Part I – Information on Shareholder Structure, Organisation and Corporate Governance

A. Shareholding structure

I. Capital Structure

1. The capital structure (share capital, number of shares, distribution of capital by shareholders, etc.), including an indication of shares that are not admitted to trading, different classes of shares, rights and duties of same and the capital percentage that each class represents (Article 245 -A/1/a).

On the date this Report was made (March 2019) the share capital of the Bank amounted to 4,725,000,000.00 Euros, represented by 15,113,989,952 shares of a single category, nominative, book-entry, without nominal value, fully subscribed and paid up, all admitted to trading in a regulated market (Euronext Lisbon). These shares represent 100% of the share capital, confer identical rights and are fungible between them.

According to the information provided by Interbolsa, as at 31 December 2018, the number of shareholders of Banco Comercial Português totalled 159,670.

The Bank's shareholder structure continues, on 31 December 2018, to be very dispersed, with four shareholders owning more than 2% of the share capital. Of these, only two have a stake above 5%. As a whole, the shareholders with qualifying stakes represented 52.2% of the share capital.

Shareholders with more than 5 million shares represented, on 31 December of 2018, 76% of the share capital. In terms of geographic distribution, special note should be made of the weight of the shareholders in Portugal, which accounted for 31% of the total number of shareholders.

Pursuant to its articles of association, the Bank has the ability to issue shares with special rights, namely voting or non-voting preferential shares either redeemable with or without premium or not redeemable.

For the issuance of this type of shares it is necessary the adoption of a resolution by the Shareholders at the General Meeting of Shareholders by a majority of 2/3 of the votes cast.

2. Restrictions on the transfer of shares, such as clauses on consent for disposal, or limits on the ownership of shares (Article 245 -A/1/b).

The shares representing the Bank's share capital are freely transferable.

3. Number of own shares, the percentage of share capital that it represents and corresponding percentage of voting rights that corresponded to own shares (Article 245 -A/1/a).

The treasury stock (BCP shares) held by entities included in the consolidation perimeter is within the limits established by the Law and Regulations.

As at 31 December 2018, Banco Comercial Português, S.A. held no treasury stock in its own portfolio, and there were no purchases or sales of own shares throughout the period. However, on that date were recorded under Treasury Shares" 323,738 shares (31 December 2017: 323,738 shares) held by Customers. Considering that for some of these customers, whose shares serve as collateral for loans granted by the Bank or by the Group BCP, there is evidence of impairment, the Bank's shares held by these customers were considered as treasury stock and, in accordance with the accounting policies, written off from equity.

Regarding treasury stock held by associate companies of the BCP Group, pursuant to the Note to the consolidated financial statements number 52, as at 31 December 2018, Millenniumbcp Ageas - Grupo Segurador, SGPS, S.A. held 142,601,002 BCP shares, amounting to Euros 32,727,000 and on 31 December 2017, it held 142,601,002 shares, amounting to Euros 38,531,000.

The shares held by the Bank due to credit recovery process are not considered treasury stock in portfolio, as the respective sale is made in the market and in the short term.

4. Important agreements to which the company is a party and that come into effect, amend or terminated in cases such as a change in the control of the company after a takeover bid, and the respective effects, except where due to their nature, the disclosure thereof would be seriously detrimental to the company; this exception does not apply where the company is specifically required to disclose said information pursuant to other legal requirements (Article 245 -A/1/j).

Banco Comercial Português, does not adopt measures that determine payments or the assumption of expenses nor is party in significant agreements, namely agreements that become in effect, be altered or cease to be in effect in case of change in control due to a takeover bid or the alteration in the composition of the corporate bodies which may seem able of jeopardizing the economic interest in the transmission of shares and the free evaluation by the shareholders of the Director's performance.

Under its activity, the Bank has negotiated seven bilateral contracts with the European Investment Bank (EIB) and the European Investment Fund (EIF), of the overall amount of close to one thousand and three hundred million Euros, which include clauses that confer the counterparty, under certain verifiable circumstances and in line with what is usual in the type of operations in question, the right to trigger the early repayment of these values, in the event of a change to the Bank's shareholder control.

5. A system that is subject to the renewal or withdrawal of countermeasures, particularly those that provide for a restriction on the number of votes capable of being held or exercised by only one shareholder individually or together with other shareholders.

Article 26 of the Bank's Articles of Association establishes that votes cast by a single shareholder and its related entities, under the terms of number 1 of article 20 of the Securities Code, representing more than 30% of the votes of the total share capital, shall not be counted.

On the date this report was made there are no shareholders reaching the limit of 30% of the votes, as set forth in the article 26 of the Bank's Articles of Association. The amendment of this statutory provision requires the approval of 2/3 of the votes cast at the General Meeting.

The Bank's Articles of Association do not foresee the periodic review of the statutory rule that establishes the limitation of votes, however, in accordance with article 13-C of the Legal Framework for Credit Institutions and Financial Companies, these limits automatically expire at the end of each five-year period, in case a resolution is not adopted regarding their maintenance. The General Meeting of Shareholders, held on 9 November 2016, approved by a majority of 96.10% of the votes cast, the maintenance of the limitation of votes foreseen in articles 25 and 26 of the Articles of Association, and the next resolution for the maintenance of the limits must be adopted until the end of 2021. On the date of the resolution, there were no shareholders holding shares exceeding the established statutory limit.

We must underline that, the Bank considers that the rule for the limitation to voting rights, commonly referred to as "statutory ceiling on voting rights", follows the best international and national corporate governance practices in terms of statutory restrictions for significant institutions with the size, internal organisation, scope and complexity of activities such as the ones pursued by the Company.

6. Shareholders' agreements that the company is aware of and that may result in restrictions on the transfer of securities or voting rights (Article 245 -A/1/g).

The Bank is not aware of the existence of any shareholders' agreement relative to the exercise of corporate rights or transferability of the Bank's shares.

On 18 November 2016, BCP and Fosun Industrial Holdings Limited signed a Memorandum of Understanding and Subscription Agreement relating to the investment of this company in the share capital of BCP, according to which the company Chiado (Luxembourg) S.à r.l. («Chiado»), an entity part of Group Fosun, agreed to invest in BCP through the private placement of 157.437.395 new shares and committed to keep the ownership of these shares for, at least, 3 years.

Under the terms of article 5 (1) of the Bank's Articles of Association, the Board of Directors has powers to, when deemed convenient and after having obtained the favourable opinion of the Audit Committee, increase the share capital, once or more times, until the limit of the value of the existing share capital when the authorisation was granted or upon renewal of this authorisation.

The last renewal of this authorization was approved at the General Meeting of Shareholders held on 21 April 2016, when the Bank's share capital amounted to 4,094,235,361.88 Euros, and the General Meeting resolved that 20% of that increase could be made through the placement, without shareholders preference rights, with qualified or institutional investors.

The Bank's share capital was increased twice under this authorization.

The first time on 18 November 2016, amounting to 174,582,327.32 Euros, an increase reserved to Chiado (Luxembourg) S.à r.l. (Group Fosun), and on 7 February 2017, in the amount of 1,331,920,364.52 euros, in an increase with preference right for shareholders. Therefore, the ceiling for authorization to increase the capital to be resolved by the Board of Directors is established, on the date this report is made, at 2,587,732,670.04 euros.

It is also important to remind that, on 11 February 2018, the shareholders resolved at a General Meeting of Shareholders to reduce the share capital in the amount of 875,738,053.72 euros, to cover losses, and the capital was then established as amounting to 4,725,000,000.00 euros.

During 2018, the Audit Committee issued five opinions related to operations for granting and renewing credit lines and limits, and four opinions on other credit operations regarding shareholders owners of a qualifying stake or natural or legal persons related with them. In the composition of the Board of Directors there was also a reinforcement in the capacity to provide dynamics, leadership and control on the digital transformation process incorporated in the strategic plan approved for the 2018-2021 period, by means of executive and non-executive members with specific competences in these areas.

(a) Although the end of the mandate coincides with the last day of the calendar year, to which it refers, the member shall remain in office until the election of the new composition.

(b) The Director in question exercised the position of executive director in the previous term-of-office (2015/2017). The non independence is established in accordance of item 91.a. of the EBA/GL/2017/12 Guidelines of 26 September 2017.

(c) The Director in question is connected to a shareholder with a qualifying stake.

18. Distinction of the executive and non-executive members of the Board of Directors and, relating to the non-executive members, identification of the members who may be considered independent or, if applicable, identification of the independent members of the Supervisory Board

On 24 July 2018 and after obtaining a decision from the supervisor so that the elected directors could initiate functions, the Board of Directors appointed, in accordance with articles 407 (3 and 4) of the Companies Code and 35 of the Articles of Association, an Executive Committee composed by six of its members, and the Chairperson of the Executive Committee was indicated by the General Meeting of Shareholders.

On 30 May 2018, the General Meeting of Shareholders elected, from amongst the members of the Board of Directors, the Audit Committee composed by four members. On the date this Report was made, the Audit Committee is composed by three members.

In article 2 of the Articles of Association, the Bank sets forth the rule that the Board of Directors is composed by a minimum of 15 and a maximum of 19 members, elected by the General Meeting of Shareholders, this way complying with domestic and international best practices observed by similar companies, since it deems that this number of members is sufficient and adequate to the size of the company and to the complexity of the risks inherent to the activities it pursues, a number that allows it to possess a transparent organizational structure with lines of responsibility that the Bank observes.

