether or not initially distributed by way of private placing) other than a borrowing which is entirely or substantially placed in Portugal.

4. Interest

The applicable Final Terms will indicate whether the Notes are Fixed Rate Notes, Reset Rate Notes, Floating Rate Notes or Zero Coupon Notes.

(a) *Interest on Fixed Rate Notes*

This Condition 4(a) applies to Fixed Rate Notes only. The applicable Final Terms contains provisions applicable to the determination of fixed rate interest and must be read in conjunction with this Condition 4(a) for full information on the manner in which interest is calculated on Fixed Rate Notes. In particular, the applicable Final Terms will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Maturity Date, the Calculation Amount, the Day Count Fraction and any applicable Determination Date.

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest payable in arrear on the Interest Payment Date(s) in each year up to the Maturity Date. Interest on Fixed Rate Notes will be calculated on the full nominal amount outstanding of Fixed Rate Notes and will be paid to the Affiliate Members of Interbolsa for distribution by them to the accounts of entitled Noteholders in accordance with Interbolsa's usual rules and operating procedures.

Such interest shall be calculated in respect of any period by applying the Rate of Interest to the aggregate outstanding nominal amount of the Fixed Rate Notes and multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

In this Condition 4(a):

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest in accordance with this Condition 4(a):

(A) if "**Actual/Actual (ICMA)**" is specified in the applicable Final Terms:

- (I) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the "**Accrual Period**") is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
- (II) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and

- (B) if "**30/360**" is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of 12 30-day months) divided by 360;

"Determination Period" means the period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"sub-unit" means with respect to any currency other than Euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to Euro, means one cent.

(b) *Interest on Reset Rate Notes*

This Condition 4(b) applies to Reset Rate Notes only. The applicable Final Terms contain provisions applicable to the determination of the reset rate of interest and must be read in conjunction with this Condition 4(b) for full information on the manner in which interest is calculated on Reset Rate Notes. In particular, the applicable Final Terms will identify the Interest Payment Date(s), the Initial Rate of Interest, the First Margin, the Subsequent Margin (if any), the First Reset Date, the Second Reset Date (if any), the Subsequent Reset Date(s) (if any), the Relevant Screen Page, the Day Count Fraction, the Determination Date(s) (if any), the Mid-Swap Rate, the Mid-Swap Maturity, the Calculation Agent, the Fixed Leg Swap Duration, the Mid-Swap Floating Leg Benchmark Rate and the Business Centre(s).

For the purpose of these Conditions, "**Relevant Screen Page**" means the Relevant Screen Page specified in the applicable Final Terms.

- (i) Each Reset Rate Note bears interest (i) from (and including) the Interest Commencement Date specified in the relevant Final Terms) to (but excluding) the First Reset Date at the rate per annum equal to the Initial Rate of Interest; (ii) from (and including) the First Reset Date until (but excluding) the Second Reset Date or, if no such Second Reset Date is specified in the relevant Final Terms, the Maturity Date, at the rate per annum equal to the First Reset Rate of Interest; and (iii) for each subsequent period thereafter (if any), at the rate per annum equal to the relevant Subsequent Reset Rate of Interest (in each case rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards), payable in each case, in arrear on the Interest Payment Date(s) so specified in the relevant Final Terms.
- (ii) If on any Reset Determination Date the Relevant Screen Page is not available or the Mid-Swap Rate does not appear on the Relevant Screen Page, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its Mid-Market Swap Rate Quotation as at approximately 12 (noon) in the principal financial centre of the Specified Currency on the Reset Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with Mid-Market Swap Rate Quotations, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) for the relevant Reset Period shall be the sum converted as set out in the definition of First Reset Rate of Interest or Subsequent Reset Rate of Interest (as applicable) of the arithmetic mean (rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) of the relevant Mid-Market Swap Rate Quotations and the First Margin or Subsequent Margin (as applicable), all as determined by the Calculation Agent. If none or only one of the Reference Banks provides the Calculation Agent with a Mid-Market Swap Rate Quotation as provided in the foregoing provisions of this paragraph, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) shall be determined to be the Rate of Interest as at the last preceding Reset Date or, in the case of the first Reset Determination Date, the First Reset Rate of Interest shall be the Rate of Interest before the First Reset Date (adjusted, in the case of any Reset Rate Notes other than Subordinated Notes to take into account any change in the prevailing Margin).

- (iii) The Rate of Interest and the amount of interest payable (the “**Reset Interest Amount**”) shall be determined by the Calculation Agent, (A) in the case of the Rate of Interest, at or as soon as practicable after each time at which the Rate of Interest is to be determined, and (B) in the case of the Reset Interest Amount in accordance with the provisions for calculating amounts of interest in Condition 4(a) and, for such purposes, references in the third paragraph of Condition 4(a) to “Fixed Rate Notes” shall be deemed to be to “Reset Rate Notes”, “Rate of Interest” shall be to “First Reset Rate of Interest” or “Subsequent Reset Rate of Interest” (as applicable) and Condition 4(a) shall be construed accordingly.
- (iv) The Calculation Agent will cause the Rate of Interest (other than the Initial Rate of Interest) and each related Reset Interest Amount to be notified to the Issuer and any stock exchange on which the relevant Reset Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 12 as soon as possible after their determination but in no event later than the fourth Lisbon Business Day (as defined below) thereafter. For the purposes of this subparagraph (iv), the expression “**Lisbon Business Day**” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Lisbon.
- (v) If for any reason the Calculation Agent at any time after the Issue Date defaults in its obligation to determine the Rate of Interest or calculate any Reset Interest Amount in accordance with Condition 4(b)(iii) above, the Issuer shall determine the Rate of Interest at such rate as, in its absolute discretion (having such regard as it shall think fit to the foregoing provisions of this Condition), it shall deem fair and reasonable and such determination or calculation shall be deemed to have been made by the Calculation Agent.
- (vi) All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4(b) by the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent, the Calculation Agent and all Noteholders and (in the absence as aforesaid) no liability to the Issuer or the Noteholders shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.
- (vii) For the purposes of this Condition 4(b):

“**Calculation Agent**” has the meaning specified in the applicable Final Terms;

“**First Margin**” means the margin specified as such in the relevant Final Terms;

“**First Reset Date**” means the date specified in the relevant Final Terms;

“**First Reset Period**” means the period from (and including) the First Reset Date until (but excluding) the Second Reset Date or, if no such Second Reset Date is specified in the relevant Final Terms, the Maturity Date;

“**First Reset Rate of Interest**” means, in respect of the First Reset Period and subject to Condition 4(b)(ii) above, the rate of interest determined by the Calculation Agent on the relevant Reset Determination Date as the sum, converted from a basis equivalent to the Fixed Leg Swap Duration specified in the applicable Final Terms to a basis equivalent to the frequency with which scheduled interest payments are payable on the Notes during the relevant Reset Period (such calculation to be determined by the Issuer in conjunction with a leading financial institution selected by it), of the relevant Mid-Swap Rate and the First Margin;

“**Fixed Leg Swap Duration**” has the meaning specified in the applicable Final Terms;

“**Initial Rate of Interest**” has the meaning specified in the applicable Final Terms;

“**Margin**” means the First Margin or any Subsequent Margin (as applicable);

“**Mid-Swap Maturity**” has the meaning given in the relevant Final Terms;

“**Mid-Market Swap Rate**” means for any Reset Period the mean of the bid and offered rates for the fixed leg payable with a frequency equivalent to the Fixed Leg Swap Duration specified in the Final Terms (calculated on the day count basis customary for fixed rate payments in the Specified Currency, such day count basis as determined by the Calculation Agent) of a fixed for floating interest rate swap transaction in the Specified Currency which transaction (i) has a term equal to the relevant Reset Period and commencing on the relevant Reset Date, (ii) is in an amount that is representative for a single transaction in the relevant market at the relevant time with an acknowledged dealer of good credit in the swap market and (iii) has a floating leg based on the Mid-Swap Floating Leg Benchmark Rate for the Mid-Swap Maturity (as specified in the relevant Final Terms) (calculated on the day count basis customary for floating rate payments in the Specified Currency, such day count basis as determined by the Calculation Agent);

“**Mid-Market Swap Rate Quotation**” means a quotation (expressed as a percentage rate per annum) for the relevant Mid-Market Swap Rate;

“**Mid-Swap Floating Leg Benchmark Rate**” means the rate as specified in the relevant Final Terms;

“**Mid-Swap Rate**” means, in relation to a Reset Determination Date and subject to provision (b) above, either:

(A) if Single Mid-Swap Rate is specified in the relevant Final Terms, the rate for swaps in the Specified Currency:

(I) with a term equal to the relevant Reset Period; and

(II) commencing on the relevant Reset Date,

which appears on the Relevant Screen Page or such replacement page on that service which displays the information; or

(B) if Mean Mid-Swap Rate is specified in the relevant Final Terms, the arithmetic mean (expressed as a percentage rate per annum and rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. Being rounded upwards)) of the bid and offered swap rate quotations for swaps in the Specified Currency:

(I) with a term equal to the relevant Reset Period; and

(II) commencing on the relevant Reset Date,

which appear on the Relevant Screen Page or such replacement page on that service which displays the information,

in either case, as at approximately 11.00 a.m. in the principal financial centre of the Specified Currency on such Reset Determination Date, all as determined by the Calculation Agent;

“**Rate of Interest**” means the Initial Rate of Interest, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest, as applicable;

“**Reference Banks**” means the principal office in the principal financial centre of the Specified Currency of four major banks in the swap, money, securities or other market most closely connected with the relevant Mid-Swap Rate as selected by the Issuer on the advice of an investment bank of international repute;

“**Reset Business Day**” means a day on which commercial banks and foreign exchange markets settle payments and are open for general business including dealing in foreign exchange and foreign currency deposits) in any Business Centre specified in the applicable Final Terms;

“**Reset Date**” means the First Reset Date, the Second Reset Date and each Subsequent Reset Date (as applicable);

“**Reset Determination Date**” means, in respect of the First Reset Period, the second Reset Business Day prior to the First Reset Date, in respect of the first Subsequent Reset Period, the second Reset Business Day prior to the Second Reset Date and, in respect of each Subsequent Reset Period thereafter, the second Reset Business Day prior to the first day of each such Subsequent Reset Period, or in each case as specified in the relevant Final Terms;

“**Reset Period**” means the First Reset Period or a Subsequent Reset Period, as the case may be;

“**Second Reset Date**” means the date specified in the relevant Final Terms;

“**Subsequent Margin**” means the margin specified as such in the relevant Final Terms;

“**Subsequent Reset Date**” means the date or dates specified in the relevant Final Terms;

“**Subsequent Reset Period**” means the period from (and including) the Second Reset Date to (but excluding) the next Subsequent Reset Date (or, if no such Subsequent Reset Date is specified in the relevant Final Terms, the Maturity Date), and each successive period from (and including) a Subsequent Reset Date to (but excluding) the next succeeding Subsequent Reset Date (or, if no such Subsequent Reset Date is specified in the relevant Final Terms, the Maturity Date); and

“**Subsequent Reset Rate of Interest**” means, in respect of any Subsequent Reset Period and subject to Condition 4(b)(ii) above, the rate of interest determined by the Calculation Agent on the relevant Reset Determination Date as the sum, converted from a basis equivalent to the Fixed Leg Swap Duration specified in the applicable Final Terms to a basis equivalent to the frequency with which scheduled interest payments are payable on the Notes during the relevant Reset Period (such calculation to be determined by the Issuer in conjunction with a leading financial institution selected by it), of the relevant Mid-Swap Rate and the relevant Subsequent Margin.

(c) *Interest on Floating Rate Notes*

(i) Interest Payment Dates

This Condition 4(c) applies to Floating Rate Notes only. The applicable Final Terms contains provisions applicable to the determination of floating rate interest and must be read in conjunction with this Condition 4(c) for full information on the manner in which interest is calculated on Floating Rate Notes. In particular, the applicable Final Terms will identify any Specified Interest Payment Dates, any Specified Period, the Interest Commencement Date, the Business Day Convention, any Additional Business Centres, whether ISDA Determination or Screen Rate Determination applies to the calculation of interest, the party who will calculate the amount of interest due if it is not the Agent, the Margin, any maximum or minimum interest rates and the Day Count Fraction. Where ISDA Determination applies to the calculation of interest, the applicable Final Terms will also specify the applicable Floating Rate Option, Designated Maturity and Reset Date. Where Screen Rate Determination applies to the calculation of interest, the applicable Final Terms will also specify the applicable Reference Rate, Interest Determination Date(s) and Relevant Screen Page.

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an

"**Interest Payment Date**") which falls on the number of months or other period specified as the Calculation Period in the applicable Final Terms after the preceding Specified Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in these Terms and Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date). Interest will be calculated on the full nominal amount outstanding of Floating Rate Notes and will be paid to the Affiliate Members of Interbolsa for distribution by them to the accounts of entitled Noteholders in accordance with Interbolsa's usual rules and operating procedures.

If a business day convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date (or any other date) would otherwise fall on a day which is not a Business Day, then, if the business day convention specified is:

- (I) in any case where Specified Periods are specified in accordance with Condition 4(c)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (II) the Following Business Day Convention, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day; or
- (III) the Modified Following Business Day Convention, such Interest Payment Date (or other date) shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day; or
- (IV) the Preceding Business Day Convention, such Interest Payment Date (or other date) shall be brought forward to the immediately preceding Business Day.

In these Conditions, "**Business Day**" means:

- (1) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in each Additional Business Centre (other than TARGET2 System) specified in the applicable Final Terms;
- (2) if TARGET2 System is specified as an Additional Business Centre in the applicable Final Terms, a day on which Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the "TARGET2 System") is open; and
- (3) either (a) in relation to any sum payable in a Specified Currency other than Euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland, respectively) or (b) in relation to any sum payable in Euro, a day on which the TARGET2 System is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(iii) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (iii), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent or other person specified in the applicable Final Terms under an interest rate swap transaction if the Agent or that other person were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**") and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is a period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is the day specified in the applicable Final Terms.

Unless otherwise specified in the applicable Final Terms, the Minimum Rate of Interest shall be deemed to be zero.

For the purposes of this Condition 4(c)(iii), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate per annum) for the Reference Rate(s) (being either LIBOR or EURIBOR, as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (London time) in the case of LIBOR, or Brussels time, in the case of EURIBOR (the "**Specified Time**") on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of (A), no such offered quotation appears or, in the case of (B), fewer than three such offered quotations appear, in each case at the Specified Time, the Agent shall request each of the Reference Banks (as defined below) to

provide the Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the London interbank market (if the Reference Rate is LIBOR) or the Eurozone interbank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Agent it is quoting to leading banks in the London interbank market (if the Reference Rate is LIBOR) or the Eurozone interbank market (if the Reference Rate is EURIBOR) plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period).

For the purposes of this Condition 4(c)(iv), "**Reference Banks**" means, in the case of (A), those banks whose offered rates were used to determine such quotation when such quotation last appeared on the Relevant Screen Page and, in the case of (B), those banks whose offered quotations last appeared on the Relevant Screen Page when no fewer than three such offered quotations appeared.

(v) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the above provisions is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest. If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the above provisions is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(vi) Determination of Rate of Interest and Calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. The Agent will calculate the amount of interest ("**Interest Amount**") payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to the

aggregate outstanding nominal amount of the Notes and multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest for any Interest Period:

- (I) if "**Actual/Actual (ISDA)**" or "**Actual/Actual**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (1) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (2) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (II) if "**Actual/365 (Fixed)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (III) if "**Actual/365 (Sterling)**" is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (IV) if "**Actual/360**" is specified in the applicable Final Terms the actual number of days in the Interest Period divided by 360;
- (V) if "**30/360**", "**360/36**" or "**Bond Basis**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1) + [30 \times (M_2 - M_1)] + (D_2 - D_1)]}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (VI) if "**30E/360**" or "**Eurobond Basis**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1) + [30 \times (M_2 - M_1)] + (D_2 - D_1)]}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30; and

- (VII) if "**30E/360 (ISDA)**" is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1) + [30 \times (M_2 - M_1)] + (D_2 - D_1)]}{360}$$

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Interest Period, unless (x) that day is the last day of February or (y) such number would be 31, in which case D₁ will be 30; and

"**D₂**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (x) that day is the last day of February but not the Maturity Date or (y) such number would be 31, in which case D₂ will be 30.

- (vii) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant

Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

"**Designated Maturity**" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(viii) Notification of Rate of Interest and Interest Amount

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 12 as soon as possible after their determination but in no event later than the fourth Lisbon Business Day (as defined below) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 12. For the purposes of this sub-paragraph (viii), the expression "**Lisbon Business Day**" means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Lisbon.

(ix) Certificates to be Final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4(c) by the Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent and all Noteholders and (in the absence as aforesaid) no liability to the Issuer or the Noteholders shall attach to the Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(d) *Accrual of Interest*

Each Note will cease to bear interest (if any) from the due date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of: (i) the date on which all amounts due in respect of such Note have been paid; and (ii) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 12.

(e) *Benchmark Replacement*

This Condition 4(e) applies only to Reset Rate Notes and Floating Rate Notes where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest (or any component part thereof) is to be determined. If the Issuer determines that a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the following provisions shall apply to the Notes:

- (i) the Issuer shall use reasonable endeavours, as soon as reasonably practicable, to appoint at its own expense an Independent Adviser to determine (without any requirement for the consent or approval of the Noteholders) (A) a Successor Rate or, failing which, an Alternative Reference Rate, for the purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes and (B) in either case, an Adjustment Spread. Without prejudice to the definitions thereof, for the purposes of determining any Successor Rate, Alternative Reference Rate and/or any Adjustment Spread, the Independent Adviser will take into account

any relevant and applicable market precedents as well as any published guidance from relevant associations involved in the establishment of market standards and/or protocols in the international debt capital markets;

- (ii) if the Issuer (i) is unable to appoint an Independent Adviser; or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Reference Rate in accordance with this Condition 4(e) prior to the relevant Interest Determination Date, the Issuer (acting in good faith and in a commercially reasonable manner and following consultation with the Independent Adviser in the event one has been appointed but without any requirement for the consent or approval of the Noteholders) may determine (A) a Successor Rate or, failing which, an Alternative Reference Rate and (B) in either case, an Adjustment Spread in accordance with this Condition 4(e). Without prejudice to the definitions thereof, for the purposes of determining any Successor Rate, Alternative Reference Rate and/or any Adjustment Spread, the Issuer will take into account any relevant and applicable market precedents as well as any published guidance from relevant associations involved in the establishment of market standards and/or protocols in the international debt capital markets;
- (iii) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with paragraphs (i) or (ii) above, such Successor Rate or, failing which, Alternative Reference Rate (as applicable) shall be the Original Reference Rate (subject to the subsequent operation of, and to adjustment as provided in, this Condition 4(e));
- (iv) if the Independent Adviser or, as the case may be, the Issuer (following consultation with the Independent Adviser (if any) but without any requirement for the consent or approval of the Noteholders) in each case acting in good faith and in a commercially reasonable manner, determines that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If the Independent Adviser or, as the case may be, the Issuer is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then the Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread;
- (v) if the Independent Adviser or, as the case may be, the Issuer (following consultation with the Independent Adviser (if any) but without any requirement for the consent or approval of the Noteholders) in each case acting in good faith and in a commercially reasonable manner, determines a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) and/or an Adjustment Spread in accordance with the above provisions, the Independent Adviser or, as the case may be, the Issuer may (without any requirement for the consent or approval of the holders of the Notes) also specify changes to these Conditions and/or the Agency Terms in order to ensure the proper operation of such Successor Rate or Alternative Reference Rate or any Adjustment Spread (as applicable), including, but not limited to, (A) the Day Count Fraction, Screen Page, Business Day, Interest Determination Date, Reset Determination Date, Mid-Swap Rate, Mid-Msarket Swap Rate and/or the definition of Reference Rate and (B) the method for determining the fall-back rate in relation to the Notes. For the avoidance of doubt, the Issuer and the Agent shall effect such consequential amendments to the Set of Agency Procedures and/or these Conditions as may be required in order to give effect to the application of this Condition 4(e). No consent shall be required from the Noteholders in connection with determining or giving effect to the Successor Rate, Alternative Reference Rate or any Adjustment Spread (as applicable) or such other changes, including for the execution of any documents or other steps to be taken by the Issuer or the Agent (if required or useful); and
- (vi) the Issuer shall promptly, following the determination of any Successor Rate, Alternative Reference Rate or Adjustment Spread (as applicable), give notice thereof to the Noteholders in accordance with Condition 12 (*Notices*) and the Agent (if different from the Issuer). Such notice

shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and any consequential changes made to the Set of Agency Procedures and/or these Conditions (if any).

An Independent Adviser appointed pursuant to this Condition 4(e) shall act in good faith as an expert and (in the absence of bad faith or fraud) shall have no liability whatsoever to the Agent or the Noteholders for any advice given to the Issuer in connection with any determination made by the Issuer pursuant to this Condition 4(e).

Without prejudice to the obligations of the Issuer under this Condition 4(e), the Original Reference Rate and the other provisions in this Condition 4(e) will continue to apply (i) if the Independent Adviser or, as the case may be, the Issuer (following consultation with the Independent Adviser (if any) but without any requirement for the consent or approval of the Noteholders) is unable to or does not determine a Successor Rate or an Alternative Reference Rate in accordance with this Condition 4(e), and (ii) where the Independent Adviser or, as the case may be, the Issuer does determine a Successor Rate or Alternative Reference Rate, unless and until the Agent (if different from the Issuer) and (in accordance with Condition 12 (*Notices*)) the Noteholders have been notified of the Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and any consequential changes made to the Set of Agency Procedures and the Conditions (if any). For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding Interest Period or Reset Period (as applicable) only and any subsequent Interest Periods or Reset Periods (as applicable) are subject to the subsequent operation of, and to adjustment as provided in, this Condition 4(e).

Notwithstanding any other provision of this Condition 4(e), no Successor Rate or Alternative Reference Rate or Adjustment Spread (as applicable) will be adopted, and no other amendments to the terms of the Notes will be made pursuant to this Condition 4(e), if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to prejudice the qualification of the Notes as:

- (a) in the case of Senior Non-Preferred Notes and Restricted Senior Notes, MREL Eligible Liabilities; or
- (b) in the case of Subordinated Notes, Tier 2 instruments of the Issuer,

or, in the case of Restricted Senior Notes and Senior Non-Preferred Notes only, if and to the extent that, in the determination of the Issuer, the same could reasonably be expected to result in the Relevant Authority treating a future Reset Date or Interest Payment Date (as applicable) as the effective maturity of the Notes, rather than the relevant Maturity Date.

For the purposes of this Condition 4(e):

"Adjustment Spread" shall mean a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Independent Adviser or, as the case may be, the Issuer (following consultation with the Independent Adviser (if any) but without any requirement for the consent or approval of the Noteholders) in each case acting in good faith and in a commercially reasonable manner, determines is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the relevant circumstances, any economic prejudice or benefit (as applicable) to the Noteholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (a) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (b) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Independent Adviser or, as the case may

be, the Issuer (following consultation with the Independent Adviser (if any) but without any requirement for the consent or approval of the Noteholders) in each case acting in good faith and in a commercially reasonable manner, determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or

- (c) if no such customary market usage is recognised or acknowledged, the Independent Adviser or, as the case may be, the Issuer (following consultation with the Independent Adviser (if any) but without any requirement for the consent or approval of the Noteholders), in each case in its discretion and acting in good faith and in a commercially reasonable manner, determines to be appropriate;

"Alternative Reference Rate" means the rate that the Independent Adviser or, as the case may be, the Issuer determines has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for a commensurate period and in the same Specified Currency as the Notes, or, if the Independent Adviser or, as the case may be, the Issuer determines that there is no such rate, such other rate as the Independent Adviser or, as the case may be, the Issuer determines in its discretion is most comparable to the Original Reference Rate;

"Benchmark Event" means:

- (a) the Original Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or
- (b) a public statement by the administrator of the Original Reference Rate stating that it will, by a specified date on or prior to a specified date within the following six months, cease to publish the Original Reference Rate, permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or
- (c) a public statement by the supervisor of the administrator of the Original Reference Rate stating that the Original Reference Rate has been or will be, by a specified date within the following six months, permanently or indefinitely discontinued; or
- (d) a public statement by the supervisor of the administrator of the Original Reference Rate stating that the Original Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case by a specified date within the following six months; or
- (e) it has, or will on or prior to a specified date within the following six months, become unlawful for the Issuer or the Agent, as the case may be, to calculate any payments due to be made to the holders of the Notes using the Original Reference Rate;

"Independent Adviser" means an independent financial institution of international repute or other independent financial adviser experienced in the international debt capital markets, in each case selected and appointed by the Issuer;

"Original Reference Rate" means the benchmark or screen rate (as applicable) originally specified for the purpose of determining the relevant Rate of Interest (or any relevant component part(s) thereof) applicable to the Notes (or, if applicable, any other successor or alternative rate (or component part thereof) determined and applicable to the Notes pursuant to the earlier operation of this Condition 4(e));

"Relevant Nominating Body" means in respect of a benchmark or screen rate (as applicable):

- (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (b) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (A) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (B) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (C) a group of the aforementioned central banks or other supervisory authorities or (D) the Financial Stability Board or any part thereof; and

"Successor Rate" means the rate that the Independent Adviser or, as the case may be, the Issuer determines is a successor to, or replacement of, the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

5. Payments

(a) *Method of Payment*

Subject as provided below:

- (i) payments in a Specified Currency other than Euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland, respectively); and
- (ii) payments in Euro will be made by credit or transfer to a Euro account (or any other account to which Euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases, but without prejudice to the provisions of Condition 7, to (i) any fiscal or other laws and regulations applicable thereto in any jurisdiction, and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**"), or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 7) any law implementing an intergovernmental approach thereto. Any such amounts withheld or deducted will be treated as paid for all purposes under the Notes, and no additional amounts will be paid on the Notes with respect to any such withholding or deduction.

(b) *Payments in respect of Notes*

Payments in respect of the Notes will be made by transfer to the registered account of the Noteholders maintained by or on behalf of it with a bank that processes payments in Euro, details of which appear in the records of the relevant Affiliated Member of Interbolsa at the close of business on the Payment Business Day (as defined below) before the due date for payment of principal and/or interest.

"Payment Business Day" means a day which (subject to Condition 8):

- (i) is or falls before the due date for payment of principal and or interest; and
- (ii) is a TARGET2 Settlement Day.

(c) *Payment Day*

If the date for payment of any amount in respect of any Note is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, unless otherwise specified in the applicable Final Terms, **"Payment Day"** means any day which (subject to Condition 8) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in each Additional Financial Centre (other than the TARGET2 System) specified in the applicable Final Terms; and
 - (ii) if TARGET2 System is specified as an Additional Financial Centre in the applicable Final Terms, a day on which the TARGET2 System is open; and
 - (iii) either (A) in relation to any sum payable in a Specified Currency other than Euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland, respectively) or (B) in relation to any sum payable in Euro, a day on which the TARGET2 System is open.
- (d) *Interpretation of Principal and Interest*

Any reference in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable with respect to principal under Condition 7(a);
- (ii) the Final Redemption Amount of the Notes;
- (iii) the Early Redemption Amount of the Notes;
- (iv) the Optional Redemption Amounts (if any) of the Notes;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6(h)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7(a).

6. Redemption and Purchase

(a) Redemption at Maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms in the relevant Specified Currency on the Maturity Date specified in the applicable Final Terms⁵.

(b) Redemption for Tax Reasons

Subject to Condition 6(l), the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is not a Floating Rate Note) or on any Interest Payment Date (if this Note is a Floating Rate Note), on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms⁶ to the Noteholders in accordance with Condition 12 (which notice shall be irrevocable), if:

⁵ Senior Non-Preferred Notes and Restricted Senior Notes must have a maturity of one year or more.

⁶ When setting notice periods, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent.

- (i) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 7(a) as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7(a)) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the last Tranche of the Notes; and
- (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any such notice of redemption as referred to in the previous paragraph, the Issuer shall deliver to the Agent to make available at its specified office (i) a certificate signed by two Directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer to so redeem have occurred, and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment.

Notes redeemed pursuant to this Condition 6(b) will be redeemed at their Early Redemption Amount referred to in Condition 6(h) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

In relation to any Series of Subordinated Notes and Senior Non-Preferred Notes, the Notes may also be redeemed at the option of the Issuer in whole, but not in part, at their Early Redemption Amount as set out in the applicable Final Terms together with unpaid interest accrued to (but excluding) the date of redemption, at any time on the Issuer giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms¹ to the Noteholders in accordance with Condition 12 (which notice shall be irrevocable) if, at any time after the Issue Date of the last Tranche of the Notes, the Issuer determines that it would not be entitled to claim a deduction in computing taxation liabilities in respect of the next interest payment to be made on the Notes or the value of such deduction to the Issuer would be reduced in either case as a result of any change in, or amendment to, the laws or regulations of any Tax Jurisdiction, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date of the last Tranche of the Notes.

Prior to the publication of any such notice of redemption as referred to in the previous paragraph in respect of Notes, the Issuer shall deliver to the Agent to make available at its specified office to the Noteholders a certificate signed by two Directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer to so redeem (including those set out in Condition 6(l) below) have occurred.

