Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

2. Ratings

The Notes to be issued are expected to be rated:

Baa2 by Moody's Investors Service España, S.A. ("**Moody's**")

In accordance with Moody's ratings definitions, obligations rated 'Baa' are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

BBB by S&P Global Ratings Europe Limited ("**S&P**")

In accordance with S&P's ratings definitions, an obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation.

BBB- by Fitch Ratings Ltd. ("**Fitch**")

In accordance with Fitch's ratings definitions, 'BBB' ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

Fitch's credit rating scale for issuers and issues is expressed using the categories 'AAA' to 'BBB' (investment grade) and 'BB' to 'D' (speculative grade) with an additional +/- for 'AA' through 'CCC' levels, indicating relative differences of probability of default or recovery for issues.

BBB (high) by DBRS Ratings GmbH ("**DBRS**")

In accordance with DBRS's ratings definitions, a long-term rating of "BBB" indicates adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.

All rating categories other than AAA and D also contain subcategories (high) and (low). The absence of either a (high) or (low) designation indicates that the rating is in the middle of the category.