The Executive Committee performs all of the Bank's day-to-day management duties that have not been reserved by the Board of Directors. On 31 December 2018, the Board of Directors was composed by sixteen members, with ten non-executive members and six executive members.

According to CMVM Regulation 4/2013, Annex 1, nr. 18.1, in the recommendation III.4. Of the Governance Code of the IPCG and item 91a. of the guidelines EBA/GL/2017/12, a member of the Board of Directors who is not associated with any specific interest group within the company, or under any circumstances capable of affecting their impartiality of analysing or decision making is considered to be independent.

All the non-executive members of the Board of Directors were evaluated by the Committee for Nominations and Remunerations which, for that purpose and taking into account the Guide for the Assessment of Fit & Proper (May 2018) of the European Central Bank, taking consideration, apart from the profile of each one of the Directors, the following facts:

- Being an employee of the company over the last three years or a company which is in a controlling or group relationship;
- Having, in the last three years, provided services or established a significant business relationship with the company or company with which said company is in a control or group relationship, either directly or as a partner, board member, manager or director of the legal person;
- Receiving remuneration paid by the company or by a company that is in a controlling or group relationship in addition to the remuneration derived from carrying out the tasks as a Board Member;
- Living in non-marital cohabitation or being the spouse, relative or relative-in-law in a straight line and until the 3rd degree, inclusively, in the collateral line, of directors or natural persons directly or indirectly holding qualifying stakes;
- Being the holder of a qualifying stake or representative of a shareholder with qualifying stake.
- Having been re-elected for more than two, consecutive or not, terms-of-office.
- Having exercised for more than twelve years, consecutive, or not, functions in any corporate body of the company;
- Exercises or exercised in the last 5 years the position of member of the administration body, in its management function, in an institution included within the scope of the prudential consolidation.
- Excluding the executive directors, four members of the Board of Directors, out of ten members, are independent. In other words, 40% of the non-executive directors are independent, and BCP considers that the proportion of independent directors, versus the total number of directors, is adequate, taking into account the endorsed governance model and the size of the company.

None of the directors has exercised for more than twelve years, consecutive, or not, functions in any corporate body of the company.

Having been pondered the content of the Recommendations III.2 and III.3. of the IPCG Code, the art. 414 (5) (b), the provisions of article 31- A of the LFCIFC, the European legislation, namely the independence of mind criteria mentioned in the Guide to fit and proper assessments of the members of management bodies of the ECB (May 2018)", and the EBA/GL/2017/12 guidelines of 26 September 2017, applicable since 30 June 2018, the Committee for Nomination and Remunerations considered that the number of non-executive directors qualified independent ensures them the effective capacity to monitor, supervise and assess in a critical, impartial and adequate manner the activity developed by the executive directors.

On this matter, see the table presented in item 26.

19. Professional qualifications and other relevant curricular details of each member of the, as applicable, of the Board of Directors, The Supervisory Board and of the Executive Board of Directors

The professional qualifications and other curricular details of the profile of each member of the Board of Directors are presented in Annex I to this Corporate Governance Report.

20. Customary and meaningful family, professional or business relationships of members of the Board of Directors, the General and Supervisory Board and the Executive Board, where applicable, with shareholders that are assigned qualifying holdings that are greater than 2% of the voting rights.

There are no habitual and significant family or business relations between the members of the Board of Directors and of the Executive Committee with shareholders imputed with qualifying stakes above 2% of the voting rights. As shown in the table presented in item 7 of this Report, the shareholders owning stakes above 2% are legal persons. The delegation of powers by the Board of Directors into the specialized committees, including the Executive Committee to which it delegates the bank's current management, does not exclude the competence of this corporate body to resolve on the same issues, nor does it waive, under legal and regulatory terms, namely the item 5 of the Delegated Regulation (EU) nr. 604/2014, of March 4, revised by the Delegated Regulation (EU) 2016/861 of the Commission, of February 18, 2016, the responsibility of other directors for possible losses caused by acts or omissions occurred during the exercise of duties received by delegation to the extent that the members of the management body are ultimately responsible for the institution, its strategy and activities.

C. Internal organisation

I. Articles of Association

48. The rules governing amendment to the company's articles of association

Article 24 of the Bank's Articles of Association establishes the requirement of a constitutive quorum, above the legal one, of over one third of the share capital for the General Meeting of Shareholders to be able to validly meet and resolve on first call.

Regarding the resolution quorum, the Articles of Association only diverge from the law with respect to resolutions on the merger, demerger and transformation of the Company, which require approval by three quarters of the votes cast, and dissolution of the Company where a majority corresponding to three quarters of the paid-up share capital is required.

The Bank and the shareholders that approved the articles of association in force consider that, since Banco Comercial Português is one of the companies with the largest free float in the Portuguese Stock Exchange, it is important to ensure that, in any circumstance and not only in the case specifically mentioned in the law, the shareholders, regardless of their respective representativeness, receive the guarantee that, on first call, the items submitted to the appraisal of the General Meeting can only be resolved on if the capital is minimally represented.

II. Communication of Irregularities

49. Reporting means and policy on the reporting of irregularities in the company

The Bank upholds a culture of responsibility and compliance, preventing conflicts of interest and recognising the importance of an appropriate framework and processing of the communication of irregularities, as an instrument of good corporate practice.

The Bank has the appropriate means for receiving, handling and archiving communications of irregularities allegedly committed by members of the corporate bodies and by employees of the companies part of Group BCP or by any other person within the scope of the provision of services to any of the companies part of Group BCP.

For that purpose, the Bank permanently observes the principles and requirements foreseen in art. 116-AA of the LFCIFC, art. 305_F of the Securities Code and in section 13 of the guidelines issued by EBA on internal governance (EBA/GL/2017/11) of 26 September 2017.

Irregularities are actions and omissions, with malicious intent or negligence, related to the management, accounting organisation and internal supervision of the Bank, which may seriously:

- Breach the law, regulations and other rules in force;
- Endanger the assets of clients, shareholders and of the Bank;
- Damage the BCP's reputation.

The policy of communication of irregularities is regulated in an internal service order and is available at the Bank's website, on the page with the following address:

http://ind.millenniumbcp.pt/en/Institucional/governacao/Documents/Comunicacao-Irregularidades_EN.pdf

In accordance with the above mentioned policy, the Employees must immediately report to the Audit Committee any irregularity consummated, ongoing or that, as per the data available, it is possible to reasonably foresee that will be committed.

The Employees who become aware of any irregularity due to the functions they exercise, namely in the internal audit, risk management or compliance areas, are especially obliged to report it.

The irregularities can be reported by any means of written communication, addressed to: Comissão de Auditoria – Av.^a Prof. Dr. Cavaco Silva (TagusPark), Edifício 1, 2744-256 Porto Salvo, or to the e-mail address: comunicar.irregularidade@millenniumbcp.pt.

The Audit Committee is responsible for managing the communication of irregularities system and for assuring the confidentiality of the communications, being supported by its Support Office.

Once a communication is received, the Audit Committee shall undertake all efforts deemed necessary to assess if there are sufficient grounds to open an investigation and may establish a prior contact with the author of the communication, if known.

If there are sufficient grounds, the Audit Committee will develop all necessary investigations to become totally aware of all facts and it may request the support of the Audit Division, Risk Office, the Compliance Office or any other divisions or areas of the Bank.

Once the investigation is over, the Audit Committee shall make a report for the internal transmission of its conclusions to the Board of Directors and to the Executive Committee so that the appropriate diligences may be adopted to correct the irregularity and sanction it, if need be. It must also report it to external entities whenever justified by the specific situation.

The communications received, as well as the reports derived thereof are mandatorily kept for a minimum period of five years in a durable format enabling their full and unaltered reproduction, pursuant to the provisions in article 120 of the Legal Framework for Credit Institutions and Financial Companies (RGICSF).

The confidentiality of the communications will be ensured and they cannot be used as grounds for any disciplinary, civil or criminal proceedings, or the adoption of discriminating practices regarding the whistleblower provided that he/she did not actively participate in it.

In 2018 the Audit Committee received six communications but not all were able to be included within the scope of a participation of irregularity.

Notwithstanding, they were all investigated and handled.

III. Internal control and risk management

50. Individuals, boards or committees responsible for the internal audit and/or implementation of the internal control systems.

The Group's internal control is based upon a risk management system that identifies, evaluates, follows-up and controls the risks the Group is exposed to. That system is supported by an efficient communication and information system and on an effective monitoring process which ensure the adequacy and efficiency of the internal control system.

In this context, pursuant to the objectives defined in Banco de Portugal Notice 5/2008, Banco Comercial Português has established specific areas with the risk management, compliance and internal audit functions, performed by the Risk Office, Compliance Office and Audit Division, respectively, endowing them with the technical and human resources that enable them to establish effective and efficient processes to identify, manage, control, monitor and communicate risks and mechanisms that are appropriate to the internal control, both in the Bank and in the Group.

The heads of these Divisions are those responsible, at Group level, for the conformity of the functions of the internal control system, through which the objectives outlined in Banco de Portugal Notice 5/2008 are achieved, namely:

- respect for all the applicable legal or regulatory provisions;
- efficient performance of the activity; and
- the existence of complete, pertinent, reliable and timely financial and management information.

The Executive Committee of the Board of Directors also established the Internal Control and Operational Risk Monitoring Commission. This specialized commission has, among other, the following competences regarding the internal control system:

- monitor the making of the Internal Control Report, as well as the evolution and resolution status of the deficiencies and recommendations identified and reported;
- appraise and decide on proposals made to improve the processes (within the framework of operational risk management) for the reinforcement of the internal control environment;

A) Risk Office

The main function of the Risk Officer is to provide support to the Board of Directors in the development and implementation of the processes of risk management and internal control, as per the detailed description presented in the chapter on "Risk Management" of the 2018 Annual Report.