(c) *Redemption upon the occurrence of a Capital Event*

Subject to Condition 6(l), in relation to any Series of Subordinated Notes, the Notes may be redeemed at the option of the Issuer, in whole but not in part, at their Early Redemption Amount as set out in the applicable Final Terms together with unpaid interest accrued to (but excluding) the date of redemption, at any time on the Issuer giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms⁷ to the Noteholders in accordance with Condition 12 (which notice shall be irrevocable), if, at any time after the Issue Date of the last Tranche of the Notes, the Issuer determines that there is a Capital Event.

⁷ When setting notice periods, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent.

Prior to the publication of any notice of redemption pursuant to this Condition 6(c) in respect of Notes, the Issuer shall deliver to the Agent to make available at its specified office to the Noteholders a certificate signed by two Directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer to so redeem (including those set out in Condition 6(l) below) have occurred.

For the purposes of these Conditions:

"Applicable Banking Regulations" means at any time the laws, regulations, requirements, guidelines and policies relating to capital adequacy then in effect in Portugal and applicable to the Issuer, including, without limitation to the generality of the foregoing, those regulations, requirements, guidelines and policies relating to capital adequacy then in effect of the Relevant Authority and/or any regulation, directive or other binding rules, standards or decisions adopted by the institutions of the European Union;

"Capital Event" means the determination by the Issuer after consultation with the Relevant Authority that all or any part of the Notes are not eligible for inclusion in the Tier 2 instruments of the Group or the Issuer pursuant to Applicable Banking Regulations (other than as a result of any applicable limitation on the amount of such capital as applicable to the Group or the Issuer, as the case may be). For the avoidance of doubt, any amortisation of the Notes pursuant to Article 64 of the Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms amending Regulation (EU) No. 648/2012, (or any equivalent or successor provision) shall not constitute a Capital Event;

"Group" means together the Issuer and its subsidiaries; and

"Relevant Authority" means (in the case of Subordinated Notes) Banco de Portugal, the European Central Bank or such other authority (whether in Portugal or elsewhere) having primary responsibility for prudential supervision of the Issuer and (in the case of Senior Non-Preferred Notes and Restricted Senior Notes) the Relevant Resolution Authority (as defined in Condition 16).

(d) *Redemption at the Option of the Issuer (Issuer Call)*

This Condition 6(d) applies to Notes which are subject to redemption prior to the Maturity Date at the option of the Issuer (other than for taxation reasons or upon the occurrence of a Capital Event (in the case of Subordinated Notes) or upon the occurrence of an MREL Disqualification Event (in the case of Senior Non-Preferred Notes and Senior Notes in respect of which the applicable Final Terms specify that Condition 6(g) is "Applicable")), such option being referred to as an **"Issuer Call"**. The applicable Final Terms contains provisions applicable to any Issuer Call and must be read in conjunction with this Condition 6(d) for full information on any Issuer Call. In particular, the applicable Final Terms will identify the Optional Redemption Date(s), the Optional Redemption Amount(s), any minimum or maximum amount of Notes which can be redeemed and the applicable notice periods.

Subject to Condition 6(l), if Issuer Call is specified as being applicable in the applicable Final Terms, the Issuer may, having given not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms² to Noteholders in accordance with Condition 12 (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date(s). Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and not more than the Higher Redemption Amount, in each case as may be specified in the applicable Final Terms.

(e) *Partial Redemption*

In case of a partial redemption of Notes the nominal amount of all outstanding Book Entry Notes will be reduced proportionally.

(f) *Redemption at the Option of the Noteholders (Investor Put)*⁸

This Condition 6(f) applies only to Notes other than Subordinated Notes and references in this Condition 6(f) to “Notes” and “Noteholders” shall be construed accordingly.

This Condition 6(f) applies to Notes which are subject to redemption prior to the Maturity Date at the option of the Noteholder, such option being referred to as an "**Investor Put**". The applicable Final Terms contains provisions applicable to any Investor Put and must be read in conjunction with this Condition 6(f) for full information on any Investor Put. In particular, the applicable Final Terms will identify the Optional Redemption Date(s), the Optional Redemption Amount(s), any minimum or maximum amount of Notes which can be redeemed and the applicable notice periods.

If Investor Put is specified as being applicable in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 12 not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms⁹ (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem such Note on the Optional Redemption Date and at the Optional Redemption Amount specified in the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of this Note the holder of this Note must deliver a notice to the Agent in accordance with the standard procedures of Interbolsa stating the principal amount of the Notes in respect of which such option is exercised (a "**Put Notice**") to the specified office of the Agent at any time within the notice period during normal business hours of the Agent. In the Put Notice the relevant Noteholder must specify a bank account to which payment is to be made under this Condition 6.

Any Put Notice given by a holder of any Note pursuant to this Condition 6(f) shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition 6(f) and instead to declare such Note forthwith due and repayable pursuant to Condition 9.

(g) *Redemption of Senior Non-Preferred Notes and certain Senior Notes due to an MREL Disqualification Event*

Subject to Condition 6(l), in relation to any Series of Senior Non-Preferred Notes or any Senior Notes in respect of which the applicable Final Terms specify that this Condition 6(g) is "Applicable", the Notes may be redeemed at the option of the Issuer, in whole but not in part, at their Early Redemption Amount as set out in the applicable Final Terms together with unpaid interest accrued to (but excluding) the date of redemption, at any time on the Issuer giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms¹⁰ to the Noteholders in accordance with Condition 12 (which notice shall be irrevocable), if, at any time after the Issue Date of the last Tranche of Notes an MREL Disqualification Event has occurred.

Prior to the publication of any notice of redemption pursuant to this Condition 6(g) in respect of Notes, the Issuer shall deliver to the Agent to make available at its specified office to the Noteholders a certificate signed by two Directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer to so redeem (including those set out in Condition 6(l) below) have occurred.

For the purposes of these Conditions:

⁸ Senior Non-Preferred Notes and Restricted Senior Notes must not have a put option date earlier than one year after the Issue Date.

⁹ When setting notice periods, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent.

¹⁰ When setting notice periods, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent.

An "**MREL Disqualification Event**" shall occur if, as a result of any amendment to, or change in, any Applicable MREL Regulations, or any change in the application or official interpretation of any Applicable MREL Regulations, in any such case becoming effective on or after the Issue Date of the last Tranche of Notes, the Issuer (after consultation with the Relevant Authority) determines that the Notes are:

- (i) if "**MREL Disqualification Event – Full Exclusion**" is specified in the applicable Final Terms, fully excluded; or
- (ii) if "**MREL Disqualification Event – Full or Partial Exclusion**" is specified in the applicable Final Terms, fully or partially excluded,

in each case, from the MREL Eligible Liabilities of the Issuer or the Resolution Group determined in accordance with, and pursuant to, the Applicable MREL Regulations; provided that an MREL Disqualification Event shall not occur:

- (i) where the exclusion of the Notes from the relevant minimum requirement(s) is due to the remaining maturity of the Notes being less than any period prescribed by any applicable eligibility criteria for such minimum requirements under the Applicable MREL Regulations effective with respect to the Issuer or the Resolution Group on the Issue Date of the last Tranche of Notes; or
- (ii) as a result of any applicable limitation on the amount of liabilities of the Issuer that may qualify as MREL Eligible Liabilities of the Issuer or the Resolution Group

"**Applicable MREL Regulations**" means, at any time, the laws, regulations, requirements, guidelines, rules, standards and policies relating to the MREL Requirement then in effect and applicable to the Issuer or the Resolution Group including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to the MREL Requirement adopted by the Relevant Authority from time to time (whether or not such regulations, requirements, guidelines, rules, standards or policies have force of law and whether or not they are applied generally or specifically to the Issuer or the Resolution Group);

"**MREL Eligible Liabilities**" means "eligible liabilities" (or any equivalent or successor term) which are available to meet any MREL Requirement (however called or defined by then Applicable MREL Regulations) of the Issuer or the Resolution Group under Applicable MREL Regulations;

"**MREL Requirement**" means the requirement for own funds and eligible liabilities, which is or, as the case may be, will be, applicable to the Issuer or the Resolution Group; and

"**Resolution Group**" means together the Issuer and those of its subsidiaries in respect of which the Issuer is required maintain a consolidated minimum amount of own funds and eligible liabilities.

(h) *Early Redemption Amounts*

For the purpose of Conditions 6(b), 6(c) and 6(e) above and Condition 9, the Notes will be redeemed at the Early Redemption Amount calculated as follows:

- (i) in the case of Notes with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof; or
- (ii) in the case of Notes (other than Zero Coupon Notes) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount specified in the applicable Final Terms or, if no such amount or manner is so specified in the Final Terms, at their nominal amount; or

- (iii) in the case of Zero Coupon Notes, at an amount (the "**Amortised Face Amount**") calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

"**RP**" means the Reference Price;

"**AY**" means the Accrual Yield expressed as a decimal; and

"**y**" is the Day Count Fraction specified in the applicable Final Terms which will be either (A) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (B) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (C) Actual/365 (in which case the numerator will be the actual number of days from (and including) the Issue Date of the first Tranche of Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365).

(i) *Purchases*

The Issuer or any other Subsidiary of the Issuer may purchase Notes at any price in the open market or otherwise. Such Notes may be held, reissued, resold or, at the option of the Issuer, or the relevant Subsidiary, surrendered to the Agent for cancellation.

For the purpose of these Terms and Conditions, "**Subsidiary**" means any company which is for the time being a subsidiary (within the meaning of Section 736 of the Companies Act 1985) of the Issuer.

(j) *Cancellation*

All Notes which are redeemed will forthwith be cancelled in accordance with the applicable regulations of Interbolsa. All Notes so cancelled shall not be capable of being reissued or resold.

(k) *Late Payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Conditions 6(a), 6(b), 6(c), 6(d) or 6(f) above or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 6(h)(iii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and repayable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) the fifth day after the date on which the full amount of the monies payable has been received by the Agent and notice to that effect has been given to the Noteholder either in accordance with Condition 12 or individually.

(l) *Further Provisions Applicable to Redemption and Purchases of Subordinated Notes, Senior Non-Preferred Notes and Restricted Senior Notes*

Notwithstanding the foregoing, the Issuer shall not be permitted to redeem or purchase any Subordinated Notes, Senior Non-Preferred Notes or Restricted Senior Notes issued by it prior to the Maturity Date

unless the following conditions (in each case, if and to the extent then required by Applicable Banking Regulations or Applicable MREL Regulations, as applicable) are satisfied:

- (i) the Issuer has given any requisite notice to the Relevant Authority and has obtained the Relevant Authority's prior permission or non-objection to the redemption or purchase (as the case may be) of the Notes;
 - (ii) such redemption or purchase (as the case may be) complies with Applicable Banking Regulations or Applicable MREL Regulations, as applicable;
 - (iii) in case of Subordinated Notes only, in the case of any redemption of Notes pursuant to Condition 6(b) or Condition 6(c), the Issuer has demonstrated to the satisfaction of the Relevant Authority (A) that the circumstances giving rise to the Capital Event or the right to redeem under Condition 6(c) were not reasonably foreseeable as at the Issue Date of the most recent Tranche of the Notes and that the change in the applicable regulatory classification is sufficiently certain or, (B) in the case of Condition 6(b), that the change in the applicable tax treatment is material and was not reasonably foreseeable as at the Issue Date of the most recent Tranche of the Notes; and
 - (iv) in case of Subordinated Notes only, Notes may be purchased or redeemed by the Issuer prior to the fifth anniversary of the Issue Date only if then permitted by Applicable Banking Regulations and authorised by the Relevant Authority.
- (m) *Substitution and Variation of Subordinated Notes*

This Condition 6(m) applies only to Subordinated Notes and references in this Condition 6(m) to “Notes” and “Noteholders” shall be construed accordingly.

If “Substitution and Variation” is specified as being applicable in the relevant Final Terms, and a Capital Event or any of the events described in Condition 6(b) has occurred and is continuing, or in order to ensure the effectiveness and enforceability of Condition 16(d), the Issuer (in its sole discretion but subject as set out below), having given not more than the maximum period of notice nor less than the minimum period of notice specified in the applicable Final Terms (which notice shall be irrevocable) to the Noteholders in accordance with Condition 12, may, without any requirement for the consent or approval of the Noteholders, either substitute all (but not some only) of the Notes for, or vary the terms of the Notes (including changing the governing law of Condition 16(d) from English law to Portuguese law or any other European law that, after consultation with the Relevant Authority, the Issuer considers allows the Subordinated Notes to remain or become Tier 2 Compliant Notes) so that the Notes remain or, as appropriate, become, Tier 2 Compliant Notes. Upon the expiry of such notice, the Issuer shall either vary the terms of the Notes or, as the case may be, substitute the Notes in accordance with this Condition 6(m).

In connection with any substitution or variation in accordance with this Condition 6(m), the Issuer shall comply with the rules of any stock exchange on which such Notes are for the time being listed or admitted to trading.

Any substitution or variation in accordance with this Condition 6(m) is subject to the following conditions:

- (i) such substitution or variation must be permitted by, and conducted in accordance with, any applicable requirement of the Relevant Authority or under the Applicable Banking Regulations (including, without limitation, any required approvals); and
- (ii) such substitution or variation shall not result in any event or circumstance which at or around that time gives the Issuer a redemption right in respect of the Notes.

As used herein:

- (A) **"Rating Agency"** means each of Moody's Investors Service España, S.A., S&P Global Ratings Europe Limited and Fitch France – Société par Actions Simplifiée and each of their respective affiliates or successors and any entity that is part of DBRS Group and any successor to the relevant rating agency; and
- (B) **"Tier 2 Compliant Notes"** means securities that comply with the following:
- (1) are issued by the Issuer or any wholly-owned direct or indirect subsidiary of Issuer with a subordinated guarantee of such obligations by the Issuer;
 - (2) rank equally with the ranking of the relevant Notes;
 - (3) other than in the case of a change to the governing law of Condition 16(d) to Portuguese law (or other such law as set out above) in order to ensure the effectiveness and enforceability of Condition 16(d), have terms not materially less favourable to Noteholders than the terms of the relevant Notes (as reasonably determined by the Issuer in consultation with an independent adviser of recognised standing);
 - (4) (without prejudice to (3) above) (i) contain terms such that they comply with the applicable regulatory capital requirements in relation to Tier 2 instruments pursuant to Applicable Banking Regulations; (ii) bear the same rate of interest from time to time applying to the relevant Notes and preserve the same Interest Payment Dates; (iii) do not contain terms providing for mandatory deferral or cancellation of payments of interest and/or principal; (iv) preserve the obligations (including the obligations arising from the exercise of any right) of the Issuer as to redemption of the relevant Notes, including (without limitation) as to timing of, and amounts payable upon, such redemption; (v) do not contain terms providing for loss absorption through principal write-down or conversion to ordinary shares (but without prejudice to any acknowledgement of statutory resolution powers substantially similar to Condition 16(d)); and (vi) preserve any existing rights to any accrued and unpaid interest and any other amounts payable under the relevant Notes which has accrued to Noteholders and not been paid;
 - (5) are listed on the same stock exchange or market (if any) as the relevant Notes; and
 - (6) where the relevant Notes which have been substituted or varied had a published rating solicited by the Issuer from one or more Rating Agencies immediately prior to their substitution or variation, benefit from (or will, as announced by each such Rating Agency, benefit from) an equal or higher published rating from each such Rating Agency as that which applied to the relevant Notes, unless any downgrade is solely attributable to a change to the governing law of Condition 16(d) in order to ensure the effectiveness and enforceability of Condition 16(d).
- (n) *Substitution and Variation of Senior Non-Preferred Notes and Senior Notes*

This Condition 6(n) applies only to Senior Non-Preferred Notes or Senior Notes and references in this Condition 6(n) to "Notes" and "Noteholders" shall be construed accordingly.

If "Substitution and Variation" is specified as being applicable in the relevant Final Terms, and an MREL Disqualification Event has occurred and is continuing, or in order to ensure the effectiveness and enforceability of Condition 16(d), the Issuer (in its sole discretion but subject as set out below), having given not more than the maximum period of notice nor less than the minimum period of notice specified in the applicable Final Terms (which notice shall be irrevocable) to the Noteholders in accordance with Condition 12, may, without any requirement for the consent or approval of the Noteholders, either substitute all (but not some only) of the Notes for, or vary the terms of the Notes (including changing the governing law of Condition 16(d) from English law to Portuguese law or any other European law that,

after consultation with the Relevant Authority, the Issuer considers allows the Senior Non-Preferred Notes to remain or become MREL Compliant Notes) so that the Notes remain or, as appropriate, become, MREL Compliant Notes. Upon the expiry of such notice, the Issuer shall either vary the terms of the Notes or, as the case may be, substitute the Notes in accordance with this Condition 6(n).

In connection with any substitution or variation in accordance with this Condition 6(n), the Issuer shall comply with the rules of any stock exchange on which such Notes are for the time being listed or admitted to trading.

Any substitution or variation in accordance with this Condition 6(n) is subject to the following conditions:

- (i) such substitution or variation must be permitted by, and conducted in accordance with, any applicable requirement of the Relevant Authority or under the Applicable MREL Regulations (including, without limitation, any required approvals or non-objections); and
- (ii) such substitution or variation shall not result in any event or circumstance which at or around that time gives the Issuer a redemption right in respect of the Notes.

As used herein:

- (A) **"Rating Agency"** means each of Moody's Investors Service España, S.A., S&P Global Ratings Europe Limited and Fitch France – Société par Actions Simplifiée and each of their respective affiliates or successors and any entity that is part of DBRS Group and any successor to the relevant rating agency; and
- (B) **"MREL Compliant Notes"** means securities that comply with the following:
 - (1) are issued by the Issuer;
 - (2) rank equally with the ranking of the relevant Notes;
 - (3) other than in the case of a change to the governing law of Condition 16(d) to Portuguese law (or other such law as set out above) in order to ensure the effectiveness and enforceability of Condition 16(d), have terms not materially less favourable to Noteholders than the terms of the relevant Notes (as reasonably determined by the Issuer in consultation with an independent adviser of recognised standing);
 - (4) (without prejudice to (3) above) (i) contain terms such that they comply with Applicable MREL Regulations; (ii) bear the same rate of interest from time to time applying to the relevant Notes and preserve the same Interest Payment Dates; (iii) do not contain terms providing for mandatory deferral or cancellation of payments of interest and/or principal; (iv) preserve the obligations (including the obligations arising from the exercise of any right) of the Issuer as to redemption of the relevant Notes, including (without limitation) as to timing of, and amounts payable upon, such redemption; (v) do not contain terms providing for loss absorption through principal write-down or conversion to ordinary shares (but without prejudice to any acknowledgement of statutory resolution powers substantially similar to Condition 16(d)); and (vi) preserve any existing rights to any accrued and unpaid interest and any other amounts payable under the relevant Notes which has accrued to Noteholders and not been paid;
 - (5) are listed on the same stock exchange or market (if any) as the relevant Notes; and
 - (6) where the relevant Notes which have been substituted or varied had a published rating solicited by the Issuer from one or more Rating Agencies immediately prior to their substitution or variation, benefit from (or will, as announced by each such Rating

Agency, benefit from) an equal or higher published rating from each such Rating Agency as that which applied to the relevant Notes, unless any downgrade is solely attributable to a change to the governing law of Condition 16(d) in order to ensure the effectiveness and enforceability of Condition 16(d).

7. Taxation

- (a) All payments of principal and interest in respect of the Notes by the Issuer will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note:
- (i) presented for payment by or on behalf of, a Noteholder who is liable for such taxes or duties in respect of such Note by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Note; and/or
 - (ii) presented for payment by or on behalf of a Noteholder who is able to avoid such withholding or deduction by making a declaration of non-residence or other claim for exemption to the relevant tax authority; and/or
 - (iii) presented for payment by or on behalf of, a Noteholder in respect of whom the information and documentation (which may include certificates) required in order to comply with the special regime approved by Decree-Law No. 193/2005, of 7 November 2005 as amended from time to time, and any implementing legislation, is not received before the Relevant Date; and/or
 - (iv) presented for payment by or on behalf of, a Noteholder (A) in respect of whom the information and documentation required by Portuguese law in order to comply with any applicable tax treaty is not received by the Issuer or by the Agent directly from the relevant Noteholder before the date by which such documentation is to be provided to the Issuer under Portuguese law, and (B) who is resident in one of the contracting states; and/or
 - (v) presented for payment by or on behalf of a Noteholder resident in a tax haven jurisdiction as defined in Ministerial Order No. 150/2004, of 13 February 2004 (except for jurisdictions with which Portugal has entered into a double tax treaty or a tax information exchange agreement in force), as amended from time to time, with the exception of central banks and governmental agencies of those blacklisted jurisdictions; and/or
 - (vi) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 5(c)); and/or
 - (vii) where such withholding or deduction is required to be made pursuant to Sections 1471 through 1474 of the Code or any regulations or agreements thereunder, official interpretations thereof, or law implementing an intergovernmental approach thereto; and/or
 - (viii) presented for payment into an account held on behalf of undisclosed beneficial owners where such beneficial owners are not disclosed for purposes of payment and such disclosure is required by law.

As used herein:

- (A) **"Tax Jurisdiction"** means Portugal or any political subdivision or any authority thereof or therein having power to tax or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes; and
 - (B) the **"Relevant Date"** means the date on which such payment first becomes due, except that, if the full amount of the monies payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such monies having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 12.
- (b) This Condition 7(b) shall only apply to Subordinated Notes and, if Condition 7(b) is specified as "Applicable" in the applicable Final Terms, to Senior Non-Preferred Notes and Senior Notes. Notwithstanding Condition 7(a), any obligation to pay additional amounts provided for therein will be limited to payments of interest in respect of Subordinated Notes and, if Condition 7(b) is specified as "Applicable" in the applicable Final Terms, the relevant Senior Non-Preferred Notes or (as applicable) the relevant Senior Notes.

8. Prescription

The Notes will become void unless presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 7(a)) therefor.

9. Events of Default

(a) *Events of Default relating to certain Senior Notes*

If the Notes are specified as Senior Notes in the applicable Final Terms and the applicable Final Terms specify that this Condition 9(a) is "Applicable" and if any one or more of the following events (each an **"Event of Default"**) shall occur:

- (i) default is made for a period of 14 days or more in the payment of any principal or interest due in respect of the Notes or any of them after the due date therefor; or
- (ii) the Issuer fails to perform or observe any of its other obligations in respect of the Notes or under the Instrument and except where such default is not capable of remedy where no such continuation or notice as is hereinafter referred to will be required) such failure continues for the period of 30 days after notice has been given to the Issuer by a Noteholder requiring the same to be remedied; or
- (iii) the repayment of any indebtedness owing by the Issuer is accelerated by reason of default and such acceleration has not been rescinded or annulled, or the Issuer defaults (after whichever is the longer of any originally applicable period of grace and 14 days after the due date) in any payment of any indebtedness or in the honouring of any guarantee or indemnity in respect of any indebtedness provided that no such event referred to in this sub-paragraph (iii) shall constitute an Event of Default unless the indebtedness whether alone or when aggregated with other indebtedness relating to all (if any) other such events which shall have occurred shall exceed USD 25,000,000 (or its equivalent in any other currency or currencies) or, if greater, an amount equal to 1% of the Issuer's Shareholders' Funds (as defined below); or
- (iv) any order shall be made by any competent court or an effective resolution passed for the winding-up or dissolution of the Issuer (other than for the purpose of an amalgamation, merger or reconstruction previously approved by an Extraordinary Resolution of the Noteholders); or
- (v) the Issuer shall cease to carry on the whole or substantially the whole of its business (other than for the purpose of an amalgamation, merger or reconstruction previously approved by an Extraordinary Resolution of the Noteholders); or

- (vi) the Issuer shall stop payment or shall be unable to, or shall admit inability to, pay its debts as they fall due, or shall be adjudicated or found bankrupt or insolvent by a court of competent jurisdiction or shall make a conveyance or assignment for the benefit of, or shall enter into any composition or other arrangement with, its creditors generally; or
- (vii) the Issuer sells, transfers, lends or otherwise disposes of the whole or a substantial part of its undertaking or assets (including shareholdings in its Subsidiaries or associated companies) and such disposal is substantial in relation to the assets of the Issuer and its Subsidiaries as a whole, other than selling, transferring, lending or otherwise disposing on an arm's length basis

then, any Noteholder may give notice to the Issuer and to the Agent at their respective specified offices, effective upon the date of receipt thereof by the Agent, that the Notes held by such Noteholder(s) are, and they shall accordingly thereby forthwith become, immediately due and repayable at their Early Redemption Amount (as described in Condition 6(h) together with accrued interest (as provided in the Instrument)).

As used above, "**Issuer's Shareholders' Funds**" means, at any relevant time, a sum equal to the aggregate of the Issuer's shareholders' equity as certified by the Directors of the Issuer.

(b) *Events of Default and Enforcement relating to Subordinated Notes, Senior Non-Preferred Notes and certain Senior Notes*

This Condition 9(b) applies only to Subordinated Notes, Senior Non-Preferred Notes and Senior Notes in respect of which the applicable Final Terms specify that this Condition 9(b) is "Applicable" and in this Condition 9(b) references to "Notes" shall be construed accordingly.

(i) Events of Default

If the Notes are specified as Subordinated Notes or Senior Non-Preferred Notes in the applicable Final Terms or, if the Notes are specified as Senior Notes in the applicable Final Terms and the applicable Final Terms specify that this Condition 9(b) is "Applicable", any one or more of the following events shall constitute an "**Event of Default**".

- (A) If the Issuer does not make a payment for a period of 14 days or more in respect of the Notes or any of them after the due date therefor, then any Noteholder may in accordance with, and to the extent permitted by, then applicable law institute (or apply for the institution of) proceedings for the winding-up of the Issuer, but may take no other action in respect of such default.
- (B) If any order shall be made by any competent authority or an effective resolution passed for the winding-up or dissolution of the Issuer (other than for the purposes of an amalgamation, merger or reconstruction on terms previously approved by an Extraordinary Resolution of the Noteholders), then any Noteholder may (X) prove and/or claim in such winding-up or dissolution and (Y) give notice to the Issuer and to the Agent at their respective specified offices, effective upon the date of receipt thereof by the Agent that the Notes held by such Noteholder(s) are, and they shall accordingly thereby forthwith become, immediately due and repayable at their Early Redemption Amount (as described in Condition 6(h)) together with accrued interest (as provided in the Instrument).

(ii) Enforcement

Without prejudice and subject to Condition 9(b)(i), and in accordance with and to the extent permitted by then applicable law, a Noteholder may at its discretion and without notice institute (or apply for the institution of) such steps, actions or proceedings against the Issuer as it may think fit to enforce any term or condition binding on the Issuer under the Notes (other than any payment obligation of the Issuer under or arising from the Notes, including, without limitation, payment of any principal or interest in respect of the Notes, including any damages awarded for breach of any obligations), *provided that*, in no event shall the Issuer be obliged to pay any sum or sums, in cash or otherwise, sooner than the same would otherwise have been payable by it pursuant to these Conditions (other than in the circumstances described in Condition 9(b)(i)(B)). For the avoidance of doubt, nothing in this Condition 9(b)(ii) shall, however, prevent

a Noteholder from instituting (or applying for the institution of) proceedings for the winding-up of the Issuer (in accordance with and to the extent permitted by then applicable law) and/or proving and/or claiming in any winding-up or dissolution proceedings of the Issuer in respect of any payment obligations of the Issuer arising from the Notes in the circumstances described in Condition 9(b)(i).

(iii) Extent of Noteholders' remedy

No remedy against the Issuer, other than as referred to in this Condition 9(b), shall be available to the Noteholders, whether for the recovery of amounts owing in respect of the Notes or in respect of the Instrument or any breach by the Issuer of any of its other obligations under or in respect of the Notes or the Instrument.

10. Form and transfer of Notes generally

Notes held through accounts of Affiliate Members of Interbolsa will be represented in dematerialised book entry form ("*forma escritural*") and will be "*nominativas*" (i.e. Interbolsa, at the Issuer's request, can ask the Affiliated Members for information regarding the identity of the Noteholders and transmit such information to the Issuer). Notes shall not be issued in physical form. Notes will be registered in the relevant issue account opened by the Issuer with Interbolsa and will be held in control accounts by the Affiliate Members of Interbolsa on behalf of the relevant Noteholders. Such control accounts will reflect at all times the aggregate number of Notes held in the individual securities accounts opened by the clients of the Affiliate Members of Interbolsa (which may include Euroclear and Clearstream, Luxembourg). The transfer of Notes and their beneficial interests will be made through Interbolsa.

11. Agent

The name of the initial Agent and its initial specified office is set out below. If any additional agents are appointed in connection with any Series, the names of such agents will be specified in the applicable Final Terms.

The Issuer is entitled to vary or terminate the appointment of any agent and/or appoint additional or other agents and/or approve any change in the specified office through which any agent acts, provided that there will at all times be an Agent.

Banco Comercial Português, S.A. will be the Agent.

