1. Scope of application

1.1. IDENTIFICATION OF BANCO COMERCIAL PORTUGUÊS, S.A.

Banco Comercial Português, S.A. is a public traded company with share capital open to public investment (public company), with registered office at Praça D. João I, 28, in Porto, registered at the Porto Commercial Registry under the unique registry and tax number 501,525,882, registered at Banco de Portugal with code 33, at the Securities Market Commission as a Financial Intermediary under registration number 105 and at the Insurance Institute of Portugal as a Tied Insurance Intermediary, under number 207,074,605.

The share capital of the Bank, on 31 December 2018 was 4.725.000.000 euros, fully paid up and represented by 15,113,989,952 shares without nominal value. The ordinary, book-entry and nominal shares are registered in the centralised system managed by Interbolsa – Sociedade Gestora de Sistemas de Liquidação e de Sistemas Centralizados de Valores Mobiliários, S.A.

The Bank is a public company, established in Portugal by public deed on 25 June 1985, parent company of a number of companies with which it has a controlling or group relationship, under the terms of article 21 of the Securities Code (henceforth designated as "Group" or "BCP Group"), and is subject to the European Central Bank supervision on both individual and consolidated basis, through the Single Supervisory Mechanism (SSM), in accordance with the provisions of Regulation (EU) no. 468/2014 of the European Central Bank (ECB/2014/17) (SSM Framework Regulation).

The Bank's Articles of Association and the individual and consolidated Annual Reports, as well as the Corporate Governance and Sustainability Reports, are at the public's disposal, for consultation, at the Bank's registered office and on its website, at www.millenniumbcp.pt.

1.2. BASIS AND PERIMETERS OF CONSOLIDATION FOR ACCOUNTING AND PRUDENTIAL PURPOSES

The information disclosed within the present document reflects the consolidation perimeter for prudential purposes, which differs from the consolidation perimeter of the Group accounts defined in accordance with the International Financial Reporting Standards (IFRS) as approved by the European Union (EU) within the scope of the provisions of Regulation (EC) no. 1606/2002 of the European Parliament and of the Council of 19 July 2002, as transposed into the Portuguese legislation through the Decree-Law 35/2005 of 17 February and the Notice of Banco de Portugal no. 5/2005.

The main differences between the consolidation perimeter for prudential purposes and the consolidation perimeter of the Group accounts are related with the treatment of companies whose activity is of a different nature and incompatible with the provisions of the General Framework for Credit Institutions and Financial Companies, with reference to supervision on a consolidated basis, in accordance with Banco de Portugal Notice no. 8/94, namely in relation to commercial, industrial, agricultural or insurance companies.

The companies mentioned in the previous paragraph are excluded from consolidation for prudential purposes, but are considered by the equity method. Notwithstanding, and according to the Notice 8/94 of Banco de Portugal, Banco de Portugal may order the inclusion of some of these companies in the prudential consolidation perimeter, if and when it considers this the most appropriate decision in terms of supervision objectives.

In addition, shareholdings excluded from consolidation for prudential purposes that are recorded in the financial statements for the purposes of supervision on a consolidated basis under the equity method, may have to be deducted from consolidated own funds, totally or partially, under the terms defined by the CRR, as detailed in chapter "3. Capital adequacy". As of 31 December 2018, there are no subsidiaries not included in the consolidation perimeter for prudential purposes, whose own funds are lower than the minimum required level. Also, there are also no subsidiaries included in the consolidation perimeter for prudential purposes, regarding which the obligations relative to the minimum level of own funds and limits to large exposures are not applicable, as per CRR articles 92 and 395...

Notwithstanding the principles and standards that rule the intra-group relations, there is no significant, current or foreseen, impediment to the prompt transfer of own funds or repayment of liabilities among the Bank and its subsidiaries, although, with reference to Mozambique, the rules in force may condition the fluidity of fund transfers, but without any potentially significant impacts at Group level.

The entities included in the consolidation perimeter of BCP Group as at 31 December 2018 are described in Table 2, indicating the consolidation method to which they are subject to and giving adequate notes aiming to highlight the regulatory treatment of entities excluded from the consolidation perimeter for prudential purposes.