In the performance of its duties, the Risk Officer reports hierarchically to the Board of Directors and to the Executive Committee, also engaging, on a functional reporting basis, with the Committee for Risk Assessment.

Risk Officer: Luís Miguel Manso Correia dos Santos

B) Compliance Office

The main mission of the Compliance Office is to strive for the adoption, by all the Group's Institutions, of the internal and external rules governing their respective activity, in order to contribute to mitigate the risk of incurring in penalties by these institutions.

While performing the duties entrusted to it by the law or other legal source or that have been attributed to it by the Bank's statutory bodies, the Compliance Office makes decisions that are binding on its receivers, aiming to ensure that the different business areas comply with the applicable regulations.

When preparing opinions and related studies at the request of the Bank's different areas and divisions, the Compliance Office identifies and assesses the various types of risks, including those in institutional processes or associated to products and services, prepares proposals for the correction of processes and risk mitigation, ensures the ongoing analysis of the general supervisory environment and, in general, provides specialised support on matters of control and compliance. The Compliance Office is also responsible for preparing and submitting a report to the management body, at least on an annual basis, identifying all cases of non-compliance observed and the recommendations issued to correct them.

The Compliance Office intervenes and actively participates in the Employee training policy, namely through compliance training actions administered to the entire Group, the maintenance of strong knowledge on compliance issues, in particular preventing money laundering or terrorist financing (AML/CFT), preventing market abuse and the development of a culture of internal control within the Group.

The Group Head of Compliance performs his duties in an independent, continuous and effective manner.

The compliance teams allocated to the branches and subsidiaries are composed in the same way as that of the parent company and the team leader – the local Compliance Officer – is appointed by the local Board of Directors, after opinion issued by the Group's Head of Compliance, to whom this Officer reports functionally.

The Group Head of Compliance reports, under the terms of the law, to the Executive Committee of the Board of Directors, through the Director responsible for this area and, functionally to the Audit Committee, according to the matters defined by the Audit Committee at any given time, forwarding reports of its activity, on a quarterly basis, which enable the follow-up of compliance with the action plans that are presented annually. The Group Head of Compliance may also, and whenever necessary, issue occasional reports on relevant issues in the context of the control and monitoring of risks concerning compliance, money laundering and financing of terrorism and reputation, of each entity or of the Group.

In the performance of his duties, the Compliance Officer engages with the Board of Directors, on which it depends, as well as with the Executive Committee, Audit Committee and Committee for Risk Assessment.

Under its functional reporting, the Compliance Office sends the Chairperson of the Board of Directors a quarterly Report on the main compliance risks at the Bank and Group level, disclosing, within the maximum period of two business days, any situation of detected high compliance risk and submitting, every six months, to the Board of Directors, a report with the activity undertaken.

The Audit Committee issues an opinion on the work plan of the Compliance Office, being this Committee also the recipient of the works carried out by the compliance function, namely those related with presentation of earnings, conflicts of interests and detection of irregularities.

Group Head of Compliance: during the 2018 financial year this function was performed by Mário António Pinho Gaspar Neves. In March 2019 this function began to be exercised by Pedro Manuel Francisco da Silva Dias.

C) Audit Division

The Audit Division is responsible for the Internal Audit function of Banco Comercial Português. carries out its mission by adopting principles of internal auditing which are internationally recognised and accepted, issuing recommendations based on the outcome of the assessments made, aimed at adding value to the organisation and improving the control and quality of the Bank's operations, contributing to the achievement of its strategic interests and ensuring that::

- the risks are duly identified and managed, and the implemented controls are correct and proportional to the risks;
- the system of assessment of the Bank's capital is adequate in relation to its level of exposure to risk;
- the operations are recorded correctly and the operational, financial and managerial information is rigorous, reliable and provided in due time;

- legal and regulatory matters of significant impact on the organisation are recognised, clearly understood and integrated in operative processes;
- the programmes, plans and objectives defined by the management are complied with;
- the different governing bodies interact in an adequate and efficient manner;

The activity of the Audit Division contributes to the pursuit of the objectives defined in Banco de Portugal Notice 5/2008 for the internal control system of institutions covered by the Legal Framework for Credit Institutions and Financial Companies, ensuring the existence of:

- an adequate control environment;
- a solid risk management system;
- an efficient information and communication system; and
- an effective monitoring process.

The Head of the Audit Division is appointed by the Board of Directors after obtaining the opinion from the Committee for Nominations and Remunerations and the technical opinion of the Audit Committee, reporting hierarchically to the Chairperson of the Board of Directors and functionally to the Audit Committee.

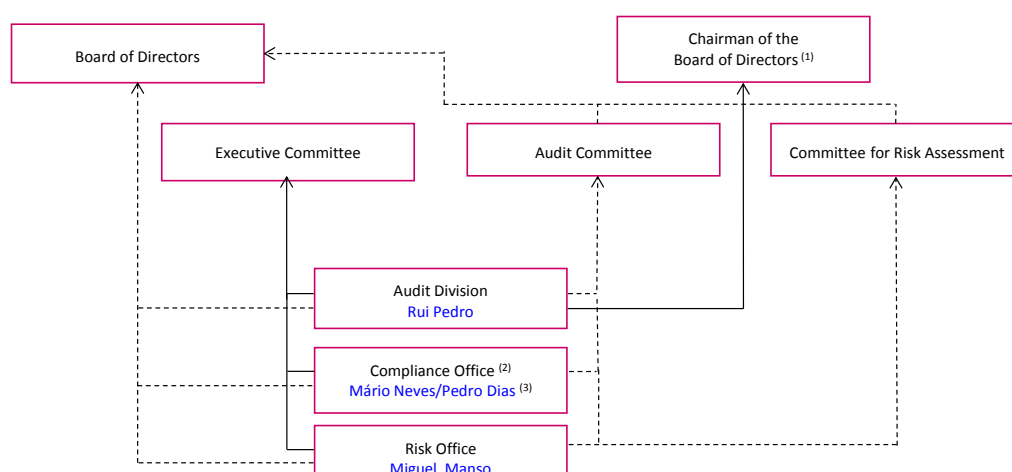

The Audit Division presents, on a regular basis, to the Executive Committee, to the Board of Directors and to its Chairperson, reports on the monitoring of the activity developed, in accordance with the periodicity defined at each moment, with information on the execution of the Activities Plan, main detected deficiencies, and respective recommendation and the status of the recommendations yet to be implemented.

Additionally, the Audit Division informs the Chairperson of the Board of Directors, the Chairperson of the Audit Committee and the Chairperson of the Executive Committee on issues of its responsibility which are of material relevance for the accomplishment of the mission of those bodies, namely on any deficiency identified and classified as of relevant risk.

Head: Rui Manuel Pereira Pedro.

52. Other functional areas responsible for risk control.

Alongside the control areas which constitute the risks management system - the Risk Office and the Compliance Office (as defined in Chapter III of Notice 5/2008 of Banco de Portugal) - and the area with duties of assessment of the adequacy and efficacy of the internal control system - the Audit Division (as per article 22 of Chapter V of that same Notice), there is an information and communication system which supports decision-making and control processes, both at an internal and external level, for which the Accounting and Consolidation Division and the Research, Planning and Assets and Liabilities Management Division are responsible, which ensures the existence of substantive, current, timely and reliable information, enabling an overall and encompassing view of the financial situation, the development of the activity, compliance with the defined strategy and objectives, identification of the institution's risk profile, and performance and prospects of evolution of the markets.

The financial information and management process is assisted by the accounting and management support systems which record, classify, associate and archive, in a timely, systematic, reliable, complete and consistent manner, all the operations carried out by the institution and its subsidiaries, in accordance with the determinations and policies issued by the Executive Committee.

Hence, the Risk Office, Compliance Office, Accounting and Consolidation Division, Research, Planning and Assets and Liabilities Management Division, the Management Information Division, the Office for the Validation and Monitoring of Models, the Office for Regulatory and Supervision Monitoring and the Data protection Office ensure the implementation of the procedures and means required to obtain all the relevant information for the information consolidation process at a Group level, both of accounting nature and relative to support to the management and risk monitoring and control, which should cover, namely:

- the definition of the contents and format of the information to be reported by the entities included in the consolidation perimeter, in accordance with the accounting policies and guidelines defined by the management body, as well as the dates when the reporting is required;
- the identification and control of intra-Group operations; and
- assurance that the managerial information is consistent between the different entities, so that it is possible to measure and monitor the evolution and profitability of each business, verify compliance with the objectives that have been established, as well as evaluate and control the risks incurred by each entity, both in absolute and relative terms.

Regarding credit risk, the Credit Division also performs risk assessment and control duties pursuant to its main competences:

- appraise and issue opinions or decisions on credit proposals submitted by the Bank's business areas, as well as credit restructuring proposals submitted by the Bank's recovery areas, pursuant to the competences defined in internal regulations;
- monitor and follow-up of the loan portfolio of Customers managed in the commercial areas, anticipating possible situations of default and promoting restructuring solutions whenever necessary and applicable;
- start up and/or participate in Bank-wide projects aimed at the improvement of credit and operating risk in the underlying internal processes/procedures, including opinions on products or services with credit risk;
- follow-up and support to the implementation of probability models (default, cure and scoring) for retail and automatic processes of Customer classification, risk-taking, portfolio monitoring, collection and recovery, as well as retention of Customers in Portugal and, when requested, in the operations abroad.