In acting under the Agency Terms, the Agent acts solely as agent of the Issuer, and does not assume any obligation or relationship of agency or trust to or with the Noteholders, except that (without affecting the obligations of the Issuer to the Noteholders to repay Notes and pay interest thereon) any funds received by the Agent for the payment of the principal of or interest on the Notes shall be held by it on trust for the Noteholders until the expiry of the period of prescription specified in Condition 8. The Agency Terms contains provisions for the indemnification of the Agent and for its relief from responsibility in certain circumstances and entitles it to enter into business transactions with the Issuer and any of its Subsidiaries without being liable to account to the Noteholders for any resulting profit.

12. Notices

All notices regarding the Notes shall be valid if published on the website of the Issuer (being, as at the date hereof, www.millenniumbcp.pt) and (so long as the relevant Notes are admitted to trading on, and listed on the official list of, Euronext Dublin), any notice shall also be published in accordance with any relevant listing rules. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any other stock exchange (or any other relevant authority) on which the Notes are for the time being listed, including publication on the website of the relevant stock exchange or relevant authority if required by those rules. Any such notice will be deemed to have been given on the date of publication or, if published more than once or on different dates, on the date of the first publication.

Notices to be given by any Noteholder shall be in writing and given by lodging the same with the Agent.

The Issuer shall also comply with the requirements of Interbolsa and of Portuguese law generally in respect of notices relating to Notes.

13. Meetings of Noteholders, Modification and Waiver

The Instrument contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of the provisions of the Notes. A meeting convened pursuant to the provisions of the Instrument, may be convened by the Issuer and should be convened by the Issuer upon a requisition by Noteholders holding not less than one-tenth in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution will be one or more persons holding or representing not less than a clear majority in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes (including, amongst other things, modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes) or certain provisions of the Instrument, as the case may be, the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed by the Noteholders will be binding on all the Noteholders, whether or not they are present at any meeting.

The Agent and the Issuer may, without the consent of the Noteholders (and by acquiring the Notes, the Noteholders agree that the Agent and the Issuer may, without the consent of the Noteholders) make any modification to the provisions of these Terms and Conditions or the Instrument which: (i) is not prejudicial to the interests of the Noteholders; (ii) is of a formal, minor or technical nature; (iii) is made to correct a manifest or proven error; or (iv) is to comply with mandatory provisions of any applicable law or regulation. Any such modification so made shall be binding on all Noteholders and shall be notified to the Noteholders in accordance with Condition 12 as soon as practicable after it has been agreed. Notwithstanding the foregoing, any modification of the Terms and Conditions of any Subordinated Notes, Senior Non-Preferred Notes or Restricted Senior Notes will be subject to the consent of the Relevant Authority (in each case, if and to the extent then required by Applicable Banking Regulations or Applicable MREL Regulations, as applicable).

14. Further Issues

The Issuer shall be at liberty from time to time without the consent of the Noteholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

15. Contracts (Rights of Third Parties) Act 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

16. Governing law, submission to jurisdiction and acknowledgement of Portuguese Statutory Loss Absorption Powers

- (a) The Agency Terms, the Notes (except Conditions 2(b) and 2(c)) and any non-contractual obligations arising out of or in connection with the Agency Terms and the Notes are governed by and shall be construed in accordance with, English law save that the form ("*representação formal*") and transfer of the

Notes, creation of security over the Notes and the Interbolsa procedures for the exercise of rights under the Notes are governed by, and shall be construed in accordance with, Portuguese law. Conditions 2(b) and 2(c) are governed by, and shall be construed in accordance with, Portuguese law. In each case, the application of such governing law shall be without prejudice to the applicability, under the conflicts rules applicable in the relevant forum, in the light of such submission, of Portuguese law. The foregoing is subject to the right of the Issuer pursuant to Condition 6 to change the governing law of Condition 16(d) in accordance with the terms of Condition 6(m) and (n).

- (b) The Issuer has in the Instrument irrevocably agreed, for the exclusive benefit of the Noteholders that the courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Instrument and/or the Notes (including a dispute relating to any non-contractual obligations arising out of or in connection with the Instrument and/or the Notes) and that accordingly any suit, action or proceedings (together referred to as "**Proceedings**") arising out of or in connection with the Instrument and/or the Notes (including a dispute relating to any non-contractual obligations arising out of or in connection with the Instrument and/or the Notes) may be brought in such courts.
- (c) The Issuer has in the Instrument irrevocably waived any objection which it may have now or hereafter to the laying of the venue of any such Proceedings in any such court and any claim that any such Proceedings have been brought in an inconvenient forum and has further irrevocably agreed that a judgement in any such Proceedings brought in the English courts shall be conclusive and binding upon it and may be enforced in the courts of any other competent jurisdiction. Nothing in this Condition 16 shall limit any right to take Proceedings in any other court of competent jurisdiction, nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction, whether concurrently or not.
- (d) Notwithstanding any other term of the Notes or any other agreement, arrangement or understanding between the Issuer and the Noteholders, by its subscription and/or purchase and holding of the Notes, each Noteholder (which for the purposes of this Condition 16(d) includes each holder of a beneficial interest in the Notes) acknowledges, accepts, consents and agrees:
 - (i) to be bound by the effect of the exercise of the Bail-in Power by the Relevant Resolution Authority, which shall be notified by the Issuer in accordance with Condition 12 (*Notices*) (it being understood, for the avoidance of doubt, that any delay or failure to give such notice shall not affect the validity and enforceability of the Bail-in Power nor its effects on the Notes described in these Conditions) and may include and result in any of the following, or some combination thereof:
 - (A) the reduction of all, or a portion, of the Amounts Due on a permanent basis;
 - (B) the conversion of all, or a portion, of the Amounts Due into shares, other securities or other obligations of the Issuer or another person (and the issue to the holder of such shares, securities or obligations), including by means of an amendment, modification or variation of the terms of the Notes, in which case the Noteholder agrees to accept in lieu of its rights under the Notes any such shares, other securities or other obligations of the Issuer or another person;
 - (C) the cancellation of the Notes or Amounts Due; or
 - (D) the amendment or alteration of the maturity of the Notes or amendment of the Interest Amount payable on the Notes, or the date on which the interest becomes payable, including by suspending payment for a temporary period;
 - (ii) that the terms of the Notes are subject to, and may be varied, if necessary, to give effect to, the exercise of the Bail-in Power by the Relevant Resolution Authority;

- (iii) for the avoidance of doubt, no exercise of the Bail-in Power by the Relevant Resolution Authority shall be deemed to constitute an Event of Default or otherwise constitute non-performance of a contractual obligation or entitle the Noteholders to any remedies (including equitable remedies), which are hereby expressly waived; and
- (iv) that the matters described in this Condition 16(d) are exhaustive on the matters described therein, to the exclusion of any other agreements, arrangements or understandings between the Issuer and any Noteholder.

In these Terms and Conditions:

“Amounts Due” means the principal amount, together with any accrued but unpaid interest, and any additional amounts referred to in Condition 7(a), if any, due on the Notes. References to such amounts will include amounts that have become due and payable, but which have not been paid, prior to the exercise of the Bail-in Power by the Relevant Resolution Authority.

“Bail-in Power” means any power existing from time to time under, and exercised in compliance with, any laws, regulations, rules or requirements in effect in Portugal, relating to (i) the transposition of the BRRD, (ii) Regulation (EU) No. 806/2014 of the European Parliament and of the Council of 15 July 2014, establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of the Single Resolution Mechanism and the Single Resolution Fund and amending Regulation (EU) No. 1093/2010 (as amended or superseded from time to time) and (iii) the instruments, rules and standards created thereunder, pursuant to which any obligation of certain entities as set out in such law, regulation, rules or requirements can be reduced, cancelled, suspended, modified, or converted into shares, other securities, or other obligations.

“BRRD” means Directive 2014/59/EU of 15 May establishing the framework for the recovery and resolution of credit institutions and investment firms or such other directive as may come into effect in place thereof, as implemented in Portugal, as amended or replaced from time to time and including any other relevant implementing regulatory provisions.

“Relevant Resolution Authority” means any authority lawfully entitled to exercise or participate in the exercise of any Bail-in Power from time to time.

- (e) The Issuer has in the Instrument appointed the London Representative Office of Banco Comercial Português, S.A. at 3rd Floor, 63 Queen Victoria Street, London EC4V 4UA for the time being as its agent for service of process in England in respect of any Proceedings and has undertaken that in the event of it ceasing so to act it will appoint another other person for that purpose.

USE OF PROCEEDS

The net proceeds from each issue of Notes will be applied by the Issuer for the general corporate purposes, which include making a profit, of the Banco Comercial Português Group or as otherwise stated in the applicable Final Terms.

DESCRIPTION OF THE BUSINESS OF THE GROUP

A. Description of the Business of the Group

Overview

The Group is one of the largest privately owned banking groups based in Portugal, in terms of assets, credit and deposits. The Group offers a wide range of banking products and related financial services, both in Portugal and internationally, namely demand accounts, instruments of payment, savings and investment products, mortgage loans, consumer credit, commercial banking, leasing, factoring, insurance, private banking and asset management, among others, and its customers are served on a segmented basis. Internationally, the Group has significant operations in Poland, Angola (on 22 April 2016, BMA merged with BPA and as a result the Group deconsolidated the Angola operation which is now consolidated under the equity method) and Mozambique. In addition, the Bank has a presence in Switzerland, the Cayman Islands and Macao.

In accordance with IFRS as endorsed by the European Union, the Group had, at the end of 2018, total assets in the amount of EUR 75,923 million and total customer funds (including customer deposits, debt securities, assets under management, assets placed with customers and insurance products (savings and investments) in the sum of EUR 74,023 million. Loans to customers (gross) amounted to EUR 51,015 million (of which EUR 48.4 billion were recorded in the caption "Financial assets at amortised cost – Loans to customers", EUR 2.3 billion were recorded in the caption "Debt securities held associated with credit operations" and EUR 0.291 billion were recorded in the caption "Financial assets not held for trading mandatorily at fair value through profit or loss - Loans and advances to customers at fair value"). According to the interpretation of the CRD IV/CRR, CET 1 fully-implemented ratio pro forma reached 12.0%, as at 31 December 2018. Based on the latest available data from Banco de Portugal, the Group accounted for 17.4% of loans to customers (gross) and 17.5% of deposits in the Portuguese banking sector on 30 November 2018.

In addition, on 31 December 2018, the Bank was the fifth largest company listed on Euronext Lisbon in terms of market capitalisation (EUR 3,469 million).

The Bank is registered with the Commercial Registry Office of Oporto under the sole commercial registration and tax identification number 501 525 882 and its registered offices are located at Praça Dom João I, 28, 4000–295 Oporto, with telephone number +351 211 134 001.

The Bank operates notably under the Portuguese Companies Code and the Banking Law.

Bank History

BCP was incorporated on 17 June 1985 as a limited liability company ("sociedade anónima") organised under the laws of Portugal following the deregulation of the Portuguese banking industry. BCP was founded by a group of over 200 shareholders and a team of experienced banking professionals who sought to capitalise on the opportunity to form an independent financial institution that would serve the then underdeveloped Portuguese financial market more effectively than state-owned banks.

While the Bank's development was initially characterised by organic growth, a series of strategic acquisitions helped solidify its position in the Portuguese market and increase its offering of financial products and services. In March 1995, BCP acquired control of Banco Português do Atlântico, S.A. ("Atlântico"), which was then the largest private bank in Portugal. This was followed by a joint takeover bid for the whole share capital of Atlântico. In June 2000, Atlântico was merged into BCP. In 2000, BCP also acquired Império, along with Banco Mello and Banco Pinto & Sotto Mayor. In 2004, with a view to strengthening its focus on the core business of distribution of financial products and optimising capital consumption, BCP sold insurers Império Bonança, Seguro Directo, Impergesto and Servicomercial to the Caixa Geral de Depósitos group. BCP also entered into agreements with Fortis (currently Ageas) for the sale of a controlling stake and management control of insurers Ocidental - Companhia Portuguesa de

Seguros, S.A., Ocidental - Companhia Portuguesa de Seguros de Vida, S.A. and Médis - Companhia Portuguesa de Seguros de Saúde, S.A., as well as the pension fund manager PensõesGere - Sociedade Gestora de Fundos de Pensões, S.A.

After the consolidation of its position in the Portuguese banking market, the Bank focused on the development of its retail business in new regions, with the goal of attaining significant positions in emerging markets in Europe and in Africa. The Bank concentrated on businesses with strong growth prospects in foreign markets with a close historical connection to Portugal or that have large communities of Portuguese origin (such as Angola, Mozambique, the United States, Canada, France, Luxembourg and Macao), as well as in markets where the Bank's successful Portuguese business model can be effectively exported and tailored to suit such local markets (such as Poland, Greece and Romania). The Bank has pursued a consistent strategy of market segmentation. Until 2003, these segments were served through autonomous distribution networks operating under a variety of brand names. In October 2003, BCP began the process of replacing these brands in Portugal with a single brand name Millennium bcp. The rebranding in other markets was completed in 2006. All operations of the Bank are now carried out under the "Millennium" brand. In Portugal, the Bank also operates under the "ActivoBank" brand.

In 2004, the Bank also sold its non-life insurance businesses and divested a portion of its life insurance business by entering into a joint venture with Ageas (formerly Fortis), named Millenniumbcp Ageas, of which 51% is held by Ageas and 49% by the Bank.

In recent years, the Bank has refocused on operations that it considers core to its business. As part of this refocus, the Bank divested several of its international operations (in France, Luxembourg, United States, Canada, Greece, Turkey and Romania), while retaining commercial protocols to facilitate remittances from Portuguese emigrants in some markets. In 2010, the Bank transformed its Macao off-shore branch into an on-shore branch.

In February 2012, the Bank adopted a management restructuring through the introduction of a one-tier management and supervisory model, composed of the Board of Directors, including an Executive Committee and Audit Committee (the latter comprising non-executive members, in accordance with the applicable law), and of the Statutory Auditor. In December 2012, the Bank prepared and presented to the Portuguese government a Restructuring Plan, required by national law and by the applicable European rules on matters of State aid. The Restructuring Plan was formally submitted by the Portuguese government to the EC and, in July 2013, the Bank agreed with the EC a Restructuring Plan, entailing an improvement of the profitability of the Bank in Portugal through continued cost reduction. In September 2013, the DG Comp announced its formal decision in connection with its agreement with the Portuguese authorities concerning the Bank's Restructuring Plan. Pursuant to the decision, the Bank's Restructuring Plan was found in compliance with the European Union's rules relating to State aid, demonstrating the Bank's viability without continued State support. The approved Restructuring Plan aimed at strengthening the Bank's strategy by focusing on its core activities.

In May 2014, as part of a process aiming to refocus on core activities defined as a priority in its Strategic Plan, the Bank announced that it agreed with the international insurance group Ageas a partial recast of the strategic partnership agreements entered into in 2004, which included the sale of its 49% interest in the (currently jointly owned) insurance companies that operate exclusively in the non-life insurance business, i.e. Ocidental – Companhia Portuguesa de Seguros, S.A. and Médis – Companhia Portuguesa de Seguros de Saúde, S.A.

In April 2016, the Bank announced the conclusion of the merger between BMA and BPA, resulting in Angola's second-largest private sector bank in terms of loans to the economy, with a market share of approximately 10% by business volume.

BCP has announced in January 2017 a EUR 1.3 billion rights issue with transferable pre-emptive subscription rights. The aim of this transaction was to bring forward the full repayment of remaining Government Subscribed Securities and the removal of key State-aid related restrictions, including dividend

ban, risk of potential sale of core businesses and tail risk of conversion. This transaction was designed to strengthening the balance sheet through the improvement of CET1 FL ratio and Texas ratio, bringing them in line with new industry benchmarks and above current regulatory requirements.

The Bank has successfully executed an operational turnaround, reinforcing its financial and capital position despite the adverse setting of the banking sector in the core Portuguese market. This position reflects the Bank's relentless path and the compounding of multiple achievements, such as a 30% cost reduction in Portugal since 2011, and a 60% reduction in Group NPE since 2013 (from EUR 13.7 billion to EUR 5.5 billion in 2018). Three distinctive competences were at the core of this turnaround: a customer-oriented relationship model, market-leading efficiency, and a competitive international portfolio.

Business Overview

Nature of Operations and Principal Activities

The Group is engaged in a wide variety of banking and related financial services activities, in Portugal and internationally. The Bank operates in foreign markets, being present in the following markets: Poland, Switzerland, Mozambique and Angola (through its associated company Banco Millennium Atlântico). In Portugal, the Bank's operations are primarily in retail banking, but it also offers a complete range of additional financial services (in accordance with Article 3 of the articles of association of the Bank, which provides that "the purpose of the Bank is to engage in banking activities with such latitude as may be permitted by law"). The Bank also engages in a number of international activities and partnerships.

The Bank's banking products and services include demand accounts, instruments of payment, savings and investments, mortgage loans, consumer credit, commercial banking, leasing, factoring, insurance, private banking and asset management, among others. The Bank's domestic retail banking activities are conducted mainly through its marketing and distribution network in Portugal, which follows a segmented approach to the Portuguese retail banking market and serves the diverse banking needs of specific groups of customers. Back office operations for the distribution network are integrated in order to explore economies of scale.

The Bank has subsidiaries that offer additional financial services, including investment banking, asset management and insurance. These subsidiaries generally distribute their products through the Bank's distribution networks. The Bank's retail banking and related financial services activities, together with its international operations and partnerships, are described in greater detail below.

Strategy

The Bank is now ready to embark on a new cycle of growth with profitability, requiring complementary capabilities to cope with the evolving context and the need to secure a fully sustainable position. These include leading digital, mobile, and analytics capabilities (preparing the organisation to be competitive in the new age) and integration in value chains and ecosystems (embedding into its customers' needs and reach), complemented by a robust balance sheet and rigorous capital allocation and shaped by strong governance (continuing its effort to de-risk the portfolio and reinforcing focus on value-added business).

Against this backdrop, the Bank has defined five overarching priorities for the future:

Talent mobilisation, which will entail energising employees to drive the Bank's agenda as a team, promoting greater engagement and proactivity, and empowering decision making in a collaborative model. The Bank's talent will also be reinvigorated by developing a merit-based growth model and fostering the development of new capabilities. Finally, the Bank will review its compensation processes across teams to ensure alignment with the new agenda and performance.

Mobile-centric digitisation, aspiring to double down on efforts to transform customer experience and enable productivity gains across geographies, reemphasizing Millennium's innovation trademark. The main priorities consist of redesigning the digital experience from a mobile-centric approach, transforming top customer journeys, setting up a convenient and productive omnichannel model, and transforming operations through the deployment of NextGen technologies (such as robotics and natural language

processing). In parallel, an IT strategy focused on upgrading technology, data, security, and ways of working will enable these levers.

Growth and leadership in Portugal, aiming to maximise the potential of the unique position in which the Bank emerges out of the financial crisis (the largest private Portuguese bank) implying a renewed commitment to grow the customer base and expand relationships. This will materialise into helping Portuguese businesses thrive (e.g., building a position as the preferred partner for sound small businesses), while serving its individual customers across their full range of needs. The Group further aspires to capture the full potential of ActivoBank's (a digital platform bank) simple and value-based offer and assess potential internationalisation options.

Growth in international footprint, with the objective of capitalising on the opportunities offered by the high-growth intrinsics of markets where the Bank has a presence and competitive advantage. This implies growing in Poland by deepening retail relationships and enlarging the customer business base; a step change in Switzerland by growing existing business and exploring new markets and digital advice; leveraging market leadership in Mozambique to focus on profitability and capturing the tailwinds of large commodity investments planned; building on its position in Angola as a trusted and sound business partner with unique local relationships; and exploring emerging China related opportunities (trade and investment flows, payments, private banking).

Business model sustainability, maintaining as a clear priority the improvement of its credit portfolio quality by reducing the NPE stock (reduction to EUR 3 billion by 2021) and simultaneously lowering the cost of risk. Risk and compliance governance will also be strengthened to ensure a sustainable growth of credit volume with a sound risk profile.

The successful execution of these priorities should enable the Bank to accomplish a set of strategic objectives for 2021: franchise growth (over 6 million active customers¹¹), readiness for the future (from 55% to over 60% digital customers by 2021), a sustainable business model (45% reduction of NPE stock, reaching approximately EUR 3 billion), and attractive returns for shareholders (approximately 40% cost-to-income and approximately 10% ROE in 2021).

Business Model

The internal organisational model of the Bank covers four business areas: Retail, Companies, Asset Management & Private Banking and Business Abroad (Europe, Africa and Other), and two support units: Processes and Banking Services and Corporate Areas.

Regarding the internal organisation and decision-making structure, it is important to note the existence of a series of Commissions and Sub-Commissions directly appointed by the Executive Commission which, apart from the Directors who are specifically entrusted with the monitoring of matters, include the employees of the Bank or Group who are the heads of their respective areas.

As at 15 January 2019, there were 14 Commissions and two Sub-Commissions aimed at facilitating the coordination of current managerial decisions, involving the senior management of the units included in each business area, with a view to reconciling perspectives and supporting the managerial decision-making process of the Executive Commission, as follows:

- a) **Costs and Investments Commission:** This Commission has the mission of regular follow-ups on the evolution and optimisation of the contracts for the purchase of goods and services which are more significant for the Bank and of the respective negotiations and costs authorisation;

One Sub-Commission operates under the Costs and Investments Commission, the **Costs and Investments Sub-Commission** whose mission is the regular follow-up of

¹¹ Customers with a debit or credit card movement in the past three months, or who have assets greater than or equal to €100

the evolution and optimisation of the contracts for the purchase of goods and services which are more significant for the Bank and of the respective negotiations; also issues of opinions or authorisation of costs for all the purchases of goods and services that are not within the competence of the coordinator managers, in accordance with the regulations in effect;

- b) **Corporate & Investment Banking Commission:** The primary mission of this Commission is the assessment of the business context and proposal of commercial actions that are appropriate for these corporate segments; the business main risk indicators and of the models for the articulation of the business concerning its migration in the value proposal and the interconnection of the Bank's networks;
- c) **Human Resources Commission:** The primary mission of this Commission is the definition of the strategy and approval of the Bank's human resources policies, including the overview of the top 10 Key Performance Indicators ("**KPIs**"), contracts and internal mobility, span of control, compensation, benefits and recognition programmes. The Human Resources Commission is internally aiming to reinforce the culture, strategic alignment and mobilisation, and externally, in terms of value proposal and image, as well as the approach/relationship with relevant stakeholders, and the identification of policies, practices and systems to introduce/recommend actions in other countries where the Group operates are also functions of this Commission;
- d) **Retail Commission:** This Commission is entrusted to follow-up on the performance of the commercial networks, segments and channels (objective fulfilment levels and evolution) and to assess the business context and definition of commercial action priorities. This Commission also analyses the main indicators for products and services and the decisions on changes to the Bank's product range, as well of the main indicators for quality and customer experience, claims and customer satisfaction (external and internal);
- e) **Compliance Commission:** The main mission of this Commission is to ensure and to follow-up that all of the Group's institutions adopt and comply with the internal and external regulations that frame its activities, with the relevant contractual commitments and with the organisation's ethical values so as to help mitigate the risk of such institutions incurring sanctions or significant asset or reputation losses;
- f) **Capital Assets and Liabilities Management Commission (CALCO):** This Commission is entrusted in monitoring and managing market risks associated to assets and liabilities, planning and making capital allocation proposals and proposals to define policies for liquidity and market risk management, in terms of the Group consolidated balance sheet;
- g) **Credit Commission:** This Commission decides on credit proposals transversally related with the banking activity of the Group and issues an advisory opinion on the credit proposals made by entities operating abroad and part of the Group;
- h) **Risk Commission:** The main duty of this Commission is the definition of the framework and of the Group's risk management instruments and policies, establishing the respective principles, rules, limits and practices for the Group's entities, taking into account the risk thresholds set forth in the Risk Appetite Statement ("**RAS**"). This commission is responsible for monitoring compliance of group risk levels with the RAS, implementation of processes and action plans to mitigate eventual deviations versus RAS metrics, including a proposal for adjustment to such metrics, in cooperation with the Committee for Risk Assessment;

One Sub-Commission operates under the Risk Commission, the **Monitoring and Validation of Models Sub-Commission**: That monitors and confirms the validity of the various models used by the Bank's risk management function, including the technical analysis of models, indicators and monitoring results, qualitative validations, backtesting, benchmarking and analysis of adequacy and adherence to the reality meant to be modeled. It also identifies the measures necessary to improve model quality and propose to the Risk Commission the methodology to assess model risk and respective tolerance level;

- i) **Pension Funds Risk Monitoring Commission**: This Commission is entrusted for monitoring the performance and risk of the Group's pension funds and the establishment of appropriate investment policies and hedging strategies;
- j) **Quality Security and Data Protection Commission**: The primary mission of this Commission is to define policies for information systems, physical security, data quality and management, disaster recovery plan and business continuity at Group level, ensuring compliance with the legal and regulatory requirements and the safety requirements and articulating between areas resulting from the application of risk management criteria and international standards. This Commission decides and prioritises the implementation of initiatives/projects for the improvement of the security systems in view of the risks and prioritises the implementation of initiatives/projects for the improvement of the security systems in view of the risks and vulnerabilities identified;
- k) **Operational Risk and Internal Control Monitoring Commission**: This Commission promotes the spreading of an operational risk management culture and ensures the monitoring of the metrics to assess the evolution shown by risk levels, efficiency and the processes' productivity and the performance of the parties intervening in operating risk management. The Commission appraises proposals made to improve the processes for the reinforcement of the internal control environment and monitors the making of the internal control reports for the Group's entities;
- l) **Project Mobilizar Commission**: The main mission of this Commission is analysing and approving different initiatives to put into action in each of the five areas of the Mobilizar Plan, as well as eventual corrective measures required to meet the goals set forth. This Commission also overviews progress of initiatives approved, of compliance with the respective budgets, of the evolution of the results achieved and of the main KPI in each of the plan's areas;
- m) **Work Relations Commission**: This Commission is a privileged forum for dialogue and interaction with the employees' representatives (unions and workers committee), where relevant issues for strengthening work bonds are clarified and debated;
- n) **Monitoring NPA (*non-performing assets*) Commission**: This Commission is entrusted for following-up the credit exposure and the contracting process; the credit portfolio's quality and the main risk and performance indicators; the counterparty risk and the largest exposures concentration risk and the impairment and the main processes that are object of a separate assessment.

Other Financial Services in Portugal

Mortgage Lending

The Bank entered the mortgage lending business in 1992, when it launched, in association with Cariplo – Cassa di Risparmio delle Provincie Lombarde S.p.A. (now a part of the Italian financial group Banca Intesa), an autonomous mortgage bank, Banco de Investimento Imobiliário, S.A. ("BII"). BII was 69.9%

owned by the Group, with the remaining 30.1% being owned by Banca Intesa. BII previously distributed its mortgage products through the Bank's marketing and distribution networks, as well as through its own retail outlets. On 21 September 2005, the Bank reached an agreement with Banca Intesa for the unwinding of the joint venture arrangements in relation to BII. In October 2005, the Bank acquired 30.1% of the capital of BII owned by Banca Intesa, becoming the sole shareholder of BII. Currently, BII is running a book of outstanding mortgage credit originating from mid-2007, which will progressively be reduced over time. The Bank runs the Portuguese mortgage business directly.

Online Banking

ActivoBank is a leading internet bank in Portugal. Launched in 2010, ActivoBank offers a streamlined and convenient service with an emphasis on emerging distribution and communication channels (e.g. internet banking, mobile banking). ActivoBank targets younger, technologically savvy customers who prefer simple, modern banking products and services.

ActivoBank's main goal is to maintain a strong focus on its online presence through its website and social media. The pillar of ActivoBank's client relationship is based on online channels, despite also having 15 physical branches, as at 31 December 2018. ActivoBank was the first Portuguese bank to launch an exclusive application for smartphones. ActivoBank continues to invest heavily in developing new services and features, in alignment with new trends, with a primary emphasis on innovation.

Insurance

The Bank has an interest in insurance activities through Millenniumbcp Ageas, a joint venture with Ageas for bancassurance business in Portugal. On 26 May 2014, as part of a process aiming to refocus on core activities defined as a priority in its Strategic Plan, the Bank announced that it had agreed with the international insurance group Ageas a partial recast of the strategic partnership agreements entered into in 2004, which included the sale of its 49% interest in the (at that time jointly owned) insurance companies that operate exclusively in the non-life insurance business, i.e. Ocidental – Companhia Portuguesa de Seguros, S.A. and Médis – Companhia Portuguesa de Seguros de Saúde, S.A. Currently, the Group holds 49% of Millenniumbcp Ageas' share capital in the life insurance business, while the remaining 51% is held by Ageas.

On 28 July 2014, the Bank announced about the qualifying holding of Ageas and Ocidental Vida that was a result of Ageas and Ocidental Vida having subscribed, respectively, 280,490,558 and 408,855,693 ordinary shares in the rights issue launched by the Bank on 27 June 2014, pursuant to the subscription rights attributed to them considering their participation in BCP prior to the rights issue of 156,623,179 shares in case of Ageas and of 233,631,825 shares in case of Ocidental Vida. Following the settlement of the rights issue on 23 July 2014 and allotment of the oversubscription on 24 July, the number of shares held by Ageas increased to 437,113,737 and the number of shares held by Ocidental Vida increased to 652,087,518, thus the Ageas Group increased its participation to 1,089,201,255 shares that correspond to 2.01% of the issued share capital and of voting rights of the Bank.

