## Banco Comercial Português informa sobre exercício de capital EBA

Banco Comercial Português (BCP) dá nota dos anúncios feitos hoje pela Autoridade Bancária Europeia (EBA) e pelo Banco de Portugal sobre a avaliação final do exercício de capital e cumprimento da recomendação da EBA de dezembro de 2011, que mostra o seguinte resultado para o Banco Comercial Português: Banco Comercial Português atinge os 9% de rácio *Core Tier 1*, incluindo o *buffer* soberano como indicado na recomendação da EBA de dezembro de 2011.

De acordo com o anunciado ontem, o BCP concluiu com sucesso o aumento de capital de 500 milhões de euros, permitindo ao Banco atingir, um rácio de *Core Tier one*, pro forma de 10,6% de acordo com as recomendações da EBA.

### Contexto do exercício de capital da EBA

A Recomendação da EBA na criação temporária de buffers de capital para restaurar a confiança dos mercados foi adotada pelo Conselho de Supervisão em 8 de dezembro de 2011 para refletir a situação difícil do sistema bancário da UE, especialmente a exposição soberana, para restaurar a estabilidade e confiança nos mercados. A Recomendação foi parte de um conjunto de medidas acordadas ao nível da UE.

A Recomendação apelou às Autoridades Nacionais para solicitarem aos bancos incluídos na amostra um reforço de capital através da construção de um *buffer* excecional e temporário de tal forma que atingissem um rácio de capital *Core Tier 1* de 9% no final de junho de 2012. Adicionalmente, os bancos a que foram solicitados um *buffer* de capital excecional e temporário relativo à exposição à dívida soberana de forma a refletir os preços de mercado do final de setembro de 2011. O montante do *buffer* de capital soberano não foi revisto.

A amostra inicial para o exercício de capital incluía 71 bancos. No entanto, os 6 bancos Gregos foram tratados separadamente dado que o País está atualmente sob o programa de assistência da UE/FMI. Mais ainda, em quatro bancos (Österreichische Volksbank AG, Dexia, WestLB AG e Bankia) da amostra original foram identificadas melhorias significativas nos processos de reestruturação em curso, pelo que foram monitorizados separadamente. A amostra final publicada hoje refere-se a 61 bancos.

**Notes and definitions**  
 (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees.  
 (2) The banks disclose the "long" portfolio after offsetting the cash short positions having the same maturities.  
 (3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS; financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and accounting classification of the positions, the economic substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments.  
 (4) According with CEBS Guidelines on prudential filters, it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument, i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the PV of such contracts must be reported in the column AB.  
 (5) Please report gross and net direct positions before eventual write-off (PS); in the column: provisions must be included eventual write-off (PS).