The Rating Division participates in the control of risks associated to loans, where its primary responsibility is the attribution of risk levels to Companies which are Bank Customers, assuring that they are assessed on an ongoing basis in an adequate manner. In order to assure the sound pursuit of this responsibility, specialised competences in the assessment of particular segments were developed within the Rating Division, namely for: Small, Mid and Large Corporate, Real Estate Development, Project Finance, State Business Sector and Funds segments. At the same time, the Rating Division systematically analyses the evolution of risk levels in order to assess the adequacy of the rating models used and identify matters for their fine-tuning.

On this issue, see the information provided in the Annual Report 2018, in the chapter on Risk Management.

55. Core details on the internal control and risk management systems implemented in the company regarding the procedure for reporting financial information

In the context of the Internal Control System and, more specifically, of the Risk Management System, the Board of Directors acquires adequate knowledge of the types of risks to which the institution is exposed and of the processes used to identify, assess, monitor and control these risks, as well as the legal obligations and duties to which the institution is subject, being responsible for ensuring that the Bank has effective internal control systems and promotes the development and maintenance of an appropriate and effective risk management system.

Hence, the management body of Banco Comercial Português, namely through its Executive Committee (and respective specialised commissions), Audit Committee and Committee for Risk Assessment:

- defines and reviews the overall and specific objectives with respect to risk profile or level of tolerance to risk and relative to the decision levels of the functional areas where these decisions are applicable;
- approves policies and procedures which are specific, effective and adequate for the identification, assessment, monitoring and control of the risks to which the institution is exposed, ensuring their implementation and compliance;
- verifies the compliance with the risk tolerance levels and risk management policies and procedures, assessing their efficacy and continuous adequacy to the institution's activity, so as to enable the detection and correction of any failures;
- ensures that the risk management activities have sufficient independence, status and visibility and are subject to periodic reviews;
- issues opinions on the reports prepared by the Risk Management and Compliance areas, namely, on the recommendations for the adoption of corrective measures;
- ensures the effective implementation of its guidelines and recommendations so as to introduce corrections and/or improvements in the Risk Management System.

The management body is also responsible for ensuring the implementation and maintenance of information and reporting processes which are suitable to the institution's activity and risks, for defining the accounting policies to be adopted, for establishing the guidelines and for defining the decisions which, in the context of such policies, must be taken, in order to ensure the reliability of the financial reporting. Therefore, and at a more operational level, it is responsible for approving the reporting or external disclosure outputs produced for this effect.

Regarding the Internal Control Report stipulated in Banco de Portugal's Notice 5/2008, in CMVM's Regulation 3/2008, and in article 245-A (1) (m) of the Securities Code, the supervision responsibilities of the Audit Committee and of the Statutory Auditor are:

- on an individual basis: issue of a detailed opinion substantiated by an autonomous report of an external auditor different from the financial auditor, contracted for the purpose on an annual basis, on the efficacy/ adequacy of the Internal Control System, and issue of an opinion by the statutory auditor on the process of preparation and disclosure of individual financial information (Financial Reporting);
- on a consolidated basis: issue of an opinion by the Group's parent company, substantiated by an autonomous report of an external auditor different from the financial auditor, contracted for the purpose on an annual basis, on the efficacy/adequacy of the Control System, which should include a reflection on the coherence of the internal control systems of the branches/subsidiaries, including those abroad and off-shore establishments, where this opinion may be based on the respective opinions prepared for the effect by the supervisory bodies of each branch/subsidiary, and issue of an opinion by the statutory auditor on the process of preparation and disclosure of consolidated financial information (Financial Reporting).

D. Remunerations

I. Competence for determination

66. Details of the powers for establishing the remuneration of corporate boards, members of the executive committee or chief executive and directors of the company

The Remuneration and Welfare Board (CRP), pursuant to sub paragraphs a) and b) of article 14 of the Bank's Articles of Association and under the competence delegated, for the four-year period of 2018/2021, by the General Meeting, is the competent body to determine the remuneration of the governing bodies, including the members of the Executive Committee and the terms of the supplementary pensions due to retirement, old age or invalidity of executive directors.

The Remuneration and Welfare Board, together with the Committee for Nominations and Remunerations is also competent to submit, to the Bank's General Meeting, a statement on the remuneration policy for the Bank's governing bodies.

The Board of Directors, pursuant to article 7 (2.1.r) of its Regulations and as established in article 115-C (5) of the RGICSF, has exclusive competence to approve and review the Bank's remuneration policies and practices. In this function, it is assisted by the Committee for Nominations and Remunerations which formulates and issues informed and independent judgements on the remuneration policy and practices and on the incentives created for purposes of risk, capital and liquidity management.

Addressed to the Remuneration and Welfare Board (RWB) and the Committee for Nominations and Remunerations (CNR), KPMG conducted an independent and specific audit, carried out in abidance by the International Standard on Related Services and by Art. 8 (4) of the Commission Delegated Regulation (EU) No 153/2013 of 19 December 2012, on the remunerations that, during the 2018 financial year, were paid to members of the different governing bodies and Coordinating Managers that report directly to the Board of Directors and to the Executive Committee, having also requested and received a compliance statement issued by the Internal Audit Division.

In the Factual Conclusions Report issued pursuant to the validation of the remunerations established and received in 2018 by the holders of Bank's corporate offices and Coordinating Managers, KPMG concluded that the data reported to the RWB, CNR and Audit Committee was accurate and compliant and suited to the resolutions adopted by the corporate bodies with powers to do so.

II. Remuneration and Welfare Board

67. Composition of the remuneration committee, including details of individuals or legal persons recruited to provide services to said committee and a statement on the independence of each member and advisor.

The Remuneration and Welfare Board is composed of three to five members, appointed at the General Meeting.

The Remuneration and Welfare Board was elected at the General Meeting held on 30 May 2018 to perform duties during the three-year period of 2018/2021, and has the following composition:

Chairman:	Jorge Manuel Baptista Magalhães Correia (Not independent)
Members:	Ana Paula Alcobia Gray (Not Independent)
	Norberto Emílio Sequeira da Rosa (Independent). He presented his renunciation to the position on February 2019

During 2018, the Committee held four meetings, received the logistic and technical support from the Company Secretary, with the secretarial services being administered by the Company Secretary.

The Regulations of the Remuneration and Welfare Board are available on the Bank's website at:

https://ind.millenniumbcp.pt/pt/Institucional/governacao/Documents/Regimento_CRP_BCP.pdf

Normally either the members of the Remuneration and Welfare Board and the members of the Committee for Nominations and Remunerations attend the Bank's General Meetings. In the 2018 financial year, two General Meetings were held. At the Annual General Meeting, held on May 30, all members of the Remuneration and Welfare Board and the members of the Committee for Nominations and Remunerations attended the meeting, with the exception of its Chairman.

At the General Meeting held on November 5, although the agenda did not include a related matter with remuneration of the corporate bodies and no shareholder requested the presence of the members of the Remuneration and Welfare Board, all members of this Board as well as the members of the Committee for Nominations and Remunerations attended.

All the members of the Remunerations and Welfare Board in functions are independent regarding the executive members of the administration body. The Remuneration and Welfare Board, to develop its competences in line with best international practices on remuneration matters, being able, in accordance with its Regulations, to use all technical means that it deems adequate, including resorting to external advisers, paid by the Bank, engaged Mercer Portugal, an independent company leading worldwide in the human resources area, for the provision of specialised technical advisory services, which identified a series of guideline principles for the definition of the remuneration policy for members of the governing bodies and material risk takers, in conformity with the guidelines disclosed by the national and international regulators, namely the EBA-European Banking Authority.

At the time of the engagement of Mercer Portugal, promoted by the Remuneration and Welfare Board, it was resolved, together with the Committee for Nominations and Remunerations, to ask this company to draw up a proposal complying with best practices on this theme, namely:

- Remuneration benchmark for the executive and non-executive members of the Board of Directors;
- update of the remuneration policy of the members of management and supervision bodies, senior staff or managers reporting directly to the executive members of the Board of Directors;
- revision of the Regulations for the Application of the Remuneration Policy and Welfare Regime of members of company's management and supervision bodies;

III. Structure of remunerations

69. Description of the remuneration policy of the Board of Directors and Supervisory Boards

The Remuneration and Welfare Board, after hearing the Committee for Nominations and Remunerations, submitted to the General Meeting of 30 May 2018, with a binding character, the Remuneration Model of the Board of Directors, including the Executive Committee, which was approved by 98.84% of the votes cast, being the meeting attended by shareholders or their representatives holding 62.99% of the share capital. The most relevant aspects are transcribed below:

1. Scope, structure and determination of the Remuneration

1.1. Executive Directors

The remuneration of the Executive Directors of BCP includes a fixed and a variable component.

The variable component is subdivided into two components, one annual (Annual Variable Remuneration - AVR) and a long-term one (Long-Term Variable Remuneration - LTVR)

1.1.1 Annual Fixed Remuneration

The fixed remuneration intends to adequately remunerate the function performed considering factors such as its nature and complexity, the required competences and the sustainability of the group's performance.

The annual fixed remuneration results from the payment of 14 monthly wages.

1.1.2 Variable Remuneration

The variable remuneration is attributed based on different degrees of accomplishments of previously approved quantitative and qualitative goals which are associated to objective, simple, transparent and measurable indicators. For that purpose, shall be taken into consideration, indicators related with the creation of value for the shareholder, solvency and profitability, capital requirements, efficiency and liquidity.