On 16 June 2015, the Bank announced to have received a notification from Ageas Group informing that its holding in the share capital of the Bank had fallen below the 2% threshold of qualifying holding. The dilution of the former qualifying holding was a result of the Bank's exchange offer of some of its subordinated debt and preference shares for ordinary shares, causing the issuance of 4,844,313,860 new shares, which increased the total outstanding ordinary shares in BCP to 59,039,023,275. At that date, the Ageas Group's holding was 1.84%.

Foreign Business

BCP has concentrated on those businesses with strong growth prospects in foreign markets with a close historical connection to Portugal or that have large communities of residents with a Portuguese heritage (such as Angola and Mozambique), as well as in markets to which the Bank's successful business model in Portugal can be effectively exported and tailored to suit local markets, in particular in Poland.

Poland

In Poland, the Bank operates through Bank Millennium, S.A. ("**Bank Millennium**"), and focuses its offerings on individuals and small and medium-sized companies. Bank Millennium is a full service national bank which, jointly with its subsidiaries, offers a complete range of financial products and services, including deposit-taking, savings and investment products, short-, medium- and long-term lending (including mortgage lending and consumer credit), debit and credit cards, fund transfers and other payment methods, mutual funds, insurance, leasing, treasury services and money market transactions.

In 1998, the Bank entered into a partnership agreement with the Polish financial group, BBG, pursuant to which the Bank launched a retail operation with BBG in the Polish market under the "Millennium" brand.

The Bank now owns 50.1% of Bank Millennium.

At 30 October 2017, Bank Millennium announced its Strategic Plan for 2020, called "Strategy 2020", including the following targets for that year: net earnings of 1 billion zlotys¹², core income up by 30% from 2017 and a 40% cost to income, keeping cost of risk in line with the historical average.

In 2018, Bank Millennium recorded net income totalling EUR 178.4 million (EUR 89.4 million of which attributable to the Bank), an increase of 11.7%, excluding foreign exchange effect, when compared to EUR 159.8 million (EUR 80.3 million of which attributable to the Bank) in the same period of the previous year.

Banking income was up 6.1% to EUR 639.8 million in 2018, positively influenced by the performance of the net interest income, which increased 8.1% versus 2017. Operating costs recorded an increase of 5.4% to EUR 297.4 million, due to the rise in staff costs (+7.0%) and in other costs (+3.9%). The cost-to-income ratio¹³ stood at 46.5% and ROE was 9.6%, translating an improvement in profitability and in operational efficiency. The cost of risk stood at 48 basis points accrued since the beginning of the year and the loans to deposits ratio at around 80%. Bank Millennium keeps comfortable levels in terms of capital, liquidity and quality of assets. The Total Consolidated Capital Ratio of Bank Millennium stood at 23.8% and Common Equity Tier 1 at 21.9%, comfortably above of the minimum capital regulatory thresholds.

As at 31 December 2018, customer funds stood at to EUR 17,391 million, which represents an increase of 12.2%, compared to EUR 15,499 million on 31 December 2017, excluding foreign exchange effect, and loans to customers increased 11.5% from EUR 11,383 million to EUR 12,678 million (EUR 12,387 million recorded in "Financial assets at amortised cost – Loans and advances to customers"; EUR 291 million recorded in "Financial assets at fair value through profit or loss – Financial assets not held for trading mandatorily at fair value through profit or loss"), excluding foreign exchange effect. The number of employees totalled 6,132 at the end of December 2018. On that date, the Issuer had 361 branches, six more than in December 2017.

Bank Millennium reached an agreement for the acquisition of a 99.79% stake in eurobank from Société Générale Financial Services Holding, a subsidiary of Société Générale S.A. The acquisition of eurobank allows Bank Millennium to strengthen its position in the Polish banking sector and represents a profitable deployment of Bank Millennium's excess capital and liquidity. Bank Millennium's CET1 ratio stood at 19.77% as at 31 December 2018, comfortably above regulatory requirements. Taking into consideration the planned acquisition of eurobank, the Management Board of Bank Millennium submitted to the Annual General Meeting a proposal of full retention of 2018 net profit in Bank's own funds.

Mozambique

The Bank has had banking operations in Mozambique since 1995. Banco Internacional de Moçambique ("**Millennium bim**") is the second Mozambique's largest bank in terms of assets, loans and deposits market shares. The 3 pillars of the strategic plan of Millennium bim for 2018 are: Human resources; Management of risk, ensuring i) prudence in liquidity management, ii) reduction of the exposure to high

¹² Excluding extraordinary legal, regulatory and tax events

¹³ As used in this Offering Circular, "**cost to income ratio**" means operating costs divided by net operating revenues

risk clients, replacing it with new credit with a better risk and iii) providing support to clients in a proactive manner to avoid default situations and, consequently, recording impairments; and Earnings, maintaining i) focus on increasing the number of clients as a way to ensure a sustained net income, ii) reduction of operating costs in spite of the inflationary context and currency depreciation, and iii) good solvency and efficiency ratios, ensuring the achievement of a solid and distinctive position in the market.

During 2018, Millennium bim recorded a net income of EUR 94.1 million, an increase of 10.6% compared to EUR 85.1 million in December 2017, excluding foreign exchange effect, when compared to the same period of the previous year. In this period, banking income¹⁴ grew 7.8% amounting to EUR 241.6 million, excluding foreign exchange effect, driven by the increase of 5.9% in net interest income and other income (+37.6%), despite the reduction of the commissions (-1.7%). Operating costs increased 7.5% to EUR 91.4 million, excluding foreign exchange effect, and cost-to-income stood at 37.8%. ROE stood at 22.2%. Loan impairment amounted to EUR 34.0 million (EUR 28.0 million recorded in December 2017, excluding foreign exchange effect) and the cost of risk increased from 295 basis points to 431 basis points. As at 31 December 2018, Millennium bim had a capital ratio of 39.0%.

Total customer funds in 2018 stood at EUR 1,571 million, up from the EUR 1,413 million, excluding foreign exchange effect, recorded in December 2017, showing an increase of 11.1%. Loans to customers (gross) amounted to EUR 802 million in 2018, compared to EUR 965 million in December 2017, a decrease of 16.9%, excluding foreign exchange effect.

As at 31 December 2018, Millennium bim had 193 branches, seven more than in the same period of 2017. At that date, the bank had 2,476 employees (excluding employees from SIM, the insurance company) and had 2,461 employees as at 31 December 2018.

Angola

BMA was incorporated on 3 April 2006, as a result of the transformation of the BCP branch in Angola into a bank incorporated under the laws of the Republic of Angola.

On 8 October 2015, the Bank announced it had signed a memorandum of understanding with the main shareholder of BPA for the merger of BMA with BPA. The public deed for the merger was executed on 22 April 2016. Following the merger, BCP owns 22.5% of the share capital of Banco Millennium Atlântico.

In the context of the BMA merger with BPA, BMA was considered a discontinued operation in March 2016. As of the completion of the merger in May 2016, the new merged entity in which the Bank maintains a 22.5% shareholding, Banco Millennium Atlântico, is consolidated using the equity method.

Banco Millennium Atlântico contribution to BCP Group earnings in 2018 was EUR 21.4 million which compares to EUR 0.1 million in 2017.

Macao

The Group's presence in Macao goes back to 1993, initially through an off shore license. In 2010, the Group began operating its first fully licensed (on shore) branch in Macao. This branch is directed at providing services to the Bank's network through support to individual and company customers, broadening the base of local customers and expanding the activity around the China-Macao-Portuguese speaking countries platform, focusing on the offer of investment banking services.

As at 31 December 2018, customer funds stood at EUR 531 million and gross loans reached EUR 411 million. In 2018, net income amounted to EUR 11.8 million.

¹⁴ Banking income or net operating revenues is the sum of net interest income, dividends from equity instruments, net commissions, net trading income, other net operating income and equity accounted earnings.

Switzerland

Millennium Banque Privée, incorporated in Switzerland in 2003, is a private banking platform that provides discretionary management services to individual customers of the Group with large assets, as well as financial advisory and orders execution services.

As at 31 December 2018, total customer funds amounted to EUR 2,906 million and loans to customers (gross) amounted to EUR 334 million. In 2018, net income stood at EUR 6.7 million.

Cayman Islands

Millennium bcp Bank & Trust, with head office in the Cayman Islands, holds a category "B" banking license, and provides international banking services to customers that are not resident in Portugal. The Cayman Islands are considered a cooperating jurisdiction by Banco de Portugal.

As at 31 December 2018, Bank & Trust's customer funds stood at EUR 23 million and Bank & Trust's gross loans reached EUR 14 million. In 2018, Bank & Trust's net income amounted to EUR 4.5 million.

Other

The Bank also has ten representative offices (one in the United Kingdom, one in Germany, three in Switzerland, two in Brazil, one in Venezuela, one in China in Canton and one in South Africa), and five commercial protocols (Canada, United States, Spain, France and Luxembourg).

International Partnerships

Ageas

In 2005, the Group and Fortis (currently, Ageas) established a joint venture for bancassurance business, through the insurance company Millennium bcp Fortis (currently, Millenniumbcp Ageas). The Group holds 49% of Millenniumbcp Ageas' share capital, while the remaining 51% is held by Ageas. In September 2005, Ageas increased its shareholding in the Bank to 4.99%. As a consequence of the two Bank share capital increases that took place in 2006, Ageas' shareholding in the Bank decreased to 4.94%. In September 2007, Ageas disposed of its qualifying holding in the share capital of the Bank.

On 26 May 2014, the Bank announced that, as part of a process aiming to refocus on core activities defined as a priority in its Strategic Plan, it had agreed with the international insurance group Ageas to partially recast the strategic partnership agreements entered into in 2004. These include the sale of its 49% interest in the (at that time jointly owned) insurance companies that operate exclusively in the non-life insurance business, i.e. Ocidental-Companhia Portuguesa de Seguros, S.A. and Médis - Companhia Portuguesa de Seguros de Saúde, S.A., for a base price of EUR 122.5 million, subject to a medium term performance adjustment. In 2013, the non-life activity posted gross inflows of EUR 251 million and a net profit of EUR 12 million.

On 28 July 2014, the Bank announced that Ageas, on behalf of itself and its subsidiary Ocidental-Companhia Portuguesa de Seguros de Vida, S.A. ("**Ocidental Vida**"), had acquired a qualifying holding in the share capital of the Bank. The qualifying holding was a result of Ageas and Ocidental Vida having subscribed, respectively, 280,490,558 and 408,855,693 ordinary shares in the rights issue launched by the Bank on 27 June 2014, pursuant to the subscription rights attributed to them considering their participation in the Bank prior to the rights issue (156,623,179 shares in case of Ageas and of 233,631,825 shares in case of Ocidental Vida).

Following the settlement of the rights issue, on 23 July 2014, and allotment of the oversubscription, on 24 July, the number of shares held by Ageas increased to 437,113,737 and the number of shares held by Ocidental Vida increased to 652,087,518, thus Ageas Insurance International Group (i.e. Ageas and Ocidental Vida) increased its participation to 1,089,201,255 shares that correspond to 2.01% of the issued share capital and of voting rights of BCP.

On 16 June 2015, the Bank announced that it had received an announcement from Ageas, issued on behalf of itself and Ocidental Vida, informing that Ageas Insurance International Group (i.e. Ageas and Ocidental Vida) holding in the share capital of the Bank had fallen below the 2% threshold of qualifying holding (1.84%). The dilution of the former qualifying holding is a result of BCP's exchange offer of some of its subordinated debt and preference shares for ordinary shares, causing the issuance of 4,844,313,860 new shares, which increased the total outstanding ordinary shares in BCP to 59,039,023,275.

Sonangol and BPA

Following the announcement made by the Bank on 8 October 2015, the Bank informed on 25 April 2016 that the public deed for the merger of Banco Millennium Angola, S.A. with Banco Privado Atlântico, S.A. had been executed.

Recent developments in 2018 and 2019

On 30 May 2018, the Bank concluded with 63.04% of the share capital represented, the Annual General Meeting of Shareholders, with the following resolutions:

Item One – Approval of the individual and consolidated annual report, balance sheet and financial statements of 2017;

Item Two – Approval of the proposal for the appropriation of profits from 2017;

Item Three – Approval of a vote of trust and praise addressed to the Board of Directors, including to the Executive Committee and to the Audit Committee and each one of their members, as well as to the Chartered Accountant and its representative;

Item Four – Approval of the remuneration policy of Members of Management and Supervision Bodies;

Item Five – Approval of the proposal to change the Retirement Regulations for Executive Directors of Banco Comercial Português, S.A. contemplating the possibility of attribution of a unique contribution for the purposes of retirement supplement of the members of the Executive Committee;

Item Six – Approval of the internal policy for the selection and evaluation of the adequacy of the members of the management and supervision bodies;

Item Seven – Regarding the articles of association, approval of: alteration of articles 10.º, 13.º, 15.º, 17.º, 25.º, 28.º, 29.º, 35.º, 36.º, 37.º and 38.º; addition of new articles 40.º to 45.º; renumbering of current articles 40.º and following, changing the current articles 40.º, 41.º and 48.º; and amendment of article 29.º, the entering into force of the latter being subject to the suspensive condition of approval by the European Central Bank;

Item Eight – Election of the Board of Directors for the term-of-office beginning in 2018, including the Audit Committee. The effects of this proposal are subject to obtaining from the European Central Bank the authorisation for the exercise of functions for the majority of the members of the Board of Directors, Audit Committee and Executive Committee.

Item Nine – Election of the Remuneration and Welfare Board for the term-of-office beginning in 2018;

Item Ten – Approval of the acquisition and sale of own shares and bonds.

On 23 July 2018, the Bank informed that, following the decision received from the European Central Bank, the Board of Directors elected on the Annual General Meeting of Shareholders held on 30 May 2018, started its term of office, on that date.

On 9 October 2018, the Bank informed that Standard & Poor's upgraded the Bank's long-term issuer credit rating to BB from BB- and affirmed its short-term counterparty credit rating at B. The outlook is stable. The Stand Alone Credit Profile (SACP) was also upgraded to bb from bb-. The resolution

counterparty ratings were upgraded to BBB- / A-3 from BB+/B. Standard & Poor's recognized BCP's progress in reducing the stock of NPEs and recovering profitability in Portugal.

On 16 October 2018, the Bank informed that Moody's upgraded by one-notch the Bank's long-term deposit and senior unsecured debt ratings to Ba3 from B1, reflecting, essentially, the upgrade of the Bank's BCA to b1 from b2 and an unchanged moderate government support for BCP. The Bank also informed that Moody's kept the positive outlook on BCP ratings. The upgrade of BCA reflected the Bank's improvement credit fundamentals demonstrated by: i) declining NPA ratio; ii) enhanced risk-absorption capacity; and iii) improving domestic bottom-line profitability, which is enhanced by the positive contribution from bank's international operations. Besides the deposits and senior unsecured rating the following ratings were also upgraded: Counterparty risk assessment upgraded from Ba1 (cr) to Baa3 (cr); Counterparty risk ratings upgraded from Ba2 to Ba1; Subordinated debt upgraded from B3 to B2; Subordinated MTN Program upgraded from (P)B3 to (P)B2; Preferred Stock non-cumulative upgraded from Caa2 (hyb) to Caa1 (hyb).

On 5 November 2018, the Bank concluded with 62.1% of the share capital represented, a General Meeting of Shareholders, with the following resolutions:

Item One – Approval of the alteration of the articles of association through the modification of number 2 of article 54 of the Bank's Articles of Association;

Item Two – Approval of reformulation of the items of own capital with the special purpose of unequivocally reinforcing the future conditions for the existence of funds able of being classified by the regulators as distributable by means of the reduction of the amount of the share capital in 875,738,053.72 Euros, without changing the existing number of shares (without nominal value) and without altering the net equity, with the consequent alteration of number 1 of article 4 of the articles of association.

On 5 November 2018, the Bank informed that its subsidiary Bank Millennium, in which it owns a 50.1% stake, announced, on that date, that it reached an agreement for the acquisition of a 99.79% stake in Eurobank from Société Générale Financial Services Holding, a subsidiary of Société Générale S.A., for an estimated total consideration of 1,833 million zlotys, a 1.20x Price/Book Value (final purchase price subject to customary Net Asset Value adjustment at closing), to be paid in cash and fully financed from internal sources of Bank Millennium.

The acquisition of Eurobank allows Bank Millennium to strengthen its position in the Polish banking sector. Furthermore, it will increase Bank Millennium's client base, allowing it to reach the top 6 in Polish banking sector by number of retail clients, as well as boosting Bank Millennium's geographic presence to smaller cities across Poland. It represents a profitable deployment of Bank Millennium's excess capital and liquidity. Bank Millennium's CET1 ratio is expected to stand at 15.9% after completion, comfortably above regulatory requirements.

The transaction is expected to close by the end of the second quarter of 2019, subject to regulatory approvals, and is estimated to be earnings accretive for the Bank on a consolidated basis from 2020, already including integration costs, with an approximate impact of -40 basis points on its consolidated CET1 ratio and of -30 basis points on its consolidated total capital ratio expected on the date of transaction.

On 5 November 2018, the Bank informed that the EBA has published, on that date, the results of the 2018 EU-wide stress test, which has involved a significant sample of banks in the European Union, with outcomes for 48 banks having been disclosed.

The EBA-led stress test was conducted in articulation with the ECB. Besides the coordination of the exercise, the EBA was responsible for running the exercise for the major banks in the Euro Area. ECB has conducted a parallel stress test for other banks under its supervision, including BCP.

The Bank's CET1 phased-in ratio stood at 9.14% under the adverse scenario, a 384 basis points aggravation from end-2017, comparing favourably to an average 410 basis points aggravation for the 48 banks tested by EBA (300 basis points aggravation, comparing to 395 basis points, respectively, under a fully implemented basis).

On 6 December 2018, the Bank informed that Fitch upgraded the Bank's long-term issuer credit rating to BB from BB-. The outlook is stable. The Viability Rating was upgraded to bb from bb-, reflecting the Bank's stronger fundamentals, driven by, in particular, improving operating profitability and the meaningful progress in reducing problem assets.

On 24 January 2019, the Bank informed that it has fixed, on that date, the terms of an issue of perpetual subordinated notes intended to be qualified as Additional Tier 1.

The Bank also informed that the issue, in the amount of €400 million and with no defined tenor, foresees a call option from the end of the fifth year and an interest rate of 9.25% per year during the first 5 years, and was settled on 31 January 2019.

The Bank also informed that the transaction was placed with a very diversified group of European institutional investors. The demand, which exceeded 160% of the amount of the issue, and the promptness with which the transaction was executed attested the Bank's capacity to successfully access the various segments of international capital markets.

Lastly, the issue, being the first Euro denominated Additional Tier 1 issue executed in the European capital markets in 2019, was part of the Bank's strategy for the reinforcement and diversification of its capital base and MREL eligible liabilities and for the strengthening of its presence in capital markets.

On 28 March 2019, the Bank informed that DBRS Ratings GmbH upgraded by one notch the long-term Deposits ratings. The long-term Deposits ratings have been positioned one notch above BCP's Intrinsic Assessment at BBB (low), the first level of investment grade. The Bank also informed that, concurrently, DBRS Ratings GmbH also upgraded the short-term Deposits ratings of BCP to R-2 (middle). The Trend remains positive. Lastly, this action reflected the introduction in Portugal of full depositor preference in bank insolvency and resolution proceedings with the implementation of Portuguese Law No. 23/2019 from March 14, 2019. This Law also introduced a new class of debt, the Senior Non-Preferred Debt that will rank below preferential Senior debt, but above Subordinated Debt.

On 1 April 2019, the Bank informed that Moody's improved, among others, the Bank's long-term senior debt rating to Ba2 from Ba3, reflecting, essentially, the improvement of BCP's credit profile, following a significant reduction of problematic assets and the improvement of the domestic profitability metrics, as well as Moody's expectation that the Bank's financial fundamentals will continue to improve gradually in 2019.

On 23 April 2019, the Bank informed that its Board of Directors, at a meeting held that day, approved:

- To request the Chairman of the Board of the General Meeting to convene the Annual General Meeting on May 22, at 2:30 p.m., at the premises of BCP, at TagusPark, in Oeiras;
- Based on the consolidated results for the year 2018, publicly disclosed on 21 February 2019, to propose to the Annual General Meeting the distribution of a €0.002 dividend per share, and the distribution of results amounting to €12,587,009.00 to Employees, pursuant to the process of compensation for the reduction of wages agreed under the Collective Labour Agreement, as published on 29 March 2014, in the Bulletin of Labour and Employment no. 12;
- The co-optation of Mr. Fernando Costa Lima as non-executive Director and member of the Audit Committee, thus filling the vacancy in the Board of Directors, proposing to the General Meeting the ratification of such co-optation.

The Bank also informed that the call notice of the Annual General Meeting, with the agenda thereon and other proposals of the Board of Directors would be disclosed in due time in compliance with the legally established deadline.

On 29 April 2019, the Bank published the Annual General Meeting call notice, that shall address the following agenda:

Item One – To resolve upon the individual and consolidated annual report, balance sheet and financial statements of 2018, including the Corporate Governance Report;

Item Two – To resolve upon the proposal for the appropriation of profits for the 2018 financial year;

Item Three – To carry out a generic appraisal of the management and supervision of the company;

Item Four – To resolve upon the remuneration policy of Members of Management and Supervision Bodies;

Item Five – To resolve upon the alteration of the articles of association, giving a new wording to paragraph c) of article 14 and to nr. 1 of article 10, adding two new numbers 2 and 3 to article 10 with the consequent renumbering of current nrs. 2 and 3;

Item Six – To resolve upon the co-optation of one Director for the exercise of functions in the term-of-office ending in 2021, filling in a member vacancy in the Audit Committee;

Item Seven – To resolve upon the appointment of Chairperson of the Audit Committee to exercise functions during the term-of-office ending in 2021;

Item Eight – To resolve upon the election of a member for the Remunerations and Welfare Board, filling in an existing vacancy in this corporate body;

Item Nine – To resolve upon the election of the Single Auditor and his/her alternate;

Item Ten – To resolve upon the selection of the External Auditor; and

Item Eleven – To resolve upon the acquisition and sale of own shares and bonds.

The Annual General Meeting is scheduled to be held on 22 May 2019.

Principal Markets and Competition

The Portuguese banking market has become well-developed, including both strong domestic and foreign competitors. These competitors follow a multi-product, multi-channel and multi-client segmented approach, offering a broad range of services from retail products to investment banking coupled with sophisticated payment capability. Foreign banks are present in the Portuguese market, in areas such as corporate banking, asset management, private banking and brokerage services, as well as universal banking services, namely traditional retail banking.

Domestic banking penetration levels rank favourably on a comparable basis and branch network and automated channels are widely disseminated across the country. There has been significant development of remote access to banking services (ATM, home banking, and mobile banking) together with market intelligence techniques enabling banks to accurately track customers' requirements and augment customer proximity. Cross-selling has benefited from the use of such techniques and has increased the proportion of banks' non-interest income over the years.

The Portuguese banking sector will face the potential entry of new and disruptive players benefiting from the PSD2 environment. This is happening against a backdrop of progressive change towards a new digital age in which consumers' behaviour and expectations are evolving. Current trends point to an accelerated mobile / digital banking adoption and customers demanding personalization. Also, security and trust have

reinforced the importance of digitalisation given cyber-risk concerns and cases of misselling. Advances in the ability to deploy technologies (e.g., robotics, machine learning) and the expanded capabilities these enable are setting new ways of working, requiring new skills.

The deregulation and liberalisation process experienced by the Portuguese banking sector, including Eurozone participation, catalysed an increase in business and competition, particularly in the credit market. Customer loans and advances increased significantly in advance of the implementation of the euro and during the early years of economic convergence and integration within the single currency project (Source: Banco de Portugal).

At the same time, the Portuguese banking system experienced a consolidation, which was driven by the need to achieve economies of scale and operating synergies. More recently, against the background of the financial instability beginning in the summer of 2007 and the subsequent euro periphery crisis, deleveraging and strategic repositioning took place. Some foreigner players reappraised their presence and business models and networks developed in Portugal. More recently, major banks in the Portuguese banking system have rationalised their operating structures.

The Portuguese banking market is concentrated with the biggest five banks representing 80% of the market share in terms of business volumes. The Bank is the largest private sector bank in Portugal in terms of business volumes (market share of 18% by gross loans + customer funds), generates 30% of the system core net income and is the most efficient bank in Portugal with only 13% of the system branch network.

The growing maturity of the domestic market and globalisation trends led domestic banks to further develop their operations abroad, namely in countries with which Portugal had strong economic and historical relations. Hence, currently, the biggest domestic banking groups manage operations in European and African countries, which bear an increasing strategic relevance for their businesses.

The Portuguese Competition Authority ensures compliance with Portuguese competition rules, asserting regulatory powers over competition in all sectors of the economy, including regulated sectors in coordination with the relevant sector regulators. Banco de Portugal is responsible for the prudential and market conduct supervision, ensuring the stability of the financial system as well as compliance with rules of conduct and transparency for banks' customers. As the national supervisory authority, Banco de Portugal is part of the Single Supervisory Mechanism, the European banking supervision system, entrusted with the safety and robustness of European banks. National competition authorities and the EC have parallel competencies for enforcing European antitrust laws in close co-operation.

In Portugal, the Bank competes primarily with the four other major Portuguese banking groups: Caixa Geral de Depósitos, Banco Santander Totta, CaixaBank/BPI and Novo Banco. BCP's extensive distribution network, which is the second largest, has enabled it to maintain a reference position among its competitors. According to system data from Banco de Portugal, as at 30 November 2018, BCP had a market share of 17.4% of loans to customers (gross) and 17.5% of deposits in its domestic market.

As at the end of 2018, 336 credit institutions, financial companies and payment institutions were registered in Portugal, of which 140 were banks (Source: Banco de Portugal). Financial institutions with head offices in the European Economic Area providing cross-border services amounted to 912, as at the end of 2018 (according to the last data available from Banco de Portugal). Common indicators do not indicate levels of concentration significantly divergent from those of the Eurozone. For instance, as of 2017, the total asset share of the five largest credit institutions represented 73% for Portugal, which is above Germany's 30% but below Greece with 97%, Estonia with 90%, Lithuania with 90%, the Netherlands and Cyprus with 84% Malta with 81% and Slovakia with 75% and Croatia with 73% and (for the EU28 it was 62% and for the euro area it was 64%) (Source: European Central Bank).

The following table shows the development of the percentage of the Bank's market share in Portugal in terms of loans to customers as at 30 November 2018 (last available data) and as at 31 December 2017 and 2016:

	<u>As at 30 November 2018</u>	<u>As at 31 December</u>	
		<u>2017</u>	<u>2016</u>
Loans to customers	17.4%	17.4%	17.8%

⁽¹⁾ Banks associated with the Portuguese Banking Association.

The Bank is also subject to strong competition in the international markets in which it operates.

The banking sector in Poland is characterised by a relatively low concentration sustaining strong competitive pressure. However, significant opportunities have led to increased competition in recent years, driven by privatisation and consolidation initiatives. In addition, in Poland, European Union integration has created strong incentives for the cross-border provision of financial services and for cross-border mergers, which have resulted in significantly increased competition from foreign banks. As at December 2018, Bank Millennium's market share in Poland, according to the Bank's estimates derived from data published by the National Bank of Poland, was 4.6% of loans to customers (gross) and 5.3% of deposits.

In Mozambique, Millennium bim is the market leader with a market share of 22.7% of loans to customers and 26.1% of deposits in December 2018, according to the Bank of Mozambique. Currently, 19 banks operate in Mozambique and management expects increasing competition from foreign banks, particularly those based in South Africa and Portugal (Source: Bank of Mozambique).

Banco Millennium Angola merged with Banco Privado Atlântico, resulting in the second-largest private sector bank in terms of loans to the economy, with a market share of approximately 10% by business volume: market share above 11% in terms of loans and above 12% in terms of deposits (Source: Bank of Angola).

Trends Information

Despite the acceleration of the economic recovery in Portugal, the stabilisation of the banking industry and the decrease in public and private indebtedness, Portuguese banks continued to operate in a challenging environment in 2018. Banks are operating within a context of very low interest rates, exercising pressure on the net interest income. Moreover, Portuguese Banks still have a significant number of non-interest bearing assets in their balance sheets. In addition, the context is marked by fast technological evolution and, pursuant to the Payment Services Directive 2 (“PSD2”), by the competition from new players in the market (Fintechs). There are also new regulatory requirements, namely, as a result of the adoption of IFRS16¹⁵ as of January 2019.

Banco de Portugal's forecasts for the Portuguese economy, from 2018 to 2021, point towards the slowdown of the recovery of economic activity, converging to the expected growth domestic product (“GDP”) growth for the Euro Area. GDP is expected to have grown, on average, 2.1% in 2018, 1.8% in 2019, 1.7% in 2020 and 1.6% in 2021, after having grown 2.8% in 2017. It is expected that the contribution provided by net exports will gradually decrease its importance in GDP's growth between 2018 and 2021. According to the projections by the Ministry of Finance, the public deficit should decrease to 0.5% of the GDP in 2018, the lowest ever since Portugal joined the Euro Area. A surplus is expected as soon as 2020.