⁽¹⁾ Entity excluded from the consolidation for prudential purposes, whose impact on solvency indicators results from the assessment of capital requirements of the participation units held in the investment fund.

Hereinafter please find the description of the consolidation methods used for accounting purposes and the respective selection criteria in force in the Group.

FULL CONSOLIDATION

Investments in subsidiaries where the Group holds control are fully consolidated from the date the Group assumes control over its financial and operational activities until the control ceases to exist. Control is presumed to exist when the Group owns more than half of the voting rights. Additionally, control exists when the Group has the power, directly or indirectly, to manage the financial and operating policies of an entity to obtain benefits from its activities, even if the percentage of capital held is less than 50%.

Additionally, the Group fully consolidates Special Purpose Entities ("SPE") resulting from securitisation operations with assets from Group entities, based on the criteria presented in the chapter "8.2 Group accounting policies", related to the treatment of securitisation operations. Besides these SPE resulting from securitisation operations, no additional SPE have been consolidated considering that they do not meet the criteria established on SIC 12.

In addition, the Group manages assets held by investment funds, whose participation units are held by third parties. The financial statements of these funds are not consolidated by the Group, except when the Group holds more than 50% of the participation units. However, the investment funds consolidated for accounting purposes are excluded from the consolidation for prudential purposes, as previously mentioned, with their impact being reflected in the determination of own funds requirements.

PROPORTIONAL CONSOLIDATION

Jointly controlled entities, consolidated under the proportional method, are entities where the Group has joint control established by contractual agreement. The consolidated financial statements include, in the corresponding captions, the Group's proportional share of the entities' assets, liabilities, revenue and expenses, with items of a similar nature on a line by line basis, from the date that joint control started until the date that joint control ceases. On 31 December 2018, the Group did not consolidate any entity by the proportional method.

EQUITY CONSOLIDATION

Investments in associated companies are consolidated by the equity method from the date that the Group acquires significant influence until the date it ceases. Associates are those entities, in which the Group has significant influence, but not control, over the financial and operating policy decisions of the investee. It is assumed that the Group has significant influence when it holds, directly or indirectly, 20% or more of the voting rights of the investee. If the Group holds, directly or indirectly less than 20% of the voting rights of the investee, it is presumed that the Group does not have significant influence, unless such influence can be clearly demonstrated.

The existence of significant influence by the Group is usually evidenced in one or more of the following ways:

- Representation on the board of directors or equivalent governing body of the investee;
- Participation in policy-making processes, including participation in decisions about dividends or other distributions;
- Material transactions between the Group and the investee;
- Interchange of the management team;
- Provision of essential technical information.

The holdings held by the Group in insurance companies consolidated under the full consolidation method are accounted under the equity method for the purpose of supervision on a consolidated basis.

On 31 December 2018, the full and the financial balance sheets, that translate the consolidation perimeter of the Group's accounts and for prudential purposes on that date, as well as the respective differences, are described in Table 3:

 $^{^{(2)}}$ Entity excluded from the consolidation for prudential purposes, whose impact on solvency indicators results from the assessment of capital requirements of the equity amount registered on the balance sheet assets.

⁽³⁾ Entity excluded from the consolidation for prudential purposes, for which the financial participation amount is deducted from own funds under article 48 of the CRR.

⁽⁴⁾ Entity excluded from the consolidation for prudential purposes, since it is held by one of the investment funds identified in (1).

 $^{^{(5)}}$ Entity excluded from the consolidation for prudential purposes, since it does not belong to the banking sector.

⁽¹⁾ The total of line 1 does not match the total assets of Table 4 since it does not consider neither the assets subject to market risk nor the assets that are subject to own funds' deduction;

⁽²⁾ The total of line 4 does not match the sum of the parts because, according to the filling rules, this total refers to the original exposure net of provisions and the parts contain the exposure value after the application of CCF.

⁽³⁾ Provisions related to on-balance sheet exposures on the IRB method since these are included in the respective EAD.

⁽⁴⁾ Value that is only present in the "Total", as mentioned in note (2).

⁽⁵⁾ EAD reported in each of the frameworks.