The definition of these goals should bear in mind the achievement of a balance between the Group's objectives and the individual ones.

The evaluation must be carried out according to an annual and pluri-annual framework ensuring that the evaluation process is based on the short and long-term performance and, whenever possible, while the term of office of the Executive Directors is underway.

The attribution of the variable remuneration is associated with the performance. Therefore, its value may vary from zero, if the degree of accomplishment of the goals is under the defined threshold, and a maximum that cannot exceed twice the fixed component of the remuneration. For that purpose, a maximum level of achievement is defined, from which the variable remuneration will not increase (cap).

The variable remuneration should be composed by a portion in cash and a portion in BCP shares or other securities of BCP, permitted by law.

At least half of the amount of the variable remuneration should be composed of the above mentioned securities. Notwithstanding, the Executive Director may choose to receive more than that or even the full amount of the variable remuneration in securities.

The payment of the variable remuneration will also observe the deferment rules and the reduction (malus) or reversion (claw-back) mechanisms mentioned above.

The variable remuneration, regardless of having already been paid and whether acquired rights have already been established, or not, is subject to reduction or reversion mechanisms whenever it is proven that the Executive Director participated in or was responsible for an action that resulted into significant losses for the Bank or ceased to comply with the adequacy and good repute criteria.

No guaranteed variable remuneration shall be granted, except when hiring a new Executive Director and only in the first year of activity and it will only be granted if the institution has a solid and strong capital base.

a) Annual Variable Remuneration (AVR)

The annual variable remuneration of each Executive Director may be paid in cash after the approval of the annual report to which it relates and/or in BCP shares or other BCP securities as permitted by law, all complying with the minimum thresholds and conditions set forth by law.

The payment of that remuneration is also conditioned to a set of conditions related with the Bank's sustained performance.

b) Long-Term Variable Remuneration (LTVR)

The long term variable remuneration of each Executive Director depends on the fulfilment of the Bank's long-term economic and financial objectives.

The LTVR applies to the period of the term-of-office, beginning on 1 January 2018. The payment is made in BCP shares or other BCP securities, as permitted by law which are granted to the beneficiaries depending on the compliance with the above mentioned conditions and indicators.

1.2. Non-Executive Directors

The remuneration of the non-executive members of the Board of Directors is exclusively composed of a fixed remuneration paid monthly (12 wages).

2. Other benefits

The practice of attributing benefits in terms of health insurance, credit card and mobile phones remains in effect, in line with what is attributed to the remaining Bank Employees.

The Executive Directors will be entitled to supplementary pension or early retirement regimes, as set forth by the Retirement Regulation of the Executive Directors of Banco Comercial Português (BCP).

3. Final Provisions

Executive Directors or under an exclusivity regime receive no additional compensation for the exercise of the respective functions.

The Directors must subscribe to a director bond in abidance by article 396 of the Companies Code. In addition, the Bank subscribes to a Directors & Officers insurance policy following market practices.

The Executive Directors or the Bank, on their behalf, are not allowed to use risk hedging mechanisms or similar mechanisms, as provided in article 115-E (15) of the Legal Framework for Credit Institutions and Financial Companies.

Considering that the remuneration of the Members of the Executive Committee is intended to directly compensate the activities they carry out directly at the Bank or in related companies (namely companies in a control or group relation with BCP) or in corporate bodies to which they have been appointed by indication or in representation of the Bank, the net value of the remunerations received annually for such duties by each Member of the Executive Committee will be deducted from their respective Annual Fixed Remuneration. It is the obligation and responsibility of each Executive Member of the Board of Directors to inform the Bank of any additional compensation they may have received, for the purposes of complying with the procedure established above."

According to the Remuneration Model of the Board of Directors, approved in May 30 2018 by the General Meeting of Shareholders, the variable remuneration, regardless of having already been paid and whether acquired rights have already been established, or not, is subject to reduction or reversion legal mechanisms whenever it is proven that the executive director participated in or was responsible for an action that resulted into significant losses for the Bank or ceased to comply with the adequacy and good repute criteria.

70. Information on how remuneration is structured so as to enable the aligning of the interests of the members of the board of directors with the company's long-term interests and how it is based on the performance assessment and how it discourages excessive risk taking

In 2018, the remuneration effectively paid is the one indicated in item 77 and no variable remuneration was attributed. Therefore, items 70 to 75 do not apply to Banco Comercial Português in the financial year to which this Report relates to.

71. to 75. Not applicable

76. Key characteristics of the supplementary pensions or early retirement schemes for directors and state date when said schemes were approved at the general meeting, on an individual basis.

The arrangement for retirement due to old age or invalidity of members of the Executive Committee is defined in article 17 of the Articles of Association, transcribed below, and in the document approved at the General Meeting held on 30 May 2018.

"1. The directors shall benefit from the social security regime applicable in each case.

2. The directors are also entitled to a supplement to the retirement or disability pensions and the Bank may enter into insurance contracts in favour of such directors.

3. At the beginning of each term of office and by agreement with each director, the insurance policy may be replaced by contributions to a pension fund of defined contributions.

4. The amount of the contributions of the Bank, within the scope of the two previous paragraphs, shall be established on a yearly basis by the Remuneration and Welfare Board.

5. The Bank shall not bear any additional expenses with the retirement and disability pensions after the termination of each director's functions.

6. The right to the supplement shall only become effective if the beneficiary retires due to old age or disability, under the terms of the applicable social security regime.

7. At the time of the retirement, the beneficiary may choose to redeem the capital.

8. In case of death before retirement, the right to receive the accrued capital shall remain effective pursuant to the applicable provisions established by the contract or by law."

No additional benefit is foreseen for directors in the event of early retirement.

An alteration to the Retirement Regulations for Executive Directors of the Bank contemplated the approval the approval for the attribution of an extraordinary contribution for the purposes of retirement supplement of the members of the Executive Committee. Thus, in the 2018 financial year the following retirements were paid:

According to article 18 of the Bank's Articles of Association, Minutes shall always be written up concerning meetings of the company's corporate bodies, signed by all the members that attended and containing, apart from identification data, the resolutions adopted and the votes that were cast. As in this statutory provision, also the Regulations of the different specialised Committees of the Board of Directors, including the Executive Committee, establish the obligation to draw up minutes of all meetings of the committees. The documentation supporting the deliberations and topics addressed at the meetings of each of the committees should be filed together with the minutes of the respective meeting, for a better understanding of the the decisions that were taken.

In accordance with the provisions of the Regulations of the Board of Directors and each of its specialized committees, in the article relating to "Meetings", documents supporting the meetings should be sent to the participating directors at least five days in advance in relation to the date set for each meeting. The Bank keeps available, during the term of office of its members, all the agendas and support material for the meetings, as well as the legislation, internal regulations and other relevant documentation, on an online platform called "Diligent Boards".

The regulations of the Board of Directors and of the other Committees of the Board of Directors are available on the internal portal and at the Bank's website at the following address:

See the information presented in item 22 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

I.3.2. Each body and committee of the company must ensure, in a timely and adequate manner, the flow of information, from the respective call notices and minutes, necessary for the exercise of the legal and statutory powers of each of the other bodies and committees.

See the information presented in the previous item and in item 22 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

I.4. Conflicts of interest

Principle:

Existing or potential conflicts of interest between members of corporate bodies or committees and the company, should be prevented. It must be ensured that the member in conflict does not interfere in the decision-making process.

Recommendations:

I.4.1. An obligation should be put on members of corporate bodies and committees to inform, in a timely manner, their respective body or committee of the facts that may constitute or give cause to a conflict between their interests and the company's interest.

The Bank has a Group Code (GR0038) that defines the fundamental principles and processes adopted for the identification and management of conflicts of interest occurring within the Group.

The Group Code mentioned above implements in the Bank and in Group BCP, in particular, the guidelines issued by the European Banking Authority (EBA/GL/2017/11) on internal government, identifies the control process to allow for an effective and prudent management of conflicts of interest at an institutional or personal level, including segregation of functions, information barriers and the specific process of transactions with the so-called "related parties", in order to simultaneously defend and protect the interests of all stakeholders and those of the Bank and of the Group.

The Group Code also formalizes the principles of governance applicable within the scope of the provision of services and investment activities and ancillary services identified respectively in Articles 290 and 291 of the Securities Code and formalizes the principles of governance applicable internally, in the scope of the policy for the management of conflicts of interest.

The Compliance Office is responsible for the development of the approaches and methods that allow for the identification of real or potential conflicts of interest, in compliance with the Conflicts of Interest Policy. The Compliance Office, at least once a year, carries out a global analysis to identify and assess the materiality of situations of conflicts of interest at an institutional level and reports to the Executive Committee and to the Audit Committee its respective findings, identifying the measures necessary to correct the situations therein identified.

As in the case of the Group Code, BCP's Group Code of Conduct also mandatorily indicates that members of the management and supervisory bodies, as well as employees, should avoid any situation likely to give rise to conflicts of interest with their functions so that they will be able to act with complete independence of mind, impartiality and exemption and that the members of the management and supervisory bodies can not intervene in the appraisal and decision-making process on transactions, professional situations of employees and procedures for the procurement of assets and services, in which the risk of conflicts of interest may occur.

The Code of Conduct is available on the Bank's website, on the page with the following address:

<https://ind.millenniumbcp.pt/pt/Institucional/governacao/Documents/codigo-conduta.pdf>

The Board of Directors in its Regulations has delegated powers on the Audit Committee to decide on work plans for the identification and resolution of conflicts of interest and the detection of potential illegalities and has also delegated powers on the Committee for Corporate Governance, Ethics and Professional Conduct to ensure effective prevention of conflicts of interest.