The four rating agencies that rate the Portuguese Republic upgraded their ratings (two in 2017 and two in 2018). At the end of October 2018, four rating agencies assigned an investment grade rating to the Portuguese Republic, which translated, together with the improvement of the market's perception of the Portuguese Republic, into a sharp decrease in sovereign risk premiums and bank premiums.

In accordance with Banco de Portugal, Portuguese banks resort to the European Central Bank (“ECB”) in the amount of EUR 18.9 billion at the end of December 2018. These figures are consistent with the downwards trend in place since the second half of 2013. These figures show an improvement in the liquidity position of the domestic banks which has benefited from the resilient performance of deposits, namely from individuals (+3.8% year-on-year at December 2018, with demand deposits up 15.9% and term deposits up 3.8%, also year-on-year).

Moreover, the deleveraging of the Portuguese financial sector continues and the total loans to individuals increased 0.1% and loans to companies decreased 0.3%, year-on-year, respectively, in December 2018. The loans-to-deposits ratio of the banking sector in Portugal stood at 87% at the end of December 2018 versus 128% at the end of 2012 and 158% at the end of 2010.

The loans granted by BCP continued to decrease but reflects two different dynamics: the non-performing exposures (“NPE”) portfolio decreased by EUR 2.1 billion in December 2018, year-on-year, and the performing portfolio increased by EUR 2.2 billion (in Portugal: NPE portfolio decreased by EUR 2.0 billion and performing portfolio increased by EUR 1.1 billion). At the same time, deposits also continued to grow: +4.6% year-on-year, in Portugal, in December 2018. As BCP has excess liquidity (loans-to-deposits ratio stood at 87% in December 2018), it decided to reduce its use of funding from the ECB to EUR 2.7 billion in December 2018. In the first quarter of 2019, these trends will remain in place with the Bank now focused on growing volumes but with the performing portfolio growth being compensated by the NPE reduction. As a result loans-to-deposits ratio will remain below 100% and ECB funding will remain below EUR 4 billion.

¹⁵ IFRS: International Financial Reporting Standards as adopted by the European Union.

At the end of December 2018, BCP was the largest Portuguese private sector bank, with a robust asset structure, a fully implemented CET1 ratio of 12.0%, above regulatory requirements (SREP) and a loans-to-deposits ratio of 87%.

The low level of interest rates is contributing to decrease the spread on term deposits of the Portuguese banks, a trend which continued, albeit at a slower pace, in 2018, more than offsetting the lower spreads in credit. The rates of the term deposits reached, by the end of December 2018, values around 15 basis points, and the portfolio's average rate should converge to these levels over the course of 2019.

The price effect on the net interest income should continue to be globally positive, translating the improvement of the net interest income on operations with customers (differential between the loans average rate and the average rate at which the banks remunerate the deposits). The profitability of the Portuguese banks is expected to continue to be constrained by the prospects of continuation of a low short term interest rates environment.

Several institutions should continue to apply restructuring plans, to increase operating efficiency and the adjustment of business models, which translates into the decrease in the number of branches and employees and in the release of capital allocated to non-core activities. Profitability in the banking industry is still affected by a high NPE stock.

BCP Group has a relevant exposure to Poland where there are risks due to legislative amendments with impact on the Polish financial system, including the ones related to the issue of the conversion of the credits into Swiss francs in Poland. It is worth mentioning that Bank Millennium has been reducing its foreign currency mortgage loans portfolio on average circa of 8% per year and that currently it represents only 27% of the total loans portfolio in Poland.

There are still some risks related to the economic environment experienced by some African countries, with potential impact on the Group, namely Angola and Mozambique, whose economic activity is decelerating, with high inflation and faced a significant depreciation of their currencies in 2017. In Mozambique the situation should improve once an agreement with the International Monetary Fund is reached.

There is great focus on the management of the stock of problematic assets and respective coverage levels by loan loss reserves (“**LLRs**”). BCP has presented a new Strategic Plan (Mobilizing Millennium: 2021 Ambitions and Strategic Plan) which includes a new target of NPEs reduction: 45% reduction of NPE stock from 2018, reaching approximately EUR 3 billion by 2021.

It is not yet possible to determine what will be the final impact of the resolution of Banco Espírito Santo, S.A. (“**BES**”) on BCP as an institution participating in the resolution fund created by Decree-Law no. 31-A/2012, of 10 February (the “**Resolution Fund**”). On 28 March 2018, following the disclosure of the 2017 annual results by Novo Banco, S.A. (“**Novo Banco**”), the Resolution Fund made a communication on the activation of the contingent capitalisation mechanism established in the agreements entered into in connection with the sale of Novo Banco (“**CCA**”) totalling EUR 792 million.

On 24 May 2018, the Resolution Fund communicated having disbursed to Novo Banco the abovementioned funds, of which EUR 430 million were from a loan from the Portuguese State and the remaining amount were from the Resolution Fund’s own resources.

In its 2018 annual results press release, Novo Banco states that in connection with the impact of losses related to the sale and write-downs of legacy assets, Novo Banco will request a compensation of EUR 1,149 million under the existing CCA. 69% of this amount results from the losses incurred on the assets included in the CCA and 31% due to regulatory requirements for capital increase in the adjustment of the transitional period of capital ratios and to the impact of IFRS 9. For 2017 and 2018, Novo Banco will have received a total of Euros 1.9 billion out of the maximum of Euros 3.89 billion defined under the CCA.

On 1 March 2019, the Resolution Fund stated that the amount to be paid by the Resolution Fund in 2019 to Novo Banco under the CCA will be carried out after the legal certification of Novo Banco's accounts and following a verification procedure by an independent entity, to ascertain that the amount to be paid by the Fund has been correctly accounted for.

The Bank has been notified by the Banco de Portugal on the Single Resolution Board's decision regarding the MREL requirement for the resolution group headed by the Bank, at a sub-consolidated level, which includes the operations based in Portugal, Switzerland and Cayman, and excludes the operations based in Mozambique and Poland (the "**Resolution Group**").

The MREL requirement has been set at 26.61% of its risk-weighted assets for the Resolution Group based on the data of 30 June 2017. Moreover, the Bank has been informed that the MREL requirement needs to be met by 1 July 2022.

This is fully aligned with the Bank's expectations and generally consistent with the funding projections already included in the Bank's strategic Plan for the period 2018-2021, which underpins the medium term performance targets disclosed to the market with the results announcement for 2018. Nevertheless, it must be noted that the MREL requirement may be adjusted in the future by the competent authorities, to reflect their assessment of the underlying risks, business evolution or changes in the profile of the Bank's assets and liabilities.

Summary of the developments between 2011 and 2018 of some relevant indicators of the Bank¹⁶

The Bank has successfully executed an operational turnaround, reinforcing its financial and capital position despite adverse market conditions in the Portuguese banking sector. This position is reflected by multiple achievements, such as the reduction of the commercial gap from EUR 20.5 billion at 31 December 2011 to EUR -7.1 billion at 31 December 2018, following a significant deleveraging (net loans decreased by 30% and deposits increased by 16%), a recovery of net interest income in Portugal from EUR 343 million to EUR 808 million in 2017 and EUR 803 million in 2018, a reduction of operating costs from EUR 853 million in 2013 to EUR 588 million in 2017 and EUR 641 million in 2018 and a reduction of cost of risk from 157 bp in 2013 to 105 in 2018. Pre-provision profit¹⁷ increased from EUR 474 million in 2013 to EUR 1,243 million in 2017 and EUR 1,159 million in 2018. As a percentage of assets pre-provision profit increased from 0.6% in 2013 to 1.7% in 2017 and 1.5% in 2018. As a result of the significant deleveraging, reliance on ECB funding has decreased from EUR 10 billion in 2013 to EUR 2.7 billion as at 31 December 2018.

The Balance sheet breakdown as at 31 December 2018 is, on the assets side: loans and advances to customers (including debt securities and commercial paper) in the amount of EUR 51.0 billion (EUR 48.4 billion recorded in "Loans and advances to customers"; EUR 2.3 billion recorded in "Debt securities held associated with credit operations" and EUR 0.291 billion recorded in "Financial assets not held for trading mandatorily at fair value through profit or loss - Loans and advances to customers at fair value"), securities portfolio (including financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income and debt securities held not associated with credit operations) in the amount of EUR 16.3 billion and other assets net in the amount of EUR 5.3 billion; and on the liabilities side: deposits in the amount of EUR 55.2 billion (this includes deposits from customers included in the financial liabilities designated at fair value through profit or loss), money market net (the difference between

¹⁶ In this section, the terms listed below shall have the following meaning:

"**Net loans**" means loans to customers at amortised cost net of impairment, debt instruments at amortised cost associated to credit operations net of impairment and balance sheet amount of loans to customers at fair value through profit or loss;

"**Commercial gap**" means loans to customers (gross) minus on-balance sheet customer funds;

"**Net Interest Margin**" means net interest income for the period as a percentage of average interest earning assets;

"**Cost of time deposits**" means spread on term deposits book minus 3m Euribor;

"**Total funding costs**" means interest expenses divided by interest bearing liabilities;

"**Performing loans**" means loans to customers (gross) minus the stock of non-performing exposures.

¹⁷ "**Pre-provision profit**" means net interest income, dividends from equity instruments, net commissions, net trading income, other net operating income and equity accounted earnings minus operating costs.

resources from credit institutions and cash and deposits at central banks, loans to credit institutions and loan agreements) in the amount of EUR 2.0 billion, debt issued by the Bank in the amount of EUR 3.7¹⁸ billion and shareholders' equity in the amount of EUR 7.0 billion. The Balance sheet breakdown as at 31 December 2011, is on the assets side: loans and advances to customers in the amount of EUR 68.0 billion, securities in the amount of EUR 12.1 billion and other assets net in the amount of EUR 3.2 billion; and on the liabilities side: deposits in the amount of EUR 47.5 billion, money market net in the amount of EUR 12.9 billion, debt issued by the Bank in the amount of EUR 18.5 billion and shareholders' equity in the amount of EUR 4.4 billion.

The breakdown by instrument of the outstanding amounts of the debt issued by the Bank as at 31 December 2018 (EUR 3.7¹⁹ billion) is as follows (which are recorded in the captions "Financial liabilities at amortised cost – non subordinated debt securities issued", "Financial liabilities at amortised cost – subordinated debt" and "Financial liabilities at fair value through profit or loss"): MTN (EUR 0.4 billion), Bonds and Certificates (EUR 1.0 billion), Covered Bonds (EUR 1.0 billion), Securitizations (EUR 0.3 billion), Subordinated debt (Euros 1.1 billion) and Loan agreements (EUR 1.8 billion). As at 31 December 2011, the breakdown by instrument of the outstanding amounts of the debt issued by the Bank (EUR 18.5 billion) was as follows: MTN (EUR 7.6 billion), Bonds and Certificates (EUR 4.1 billion), Covered Bonds (EUR 3.3 billion), Securitizations (EUR 1.2 billion), Subordinated debt (EUR 1.1 billion) and Loan agreements (EUR 1.2 billion).

The amount of the debt outstanding repaid from 2011-2016 was on average EUR 2.3 billion per year, the same amount as in 2017 (EUR 2.3 billion of debt repaid). In 2018 the amount of debt repayments totalled EUR 0.7 billion. The amounts of debt to be repaid are EUR 0.4 billion in 2019 and EUR 5.2 in the years after 2019. Future debt repayments (medium-long term) are significantly lower than in the past.

The securities portfolio totalled EUR 12.1 billion as at December 2011 of which EUR 7.3 billion is sovereign debt (Portuguese Government Bonds totalled EUR 4.7 billion of which EUR 3.0 billion are Bonds and EUR 1.7 billion are T-Bills, Polish Government Bonds totalled EUR 0.8 billion; Mozambican Government Bonds totalled EUR 0.3 billion and other totalled EUR 1.5 billion) and EUR 4.8 billion other instruments. The securities portfolio totalled EUR 16.3 billion as at 31 December 2018 of which EUR 13.1 billion is sovereign debt (Portuguese Government Bonds totalled EUR 6.6 billion of which EUR 5.8 billion are Bonds and EUR 0.9 billion are T-Bills, Polish Government Bonds totalled EUR 4.9 billion; Mozambican Government Bonds totalled EUR 0.7 billion and other totalled EUR 0.9 billion) and EUR 3.2 billion other instruments.

Organisational Structure

The Bank and the Group

The following diagram summarises the organisational structure of the principal subsidiaries of the Group as at 31 December 2018:

* Consolidated by the equity method.

In addition, the Bank's subsidiary, Millennium bcp – Prestação de Serviços ACE represents its associates regarding third parties, namely in the areas of IT, operational, administrative and procurement. The Bank is, directly or indirectly, the ultimate holding company of all the companies in the Group and is not dependent upon other entities within the Group. However, being the ultimate holding company of the Group, the activities developed by the other members of the Group have an impact on the Bank.

Ownership and Control

The Bank is not aware of any shareholder or group of connected shareholders who directly or indirectly control the Bank.

Significant Subsidiaries

The following is a list of the main subsidiaries of the Bank as of 31 December 2018:

<i>Subsidiary companies</i>	<i>Head Office</i>	<i>Activity</i>	<i>% held by the Group</i>	<i>% held by the Bank</i>

General information

So far as the Bank is aware, there are no arrangements in place, the operation of which may result in a change of control of the Bank.

The Bank has made no material investments since the date of the last published financial statements and the Bank has not made relevant firm commitments on future investments.

There have been no recent events particular to the Bank, which are to a material extent relevant to the evaluation of the Bank's solvency.

Share Capital

The authorised, issued and fully paid up share capital of the Bank is EUR 4,725,000,000.00 divided into 15,113,989,952 shares with no nominal value. The shares are ordinary, issued in a dematerialised book-entry form (*escriturais*) and *nominativas*, and are integrated in a centralised system recognised under the Portuguese Securities Code (Central de Valores Mobiliários) managed by Interbolsa – Sociedade Gestora de Sistemas de Liquidação e de Sistemas Centralizados de Valores Mobiliários, S.A., with its registered office at Avenida da Boavista, 3433, 4100 -138 Oporto.

Legislation regulating the activity of the Bank

The Bank is governed by European Union rules, banking and commercial Portuguese laws on limited liability companies (*sociedades anónimas*) – notably by the Portuguese Companies Code – and, in particular, by the Banking Law, by the Portuguese Securities Code (*Código dos Valores Mobiliários*) and other complementary legislation.

In general terms, the Bank's activity as a credit institution is subject to the supervision of Banco de Portugal, to the supervision of the Portuguese Securities Market Commission (*Comissão do Mercado de Valores Mobiliários*) as an issuer and a financial intermediary and to the supervision of the Portuguese Insurance and Pension Funds Supervisory Authority (*Autoridade de Supervisão de Seguros e Fundos de Pensões (ASF)*) as the tied insurance intermediary.

Recent developments on the banking regulation

Regulatory and capital requirements

Capital requirements

Basel III and CRD IV/CRR: On 12 September 2010, the Basel Committee on Banking Supervision (“BCBS”) announced a new capital agreement on banking supervision known as Basel III, which revises most of the capital and liquidity minimum requirements. The Basel III framework sets out enhanced standards to strengthen financial institutions' capital base, improve risk management and governance, and increase transparency for market participants. It builds on the 'Basel II' three-pillar architecture, according to which: (i) Pillar 1 (minimum prudential requirements) sets the binding minimum level of capital banks and investment firms need to face major risks; (ii) Pillar 2 (supervisory review) allows supervisors to evaluate institution-specific risks and impose additional capital charges to face them; (iii) Pillar 3 (market discipline) aims to increase transparency in banks' financial reporting allowing marketplace participants to better reward well-managed banks.

Implementation of the Basel III framework in the European Union began in 2013 and is to be gradually phased in up to 2019. In 2013, the European Union adopted the 'CRD IV package', the third set of amendments to the original Capital Requirements Directive (CRD) recast in 2006, following two earlier sets of revisions adopted in 2009 (CRD II) and 2010 (CRD III). The CRD IV package is comprised of a directive (CRD IV) governing the access to banking activity, and a regulation (CRR) establishing how to calculate the amount of capital that banks and investment firms must set aside; it also lays down requirements on reporting and liquidity.

This agreement has more demanding requirements for capital which will gradually be introduced over a transition period to ease the impact on the international financial system. In addition to the minimum capital requirement for CET 1 capital of 4.5% of RWA as of 1 January 2014, of 6% for Tier 1 capital ratio and the total capital ratio of 8.0% the following requirements were introduced:

- (i) an additional capital conservation ratio requirement of 2.5% over common equity, with a progressive implementation from 2016 to 2019;
- (ii) a countercyclical capital buffer, which will be between 0.0% and 2.5% of RWA with the ability to absorb losses as a function of the credit cycle subject to its application by national supervisory authorities;
- (iii) a systemic risk buffer and a buffer for other systemically important institution; and
- (iv) the leverage ratio of 3.0%, yet still subject to some adjustments and thus not yet implemented.

On 1 January 2014, the adoption of CRD IV/CRR was complemented by the entering into force of the Notice 6/2013 of Banco de Portugal, which established how the transitional provisions of the CRR would apply to minimum capital requirements and the respective calculation. Notice 6/2013 of Banco de Portugal has been revoked by Notice 10/2017 of Banco de Portugal, which regulates the prudential treatment of qualified holdings outside the financial sector when certain limits are exceeded, the percentage applicable for the purposes of calculation of the liquidity outflows corresponding to stable retail deposits, as well as the percentages applicable for the purposes of calculating the deduction from CET 1 capital for deferred tax assets, existing before 1 January 2014, that rely on future profitability.

In May 2014, Banco de Portugal issued a series of recommendations with respect to banks' capital plans, in order to ensure an adequate transition to the full implementation of CRD IV/CRR and prepare major Portuguese banks for the ECB's comprehensive assessment exercise of the banking system.

On 23 November 2014, Decree-Law No. 157/2014, of 24 October 2014 (“**Decree-Law No. 157/2014**”), entered into force, amending the Banking Law, and implementing CRD IV and CRR at domestic level.

On 23 November 2016, the European Commission presented a comprehensive package of reforms to further strengthen the resilience of EU banks (the "**EU Banking Reforms**") which proposals amend many of the existing provisions set forth in CRD IV and the BRRD (as defined below) and in the Single Resolution Mechanism Regulation. On 25 May 2018, the Council of the EU agreed its stance on the EU Banking Reforms and asked the presidency to start negotiations with the European Parliament. The European Parliament confirmed its position on the EU Banking Reforms at its June 2018 plenary. The European Parliament and Council of the EU reached agreement on the main elements of the EU Banking Reforms in late 2018, which were endorsed by the Committee of Permanent Representatives ("**COREPER**") on 30 November 2018 and approved by the Economic and Financial Affairs Council on 4 December 2018. In February 2019, COREPER endorsed the positions agreed with the European Parliament on all elements of the EU Banking Reforms. The agreed text was adopted by the European Parliament on 16 April 2019. COREPER approved the EU Banking Reforms on 7 May 2019 and it is expected that the Council of the EU will formally approve the EU Banking Reforms on 14 May 2019.

The CRD-V package amendments contain three groups of provisions, covering capital and liquidity requirements, aspects of proportionality, and the EU's resolution framework.

The European Parliament, the Council and the EC agreed in October 2017 on some elements of the review of the CRD-V package, namely creation of a new category of unsecured debt in bank creditors' insolvency ranking, on the implementation of the IFRS 9 and on rules limiting large exposures to a single counterparty. On 1 January 2018, Regulation (EU) 2017/2395 of the European Parliament and of the Council, of 12 December 2017, entered into force, amending the CRR as regards transitional arrangements for mitigating the impact of the introduction of IFRS 9 on own funds and for the large exposures treatment of certain public sector exposures denominated in the domestic currency of any Member State. The remaining matters of the ongoing CRD IV/CRR revision are subject to final agreement by the European Union authorities.

In December 2017, the Basel Committee published revisions to the Basel III framework, the so-called "finalization of Basel III reforms", which main objective is to reduce excessive variability of RWA. The agreed reforms address the following topics:

- (i) Improvement of the standardised approaches for credit risk;
- (ii) Constraints to the use of internal models: banks may, for example, for their exposures to large and mid-sized corporates no longer use own estimates for two parameters (the loss-given-default and exposure at default) but rather use fixed values instead. Moreover, after the reform, internal ratings-based approaches will no longer be allowed for exposures to equities;
- (iii) Improvement of the operational risk framework: current approaches are replaced with a single risk-sensitive standardised approach to be used by all banks; internal models will no longer be allowed to address losses that stem from misconduct, inadequate systems and controls, *etc.*;
- (iv) Introduction of a leverage ratio buffer for G-SIIs; and
- (v) Introduction of a different output floor set at 72.5% introducing a limit to the regulatory capital benefits that a bank using internal models can derive compared to the standardised approaches.

The revised standardised approach, internal models, operational risk framework, and leverage ratio for G-SIIs shall all become applicable as of 1 January 2022. The output floor will be phased-in and will only become fully effective as of January 2027 (2022: 50%, 2023: 55%, 2024: 60%, 2025: 65%, 2026: 70% and 2027: 72.5%). However, in addition, supervisors may at national discretion cap the increase in a bank's total RWA that results from the application of the output floor during its phase-in period.

The implementation of the BCBS 2017's agreement in the EU will require amendments to existing European Union legislation, predominantly to CRR.

CRD IV empowers the European Banking Authority to draw up regulatory technical standards that specify some of the aspects covered by the amended diplomas. Upon the respective adoption by the EC these norms are directly applicable under Portuguese law. Guidelines are subject to their adoption by the Competent Authority.

Under the guidance of the Single Supervisory Mechanism (SSM), the conclusions of the supervisory review take the form of prudential requirements (Pillar 2) being set to be held in excess of the minimum capital requirements (Pillar 1). Banks are required to maintain a total capital requirement that includes CET 1 instruments and other capital instruments and are also subject to the overall capital requirement that also includes the combined own funds buffer requirement.

As at 31 December 2018, the Bank's fully implemented CET 1 ratio was 12.0%. Starting from the "Total Equity attributable to the Banks shareholders" (EUR 5,780 million), deducting EUR 665 million of DTAs, EUR 125 million of EL gap and summing EUR 34 of other items one reaches to the CET1 which as at 31 December 2018 stood at EUR 5,024 million.

The capital ratio has increased from 6.4% at the end of December 2009 to 9.3% at the end of December 2011 (both figures refer to the CT1 ratio calculated according to the definition of Banco de Portugal) and to 11.1% at the end of December 2016, 11.9% at the end of December 2017 and 12.0% at the end of December 2018 (these three figures refer to CET1 fully implemented ratio, calculated according to CRDIV/CRR).

Capital buffers: The criteria for maintenance by credit institutions and certain investment companies of additional own funds' buffers include:

- (a) a capital conservation buffer;
- (b) the institution's specific countercyclical capital buffer;
- (c) the systemic risk buffer, also referred to as SII buffer; and
- (d) an O-SII buffer (for other systemically important institutions at a national level).

The combined buffer requirement with which each institution is required to comply corresponds to the sum of the capital conservation buffer, the institution-specific countercyclical capital buffer, and the higher of the O-SII buffer and the systemic risk buffer (except where the latter only applies to risk exposures in the Member State which activated the measure, in which case it is additive).

These measures have the objective of safeguarding financial stability, by strengthening the resilience of the financial sector and preventing systemic risk. The set of instruments and intermediate objectives will be revised and adjusted by the competent authorities where necessary to better safeguard financial stability. In addition, other macroprudential policy instruments may be activated if deemed necessary. Failure to comply with these buffers implies restrictions on distributions relating to CET 1 own funds as well as an obligation to submit to the competent authorities a capital conservation plan within 5 Business Days of the breach.

Capital conservation buffer: The new regulatory framework provides that the capital conservation buffer requirement, which aims to accommodate losses from a potential adverse scenario, can be gradually implemented from 1 January 2016 onwards. However, the national macroprudential authority may impose a shorter transitional period or even frontload the total buffer. The Bank has a requirement (at an individual and consolidated level) to maintain a minimum CET 1 capital buffer of 2.5% from 2019 onwards, as provided in Article 23 of Decree-Law No. 157/2014.

Countercyclical buffer: The countercyclical capital buffer is one of the main macroprudential instruments introduced by the new regulatory framework, aiming to improve the banking system's resilience to periods of excessive credit growth. The establishment of variable capital requirements over the cycle is expected to contribute to mitigating the pro-cyclicality of banks' credit policies. The following apply to this buffer:

- (i) the rate will be set between 0% and 2.5% of the total risk exposure amount;
- (ii) the rate is calibrated in steps of 0.25 percentage points or multiples of 0.25 percentage points; and
- (iii) in exceptional cases, the rate may be set at a level above 2.5%.

The buffer rate for each institution, known as the “institution-specific countercyclical buffer rate”, is a weighted average of the countercyclical buffer rates that apply in the countries where the credit exposures of that institution are located. This requirement is met with CET 1 capital. Under the SSM, the ECB can propose higher minimum capital requirements than the ones defined by the national authorities. This capital buffer will apply to all credit risk exposures, whose counterpart is the Portuguese private non-financial sector, of credit institutions and investment firms subject to the supervision of Banco de Portugal or the ECB (SSM), as applicable.

The countercyclical buffer rate for credit exposures to the domestic counterparties (Portugal) will remain at zero per cent of the total risk exposure amount in effect since 1 January 2019. This decision is reviewed on a quarterly basis by Banco de Portugal, the next decision to be taken by 31 March 2019. As at 31 December 2018 the weighted average of the countercyclical buffer rates that apply in the countries where the Bank is located was also zero per cent.

Systemic risk buffer: In order to calculate the systemic risk buffer, Banco de Portugal categorises institutions as O-SIIs or G-SIIs. Banco de Portugal can also impose a systemic risk buffer of CET 1 capital on an individual, sub-consolidated or consolidated basis of at least 1% of the risk exposure to which such buffer is applicable, to prevent or reduce the long-term non-cyclic systemic or macroprudential risks that present a risk of disruption in the financial system and the Portuguese economy.

On 29 July 2016, Banco de Portugal decided to apply a two-year phase-in regime of the other O-SII buffer. On December 2017, Banco de Portugal kept unchanged both the methodology and the O-SII capital buffer levels, but decided to extend the phase-in period – the initial two-year period was converted into a four-year period:

- (i) The timeline for the phase-in of the O-SII buffer is 25% as of 1 January 2018, 50% as of 1 January 2019, 75% as of 1 January 2020 and 100% as of 1 January 2021;
- (ii) These buffers shall consist of CET 1 capital on a consolidated basis;
- (iii) These buffers apply from 1 January 2018; and
- (iv) The O-SII buffer rates range from 0.25% to 1% of the total risk exposure (maximum level of 2%).

On 30 November 2018, Banco de Portugal disclosed that it had conducted the annual reassessment of the list of institutions identified as ‘other systemically important institutions’ (O-SIIs) and the respective capital buffers, which remained unchanged from the previous assessment.

In this context, the Group, having been classified as an O-SII will have to maintain a buffer of CET 1 of 0.375% of the total risk exposure applicable from 1 January 2019 growing to 0.563% as of 1 January 2020 and to 0.750% as of 1 January 2021.

These buffers are revised each year or in the event of a significant restructuring process, particularly, a merger or acquisition.

Leverage ratio

The leverage ratio has been introduced under Basel III and the CRD IV/CRR as a complementary tool to the existing risk-based capital adequacy requirements. In November 2016, the EC published a legislative proposal endorsing a minimum 3% Tier 1 leverage ratio for all CRR firms in the EU. In February 2019 the European Union ambassadors endorsed the full package of risk reduction measures, namely the Leverage

Ratio. On 16 April 2019, the European Parliament endorsed the provisional agreement reached, at the beginning of December 2018, during the political trilogues, between the EU Member States. The legislative texts still need to be formally adopted by the Council of the EU.

The leverage ratio is a (non-risk-sensitive) measure of a bank's ability to meet its long-term financial obligations, calculated by dividing the Bank's Tier 1 capital by its average total consolidated assets and expressed as a percentage. Stricter requirements may be demanded only from G-SIIs. A G-SII could face additional requirements, although it is currently not anticipated that Portuguese banks may be classified as G-SIIs.

The Bank's leverage ratio was 6.2% fully implemented, as at 31 December 2018, calculated according to the current non-binding definitions.

Liquidity requirements

Basel III and CRD IV/CRR, provide for the setting of short- and long-term liquidity ratios and funding ratios, namely the LCR and the NSFR (NSFR will become binding after the publication of the proposals amending CRD IV/CRR).

The Bank's LCR calculated in accordance with the Delegated Regulation (EU) 2015/61 of the EC, of 10 October 2014, and the NSFR, estimated in accordance with Basel III methodology that supported the ECB's Short-Term Exercise report, were 218% and 133%, respectively, as at 31 December 2018, higher than the reference value of 100% (fully implemented).

The LCR requires that banks have sufficient high-quality liquid assets (“**HQLA**”) in their liquidity buffer to cover the difference between the expected cash outflows and the expected capped cash inflows over a 30-day stressed period. The value of the ratio is to be no lower than 100% (the stock of HQLAs should at least equal total net cash outflows). In relation to the LCR, the EBA:

- (i) defined assets as 'extremely high' and of 'high' quality;
- (ii) put in place operational requirements for the holdings of liquid assets;
- (iii) recommended that all types of bonds issued or guaranteed by Member States' central governments and central banks in local currency as well as those issued or guaranteed by supranational institutions should be considered transferrable extremely high quality assets;
- (iv) stated that the credit quality standards and eligibility of covered bonds, bonds, RMBS and bonds issued by local government entities should be considered highly liquid and credit quality assets; and
- (v) recommended that common equity shares should be considered high quality liquid assets.

The NSFR, which is expected to soon become a minimum standard (awaiting the Council's final approval of the legislative proposals amending the current CDR IV/CRR), is defined as the amount of available stable funding relative to the amount of required stable funding. This ratio should be equal to at least 100% on an on-going basis. “Available stable funding” is defined as the portion of capital and liabilities expected to be reliable over the time horizon considered by the NSFR, which extends to one year. The ratio aims at ensuring that the funding of illiquid assets is made through stable sources, both in normal as well as adverse conditions. On December 2015, the EBA published a report that includes methodologies for determining the amounts of stable funding available and required, as well as uniform definitions for the calculation of the NSFR.

Banking Union

In an effort to harmonise the regulation and supervision of banking activities across the European Union and especially in the Eurozone, the EC established a new common regulation (Single Rule Book) and a

common supervisory architecture (European Supervisor Authorities together with Nacional Competent Authorities. The key-elements of the Banking Union are the Single Supervisory Mechanism (“**SSM**”), the Single Resolution Mechanism (“**SRM**”) and the European Deposits Insurance Scheme (“**EDIS**”):

- (i) The SSM, which assigns the role of direct banking sector supervisor to the ECB in order to ensure that the largest banks in Europe are independently supervised under common rules (operating since 4 November 2014);
- (ii) The SRM, which is responsible for planning for the worst-case scenario, namely the failure of a bank, to ensure that the situation can be resolved in an orderly manner;
- (iii) On 24 November 2015, the EC presented a legislative proposal that aims to add another element to the Banking Union, namely the EDIS, which is to be built on the basis of existing national Deposit Guarantee Scheme (DGSs),but yet to be implemented.

Furthermore, the underlying resolution rules were changed through the provisions of the BRRD, according to which resolutions shall mainly be financed by banks' shareholders and creditors. Where necessary, financing can also be provided, on a complementary basis, by the newly established Single Resolution Fund, which is financed by the European banking industry. The SRF is only expected to reach its target funding level in 2023. Members of the Eurozone are automatically part of the Banking Union, while other Member States may opt in.

The Single Supervisory Mechanism

The Banking Union assigns specific tasks to the ECB concerning policies relating to the prudential supervision of credit institutions. According to the regulation, the SSM is intended to ensure that the European Union policy relating to the prudential supervision of credit institutions is implemented in a coherent and effective manner, that the single rulebook for financial services is applied in the same manner to credit institutions in all Member States concerned and that those credit institutions are subject to supervision of the highest quality, unfettered by other non-prudential considerations.

The ECB directly supervises approximately 120 financial institutions, including (since 4 November 2014) the Bank, that are considered to be systemically relevant, given their dimension and importance in the banking system of each Member State. The ECB's supervision of the approximately 6,000 other financial entities is exercised in conjunction with national authorities. The “SSM Regulation” and the “SSM Framework Regulation” provide the legal basis for the operational arrangements of the SSM.

The SSM is also responsible for regularly assessing and measuring the risks for each bank and, consequently, the capital and liquidity adequacy of credit institutions through the global evaluation of own funds adequacy, by means of the SREP:

- (i) During the SREP, the supervisor not only defines banks' capital requirements, (e.g. Pillar 2 capital requirements – (“**P2R**”) and Pillar 2 capital guidance (“**P2G**”)), but may also decide to impose additional measures on banks, including liquidity and qualitative measures;
- (ii) The prudential requirements require banks to maintain a total SREP capital requirement (“**TSCR**”) that includes CET 1 instruments and other capital instruments;
- (iii) Banks are also subject to the overall capital requirement that includes, in addition to the TSCR, additional capital buffers, namely “the combined buffer”, comprised of the countercyclical capital buffer, capital conservation buffer and systemic buffer, as described above; and
- (iv) The P2G is to be made up entirely of CET 1 capital. Failure to comply with the P2G is not itself a breach of own funds requirements. The P2G is not relevant for purposes of the Minimum Distributable Amount (“**MDA**”). The MDA is the maximum amount a bank is allowed to pay out, for example for bonuses or dividends. A bank whose capital ratio falls below the MDA trigger point faces restrictions on the amount of distributable profits.

The EBA issues guidelines on common procedures and methodologies for the SREP. These guidelines introduce consistent methodologies for the assessment of risks to capital and risks to liquidity, and for the assessment of the Bank's capital and liquidity adequacy. Changes to guidelines, after being endorsed by the competent authorities may also have implications on the Bank's compliance of supervisory requirements.

The Single Resolution Mechanism, the Resolution Fund and the sale of Novo Banco

The BRRD established a framework for the recovery and resolution of credit institutions and investment firms. The BRRD was implemented in Portugal through Law No. 23-A/2015, of 26 March (which amended the Banking Law).

In the event of a bank's critical financial condition (“fail or likely to fail”), the Banking Union's framework was designed to minimise the impact of any particular bank's financial difficulties on the financial system and on taxpayers. Under the envisaged SRM, shareholders of the institution would be the first to bear losses, before that institution's lenders in accordance with the applicable creditor hierarchy set out under applicable legislation. To that end, resolution authorities were given the power to allocate losses to shareholders and creditors (including the Holders) (the “bail in” tool, as per Article 43 of the BRRD), in line with the valuation of the failing business and according to the sequence provided in Article 48 of the BRRD. Shareholders and creditors must therefore absorb losses for at least 8% of their total liabilities, including own funds, before any use of the resolution fund.

Guaranteed deposits are expected to be safeguarded and creditors should not bear losses greater than those that they would have suffered had the institution been liquidated under ordinary insolvency proceedings. The BRRD contemplates that subordinated liabilities may be subject to non-viability loss absorption, in addition to the application of the general bail-in tool.

As such, the Banking Union and, in particular, the use of resolution tools and powers provided for by the Banking Union may disrupt the rights of shareholders and creditors. In particular, the power of the authorities to transfer the shares or all or part of the assets of an institution to a private purchaser without the consent of shareholders affects the property rights of shareholders. In addition, the power to decide which liabilities to transfer out of a failing institution based upon the objectives of ensuring the continuity of services and avoiding adverse effects on financial stability may affect the equal treatment of creditors.

To avoid institutions structuring their liabilities in a manner that impedes the effectiveness of the bail-in tool, the BRRD requires that institutions meet at all times a MREL expressed as a percentage of the total liabilities and own funds of the institution. When determining MREL in accordance with points (a) and (b) of Article 45(6) of the BRRD and in applying the bail-in tool, the resolution authority should ensure that the institution is capable of absorbing an adequate amount of losses and that the post-resolution entity is recapitalised by an amount sufficient to meet ongoing capital prudential requirements after resolution, while sustaining sufficient market confidence. The resolution authority should also take into account the assessments made by the competent authority on the business model, funding model, and risk profile of the institution in order to set prudential requirements.

By delivering a comprehensive framework that ensures that shareholders and creditors bear the cost of bank failure, the BRRD aims at:

- (i) safeguarding the continuity of essential banking operations;
- (ii) protecting the depositors, the client's assets and the public funds;
- (iii) risks to financial stability; and
- (iv) avoiding the unnecessary destruction of value.

Accordingly, resolution powers include, among others:

- the power to reduce, including to reduce to zero, the principal amount of or outstanding amount due in respect of eligible liabilities, of an institution under resolution;
- the power to convert eligible liabilities of an institution under resolution into ordinary shares or other instruments of ownership of that institution;
- the power to cancel debt instruments issued by an institution under resolution except for secured liabilities subject to Article 44(2) of the BRRD; and
- the power to reduce, including to reduce to zero, the nominal amount of shares or other instruments of ownership of an institution under resolution and to cancel such shares or other instruments of ownership.

These powers conferred to resolution authorities are such as to ensure that capital instruments (including Additional Tier 1 and Tier 2 instruments) absorb losses at the point of non-viability of the issuing institution. Accordingly, the BRRD contemplates that resolution authorities may require the write down of such capital instruments in full or on a permanent basis, or their conversion in full into CET 1 instruments, to the extent required and up to their capacity, at the point of non-viability immediately before the application of any other resolution action, if any.

The BRRD provides, *inter alia*, that resolution authorities shall exercise the write down power of reducing or converting at the point of non-viability of the issuing institution, according to an order of priority of credits in normal insolvency procedures, in a way that results in:

- (i) CET 1 instruments being written down in proportion to the relevant losses; and
- (ii) the principal amount of other capital instruments being written down and/or converted into CET 1 (Tier 1 and Tier 2 instruments).

Resolution authorities may also apply the bail-in tool to meet the resolution objectives, for any of the following purposes:

- (i) to recapitalise an institution that meets the conditions for resolution to the extent sufficient to restore its ability to comply with the conditions for authorisation and to continue to carry out the activities for which it is authorised and to sustain sufficient market confidence in the institution or entity; or
- (ii) to convert to equity or reduce the principal amount of claims or debt instruments that are transferred:
 - (a) to a bridge institution with a view to providing capital for that bridge institution; or
 - (b) under the sale of business tool or the asset separation tool.

When applying the bail-in tool, resolution authorities exercise the write-down and conversion powers meeting the following sequence:

1. Common Equity Tier 1;
2. Additional Tier 1 instruments;
3. Tier 2 instruments;
4. Other subordinated debt, in accordance with the normal insolvency hierarchy; and
5. Other eligible liabilities, in accordance with the normal insolvency hierarchy.

On 3 September 2016, the EC adopted the Delegated Regulation (EU) 2016/1450, of 23 May 2016, supplementing the BRRD regulatory technical standards, which entered into force on 23 September 2016,

specifying the criteria relating to the methodology for setting the minimum requirement for own funds and eligible liabilities. This directive requires that institutions meet the MREL to avoid excessive reliance on forms of funding that are excluded from bail-in or other resolution measures and prevent the risk of contagion to other institutions and “bank run” situations, since failure to meet the MREL would negatively impact the institutions' loss absorption and recapitalisation capacity and, ultimately, the overall effectiveness of resolution.

The MREL shall be calculated based on different components, namely:

- the loss absorption amount, based on the current capital requirements, including regulatory capital requirements (8% of RWA), the combined buffer requirements, and additional pillar 2 bank-specific requirements set by the supervisor;
- the recapitalisation amount (RCA), which aims to cover the capital requirements of the failing institution post-resolution, taking into account potential divestments and other resolution actions under the preferred resolution strategy, and the need to maintain sufficient market confidence; and
- adjustments to overall MREL target, namely the DGS adjustment, linked to any potential involvement of a DGS to protect insured depositors.

Resolution authorities may be able to require, on a case-by-case basis, the MREL to be wholly or partially composed of own funds or of a specific type of liabilities. Furthermore, the BRRD established a European system of financing arrangements to which each institution must contribute at least annually. The contribution of each institution shall be *pro-rata* to the amount of its liabilities (excluding own funds) less covered deposits, with respect to the aggregate liabilities (excluding own funds) less covered deposits of all the institutions authorised in the territory of a Member State. Those contributions shall also be adjusted in proportion to the risk profile of institutions.

The Single Resolution Board (“**SRB**”) will engage with banking groups to draft a preferred resolution strategy, and an indicative MREL target will be set at consolidated level, subject to a phase in period. The phase in period, by decision of the SRB, can be extended over the initially envisaged 48 months, depending on the bank's and markets' underlying conditions. As further described in section C. Trends Information, the Bank has been notified by the Banco de Portugal on the Single Resolution Board’s decision regarding the MREL.

On 23 November 2016, the European Commission published proposals for certain amendments to the BRRD, which include certain proposals in relation to the quality and quantity of MREL required by European banks. On 16 April 2019, the European Parliament endorsed the provisional agreement reached, at the beginning of December 2018, during the political trilogues, between the EU Member States. The legislative texts still need to be formally adopted by the Council of the EU.

On 27 December 2017, Directive (EU) 2017/2399 of the European Parliament and of the Council, of 12 December 2017, amending the BRRD as regards the ranking of unsecured debt instruments in insolvency hierarchy was published in the Official Journal of the EU. The Directive entered into force on 28 December 2017 and was transposed to Portuguese legal framework by Law No. 23/2019, of 13 March, that also confers a preferential claim to all deposits vis-à-vis senior debt.

The SRM and SRF are regulated by Regulation (EU) No. 806/2014 of the European Parliament and of the Council, of 15 July 2014 (“**SRM Regulation**”), which also established the framework for recovery and resolution of credit institutions and the calculation method of the annual contributions for the funding of the resolution mechanism.

The main decision-making body of the SRM is the SRB which is responsible for:

- (i) the planning and resolution phases of the Banking Union's cross-border and large banks, which are directly supervised by the ECB;

- (ii) all resolution cases that require recourse to the SRF, irrespective of the size of the bank;
- (iii) all banks in the Banking Union.

The SRM will work in close cooperation with, and will give instructions to, the national authorities of Member States, including Banco de Portugal, which is the national resolution authority in Portugal. The national authorities of participating Member States (including the Portuguese Republic) are responsible for planning and adopting resolution plans in respect of those banks for which the SRB is not directly responsible.

The SRF is financed through ex-ante contributions paid annually at individual level by all credit institutions within the Banking Union. Contributions to the SRF:

- (i) take into account the annual target level of the SRF set by the SRB as well as the size and the risk profile of institutions;
- (ii) are collected by national resolution authorities and transferred to the SRF by 30 June of every year (in accordance with Article 67(4) of the SRM Regulation and in accordance with the intergovernmental agreement on the transfer and mutualisation of contributions to the SRF (“**Intergovernmental Agreement**”);
- (iii) are calculated by the methodology as set out in the Commission Delegated Regulation (EU) 2015/63, of 21 October 2014 and the SRM Regulation; and
- (iv) are calculated on the basis of the amount of liabilities deducted from the liability elements that belong to Tier 1 and additional own funds and the deposits covered by the Deposit Guarantee Scheme and subject to an adjustment in accordance with the risk profile of the participating institution, considering its solvability situation.

In 2015, following the establishment of the SRF, the Group made an initial EUR 31.4 million contribution. In accordance with the Intergovernmental Agreement, this amount was not transferred to the SRF but was used instead to partially cover the disbursements made by the Resolution Fund for resolution measures applied prior to the date of application of this Intergovernmental Agreement. Consequently, an equivalent amount will have to be transferred over a period of 8 years (starting in 2016) through periodic contributions to the SRF.

In accordance to SRM Regulation, the use of the SRF shall be contingent upon the entry into force of an agreement among the participating Member States on transferring the funds raised at national level towards the SRF as well as on a progressive merger of the different funds raised at national level to be allocated to national compartments of the SRF. This Regulation is applicable since 1 January 2016. As such, the SRF does not cover ongoing situations with the Resolution Fund as at 31 December 2015.

The Portuguese Resolution Fund

This fund consists of a resolution fund whose primary purpose has been to provide financial support for the application of resolution measures as determined by Banco de Portugal (“**Resolution Fund**”). The Resolution Fund foresees the participation of:

- (i) credit institutions with a head office in Portugal, including the Bank;
- (ii) branches of credit institutions in states that do not belong to the EU;
- (iii) relevant companies for the management of payment systems subject to supervision of Banco de Portugal; and
- (iv) certain types of investment companies.

Decree-Law No. 31-A/2012, of 10 February, which amended the Banking Law, also introduced, on terms subsequently amended by Law No 23-A/2015, of 26 March, the creation of the privileges accorded to claims associated with loans backed-up by deposits under the Deposit Guarantee Fund (the “DGF”), as well as credit secured by the DGF, by the Integrated Mutual Agricultural Scheme (which, in Portugal, is formed by the Central Mutual Agricultural Bank (*Caixa Central de Crédito Agrícola Mútua*) and its associated banks) or by the Resolution Fund, arising from the potential financial support that these institutions might give in the context of the implementation of resolution measures, within the limits of the applicable laws.

Pursuant to Banco de Portugal's Instruction No. 32/2018, of 19 December, in 2019 Portuguese banks will pay contributions to the Resolution Fund at a 0.057% base rate, which represents an increase from the 0.0459% rate applied in 2018.

Increases in the base rate in future years may reduce the Bank's profitability. The contribution of the Bank to the National Resolution Fund was EUR 12.1 million in 2018, EUR 8.5 million in 2017 and EUR 5.7 million in 2016. The ex-ante contributions for the Resolution Fund are calculated in the same way as the abovementioned SRF contributions are calculated.

According to Article 14(5) of Law No. 23-A/2015, of 26 March 2015, and without prejudice to the ex-ante and ex-post contributions regulated by the regime, further ex-ante and ex-post contributions can be charged for the Resolution Fund in accordance with the regime of Decree-Law no. 24/2013, of 19 February 2013, if these contributions are intended to enable the compliance with the obligations undertaken or to be undertaken by the Resolution Fund by virtue of having financially supported resolution measures until 31 December 2014.

Application of resolution measures to two Portuguese banks

Pursuant to the decision by Banco de Portugal on 3 August 2014 to apply to Banco Espírito Santo (“BES”) a resolution measure consisting in the transfer of most of its business to a bridge bank - the Novo Banco - the Resolution Fund participated in the recapitalisation of Novo Banco in the amount of EUR 4.9 billion. The Resolution Fund owned in full all of Novo Banco's initial equity, valued at EUR 4.9 billion as at 31 December 2015 (of which EUR 3.9 billion from a loan granted by the State, EUR 700 million from a loan granted by a group of credit institutions, including the Bank, that are members of the Resolution Fund, and the remaining amount from the mobilisation of resources available to the Resolution Fund).

As announced on 29 December 2015, Banco de Portugal transferred to the Resolution Fund the responsibilities arising from the “[...] possible negative effects of future decisions, resulting from the resolution process (of BES), which result in liabilities or contingencies”.

On 7 July 2016, the Resolution Fund stated that it would analyse and assess the necessary steps to be taken following the disclosure of the results of the independent valuation exercise, performed to estimate the level of credit recovery by each creditor class in the hypothetical scenario of a normal insolvency proceeding of BES as at 3 August 2014. Pursuant to applicable law, if at the completion of BES's winding-up, it is concluded that creditors whose credits have not been transferred to Novo Banco suffered a loss higher than the loss they would have hypothetically suffered if BES had initiated its winding-up process immediately before the resolution measure was adopted, such creditors will have the right to receive the difference from the Resolution Fund.

On 4 January 2017, Banco de Portugal announced that Lone Star was the prospective purchaser best placed to successfully complete the negotiating process for the sale of Novo Banco. On 31 March 2017, Banco de Portugal made a communication on the sale of Novo Banco, where it stated the following:

“Banco de Portugal selected today the company LONE STAR to conclude the sale of Novo Banco. The sale agreement documentation was already signed by the Resolution Fund.

In accordance with the sale agreement, Lone Star will make capital injections into Novo Banco totalling 1,000 million Euros, 750 million Euros of which at the moment the operation is completed and 250 million Euros during the following 3 years.

Via this capital injection, the company Lone Star will become the owner of 75% of the share capital of Novo Banco and the Resolution Fund will own the remaining 25%.

The conditions agreed also include the existence of a contingent capitalisation mechanism up to a maximum of EUR 3,890 million, according to which the Resolution Fund, as shareholder, commits to carry out capital injections if certain cumulative conditions materialise. These are related with: i) the performance of a defined group of assets of Novo Banco and ii) the performance shown by the bank's capitalisation levels.

The potential capital injections to be made in accordance with this contingent mechanism benefit from a capital buffer resulting from the capital injection to be made, in accordance with the terms and conditions of the operation, and are subject to an absolute maximum threshold.

The conditions agreed also foresee mechanisms to safeguard the interests of the Resolution Fund, to line up the incentives and supervision, despite the limitations resulting from the application of State aid rules.

The completion of the sale depends on receiving the usual regulatory authorisations (including from the European Central Bank and from the European Commission) and also on the execution of a liabilities management exercise, subject to the bondholders joining in, which will encompass the unsubordinated bonds of Novo Banco and generate at least 500 million Euros in own funds eligible for CET 1, by offering new bonds.”

The aforementioned “liability management exercise” was successfully completed on 4 October 2017.

On 1 September 2017, BCP announced that, after having conveyed reservations regarding the contingent capitalisation obligation by the Portuguese Resolution Fund (Fundo de Resolução) which was announced to be included in a sale agreement of Novo Banco, it had decided, in light of the legal deadline and as a precaution, to promote administrative legal proceedings with a view that it was subject to judicial review.

This process, which is centred exclusively on the capitalisation obligation referred to above, does not entail the suspension of the sale of Novo Banco, S.A. which was completed on 18 October 2017.

On 18 October 2017, according to a press release of Banco de Portugal, and following the resolution of the Council of Ministers no 151-A/2017, on 2 October 2017, Banco de Portugal and the Resolution Fund concluded the sale of Novo Banco to Lone Star, with an injection by the new shareholder of €750 million, followed by a further injection of €250 million by the end of 2017.

As of this date, Novo Banco is held by Lone Star and the Resolution Fund, holding respectively 75% and 25% of the share capital.

On 28 March 2018, the Resolution Fund made a communication on the activation of the contingent mechanism, following the disclosure of the 2017 annual results by Novo Banco, totalling EUR 792 million.

On 24 May 2018 the Resolution Fund communicated having disbursed to Novo Banco the abovementioned funds, of which EUR 430 million stemming from a loan from the Portuguese State and the remaining amount from the Fund's own resources. The loan from the Portuguese State follows from a general framework agreement celebrated in October 2017 between the Resolution Fund and the State, in which a credit line of up to EUR 1000 million is provided to Resolution Fund subject to an annual limit of EUR 850 million. The loans mature in 31 December 2046.

In its 2018 annual results press release, Novo Banco states that “in connection with the impact of losses related to the sale and write-downs of legacy assets, Novo Banco will request a compensation of EUR 1,149 million under the existing CCA. 69% of this amount results from the losses incurred on the assets included in the CCA and 31% due to regulatory requirements for capital increase in the adjustment of the transitional period of capital ratios and to the impact of IFRS 9. On 1 March 2019, the Resolution Fund stated that the amount to be paid by the Resolution Fund in 2019 to Novo Banco under the CCA will be carried out after the legal certification of Novo Banco's accounts and following a verification procedure by an independent entity, to ascertain that the amount to be paid by the Fund has been correctly accounted for.

Novo Banco is held by Lone Star and the Resolution Fund, corresponding to 75% and 25% of the share capital respectively. According to publicly available information, the volume of litigation associated with the BES resolution process is high. The losses that the Resolution Fund may incur as a result of any such uncertainties (including, *inter alia*, litigation associated with the sale of Novo Banco and, in particular, the above-mentioned contingent capitalisation mechanism) have not been clearly quantified and, therefore, it is not possible as at this date to quantify the impacts that the resolution of BES may have on the Bank.

Banco de Portugal decided on 19 and 20 December 2015 to apply a resolution measure to Banco Internacional do Funchal S.A. (“**BANIF**”). In January 2013, BANIF was recapitalised by the Portuguese State in the amount of EUR 1,100 million (EUR 700 million in the form of special shares and EUR 400 million in hybrid instruments). BANIF was sold to Banco Santander Totta, S.A. (“**BS**T”) on 20 December 2015 but some of the assets and liabilities were transferred to a special purpose vehicle, Oitante, S.A., that, as at 30 June 2018, was held by the Resolution Fund. According to Banco de Portugal, the adjustments associated with the agreement between the Portuguese and European authorities and BS

T involved estimated public support to cover future contingencies, of which EUR 489 million contributed by the Resolution Fund, which was funded by a loan from the State. As at May 2018, this loan amounts to EUR 365 million.

On 28 September 2016, the Resolution Fund and the Ministry of Finance announced the extension of the EUR 3.9 billion loan originally granted to the Resolution Fund in 2014 for the financing of the resolution measure applied to BES. According to the Resolution Fund, the extension of the maturity of the loan ensures the capacity of the Resolution Fund to meet its obligations in full through its regular revenues, regardless of the positive or negative contingencies to which the Resolution Fund is exposed. Therefore, according to the Ministry of Finance, there would be no need to levy extraordinary contributions to finance the Resolution Fund, thereby contributing to broadly maintain the stability of contributions demanded of the banking sector at current levels and any increase or decrease in the responsibilities resulting from the materialisation of future contingencies will only determine the adjustment of the maturity of loans granted by the Portuguese State and by the participating banks to the Resolution Fund.

In March 2017, the conditions for loans granted by the Portuguese State to the Resolution Fund were altered. The maturity of the loans was revised to December 2046, so that the annual payment owed by the banks is met by the income from the regular contribution charged to the banking sector, keeping the banks' contributions similar to current levels.

The European Deposit Guarantee System

On 16 April 2014, the European Parliament and the Council adopted Directive 2014/49/EU on DGS (“**DGS Directive**”). The Directive encompasses the harmonisation of the funding mechanisms of DGS, the introduction of risk-based contributions and the harmonisation of the scope of products and depositors covered. In accordance with the DGS Directive, each credit institution should be part of a DGS recognised under this Directive, thereby ensuring a high level of consumer protection and a level playing field between credit institutions, while also preventing regulatory arbitrage. The DGS Directive sets the harmonised coverage level at EUR 100,000 and retains the principle of a harmonised limit per depositor rather than per deposit (such limit to be applied, in principle, to each identifiable depositor, except for collective investment undertakings subject to special protection rules). Each institution's contribution to DGS will be based on the amount of covered deposits and the degree of risk incurred by the respective member. The DGS Directive was transposed into the Portuguese law by Law no. 23-A/2015, of 26 March.

According to the BRRD, and consequently the Banking Law, with the amendments of Law No. 23-A/2015, of 26 March 2015, banks must ensure that by 3 July 2024 the financial resources available to a DGS amount to a target-level of 0.8% of the amount of DGF-covered deposits.

If, after this target level is reached for the first time, the available financial resources are reduced to less than two thirds of the target level, the ex-ante contributions are set by Banco de Portugal at a level that allows the target level to be reached within six years. If the available financial resources are not sufficient to

reimburse the depositors, in the event of unavailability of deposits, DGS members must pay ex-post contributions not exceeding 0.5% of the DGF-covered deposits for the exercise period of the DGF. In exceptional circumstances, the DGS can request a higher amount of contribution with the approval of Banco de Portugal.

The exemption from the immediate payment of ex-ante contributions shall not exceed 30% of the total amount of contributions raised. This possibility depends on the credit institutions undertaking irrevocable payment commitments, to pay part of or the whole amount of the contribution which has not been paid in cash to the DGF, that are fully backed by collateral composed of low-risk assets unencumbered by any third-party rights and partly or wholly pledged in favour of the DGF at DGF's request.

The additional indirect costs of the deposit guarantee systems may be significant and can consist of costs associated with the provision of detailed information to clients about products, costs of compliance with specific regulations on advertising for deposits or other products similar to deposits.

Management, Audit Committee and Statutory Auditor

On 28 February 2012, the Bank adopted a one-tiered corporate governance model, with one Board of Directors within which there is an Executive Committee, an Audit Committee, a Remunerations and Welfare Board and a Board for International Strategy, plus a Statutory Auditor.

Board of Directors

According to the articles of association of the Bank, the Board of Directors is composed of a minimum of 15 and a maximum of 19 members, elected by the General Meeting of Shareholders.

The General Meeting of Shareholders held on 30 May 2018 approved the election of the Board of Directors for the 2018/2021 term of office, including the Audit Committee.