See the information presented in items 20, 89, 90 and 91 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

I.4.2. Procedures should be adopted to ensure that the member in conflict does not interfere in the decision-making process, without prejudice to the duty to provide information and clarifications requested by the body, the committee or its members.

The Bank has favoured the interaction between the independence of each member's behaviour and the principle of being independent in the face of conflicts of interest that create obstacles to the ability to perform their duties in an independent and objective way, and for this purpose, the Board of Directors has in its Regulation, consecrated that any member of the Board of Directors who accumulates with his/her position, a management function in an enterprise which carries on a competing activity with that pursued by the Bank, or pursued by an entity belonging to Group BCP or a company in which the Bank holds a significant stake, is prevented from accessing any privileged or sensitive documentation related to the competing company.

The member of the Board of Directors should not participate in the debate or deliberation of any content related to a competing company of the Bank, of the Group or a company in which the Bank holds a significant stake, with which he/she is related.

The Regulations of the Board of Directors is available on the Bank's website at:

https://ind.millenniumbcp.pt/pt/Institucional/governacao/Documents/Regimento_Conselho-Administracao.pdf

See the information presented in item 20 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

I.5 Transactions with related parties

Principle:

Due to the potential risks involved, transactions with related parties must be justified by the interests of the company and carried out under market conditions, subject to principles of transparency and adequate supervision.

Recommendations:

I.5.1. The management body should define, with binding prior opinion of the supervisory body, the type, scope and minimum value, individual or aggregate, of the transactions with the related parties that: (i) require the prior approval of the management body; (ii) and those that, because they are of a higher value, also require a prior favourable opinion from the supervisory body.

The Board of Directors' Regulations establishes the obligation to obtain prior opinion from the Audit Committee related to all credit proposals involving members of the corporate bodies, shareholders holding more than 2% of the Bank's capital and natural or legal persons, related to one or the other. The approval of these transactions is of the exclusive responsibility of the Board of Directors.

The Regulations of the Board of Directors also establish, with respect to the same entities, the conditions that require that contracts to be signed with these entities are also subject to mandatory prior opinion of the Audit Committee, and such contracts must also be submitted for approval by the Board of Directors.

See the information also presented in items 37, 89, 90 and 91 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

I.5.2. The management body should, every six months, report to the supervisory board all the businesses covered by Recommendation I.5.1.

See the information presented in items 89, 90 and 91 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

Chapter II – Shareholders and General Meeting

Principles:

II.A. The proper involvement of shareholders in corporate governance is a positive factor of corporate governance, as an instrument for the efficient performance of the company and for achieving the social purpose.

II.B. The company should promote the personal participation of the shareholders in General Meetings, as space of communication of the shareholders with the corporate bodies and committees and of reflection about the company.

II.C. The company should also allow the participation of shareholders in the General Meeting using electronic means, postal ballot and, in particular, electronic vote, unless, because of the associated costs, it becomes disproportionate.

Recommendations:

II.1. The company should not set an excessively large number of shares necessary to give the right to a vote, and should state in the governance report its option whenever it implies a deviation from the principle that each share corresponds to one vote.

See the information presented in item 12 of Part I of the current Report.

Declaration of Compliance: COMPLIANT

II.2. The company should not adopt mechanisms that hinder the adoption of resolutions by their shareholders, in particular establishing a deliberative quorum higher than that established by law.

See the information presented in items 12 and 14 of Part I of the current Report, considering that the explanation put forward is such as to satisfy positively the "comply or explain" principle.

Declaration of Compliance: Non COMPLIANT but explained

II.3. The company must implement adequate resources to exercise the right to use correspondence vote, including by electronic means.

See the information presented in the first part of item 12 of Part I of the current Report.

Declaration of Compliance: COMPLIANT

II.4. The company must implement adequate means for the participation of shareholders in the meeting by telematic means.

The company has not implemented the adequate channels for the shareholders' participation in the meeting by electronic means, since it was considered that, the cost and safety factors versus the shareholders' foreseeable adhesion to this channel, meant that the reasoning was not in favour of the implementation of this type of voting.

It should be noted that the Bank provides its shareholders with a platform for voting by e-mail, and in the last 10 years, the highest number of shareholders who have resorted to this method of voting in a single Assembly was 8. Considering the same period, the conclusion is that the average number of voters per Assembly was less than 3 shareholders.

Although this alternative has not been requested by any shareholder, in the period in question, it is the intention of the bank to consider this proposal in the future, but there is no ongoing activity or an established time frame for such.

The grounds given above are considered enough to comply positively with the "comply or explain" principle.

See the information presented in the first part of item 12 of Part I of the current Report.

Declaration of Compliance: **NON-COMPLIANT , but explained**

II.5. Articles of association of companies which foresee the limitation of the number of votes which may be held or exercised by a single shareholder, individually or in combination with other shareholders, must also establish that, at least every five years, the alteration or maintenance of this statutory provision will be subject to deliberation by the General Meeting – without requirement of a quorum larger than that legally established – and that, in this deliberation, all the votes cast will count, without the application of this limitation.

See the information presented in items 5 and 13 of Part I of the current Report.

Declaration of Compliance: **NON COMPLIANT**

II.6. Measures should not be adopted if they determine payments or the incurrence of expenses by the company in the event of the transfer of control or change of the composition of the management body, and which might hinder the financial interest in the free transferability of shares and the free appraisal by the shareholders of the performance of Directors.

See the information presented in item 4 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

Chapter III – Non-Executive Management and Supervision

Principles:

III.A. The members of corporate bodies with functions of non-executive management and supervision must exercise, in an effective and judicious manner, a supervisory and defiant function in relation to the executive management for the full accomplishment of the social purpose, and this action must be complemented by committees in central areas of corporate governance.

III.B. The composition of the auditing and supervisory body and all non-executive directors should provide the company with a balanced and adequate diversity of skills, knowledge and professional experience.

III.C. The supervisory body should develop a permanent supervision of the company's management, also with a preventive goal, accompanying the activity of the company and, in particular, decisions of paramount importance for the company.

Recommendations

III.1. Without damaging the legal functions of the chairperson of the Board of Directors, if he/she is not independent, the independent directors must appoint amongst them a coordinator (lead independent director) to, namely: (i) act, whenever necessary, as interlocutor with the chairperson of the board of directors and with the remaining directors; (ii) endeavour that they all have the conditions and means necessary for the exercise of their functions; and (iii) coordinate them in the assessment of the performance by the administration body as foreseen in recommendation V.1.1.

The company does not accept the recommendation because the rules of the Board, as well as the characteristics and powers of Independent Directors, namely concerning the functions they perform in the different Board Committees, show that in practice their autonomy is assured.

Independent Directors have never mentioned the need or even identified an advantage in having a coordinator.

The grounds given are considered to be enough to comply positively with the "comply or explain" principle.

Declaration of Compliance:

Non COMPLIANT but explained

III.2. The number of non-executive members of the administrative body as well as the number of members of the supervisory board and the number of members of the Financial Matters Committee should be compatible with the size of the company and the complexity of the inherent risks of its activity, but sufficient to ensure that they can efficiently carry out the tasks entrusted to them.

See the information presented in item 18 of Part I of the current Report.

Declaration of Compliance:

COMPLIANT

III.3. In any case, the number of non-executive directors must exceed that of executive directors.

See the information presented in item 18 of Part I of the current Report.

Declaration of Compliance:

COMPLIANT

III.4. Each company must include a number not less than one-third but always plural, of non-executive directors who meet the requirements of independence. For the purposes of this recommendation, a person is considered independent as long as he/she is not associated with any group of specific interests in the company, or is not in a position susceptible to affect his/her ability to make an impartial analysis or decision, in particular due to:

- i. Having exercised for more than twelve years, consecutive, or not, functions in any corporate body of the company;
- ii. Having been an employee of the company over the last three years or of a company which is in a controlling or group relationship;
- iii. Having, in the last three years, provided services or established a significant business relationship with the company or company with which said company is in a control or group relationship, either directly or as a partner, board member, manager or director of the legal person;
- iv. Receiving remuneration paid by the company or by a company that is in a controlling or group relationship in addition to the remuneration derived from carrying out the tasks as a director;
- v. Living in non-marital cohabitation or being the spouse, relative or relative-in-law in a straight line and until the 3rd degree, inclusively, in the collateral line, of directors of the company, of a legal person holder of a qualifying stake in the company or of natural persons directly or indirectly holding qualifying stakes;
- vi. Being the holder of a qualifying stake or representative of a shareholder with qualifying stakes.

See the information presented in item 18 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

III.5. The provisions of paragraph (i) of recommendation III.4 shall not preclude the qualification of a new director as independent if, between the termination of his duties in any company body and his new designation, at least three years have elapsed -off period).

See the information presented in item 18 of Part I of the current Report. and Recommendation III.4.

Declaration of Compliance: **NOT-APPLICABLE**

III.6. Non-executive directors should participate in the definition, by the management body, of the strategy, main policies, corporate structure and decisions that are considered strategic to the company by virtue of their amount or risk, as well as in the assessment of their compliance.

Reference should also be made to the information provided in item 21 - Board of Directors of Part I of the current Report.