Currently, following persons exercise functions as members of the Board of Directors of BCP:

Chairman:	Nuno Manuel da Silva Amado
Vice-Chairmen:	Jorge Manuel Baptista Magalhães Correia Valter Rui Dias de Barros Miguel Maya Dias Pinheiro
Members:	Ana Paula Alcobia Gray Cidália Maria Mota Lopes João Nuno de Oliveira Jorge Palma José Manuel Alves Elias da Costa José Miguel Bensliman Schorcht da Silva Pessanha Lingjiang Xu Maria José Henriques Barreto de Matos de Campos Miguel de Campos Pereira de Bragança Rui Manuel da Silva Teixeira Teófilo César Ferreira da Fonseca Wan Sin Long Xiao Xu Gu

Positions held outside the Group by the abovementioned members of the Board of Directors that are relevant to the Group:

<u>Name</u>	<u>Position</u>	<u>Company</u>
Nuno Manuel da Silva Amado	Vice-Chairman	APB-Associação Portuguesa de Bancos (in representation of BCP)

	Member of the Supervisory Board	EDP-Energias de Portugal, S.A. (in representation of BCP)
	Member	Institut International D'Études Bancaires
	Member of the Board of Auditors	Fundação Bial
	Effective member of the Plenary	Universidade de Lisboa
	Effective member	Conselho Económico e Social (CES)
Cidália Maria Mota Lopes	Professor and Member of the Scientific Board	Coimbra Business School - Instituto Superior de Contabilidade e Administração de Coimbra (ISCAC) on tax issues
	Invited Professor at the Masters Degree in Accounting and Finance	School of Economics of the University of Coimbra
	Member of the Scientific Board	Portuguese Fiscal Association (AFP)
	Member of the Ethical Committee	Instituto Politécnico de Coimbra
Jorge Manuel Baptista Magalhães Correia	Chairman of the Executive Committee	Fidelidade – Companhia de Seguros S.A.
	Chairman of the Board of Directors	Luz Saúde, S.A.
	Member of the Board of Directors	REN- Redes Eléctricas Nacionais, SGPS, S.A.
José Miguel Bensliman Schorcht da Silva Pessanha	Vice-Chairman of the Board of Directors	Millenniumbcp Ageas Grupo Segurador, SGPS, S.A.
	Vice-Chairman of the Board of Directors	Ocidental – Companhia Portuguesa de Seguros de Vida, S.A.
	Vice-Chairman of the Board of Directors	Ocidental – Sociedade Gestora de Fundos de Pensões S.A.
Lingjiang Xu	Chairman of the Board of Directors	Longrun Portugal, SGPS, S.A.
	Member of the Board of Directors	Fidelidade – Companhia de Seguros, S.A.
Miguel de Campos Pereira de Bragança	Manager	Quinta das Almoínhas Velhas-Imobiliária Lda.
	Member of the Board	Fundação da Casa de Bragança
	Non-executive Member of the Board	SIBS, SGPS, S.A. and SIBS Forward Payment Solutions, S.A. (in representation of BCP)
	Member of Board	Unicre-Instituição Financeira de Crédito, S.A. (pending authorisation)
Miguel Maya Dias Pinheiro	Member of the Senior Board	Alumni Clube ISCTE
Rui Manuel da Silva Teixeira	Member of the Remunerations Committee	Unicre
	Member of the Board of Directors	Millenniumbcp Ageas Grupo Segurador, SGPS, S.A.
	Member of the Board of	Ocidental – Companhia

	Directors	Portuguesa de Seguros de Vida, S.A.
	Member of the Board of Directors	Ocidental – Sociedade Gestora de Fundos de Pensões, S.A.
Valter Rui Dias de Barros	Coordinator of the Management Commission	Instituto de Gestão de Activos e Participações do Estado (IGAPE) (Angola)
Xiao Xu Gu (Julia Gu)	Senior Management	Fosun High Technology (Group) Co., Ltd.
	Chairman	Zhangxingbao (Shanghai) Network Technology Co., Ltd. (subsidiary of Fosun)
	Member of the Board of Directors	MYBank

To the best of the Issuer's knowledge, none of the abovementioned members of the Board of Directors of the Bank has any external activity relevant for the Bank other than the ones listed above.

For all the purposes resulting from the functions of the members of the Board of Directors, their professional domicile is at Av. Prof. Dr. Cavaco Silva (Parque das Tecnologias), Edifício 1, no. 32, Piso 2, 2744-256 Porto Salvo.

Executive Committee

Under the terms of the law and of the Articles of Association of the Bank, the Board of Directors appointed an Executive Committee on 24 July 2018, composed of six of its members, which performs all the Bank's current management functions that are not to be exercised by the Board of Directors. The members of the Executive Committee are as follows:

Chairman:	Miguel Maya Dias Pinheiro
First Vice-Chairman:	Miguel de Campos Pereira de Bragança
Second Vice-Chairman:	João Nuno de Oliveira Jorge Palma
Members:	José Miguel Bensliman Schorcht da Silva Pessanha Maria José Henriques Barreto de Matos de Campos Rui Manuel da Silva Teixeira

Audit Committee

Under the terms of the articles of association of the Bank, the Bank's supervision pertains to an Audit Committee elected by the General Meeting of Shareholders and composed of a minimum of three and a maximum of five members.

The Audit Committee, created in accordance with the provisions of number 1 of Article 278 of the Portuguese Companies Code and in accordance with Article 39 of the articles of association of the Bank, is particularly responsible for (amid the remaining powers attributed to it by law):

- a) Monitoring the Bank's management;
- b) Verifying the compliance with the law and the articles of association;
- c) Verifying the regularity of the books, accounting records and documents supporting them;

- d) Verifying the accuracy of the financial statements;
- e) Supervising the efficiency of the risk management system, the internal control system and the internal audit system;
- f) Receiving the communications stating irregularities reported by shareholders, employees of the Bank or others;
- g) Monitoring the preparation and disclosure of financial information;
- h) Proposing to the General Meeting of Shareholders the election of the Chartered Accountant and of the External Auditor;
- i) Supervising the audit of the annual report and financial statements of the Bank;
- j) Verify the Statutory Auditor's independence, namely regarding the rendering of non-audit services;
- k) Engaging the provision of services by experts to assist one or several of its members in the exercise of their functions. This engagement and the remuneration of the experts must take into account the importance of the issues committed to them and the Bank's economic situation; and
- l) Complying with all the other duties attributed to it by the law or by the Articles of Association.

The Audit Committee is composed of the following members:

Members:	Cidália Maria Mota Lopes Valter Rui Dias de Barros Wan Sin Long
----------	---

Statements regarding the Members of Management and Supervision Bodies

To the best of the Issuer's knowledge and in its understanding, having made enquiries, there are no potential conflicts of interests between the duties of any member of the management and supervision bodies identified above towards the Issuer or towards any other Group company and his/her personal interests and duties. There are non-executive members of the Board of Directors with functions in other financial institutions that can be considered competitors of the Bank. For this situation, the General Meeting of Shareholders held on 28 February 2012 resolved to authorise the presence of those members in the Board of Directors, which was also authorised in the General Meeting of Shareholders held on 11 May 2015, and the General Meeting of Shareholders held on 30 May 2018, where the majority of the current members of the Board of Directors were elected, with the mention of the adoption of a restrictive regime of access to sensitive information.

Statutory Auditor

The current Statutory Auditor and External Auditor of the Bank, Deloitte & Associados SROC, S.A., and alternatively Carlos Luís Oliveira de Melo Loureiro, ROC No. 572, were elected at the General Meeting of Shareholders held on 21 April 2016, for the triennial 2016/2018, by a majority of 99.1233% and 94.9982% of the votes cast, respectively.

The term of office of the Statutory Auditor and External Auditor began on 5 May 2016, after the first quarter's financial statements were presented to the Board of Directors.

There are no potential conflicts of interest between the duties to the Bank of the persons listed above and their private interest or duties.

BANCO COMERCIAL PORTUGUÊS

The financial information set out below has been derived from the audited consolidated financial statements of the Bank as at, and for the years ended on, 31 December 2017 and 31 December 2018 and the unaudited and un-reviewed consolidated balance sheet and income statement for the three month period ended 31 March 2018 and 31 March 2019 of the Bank. The consolidated financial statements of the Bank were prepared in accordance with IFRS, as endorsed by the European Union. Such financial information should be read together with, and is qualified in its entirety by reference to, the Bank's annual reports and audited financial statements as at, and for the years ended on, 31 December 2017 and 31 December 2018 and the unaudited and un-reviewed consolidated balance sheet and income statement of the Bank for the three month period ended 31 March 2019, which have been extracted from the unaudited and un-reviewed earnings press release and earnings presentations of the BCP Group for the three month period ended 31 March 2019. The financial statements for the year ended on 31 December 2017 have been approved by the General Meeting of Shareholders on 30 May 2018 and the financial statements for the year ended on 31 December 2018 will be subject to the approval of the general meeting of shareholders to be held by 22 May 2019.

THE END OF THE YEAR

BANCO COMERCIAL PORTUGUÊS

Evolution of the Solvency Ratio in 2018

The estimated CET1 ratio as at 31 December 2018 stood at 12.1% on a phased-in basis and 12.0% on a fully-implemented basis, -119 basis points and +11 basis points, respectively, comparing to the 13.2% and 11.9% ratios recorded in the same period of 2017 and above the minimum ratios defined in the SREP for 2018 (CET1 8.81%, Tier 1 10.31% and Total 12.31%). CET1 SREP requirement of 8.81% applied to 2018 and 9.625% is the CET1 SREP requirement for 2019.

The CET1 fully-implemented ratio's favourable evolution was mainly determined by net income, partially offset by the IFRS9 adoption impact, by the deduction of irrevocable payment commitments for the Single Resolution Fund and the Deposits Guarantee Fund, and by the increase of the Risk Weighted Assets. The fully-implemented total capital ratio additionally benefited from the issuance of Tier 2 bonds by Bank Millennium and the Bank in December 2017.

SOLVENCY RATIOS

	31 Dec. 18	<i>Euro</i> <i>million</i> 31 Dec. 17
FULLY IMPLEMENTED

CET1	12.1%	13.2%

Note: The capital ratios as at 31 December 2018 are estimated including the positive accumulated net income, not audited. The capital ratios as at 31 December 2017 include the positive accumulated net income.

TAXATION

1. Portuguese Taxation

The following is a general summary of the Bank's understanding of current law and practice in Portugal as in effect on the date of this Offering Circular in relation to certain current relevant aspects to Portuguese taxation of the Notes and is subject to changes in such laws, including changes that could have a retroactive effect. The following summary is intended as a general guide only and is not exhaustive. It is not intended to be, nor should it be considered to be, legal or tax advice to any holder of Notes. It does not take into account or discuss the tax laws of any country other than Portugal and relates only to the position of persons who are absolute beneficial owners of the Notes. Prospective investors are advised to consult their own tax advisers as to the Portuguese or other tax consequences of the purchase, ownership and disposal of Notes.

The reference to "interest", "other investment income" and "capital gains" in the paragraphs below means "interest", "other investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take into account different definitions of "interest", "other investment income" or "capital gains" which may prevail under any other law or which may be created by the "*Terms and Conditions of the Notes*" or any related documentation.

Portuguese resident holders and non-resident holders with a Portuguese permanent establishment

Interest and other types of investment income obtained on Notes by a Portuguese resident individual is subject to withholding tax at 28%, which, if such income is not earned as business or professional income, is the final tax on that income unless the individual elects to include it in his/ her taxable income subject to tax at progressive rates of up to 53%. In this case, the tax withheld is deemed a payment on account of the final tax due.

In the case of Zero Coupon Notes, the difference between the redemption value and the subscription cost is regarded as investment income and is taxed accordingly.

Gains obtained on the disposal or the refund of the Notes by an individual resident in Portugal for tax purposes are subject to Portuguese capital gains taxation on the positive difference between such gains and gains on other securities and losses in securities. Tax applies at 28%, which is the final tax on that income, unless the individual elects to include it in his/her taxable income, subject to tax at progressive rates of up to 53%. Accrued interest qualifies as interest for tax purposes.

Stamp tax at 10% applies to the acquisition through gift or inheritance of Notes by an individual who is domiciled in Portugal. An exemption applies to transfers in favour of the spouse (or person living together as spouse), descendants and parents/grandparents.

Interest or other investment income derived from the Notes and capital gains realised with the transfer of the Notes by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income or gains are attributable are included in their taxable profits and are subject to Portuguese corporate tax at 21% or 17% on the first EUR 15,000 in the case of small and medium-sized enterprises and may be subject to a municipal surcharge ("*derrama municipal*") of up to 1.5%. A state surcharge ("*derrama estadual*") also applies at 3% on taxable profits in excess of EUR 1,500,000 and up to EUR 7,500,000, and at 5% on taxable profits in excess of EUR 7,500,000 up to EUR 35,000,000, and at 9% on taxable profits in excess of EUR 35,000,000.

Withholding tax at 25% applies to interest and other investment income, which is deemed a payment on account of the final tax due. The withholding (and final) tax rate is 21% in the case of entities benefiting from a tax exemption under Articles 9 and 10 of the corporate tax code that does not apply to investment income. The corporate tax rate is 21% in the case of entities not carrying on an activity of a commercial, industrial or agricultural nature.

Financial institutions, pension funds, retirement and/or education savings funds, share savings funds, venture capital funds, collective investment undertakings and some exempt entities, among other entities, are not subject to withholding tax.

Interest and other investment income paid or made available ("colocado à disposição") to accounts in the name of one or more accountholders acting on behalf of undisclosed entities is subject to a final withholding tax at 35%, unless the beneficial owner of the income is disclosed, in which case the general rules will apply.

The acquisition of Notes through gift or inheritance by a Portuguese resident legal person or a non-resident acting through a Portuguese permanent establishment is subject to Portuguese corporate tax at 21%, or 17% on the first EUR 15,000 in the case of small and medium-sized enterprises. A municipal surcharge ("derrama municipal") of up to 1.5% may also be due. A state surcharge ("derrama estadual") also applies at 3% on taxable profits in excess of EUR 1,500,000 and up to EUR 7,500,000, and at 5% on taxable profits in excess of EUR 7,500,000 up to EUR 35,000,000, and at 9% state on taxable profits in excess of EUR 35,000,000.

There is no wealth nor estate tax in Portugal.

Non-resident holders without a Portuguese permanent establishment – General rules

Interest and other types of investment income obtained by non-resident holders without a Portuguese permanent establishment to which the income is attributable is subject to withholding tax at 28% (individuals) or 25% (legal persons), which is the final tax on that income. The rate is 35% in the case of individuals or legal persons domiciled in a country, territory or region included in the "tax havens" list approved by Ministerial Order No. 150/2004, of 13 February 2004, as amended from time to time (hereafter "**Ministerial Order No. 150/2004**").

Interest and other investment income paid or made available ("colocado à disposição") to accounts in the name of one or more accountholders acting on behalf of undisclosed entities is subject to a final withholding tax at 35%, unless the beneficial owner of the income is disclosed, in which case the general rules will apply.

Under the tax treaties entered into by Portugal, the withholding tax rate may be reduced to 15, 12, 10 or 5%, depending on the applicable treaty and provided that the relevant formalities (including certification of residence by the tax authorities of the beneficial owners of the interest and other investment income) are met. The reduction may apply at source or through the refund of the excess tax. The forms currently applicable for these purposes were approved by Order ("Despacho") No. 4743-A/2008 (2nd series), as rectified on 29 February 2008, published in the Portuguese official gazette, second series, No. 43, of 29 February 2008, of the Portuguese Minister of Finance and may be available for viewing and downloading at www.portaldasfinancas.gov.pt.

Interest paid to an associated company of the Bank which is resident in the European Union is exempt from withholding tax.

For these purposes, an "**associated company of the Bank**" is:

- (a) a company which is subject to one of the taxes on profits listed in Article 3(a)(iii) of Council Directive 2003/49/EC without being exempt, which takes one of the forms listed in the Annex to that Directive, which is considered to be resident in a Member State of the European Union and is not, within the meaning of a double taxation convention on income concluded with a third state, considered to be resident for tax purposes outside the European Community; and
- (b) which holds a minimum direct holding of 25% in capital of the Bank, or is directly held by the Bank in at least 25% or which is directly held in at least 25% by a company which also holds at least 25% of the capital of the Bank; and

- (c) provided that the holding has been maintained for an uninterrupted period of at least two years. If the minimum holding period is met after the date the withholding tax becomes due, a refund may be obtained.

The associated company of the Bank to which payments are made must be the beneficial owner of the interest, which will be the case if it receives the interest for its own benefit and not as an intermediary, either as a representative, a trustee or authorised signatory, for some other person.

Interest paid to an associated company of the Bank which is resident in Switzerland is also exempt from withholding tax under the conditions described above for associated companies resident in the European Union.

Capital gains obtained on the disposal or the refund of the Notes by an individual non-resident in Portugal for tax purposes are subject to Portuguese capital gains taxation on the positive difference between such gains and gains on other securities and losses in securities. Tax applies at 28%. An exemption applies to non-resident individuals, unless they are resident in a country, territory or region included in Ministerial Order No. 150/2004. If the exemption does not apply, the gains will be subject to tax at 28%. Under the tax treaties entered into by Portugal, such gains are usually not subject to Portuguese tax, but the applicable rules should be confirmed on a case by case basis. Accrued interest qualifies as interest for tax purposes.

Gains obtained on the disposal or the refund of Notes by a legal person non-resident in Portugal for tax purposes and without a permanent establishment in Portugal to which gains are attributable are exempt from Portuguese capital gains taxation, unless the share capital of the holder is (a) more than 25% directly or indirectly, held by Portuguese resident entities or (b) if the holder is resident in a country, territory or region subject to a clearly more favourable tax regime included in Ministerial Order No. 150/2004. Accrued interest qualifies as interest for tax purposes. If the exemption does not apply, the gains will be subject to tax at 25%. Under the tax treaties entered into by Portugal, such gains are usually not subject to Portuguese tax, but the applicable rules should be confirmed on a case by case basis.

No stamp tax applies to the acquisition through gift and inheritance of Notes by an individual who is not domiciled in Portugal.

The acquisition of Notes through gift or inheritance by a non-resident legal person is subject to corporate tax at 25%. Under the tax treaties entered into by Portugal, such gains are usually not subject to Portuguese tax, but the applicable rules should be confirmed on a case-by-case basis.

There is neither wealth nor estate tax in Portugal.

Non-resident holders without a Portuguese permanent establishment – Notes held through a centralised control system

The regime described above corresponds to the general tax treatment of investment income and capital gains on the Notes and to the acquisition through gift or inheritance of such Notes.

Nevertheless, pursuant to the Special Taxation Regime for Debt Securities approved by Decree-law No. 193/2005, of 7 November 2005, as amended from time to time (hereafter "**the special regime approved by Decree-Law No. 193/2005**"), investment income and gains on the disposal of debt securities issued by Portuguese resident entities, such as the Notes, may be exempt from Portuguese income tax, provided that the debt securities are integrated in a centralised system managed by Portuguese resident entities (such as the Central de Valores Mobiliários, managed by Interbolsa), by other European Union or EEA entities that manage international clearing systems (in the latter case if there is administrative co-operation for tax purposes with the relevant country which is equivalent to that in place within the European Union), or, when authorised by the member of the government in charge of finance (currently the Finance Minister), in other centralised systems and:

- (i) the beneficial owners have no residence, head office, effective management or permanent establishment in the Portuguese territory to which the income is attributable; and

- (ii) the beneficial owners are central banks and government agencies, international organisations recognised by the Portuguese state, residents in a country or jurisdiction with which Portugal has entered into a double tax treaty or a tax information exchange agreement in force or other non-resident entities which are not domiciled in a country, territory or region subject to a clearly more favourable tax regime included in Ministerial Order No. 150/2004.

The special regime approved by Decree-law No. 193/2005 sets out the detailed rules and procedures to be followed on the proof of non-residence by the holders of Notes to which it applies.

Under these rules, the direct register entity is to obtain and keep proof, in the form described below, that the beneficial owner is a non-resident entity that is entitled to the exemption. As a general rule, the proof of non residence should be provided to, and received by, the direct register entities prior to the relevant date for payment of any interest, or the redemption date (for Zero Coupon Notes), and, in the case of domestically cleared Notes, prior to the transfer of Notes, as the case may be.

The following is a general description of the rules and procedures on the proof required for the exemption to apply at source, as they stand on the date of this Offering Circular.

The beneficial owner of Notes must provide proof of non-residence in Portuguese territory substantially in the terms set forth below.

- (i) If a holder of Notes is a central bank, a public law entity or agency or an international organisation recognised by the Portuguese state, a declaration of tax residence issued by the holder of Notes, duly signed and authenticated or proof pursuant to sub-paragraph (iv) below;
- (ii) If the beneficial owner of Notes is a credit institution, a financial company, pension fund or an insurance company domiciled in any OECD country or in a country or jurisdiction with which Portugal has entered into a double taxation treaty, and is subject to a special supervision regime or administrative registration, certification shall be made by means of the following: (A) its tax identification; or (B) a certificate issued by the entity responsible for such supervision or registration confirming the legal existence of the holder of Notes and its domicile; or (C) proof of non-residence, pursuant to the terms of sub-paragraph (iv) below;
- (iii) If the beneficial owner of Notes is either an investment fund or other type of collective investment undertaking domiciled in any OECD country or any country with which Portugal has entered into a double tax treaty or a tax information exchange agreement in force, certification shall be provided by means of any of the following documents: (A) declaration issued by the entity which is responsible for its registration or supervision or by the tax authorities, confirming its legal existence and the law of incorporation; or (B) proof of non-residence pursuant to the terms of sub-paragraph (iv) below;
- (iv) In any other case, confirmation must be made by way of (A) a certificate of residence or equivalent document issued by the relevant tax authorities, or (B) a document issued by the relevant Portuguese consulate certifying residence abroad, or (C) a document specifically issued by an official entity of the public administration (either central, regional or peripheral, indirect or autonomous) of the relevant country certifying the residence; for these purposes, an identification document such as a passport or an identity card or document by means of which it is only indirectly possible to assume the relevant tax residence (such as a work or permanent residency permit) is not acceptable.

There are rules on the authenticity and validity of the documents mentioned in sub-paragraph (iv) above, in particular that the holder of Notes must provide an original or a certified copy of the residence certificate or equivalent document. This document must be issued up to until three months after the date on which the withholding tax would have been applied and will be valid for a 3-year period starting on the date such document is issued. The holder of Notes must inform the register entity immediately of any change that may preclude the tax exemption from applying. In the other cases, proof of non-residence is required only

once, the beneficial owner having to inform the register entity of any changes that impact the entitlement to the exemption.

2. United Kingdom Taxation

The following is a summary of the Issuer's understanding of current United Kingdom law and published HM Revenue and Customs' practice relating only to the United Kingdom withholding tax treatment of payments of interest (as that term is understood for United Kingdom tax purposes) in respect of Notes. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of Notes. The United Kingdom tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Payments of interest on the Notes that does not have a United Kingdom source may be made without deduction or withholding on account of United Kingdom income tax. If interest paid on the Notes does have a United Kingdom source, then payments may be made without deduction or withholding on account of United Kingdom income tax in any of the following circumstances.

The Issuer will be entitled to make payments of interest on the Notes without deduction of or withholding on account of United Kingdom income tax provided that:

- (i) the Issuer is and continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 ("ITA 2007"); and
- (ii) the interest on the Notes is and continues to be paid in the ordinary course of the Issuer's business within the meaning of section 878 ITA 2007.

Payments of interest on the Notes may be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes carry a right to interest and the Notes are and continue to be listed on a "recognised stock exchange" within the meaning of section 1005 of the Income Tax Act 2007. Provided, therefore, that the Notes carry a right to interest and are and remain listed on a "recognised stock exchange", interest on the Notes will be payable without deduction of or withholding on account of United Kingdom tax.

In other cases, an amount must generally be withheld from payments of interest on the Notes that has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20%), subject to any other available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, HMRC can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

3. Irish Taxation

The following is a summary of the Irish withholding tax treatment of the Notes. It is based on the laws and practice of the Revenue Commissioners of Ireland currently in force in Ireland as at the date of this Offering Circular and may be subject to change. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Notes. Prospective investors in the Notes should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of payments thereon under any laws applicable to them.

- (a) Withholding Tax

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source income. The Issuer will not be obliged to withhold Irish income tax from payments of interest on the Notes so long as such payments do not constitute Irish source income. Interest paid on the Notes should not be treated as having an Irish source unless:

- (i) The Issuer is resident in Ireland for tax purposes; or
- (ii) the Issuer has a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Notes; or
- (iii) the Issuer is not resident in Ireland for tax purposes but the register for the Notes is maintained in Ireland or (if the Notes are in bearer form) the Notes are physically held in Ireland.

It is anticipated that, (A) the Issuer is not and will not be resident in Ireland for tax purposes; (B) the Issuer will not have a branch or permanent establishment in Ireland; (C) that bearer Notes will not be physically located in Ireland; and (D) the Issuer will not maintain a register of any registered Notes in Ireland.

In any event, an exemption from withholding on interest payments exists under Section 64 of the Taxes Consolidation Act 1997 of Ireland for certain interest bearing securities ("**quoted Eurobonds**") issued by a body corporate (such as the Issuer) which are quoted on a recognised stock exchange (which would include Euronext Dublin).

Any interest paid on such quoted Eurobonds can be paid free of withholding tax provided:

- (I) the person by or through whom the payment is made is not in Ireland; or
- (II) the payment is made by or through a person in Ireland, and either:
 - (1) the quoted Eurobond is held in a clearing system recognised by the Irish Revenue Commissioners (Euroclear and Clearstream, Luxembourg are so recognised), or
 - (2) the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as an Irish paying agent) in the prescribed form.

So long as the Notes are quoted on a recognised stock exchange and are held in Euroclear and/or Clearstream, Luxembourg, interest on the Notes can be paid by the Issuer and any paying agent acting on behalf of the Issuer without any withholding or deduction for or on account of Irish income tax.

(b) Taxation of Noteholders

Notwithstanding that a Noteholder may receive interest on the Notes free of withholding tax, the Noteholder may still be liable to pay Irish income or corporation tax (and, in the case of individuals, the universal social charge) on such interest if (i) such interest has an Irish source (as discussed in 'Withholding Tax' above), (ii) the Noteholder is resident or (in the case of a person other than a body corporate) ordinarily resident in Ireland for tax purposes (in which case there would also be a social insurance (PRSI) liability for an individual in receipt of interest on the Notes) or (iii) the Notes are attributed to a branch or agency in Ireland.

However, interest on the Notes will be exempt from Irish income tax if the recipient of the interest is resident in a relevant territory (a member state of the European Union (other than

Ireland) or in a country with which Ireland has a comprehensive double taxation agreement) provided either (A) the Notes are quoted Eurobonds and are exempt from withholding tax as set out above (B) if the Notes are not or cease to be quoted Eurobonds exempt from withholding tax and the recipient of the interest is a company resident in a relevant territory that generally taxes foreign source interest.

Ireland operates a self-assessment system in respect of income and corporation tax and each person must assess its own liability to Irish tax.

(c) **Withholding of Irish Encashment Tax**

Payments on any Notes paid by a paying agent in Ireland or collected or realised by an agent in Ireland acting on behalf of the beneficial owner of Notes will be subject to Irish encashment tax at the standard rate of Irish tax (currently 20 per cent.), unless it is proved, on a claim made in the required manner to the Revenue Commissioners of Ireland, that the beneficial owner of the Notes entitled to the interest or distribution is not resident in Ireland for the purposes of Irish tax and such interest or distribution is not deemed, under the provisions of Irish tax legislation, to be income of another person that is resident in Ireland.

4. Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by "**foreign financial institutions**" ("**foreign passthru payments**"), (ii) dividend equivalent payments and (iii) payments of gross proceeds from the disposition of securities that generate dividend equivalent payments, in each case, to persons that fail to meet certain certification, reporting or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Portugal) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments or payments of gross proceeds from the disposition of Notes that generate dividend equivalent payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be "grandfathered" for the purposes of FATCA withholding unless materially modified after such date. The grandfathering date for (A) Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the U.S. Federal Register, and (B) Notes that give rise to a dividend equivalent pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional notes (as described under Condition 14 that are not distinguishable from such previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA.

Holders should consult their own tax advisers regarding how these rules may apply to their investment in Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

5. The proposed financial transactions tax ("FTT")

On 14 February 2013, the EC published a proposal (the "**Commission's Proposal**") for a Directive for an FTT in Belgium, Germany, Greece, Spain, France, Italy, Austria, Portugal, Slovenia, Slovakia (the "**participating Member States**") and Estonia. However, Estonia has since stated that it will not participate.

The Commission's Proposal has a very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional European Union Member States may decide to participate. Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

6. Administrative co-operation in the field of taxation

Council Directive 2011/16/EU, as amended by Council Directive 2014/107/EU, of 9 December 2014, introduced the automatic exchange of information in the field of taxation concerning bank accounts and is in accordance with the Global Standard released by the Organisation for Economic Co-operation and Development in July 2014.

Under Council Directive 2014/107/EU, financial institutions are required to report to the tax authorities of their respective Member State (for the exchange of information with the state of residence) information regarding bank accounts, including depository and custodial accounts, held by individual persons residing in a different Member State or entities which are controlled by one or more individual persons residing in a different Member State, after having applied the due diligence rules foreseen in the Council Directive. The information refers not only to personal information such as name, address, state of residence, tax identification number and date and place of birth, but also to the account balance at the end of the calendar year, and (a) in case of depository accounts, the total gross amount of interest paid or credited to the account during the calendar year; or, (b) in the case of custodial accounts, the total gross amount of interest, dividends and any other income generated, as well as the proceeds from the sale or redemption of the financial assets paid or credited in the account during the calendar year to which the financial institution acted as custodian, broker, nominee, or otherwise as an agent for the account holder, among others.

Portugal has implemented Directive 2011/16/EU through Decree-Law No. 61/2013, of 10 May 2013. Also, Council Directive 2014/107/EU was implemented through Decree-Law No. 64/2016 of 11 October 2016. Recently, Law no. 17/2019, of 14 February 2019, introduced the regime for the automatic exchange of financial information to be carried out by financial

institutions to the Portuguese Tax Authority with respect to accounts held by holders or beneficiaries resident in the Portuguese territory with a balance or value that exceeds € 50,000. This regime covers information related to years 2018 and following.