The Bank's Articles of Association and the Regulations of the Board of Directors are available on the Bank's website at:

https://ind.millenniumbcp.pt/pt/Institucional/governacao/Documents/estatutos_BCP.pdf

Declaration of Compliance: **COMPLIANT**

III.7. The general and supervisory board should, within the framework of its legal and statutory powers, collaborate with the executive board of directors in defining the strategy, main policies, corporate structure and decisions that should be considered strategic for the company, due to its amount or risk, as well as in the assessment of their compliance.

See the information presented in item 18 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

III.8. In compliance with the powers conferred upon it by law, the supervisory body should, in particular, monitor, assess and give opinion on the strategic guidelines and risk policy defined by the management body.

According to the Bank's Articles of Association, the Committee for Risk Assessment, follows and monitors the company's risk strategy and appetite and advises the Board of Directors on the strategy and policies regarding risk assumption, management and reduction to which the Bank is or may be subject and the Audit Committee, as the Bank's supervising body, is responsible for overseeing compliance with the law and the bank's articles of association and is responsible in supervising the Bank's management.

See, concerning this matter, the information presented in items 21 - Audit Committee and 37, of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

III.9. Companies must establish specialized internal committees that are appropriate to their size and complexity, covering, separately or cumulatively, matters of corporate governance, remuneration and performance appraisal, and appointments.

See, concerning this matter, the information presented in items 27 and 29 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

III.10. The Audit Committee, Supervisory Board and Audit Board should issue statements on the work plans and resources allocated to the internal audit services and to the services which strive to ensure compliance with the regulations applied to the company (compliance services), and should receive the reports produced by these services at least when concerning matters related to the presentation of accounts, the identification or resolution of conflicts of interests and the detection of potential illegalities.

The structures specifically connected to the Risk Office, Compliance Office and Internal Audit (Audit Division) which is structured in three functional areas and a support unit, with an activity scope that encompasses all relevant aspects of the Bank's activity, are equipped with the technical and human resources suitable to the size of the Bank, as well as to the degree of complexity and magnitude of the risks inherent to the Bank's various activities - business and business support.

These structures, on the other hand, are designed to operate within the scope of an extensive volume of regulation - both external and internal - resulting from legislation aimed at defining the bank's activity within the limits of prudence, security and control defined by regulators and the bank's management body.

Thus, in allocating resources to the areas mentioned, the Bank adopts the principle of proportionality, matching the mobilized resources to the size and granularity of risks and other constraints of its activities, in a perspective of effectiveness, business sustainability and scrupulous compliance with the established regulation.

The number of employees whose functions are carried out in accordance with the highest standards of independence, objectivity, impartiality, integrity and professional expertise, in each of the 3 areas specifically involved in the functions analysed here, on 31/12/2018 was as follows :

- Risk Office: 49
- Compliance Office: 31
- Audit Division: 47

See, concerning this matter, the information presented in items 37 and 50 of Part I of the current Report.

Chapter IV – Executive Management

Principles:

IV.A. As a way to increase the efficiency and quality of the performance of the management body and the suitable flow of information to this body, the day-to-day management of the company must belong to executive directors with the appropriate proficiency, skills and experience, that their function requires. Executive management is responsible for managing the company, pursuing the goals of the company and aiming to contribute to its sustainable development.

IV.B. In determining the number of executive directors, the size of the company, the complexity of its activity and its geographical dispersion must be taken in to account, in addition to the costs and the desirable agility in the way the executive management works.

Recommendations

IV.1. The management body should approve, through internal regulations or through an equivalent means, the working regime of executives and their performance in executive functions in entities outside the group.

See, concerning this matter, the information presented in item 21 – Executive Committee, of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

IV.2. The administration body must assure that the company acts in accordance with its objectives, and should not delegate its powers, namely, with respect to: i) definition of the strategy and general policies of the company; ii) definition of the Group's business structure; iii) decisions which should be considered strategic due to their amount, risk or special features

See, concerning this matter, the information presented in item 21 – Board of Directors of Part I of the current Report.

IV.3. The management body should set risk-taking goals and ensure that they are fulfilled.

See, concerning this matter, the information presented in item 21 – Board of Directors of Part I of the current Report, and Recommendation IV.4. following.

Declaration of Compliance: **COMPLIANT**

IV.4. The supervisory body should organize itself internally by implementing periodic control mechanisms and procedures to ensure that the risks effectively incurred by the company are consistent with the objectives set by the management body

The Board of Directors establishes objective regarding the assumption of risks by mean of the formal approval of the Risk Appetite Statement (RAS – “Risk Appetite Statement”) of the Bank.

The "Risk appetite statement" incorporates a set of key indicators relating to the identified material risks and their acceptable levels of risk (tolerance levels). These levels of tolerance:

- constitute maximum risk assumption objectives and are, in turn, developed and discharged "in cascade" and in greater detail to the risk limits that are part of the institution's risk policy and materialized in the internal rulings documentation;
- are established at two levels: an alert level, prior to the maximum permissible value and an absolute "break" level, which require corrective measures if they are reached.

The Board of Directors monitors and analyses - on a monthly basis, through its Executive Committee (EC) and the Committee for Risk Assessment (CRA) bimonthly - the evolution of the RAS indicators, against the established limits, thus acting in accordance with that evolution, whenever the indicators in question reach alert or break levels.

In turn, Audit Committee of the BofD supervises the application of RAS in order to ensure that the risks actually taken are at compatible levels with the RAS and if there are deviations, the EC and/or the BofD shall take the necessary corrective measures to mitigate risk levels, to ensure that RAS is complied with.

See, concerning this matter, the information presented in item 21 - Audit Committee, of Part I of the current Report.

Principle:

The remuneration policy of members of management and supervision bodies must allow the company to attract, at a reasonable economic cost for their situation, qualified professionals, to induce the alignment of interests with those of the shareholders - taking into account the wealth effectively created by the company, the economic situation and the market situation - and to constitute a factor for the development of a culture of professionalisation, promotion of merit and transparency in society.

Recommendations:

V.2.1. The establishment of remunerations should be made by a committee whose composition ensures its independence from management.

See, concerning this matter, the information presented in items 66 and 67 of Part I of the current Report.

- (i) That adequately remunerates the responsibility assumed, the availability and the competence placed at the service of the company;
- (ii) That guarantees a line of conduct aligned with the long-term interests of the shareholders, as well as others that they expressly define; and
- (iii) that rewards performance.

Recommendations:

V.3.1. Bearing in mind the alignment of interests between the company and executive directors, a portion of their remuneration should be of a variable nature so as to reflect the sustained performance of the company and does not encourage excessive risk-taking.

See, concerning this matter, the information presented in item 70 of Part I of the current Report.

V.3.5. See, concerning this matter, the information presented in items 83 and 84 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

V.4. Nominations

Principle:

Regardless of the appointment procedure, profile, expertise and curriculum of the members of the corporate bodies and senior managers, they should be suitable to the performance of the function.

Recommendations:

V.4.1. The company should, under such terms as it deems appropriate, but in a manner that can be demonstrated, promote that proposals for the election of members of corporate bodies are accompanied by a justification on the suitability of the profile, expertise and curriculum to the function of each candidate.

On May 30, 2018, the General Meeting of Shareholders approved by a majority of 99.71% of the votes cast the internal policy for the selection and evaluation of the adequacy of the members of the management and supervision bodies, which includes the "Succession Plan for the Bank's Board of Directors", which establishes, among others, the following aspects:

- Power to elect the members of corporate bodies;

- selection policy;

The Succession Plan for the Bank's Board of Directors is available on the Bank's website at:

<https://ind.millenniumbcp.pt/pt/Institucional/investidores/Documents/AssembGeral/2018/Ponto-6-PT.pdf>

The Committee for Nominations and Remunerations, when evaluating the candidates for members of the corporate bodies, takes into account the guidelines of the Bank Succession Plan, analysing the curriculum, academic, professional and experience of each of the candidates in the light of the requirements of the Guide to fit and proper assessments of the members of members of the corporate bodies published by the European Central Bank in May 2018 and the ESMA and EBA Guidelines on adequacy of members of the management bodies and key function holders that came into force in June 30, 2018. In the aforementioned process of evaluating candidates, the Committee for Nominations and Remunerations also complies with the requirements imposed by the Banco de Portugal, namely Banco de Portugal instruction 23/2018 of November 5, 2018.

The authorization process for the exercise of the functions of the members of the management and supervisory bodies of the institutions, the Bank included, should be subject to the supervision of Banco de Portugal and the European Central Bank, and therefore consequences of the election by the General Meeting of Shareholders of the members of the corporate bodies, may be suspended and subject to obtaining the authorization of the European Central Bank to the performance of functions.

The curricula of candidates for members of the management and supervisory bodies and other documentation that, according to the law are given to shareholders, are available on the Bank's website, on the page with the following address.

See, concerning this matter, the information presented in item 17 of Part I of the current Report.

Declaration of Compliance: COMPLIANT

V.4.2. Unless the size of the company does not justify it, the function of monitoring and supporting appointments to senior management positions should be attributed to a Committee for Nominations.

See, concerning this matter, the information presented in item 50-b of Part I of the current Report.

Declaration of Compliance: COMPLIANT

V.4.3. This commission includes a majority of independent non-executive members.

See, concerning this matter, the information presented in items 17 and 27-b of Part I of the current Report.

Declaration of Compliance: COMPLIANT

V.4.4. The Committee for Nominations should make its terms of reference available and should, to the extent of its competences, foster transparent selection procedures that include effective mechanisms for identifying potential candidates, and that those who have the greatest merit, are better suited to the requirements of the function, and promote within the organization adequate diversity including gender, should be the ones chosen for the proposal.