CLEARING AND SETTLEMENT

To the best of the knowledge of the Bank (having taken all reasonable care to ensure that such is the case), the information in this section concerning Interbolsa is correct as of the date of this Offering Circular. The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of Interbolsa currently in effect. Investors wishing to use the facilities of Interbolsa are advised to confirm the continued applicability of the rules, regulations and procedures of Interbolsa. The Issuer, any agent party to the Agency Terms, the Arranger or any of the Dealers will have no responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Notes held through the facilities of Interbolsa or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

General

Interbolsa holds security through a centralised system (*sistema centralizado*) composed by interconnected securities accounts, through which such securities (and inherent rights) are held and transferred, and which allows Interbolsa to control at all times the amount of securities so held and transferred. The centralised securities system of Interbolsa provides for all procedures required for the exercise of ownership rights inherent to the Notes.

In relation to each issue of securities, Interbolsa's centralised system comprises, inter alia, (a) the issue account, opened by the Issuer in the centralised system and which reflects the full amount of issued securities; and (b) the control accounts opened by each of the financial intermediaries which participate in Interbolsa's centralised system, and which reflect the securities held by such participant on behalf of its customers in accordance with its individual securities accounts.

Notes will be attributed an International Securities Identification Number code ("**ISIN**") through the codification system of Interbolsa (and if applicable any other relevant financial instrument codes, such as a Classification of Financial Instruments code ("**CFI**") and a Financial Instrument Short Name code ("**FISN**"). Notes will be accepted and registered with Central de Valores Mobiliários, the centralised securities system managed and operated by Interbolsa and settled by Interbolsa's settlement system.

Form of the Notes

The Notes of each Series will be in book entry form and title to the Notes will be evidenced by book entries in accordance with the provisions of the Portuguese Securities Code (*Código dos Valores Mobiliários*) and the applicable CMVM and Interbolsa regulations. No physical document of title will be issued in respect of the Notes.

The Notes of each Series will be registered in the relevant issue account opened by the Issuer with Interbolsa and will be held in control accounts by each Interbolsa Participant (as defined below) on behalf of the holders of the Notes. Such control accounts reflect at all times the aggregate of Notes held in the individual securities accounts opened by the holders of the Notes with each of the Interbolsa Participants. The expression "**Interbolsa Participant**" means any authorised financial intermediary entitled to hold control accounts with Interbolsa on behalf of their customers and includes any depositary banks appointed by Euroclear and Clearstream, Luxembourg for the purpose of holding accounts on behalf of Euroclear and Clearstream, Luxembourg.

Each person shown in the records of an Interbolsa Participant as having an interest in Notes shall be treated as the holder of the principal amount of the Notes recorded therein.

Payment of principal and interest in respect of Notes

Payment of principal and interest in respect of the Notes will be (i) credited, according to the procedures and regulations of Interbolsa, by the Agent (acting on behalf of the Issuer) to the accounts used by the Interbolsa Participants for payments in respect of securities held through Interbolsa and thereafter (ii) credited by such Interbolsa Participants from the aforementioned accounts to the accounts of the owners

of those Notes or through Euroclear and Clearstream, Luxembourg to the accounts with Euroclear and Clearstream, Luxembourg of the beneficial owners of those Notes, in accordance with the rules and procedures of Interbolsa, Euroclear or Clearstream, Luxembourg, as the case may be.

Transfer of Notes

Notes may, subject to compliance with all applicable rules, restrictions and requirements of Interbolsa and Portuguese law, be transferred to a person who wishes to hold such Notes. No owner of Notes will be able to transfer such Notes, except in accordance with Portuguese Law and the applicable procedures of Interbolsa.

SUBSCRIPTION AND SALE AND TRANSFER RESTRICTIONS

The Programme Dealers, pursuant to an amended and restated dealer agreement dated 15 May 2019 (as amended, restated or supplemented from time to time, the "**Dealer Agreement**"), have agreed with the Issuer on the terms upon which any one or more of the Programme Dealers may from time to time agree to purchase (as principal, unless the applicable Final Terms states otherwise) Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*"; "*Form of Final Terms*"; and "*Terms and Conditions of the Notes*" above. In the Dealer Agreement, the Issuer has agreed to reimburse the Programme Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme. The Issuer may also agree to issue Notes to Issue Dealers who shall enter into the Dealer Agreement with the Issuer for the purpose only of a particular issue or issues of Notes under the Programme on, and subject to, the terms of the Dealer Agreement. Dealers will be entitled in certain circumstances to be released from their obligations under the Dealer Agreement in respect of the issue and purchase of Notes under the Programme.

United States

The Notes have not been and will not be registered under the Securities Act, or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder. The applicable Final Terms will identify whether TEFRA C rules apply or whether TEFRA is not applicable.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution of all Notes of the Tranche of which such Notes are a part, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Offering Circular as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Directive; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specifies “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, in relation to each Member State of the EEA which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Programme Dealer has represented and agreed, and each further Programme Dealer or Issue Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Offering Circular as completed by the final terms in relation thereto to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a “**Non-exempt Offer**”), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in paragraphs (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “**Prospectus Directive**” means Directive 2003/71/EC (as amended or superseded) and, where the context so requires, includes any relevant implementing measure in the Relevant Member State.

United Kingdom

Each Programme Dealer has represented and agreed, and each further Programme Dealer or Issue Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the "**FSMA**")) received by it in connection with the issue of any Notes in circumstances in which Section 21(1) of the FSMA would not, if it was not an authorised person, apply to the Issuer; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Portugal

Each Programme Dealer has represented and agreed, and each further Programme Dealer or Issue Dealer appointed under the Programme will be required to represent and agree, that the Notes may not be and will not be offered to the public in Portugal under circumstances which are deemed to be a public offer under the Portuguese Securities Code ("*Código dos Valores Mobiliários*") enacted by Decree Law No. 486/99, of 13 November 1999, as amended (or under any legislation which may replace or complement it in this respect from time to time), unless the requirements and provisions applicable to the public offerings in Portugal are met and the registration or approval by the Portuguese Securities Market Commission ("*Comissão do Mercado de Valores Mobiliários*") (the "**CMVM**") is obtained or a recognition procedure is made with the CMVM. In addition, each Programme Dealer has represented and agreed, and each further Programme Dealer or Issue Dealer appointed under the Programme will be required to represent and agree that (a) it has not directly or indirectly taken any action or offered, advertised, marketed, invited to subscribe, gathered investment intentions, sold or delivered and will not directly or indirectly take any action, offer, advertise, invite to subscribe, gather investment intentions, sell, re-sell, re-offer or deliver any Notes in circumstances which could qualify as a public offer ("*oferta pública*") of securities pursuant to the Portuguese Securities Code (or under any legislation which may replace or complement it in this respect from time to time), notably in circumstances which could qualify as a public offer addressed to individuals or entities resident in Portugal or having permanent establishment located in Portuguese territory, as the case may be; and (b) it has not distributed, made available or caused to be distributed and will not distribute, make available or cause to be distributed the Offering Circular or any other offering material relating to the Notes to the public in Portugal other than in compliance with all applicable provisions of the Portuguese Securities Code (or under any legislation which may replace or complement it in this respect from time to time), any regulations implementing the Prospectus Directive, and any applicable CMVM Regulations and all relevant Portuguese securities laws and regulations, in any such case that may be applicable to it in respect of any offer or sale of Notes by it in Portugal or to individuals or entities resident in Portugal or having a permanent establishment located in Portuguese territory, as the case may be including the publication of a base prospectus, when applicable, and that such placement shall only be authorised and performed to the extent that there is full compliance with such laws and regulations.

France

Each of the Dealers has represented and agreed that:

- (a) Public Offer in France:

It has only made and will only make an offer of Notes to the public in France following the notification of the approval of the Offering Circular to the *Autorité des marchés financiers* ("**AMF**") by the Central Bank and in the period beginning on the date of publication of the Final Terms relating to the offer of Notes and ending at the latest on the date which is 12 months after the date of the approval of the Offering Circular by the Central Bank all in accordance with Articles

L.412-1 and L.621-8 of the French *Code monétaire et financier* and the *Règlement général* of the AMF;
or

(b) Private placement in France:

It has not offered or sold and will not offer or sell, directly or indirectly, Notes to the public in France, and it has not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in France, the Offering Circular, the relevant Final Terms or any other offering material relating to the Notes and that such offers, sales and distributions have been and will be made in France only to (a) providers of investment services relating to portfolio management for the account of third parties and/or (b) qualified investors (*investisseurs qualifiés*) all as defined in, and in accordance with, articles L.411-1, L.411-2, D.411-1 and D.411-4 of the French *Code monétaire et financier*.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the "**FIEA**"). Each Programme Dealer has agreed, and each further Programme Dealer or Issue Dealer appointed under the Programme will be required to represent and agree, that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

Republic of Italy

The offering of the Notes has not been registered pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of the Offering Circular or of any other document relating to the Notes be distributed in the Republic of Italy, except:

- (i) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the "**Financial Services Act**") and Article 34-ter, first paragraph, letter b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended from time to time ("**Regulation No. 11971**"); or
- (ii) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and Article 34-ter of Regulation No. 11971.

Any offer, sale or delivery of the Notes or distribution of copies of the Offering Circular or any other document relating to the Notes in the Republic of Italy under (i) or (ii) above must:

- (a) be made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, CONSOB Regulation No. 20307 of 15 February 2018 (as amended from time to time) and Legislative Decree No. 385 of 1 September 1993, as amended (the "**Banking Act**"); and
- (b) comply with any other applicable laws and regulations or requirement imposed by CONSOB, the Bank of Italy (including the reporting requirements, where applicable, pursuant to Article 129 of the Banking Act and the implementing guidelines of the Bank of Italy, as amended from time to time) and/or any other Italian authority.

Investors should also note that in connection with the subsequent distribution of the Notes (with a minimum denomination lower than €100,000 or its equivalent in another currency) in the Republic of Italy, in accordance with Article 100-bis of the Financial Services Act, where no exemption from the rules on public offerings applies under paragraphs (a) or (b) above, the subsequent distribution of the Notes on the secondary market in Italy must be made in compliance with the public offer and the prospectus requirement rules provided under the Financial Services Act and Regulation No. 11971. Failure to comply with such rules may result in the sale of such Notes being declared null and void and in the liability of the intermediary transferring the Notes for any damages suffered by investors.

General

Each Programme Dealer has agreed, and each further Programme Dealer or Issue Dealer appointed under the Programme will be required to agree, that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction, in particular **Australia**, **South Africa** and **Canada**, to which it is

subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor any Dealer shall have any responsibility therefor.

Neither the Issuer nor any Dealer represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, in particular **Australia, South Africa** and **Canada** or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

GENERAL INFORMATION

Authorisation

The establishment and update of the Programme have been duly authorised by resolutions of the Board of Directors of the Bank dated 3 September 1998, 9 November 1999, 20 November 2000, 7 December 2001, 16 December 2002, 14 November 2003, 12 November 2004, 7 December 2005, 11 September 2006, 2 April 2007, 22 April 2008, 21 April 2009, 19 April 2010, 5 April 2011 and 16 October 2017 and by resolutions of the Executive Committee of the Bank dated 19 June 2012, 2 July 2013, 5 August 2014, 20 October 2015, 13 December 2016, 10 November 2017, 11 September 2018 and 8 May 2019 and the increase in the Programme limit was authorised by resolutions of the Board of Directors of the Bank dated 9 November 1999, 20 November 2000, 7 December 2001, 14 November 2003, 12 November 2004, 7 December 2005, 11 September 2006 and 2 April 2007.

Listing of Notes

The admission of Notes to the Official List will be expressed as a percentage of their nominal amount (excluding accrued interest). It is expected that each Tranche of Notes which is to be admitted to the Official List and to trading on Euronext Dublin's regulated market will be admitted separately as and when issued, subject only to the issue of the relevant Note. Application has been made to Euronext Dublin for the Notes issued under the Programme during the period of twelve months from the date of this Offering Circular to be admitted to the Official List and to trading on the Euronext Dublin's regulated market. The approval of the Programme in respect of the Notes was granted on or about 15 May 2019.

Documents Available

For the period of 12 months, following the date of this Offering Circular, physical copies of the following documents will, when published, be available throughout the life of the Programme from the registered office of the Issuer and from the specified office of the Paying Agents:

- (a) the constitutional documents (in English) of the Issuer;
- (b) the published audited consolidated financial statements of the Banco Comercial Português Group in English and auditors' report contained in the Bank's Annual Report for the two financial years ended on 31 December 2017 and 31 December 2018;
- (c) the most recently available published unaudited interim condensed consolidated balance sheet and interim condensed consolidated income statement of the Bank;
- (d) the Agency Terms and the Instrument;
- (e) copy of this Offering Circular; and
- (f) any future offering circulars, prospectuses, information memoranda, supplements and Final Terms to this Offering Circular and any other documents incorporated herein or therein by reference.

The information mentioned in paragraphs (a) to (c) above represent an accurate translation from their original Portuguese form. In the event of a discrepancy the original Portuguese version will prevail.

Clearing Systems

The Notes will be accepted for clearance through Interbolsa. The appropriate ISIN (and any other relevant financial instrument codes, such as CFI and FISN) for each Tranche of Book Entry Notes will be specified in the applicable Final Terms.

The address of Interbolsa is Avenida da Boavista, 3433, 4100-138 Oporto.

Conditions for determining price

The price and amount of Notes to be issued under the Programme will be determined by the Issuer and each relevant Dealer at the time of issue in accordance with prevailing market conditions.

Yield

In relation to any Tranche of Fixed Rate Notes, an indication of the yield in respect of such Notes will be specified in the applicable Final Terms. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price, using the formula set out below. The yield indicated will be calculated as the yield to maturity as at the Issue Date of the Notes and will not be an indication of future yield.

$$P = \frac{C}{r}(1 - (1+r)^{-n}) + A(1+r)^{-n}$$

Where:

"P" is the Issue Price of the Notes;

"C" is the annualised amount of interest payable;

"A" is the principal amount of Notes due on redemption;

"n" is time to maturity in years; and

"r" is the annualised yield.

Significant or Material Change

There has been no significant change in the financial or trading position of the Banco Comercial Português Group since 31 March 2019. There has been no material adverse change in the prospects of the Bank or Banco Comercial Português Group since the date of the last audited annual accounts, 31 December 2018²⁵.

Litigation

1. In 2012, the Portuguese Competition Authority initiated an administrative proceeding relating to competition restrictive practices. During the investigations, on 6 March 2013, several searches were conducted in the Bank's premises, as well as to at least eight other credit institutions, where documentation was seized in order to investigate allegations of exchange of privileged commercial information among Portuguese banks.

The Portuguese Competition Authority has declared the administrative proceeding to stay under judicial secrecy, once it considered that the interests dealt with in the investigation, as well as the parties' rights, would not be compatible with the publicity of the process. On 2 June 2015, the Bank was notified of the Portuguese Competition Authority's notice of illegality in connection with an administrative offence, by which the Bank is accused of participating in an information exchange between banks of the system related to prices already approved and housing and consumer credit operations already granted or approved. In light of the accusations, the Bank filed a response to the note of illegality, to which may follow a judicial appeal. Note that the notification of a note of illegality does not constitute a final decision in relation to the accusations. According to the terms foreseen in the law, the illicit under investigation in this administrative proceeding may be punished with a fine up to a maximum limit of 10% of the defendant's annual consolidated turnover with reference to the year preceding the decision. However, judicial appeal against

²⁵ The audited financial statements for the financial year ended 31 December 2018 will be subject to the approval of the general meeting of shareholders to be held on the 22 May 2019.

such decision is possible. In October 2016, the Lisbon Court of Appeals overruled an earlier decision by the Competition, Regulation and Supervision Court to suspend the Competition Authority's investigation.

On 4 July 2017, the Competition Authority notified the Bank on the decision regarding the withdrawal of the suspension concerning the access to documents deemed as confidential and of the extension of the term for the making of a decision on the illicit act for more 40 days. The Portuguese Competition Authority refused the Bank's application for confidential treatment of some of the information in the Bank's defence against the notice of illegal act. In June 2018 the Bank filed an appeal with the Portuguese Competition, Regulation and Supervision Court (which is pending) and filed its defence against the notice of illegal act in a non-confidential version.

On 5 November 2018, the Bank was notified of the ruling of the Portuguese Competition, Regulation and Supervision Court, that gives approval to the appeal presented by BCP, on the subject of secrecy, accepting, in its essence, our argument that the Portuguese Competition Authority, infringed on the right to a prior hearing.

On 25 January 2019, the PCA granted the Bank a 10-business day period to provide summaries for the co-defendants' confidential information. On 4 February 2019, the Bank filed an appeal before the Competition Court and, on 11 February 2019, submitted a reply to the PCA (although restating its opposition to the PCA's request).

2. On 20 October 2014, the Bank became aware of a class action brought against Bank Millennium by a group of borrowers represented by the Municipal Consumer Ombudsman in Olsztyn. As other Polish banks in a similar situation, Bank Millennium was in the meantime notified of such class action, which seeks to assess the institution's "illicit" enrichment from certain clauses contained in the mortgage loan agreements denominated in Swiss francs. In the referred class action, clients have questioned a set of those agreements' clauses, notably those related with the spread bid-offer between Polish zloty and Swiss francs applicable in the conversion of credits. On 28 May 2015, the Regional Court of Warsaw issued a decision rejecting the class action on the grounds that the case cannot be heard in class action proceedings. The decision of the Regional Court of Warsaw is not final. On 3 July 2015, the claimants filed an appeal against this decision and the Court of Appeal upheld the appeal by refusing the dismissal of the claim.

On 31 March 2016, the Regional Court in Warsaw issued a decision dismissing the Bank's motion for a security deposit to secure litigation costs. On 6 April 2016, the Bank filed an appeal against this decision.

On 17 February 2016, the claimant filed a submission with the Regional Court in Warsaw, extending the claim again to include 1,041 group members. Bank Millennium has not yet been notified of this submission.

On 2 August 2016 the Regional Court in Warsaw issued a decision ordering the publication of an announcement in the press concerning the commencement of action proceedings. Following the Bank's motion to repeal this decision, the Court suspended its execution, but, on 8 August 2016, it issued another decision for the case to be heard in the group action proceedings. On 31 August 2016, the Bank appealed this decision. On 16 December 2016 the Court of Appeal in Warsaw overruled decision of the Regional Court for the case to be heard in group action proceedings and referred the request for the case to be heard in group action proceedings to the Regional Court for re-examination. At a hearing on 15 March 2017 the Regional Court issued decision for the case to be heard in group action proceedings. On 18 April 2017 the Bank filed an appeal against the above decision; the date of reviewing the case by the Court of Appeal in Warsaw has not been scheduled yet. On 30 June 2017 the claimant filed a submission with the Regional Court in Warsaw, extending the claim again by a further 676 group members. The new value of the subject matter of the dispute was indicated as approx. PLN 132.7 million (approx. EUR 31 million, including the values provided in the statement of claim and the previous submissions concerning extension of the claims dated 4 March 2015 and 17 February 2016). The submission dated 30 June 2017 extending the claim has not yet been served on the Bank's counsel. On 28 September 2017 the Court of Appeal in Warsaw issued a decision dismissing the Bank's appeal against the decision of the Regional Court in

Warsaw dated 15 March 2017; thus, the decision for the case to be heard in group action proceedings became final. On 20 November 2017 the Regional Court in Warsaw issued a decision ordering the publication of an announcement in the "Rzeczpospolita" newspaper concerning the commencement of group action proceedings. The announcement was published on 23 January 2018; the deadline for further borrowers to join the proceedings was 23 April 2018.

In the last extension of claim (dated 24 April 2018), 382 new borrowers declared their accession to the group. Including all previous extensions of claim, the total number of declared members of the group is currently approx. 5,400 persons, while the total value of the subject matter of the dispute was indicated as approx. PLN 146 million (approx. EUR 34 million). The next stage of the proceedings will be establishing the composition of the group. As yet, the Regional Court in Warsaw has not set a deadline for the Bank to challenge the membership of particular individuals in the group.

On 3 December 2015, Bank Millennium received notice of a class action lawsuit lodged by a group of 454 borrowers represented by the Municipal Consumer Ombudsman in Olsztyn pertaining to low down payment insurance used with CHF-indexed mortgage loans. The plaintiffs demand the payment of the amount of PLN 3.5 million (approx. EUR 0.83 million) claiming for some clauses of the agreements pertaining to low down-payment insurance to be declared null and void. The Bank already contested the claim, demanding that the lawsuit be dismissed. The first hearing took place on 13 September 2016, the Court having ruled that the proceedings were admitted. On 16 February 2017, the Court of Appeal denied the appeal brought forward by the Bank and the previous sentence became definitive. On 30 March 2017 the Regional Court in Warsaw dismissed Bank's motion to oblige the plaintiff to provide security for costs of proceedings. On 10 April 2017 Bank filed a complaint to the Court of Appeal in Warsaw against the decision dismissing the motion to provide security. On 13 September 2017, the Court of Appeal in Warsaw dismissed the complaint against the decision of the Regional Court in Warsaw of 30 March 2017 on dismissal of the motion to provide security. The Regional Court in Warsaw announced the initiation of group proceedings in the daily newspaper "Rzeczpospolita", thus setting a period of three months for submitting statements on joining the group by the interested parties. Pursuant to the court's order, the representative of the group filed with the Regional Court in Warsaw an update list of all the members of the group amounting to 709 persons and lodged a further claim for slightly above 5 million PLN altogether.

On 1 October 2018, the group's representative corrected the total amount of claims pursued in the proceedings and submitted a revised list of all group members, covering a total of 697 borrowers and 432 loan agreements. The value of the subject of the dispute, as updated by the claimant, is PLN 7,371,107.94.

On 21 November 2018, the Bank filed objections regarding the membership of individual persons in the group. The court also ordered the Bank to submit its objections as to the revised list of all group members by 28 January 2019.

The next stage of the proceedings is establishing the composition of the group (i.e. determining whether all persons who joined the proceedings may participate in the group).

3. On 28 December 2015 and 5 April 2016, Bank Millennium was notified of two cases filed by PCZ SA in the amount of PLN 150 million (approx. EUR 34.3 million) and by Europejska Fundacja Współpracy Polsko - Belgijskiej / European Foundation for Polish-Belgian Cooperation ("**EFWP-B**"), in the amount of PLN 521.9 million (approx. EUR 119.4 million) based on the same grounds. The claimants allege in their petitions that Bank Millennium misrepresented certain contractual clauses, which determined the maturity of the credits, causing losses to the claimants. In the case brought by EFWP-B a decision of the first instance of the Warsaw Regional Court is pending. As regards the case brought by PCZ SA, on 7 April 2017 the Wroclaw Regional Court (first instance) issued a verdict favourable to Bank Millennium by rejecting the case. The plaintiff has lodged an appeal. On 21 December 2017, the Appeal Court of second instance in Wroclaw has issued a verdict favourable to the Bank dismissing the appeal. This decision is final.

The Bank is requesting complete dismissal of the suit, stating disagreement with the charges raised in the claim. Supporting the position of the Bank, the Bank's attorney submitted a binding copy of final verdict of Appeal Court in Wroclaw favourable to the Bank, issued in the same legal state in the action brought by PCZ S.A. against the Bank.

Favourable forecasts for the Bank, as regards dismissal of the suit brought by EFWP-B to the Warsaw Regional Court, have been confirmed by a renowned law firm representing the Bank in this proceeding.

4. On 19 January, 2018 the Bank has received the lawsuit petition of First Data Polska SA requesting the payment of 186.8 mln PLN (approx. EUR 43.5 million). First Data claims a share in an amount which the Bank has received in connection with the Visa Europe takeover transaction by Visa Inc. The plaintiff based its request on an agreement with the Bank on cooperation in scope of acceptance and settlement of operations conducted with the usage of Visa cards. The Bank does not accept the claim and filed the response to the lawsuit petition within the deadline set forth in the law.

5. On 3 January 2018, Bank Millennium was notified of a decision of the President of the Office of Competition and Consumer Protection ("UOKiK"), in which the President of UOKiK found infringement by the Bank of the rights of consumers. In the opinion of the President of UOKiK, the essence of the violation was that the Bank informed consumers (connected with 78 agreements), in response to their complaint, that the court verdict stating the abusiveness of the provisions of the loan agreement regarding exchange rates did not apply to them. According to the position of the President of UOKiK, the abusiveness of contract's clauses determined by the court in the course of abstract control is constitutive and effective for every contract from the beginning. As a result of the decision, the Bank had to: 1) send information of the UOKiK decision to the said 78 clients ; 2) post the information on the decision and the decision itself on the website and on twitter, which it has already done; and 3) to pay a fine amounting to 20.7 mln PLN. The decision on the fine is not immediately enforceable. The decision of the President of UOKiK is not final. The Bank does not agree with this decision and lodged an appeal within the statutory time limit.

6. In October 2015, a set of companies connected to a group which has debts in default towards the Bank in the amount of approximately EUR 170 million, resulting from a financing agreement entered into in 2009 – such debts having been fully provisioned for in the Bank's accounts – brought a judicial proceeding against the Bank, after having received a notification from the Bank enforcing payment of such debts. In the judicial proceedings it is envisaged:

- (a) to deny the obligation of payment of those debts, by arguing the voidness and nullity of the respective agreement, but without the correspondent obligation of returning the amounts received;
- (b) that the Bank is also convicted to bear the amounts of approximately EUR 90 million and EUR 34 million related to other debts contracted by those entities with other banking institutions, as well as the amounts, in a total sum of approximately EUR 26 million, that the debtors would have already paid in the context of the respective financing agreements; and
- (c) to declare that the Bank is the owner of the object of the pledges associated with said financing agreements, which corresponds to approximately 340 million shares of the Bank itself, allegedly acquired at the request of, on behalf of and in the interest of the Bank.

The Bank has filed its defence and counterclaim, reinforcing the demand for payment of the debt. The claimants filed their statements of defence regarding the counterclaim filed by the Bank and the Bank replied to those statements in July 2016.

The Court issued a decision establishing the facts that are considered to be proven and those that must still be proven in court. The parties presented their requests for proof and each of the parties appointed its

expert. The Court shall now issue a decision regarding the proof requested by the parties and appoint the third expert.

7. In 2013, the Bank filed a lawsuit against a former Chairman of its Board of Directors, his wife and an insurance company, requesting mainly that the following be recognised: (a) that the amount of the retirement instalments of the former Chairman, to be paid by the Bank, cannot exceed the highest fixed remuneration earned by the directors exercising functions in the Bank at any moment; (b) that the former Chairman cannot maintain, at the Bank's expenses, the unique benefits he had when still in active functions; and (c) that the wife of the former Chairman cannot benefit from a survival lifelong pension paid by the Bank in case of death of the former Chairman, under conditions different from the ones foreseen for the majority of the Bank's employees.

On 25 May 2018 the court rejected the request made by the Bank consisting in the reduction of the pensions paid and to be paid and partially accepted a counter-claim, sentencing the Bank to compensate him for certain past and future expenses (that, as incurred as at 16 June 2016, the court computed in the amount of EUR 2,124,923.97), plus default interest accounted at the legal rate of 4% per year since the date of the reimbursement request up to their effective and full payment.

The Bank disagrees with the interpretation adopted by the court and, on 12 July 2018, appealed to the Lisbon Court of Appeals.

The lower stage court had to annul the sentence mentioned above.

After several procedural extraordinary events, on 27 January 2019, the Court issued a new decision, which fully reproduces the previous one issued on 25 May 2018 as detailed above.

BCP appealed the sentence to the Lisbon Court of Appeals requesting that the same be revoked and replaced by a decision accepting all the requests presented by the Bank. The Bank considers that the Court decided incorrectly in what regards evidence, namely regarding the relevant legal issues, and that the appeal has good chances of success, namely because, concerning the amounts received by the former director, the sentence upholds an original interpretation of the limit of article 402, no. 2, of the Portuguese Companies Code, going against all court decisions issued by superior courts and most of all the prior doctrine on these issues.

Save as disclosed in this section entitled "Litigation" there are no, nor have there been any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) during the 12 months before the date of this document which may have or have had in the recent past a significant effect on the financial position or profitability of the Issuer or the Group.

Auditors

The current auditors of the Bank are Deloitte & Associados – Sociedade de Revisores Oficiais de Contas, S.A. ("**Deloitte**") (which is a member of the Portuguese Institute of Statutory Auditors ("*Ordem dos Revisores Oficiais de Contas*")), with registered office at Av. Eng. Duarte Pacheco, 7, 1070-100 Lisbon.

The consolidated financial statements of the Banco Comercial Português Group for the financial years ended on 31 December 2017 and 31 December 2018 were prepared in accordance with IFRS as adopted by the European Union. The financial statements of the Banco Comercial Português Group were audited for each of the two years ended 31 December 2017 and 31 December 2018 by Deloitte & Associados, SROC, S.A., independent certified public accountants and members of the Portuguese Institute of Statutory Auditors (*Ordem dos Revisores Oficiais de Contas*).

All financial information in this Offering Circular relating to the Bank for the years ended on 31 December 2017 and 31 December 2018 has been extracted without material adjustment from the audited consolidated financial statements of the Bank for the financial years then ended and all financial information in this Offering Circular relating to the Bank for the three month period ended 31 March 2019

has been extracted from the unaudited and un-reviewed earnings press release and earnings presentation of the BCP Group for the three month period ended 31 March 2019.

Dealers transacting with the Issuer

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in financing, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business. They have received, or may in the future receive, customary fees and commissions for these transactions. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer or its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or its affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer in a way consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For the purposes of this paragraph, the term "**affiliates**" includes parent companies.