The Committee for Nominations and Remunerations is firmly convinced that the choice of the members of the corporate bodies pertains exclusively to shareholders who, as owners of the capital, should not alienate the right of choice of persons who, at any moment, they consider to be more suitable to manage their assets. Aware that there are other interests to be safeguarded beyond those of the shareholders, the Committee for Nominations and Remunerations evaluates the candidates that are proposed by the shareholders by means of clear and transparent rules, namely those contained in the Guide to fit and proper assessments of the members of the Corporate Bodies published by the European Central Bank in May 2018 and the ESMA and EBA Guidelines on adequacy of members of the management bodies and key function holders that came into force in June 30, 2018, as well as the Instruction from Banco de Portugal nr. 23/2018 of 5 November.

It is therefore as a result of such evaluation, and only when it is positive, that the Committee for Nominations and Remunerations requests the Banco de Portugal/European Central Bank a decision regarding the authorization for the elected or appointed directors to carry out their duties.

It should also be noted that this evaluation is reviewed annually or whenever any fact justifying is brought to the attention of the Committee for Nominations and Remunerations.

See, concerning this matter, the information presented in item 17, of Part I of the current Report, and Recommendation V.4.1.

Chapter VI – Risk Management

Principle:

Based on the medium and long-term strategy, the company must establish a system of risk management and control and internal audit that allows to anticipate and minimize the risks inherent to the activity.

Recommendations:

VI.1. The Board of Directors should discuss and approve the company's strategic plan and risk policy, including the formulation of acceptable risk levels.

The Company's risk policy is written down on a large set of internal regulations (about 80) with different hierarchies and level of detail. The documentation in question contains the definitions of risk management and control approved by the Board of Directors, at each moment, and is reviewed whenever necessary and at least every two years. Together, these documents materialize the institution's risk policy.

The internal regulations of a higher level, in the document hierarchy (Group Codes) are approved by the Board of Directors or by the Executive Committee, with the first being responsible for approving Group Codes of a more strategic nature or associated with risk or audit.

In addition, both the risk policy and the "Risk Strategy" (a document approved annually by the BofD and which defines the lines of action to be developed to mitigate and control the risks considered as material) are based on and derive from a formal risk identification and risk assessment process that is carried out each year under the ICAAP (Internal Capital Adequacy Assessment Process).

The results of the annual risk identification process are also the basis for the formal updating of the Risk Appetite Statement (RAS), which consists of a set of key indicators related to the identified material risks and their respective levels of risk deemed acceptable. RAS is also approved by the Board of Directors and its indicators (and tolerance levels) are then developed discharged "in cascade" – and with specific details – to the risk limits included in the institution's risk policy and materialized in the internal rulings documentation, as referred to above.

See, concerning this matter, the information presented in items 27 a) and 54 of Part I of the current Report.

Declaration of Compliance: **COMPLIANT**

VI.2. Based on its risk policy, the company must establish a risk management system, identifying (i) the main risks to which it is exposed in the development of its activity; (ii) the probability of their occurrence and their impact; (iii) the instruments and measures to be adopted with for the purpose of their mitigation; (iv) monitoring procedures for their follow-up; and (v) the supervisory procedure, periodic evaluation and adjustment of the system.

The company's Risk Management System (RMS) is made up of the governance and management bodies and the organic units that perform the risk management and compliance functions, as set forth in Notice 5/2008 of the Banco de Portugal on the internal control of the institutions subject to its supervision.

In this regard, the RMS consists of an integrated set of human and technical resources that safeguard a wide range of processes, on a permanent basis, that provide an adequate understanding as to the nature and magnitude of the risks underlying the activities, thus enabling the adequate implementation of the strategy and the fulfilment of the institution's objectives.

Through the RMS, all material risks to which the institution is exposed, both internally and externally, are duly identified, assessed / measured, monitored and controlled, ensuring that the various risks remain at levels

previously defined by the management body and that they will not materially affect the financial situation of the institution, namely in what regards the preservation of its capital, liquidity and profitability.

Therefore:

- The Bank has established a formal and annual process to identify and assess the risks to which its business and business support activities are subject. The risk assessment under this process considers both the probability of occurrence of each risk but also the severity of the losses (or other types of negative impact) in case of occurrence. The combination of these two factors determines the rating as to the materiality of each risk.
- The courses of action to be developed for control and mitigation of the material risks, listed and described in the "Risk Strategy" approved by the BoFD, are reviewed annually. The choice of mitigation and control instruments at a more detailed level rests with the GMS governing bodies or with the organic units whose mission is to implement or promote mechanisms, tools and indicators for risk control and mitigation.

With regard to the periodic monitoring/assessment of the RMS, see the information presented in recommendation VI.3.

As to the adjustment of the RMS, in addition to what is done in the annual risk identification process and the annual review of the RMS and the "Risk Strategy", the same is permanently carried out, depending on changes in the incidence of activity risks - in relation to its nature, likelihood of occurrence and potential impacts in case of occurrence - that may be detected at all times and at any level of the organization. The detection in question is also possible through the monitoring of a set of indicators established with a minimum monthly frequency (some, with daily or intraday frequency), and is materialized through the revision of internal regulations or through the creation or reformulation of areas and functions of the institution that allow greater effectiveness in the control of risks already addressed or to address in a minimally effective way the new risks or emerging risks that were identified.

See, about this particular subject, the information presented in items 53 (i) of the recommendation under consideration and item 54 of Part I of the current Report.

Declaration of Compliance:

COMPLIANT

VI.3. The company should evaluate annually the degree of internal compliance and the performance of the risk management system, as well as the potential for change of the previously defined risk framework.

The Internal Audit function regularly performs audits on the various components (or areas) of the Risk Management System (RMS), namely, the auditing of the credit risk management system, the auditing of the operational risk management system, the auditing of the market risk management system.

The Internal Audit function pursues the general goal of auditing all areas of the RMS within a maximum cycle of 3 years, based on a process of risk assessment and of material changes identified in the risk management and control processes. The quality of the performance thus audited is reflected in the quantity and risk levels of the recommendations issued by the internal audit as a result of the audits that were carried out.

In addition to the evaluation of the performance carried out by the Internal Audit function, the institution has also a validation and monitoring function of (risk) models, materialized in the Office for the Validation and Monitoring of Models. Like the audit, this organic unit takes on an independent review function (IRF) in relation to the quality and performance of risk models that quantify controlled/mitigated risks.

Finally, it should be mentioned that, because it is a banking institution integrated, by European banking supervision, in the group of "Other Systemically Important Institutions" (O-SII), the Bank's RMS is constantly under the inspection of the banking supervision authority (the European Central Bank - ECB), relating to the various aspects of risk management and its different components. The inspections in question (as is the case for internal audits or the validation and monitoring of models) give rise to recommendations with different degrees of risk, in which case targets for resolution or remediation are imposed.

See also, concerning this matter, the information presented in item 54 of Part I of the current Report.

VII.B. The supervisory body should promote an adequate articulation between the work of the internal audit and the statutory audit of accounts.

Recommendations:

VII.1.1. Declaration of Compliance: **COMPLIANT**

VII.2. Statutory audit of Accounts and supervision

Principle:

It is incumbent upon the supervisory body to establish and monitor formal, clear and transparent procedures on the way the company selects and relates to the statutory auditor, and to verify if that auditor complies with the rules of independence that the law and professional standards impose.

- Adequacy in the frequency of communication, as well a demonstrated availability and accessibility;
- Adequacy and sufficiency of support materials to meetings/discussions that are made available, as well as a sufficient advance in making them available;

- Knowledge, experience and ability to request adequate and sufficient information to carry out its tasks.

Independence, Objectivity and Professional Scepticism

The Statutory Auditor should be independent and objective and demonstrate professional scepticism, complying with the Bank. In its periodic evaluations, it should be reviewed, among the most relevant:

- The integrity and objectivity of the Statutory Auditor, as well as its attentive and interrogative stance;
- The absence of conflicts of interests;
- Its independence, namely in debating all the issues which could reasonably be understood as able of jeopardizing its independence, including eventual exceptions regarding compliance with the independence requirements and safeguards established;
- The capacity and potential capability to approach the most sensitive issues in a constructive way and the experience to identify, communicate and adequately resolve issues of a technical nature that may come up during the course of the work.

On a proposal from the Audit Committee, the Bank approved an internal regulation on the criteria and selection process of the statutory auditor that can be consulted on the institutional website

https://ind.millenniumbcp.pt/pt/Institucional/governacao/Pages/normas_regulamentos.aspx

Regarding the communication, in addition to the above mentioned aspects, it should be pointed out that one of the items on the permanent agenda of the Audit Committee is the follow-up of the activity of the external auditors, where the topics related to the evolution of audit work are discussed; compliance with the agreed time frames; of subjects connected to the legal regime of the audit supervision; the statutes of the OROC and the LFCIFC on audit matters, in particular the monitoring of the external auditor's independence, as well as the Code of Ethics of the International Ethics Standards Board for Accountants (IESBA)

The Audit Committee, in accordance with the powers conferred on it by its Regulations, approves the procurement of services awarded in compliance with the powers granted to it.

On this matter, see the information presented in Recommendation VII.2.1.

Declaration of Compliance: **COMPLIANT**

VII.2.3. On this matter, see the information presented in Recommendation VII.2.1.

Declaration of Compliance: **COMPLIANT**

VII.2.4. The statutory auditor should, under his duties, verify the application of the remuneration policies and systems of the governing bodies, the efficacy and operation of the internal control mechanisms and report any failures to the supervisory body.
